Carnegie Mellon

Presents:

SPACEX

Tuesday, Sept 20, 2011, 5:00pm RASHID AUDITORIUM

ELON MUSK PROFILED

BLOOMBERG RISK TAKERS SERIES

Come join the SpaceX team for a viewing of the Risk Takers profile done on Elon Musk by Bloomberg, an intimate video-biography of his life and aspirations.

Hosted By:

Dolly Singh | SpaceX | Head of Staffing and University Programs

Boris Lipchin| CMU, ECE 2009| SpaceX, Software Engineer

> *Boris Lipchin is a Flight Software Engineer at SpaceX. He graduated from CMU's ECE department in 2009 and is currently working on Guidance, Navigation and Control Software for the Dragon Spacecraft.*
>
> *Prior to SpaceX he worked at Google in Mountain View, CA.*
>
> *Boris will be doing Q&A session after the viewing to provide perspective on life and work at SpaceX from a CMU alum.*

SpaceX is a US based rocket company founded by Elon Musk; he is currently the residing CEO and CTO at SpaceX and also the Chief Product Architect and CEO of Tesla Motors.

SpaceX builds rockets from the ground up; including electronics, software, vehicle structures, and engines. The mission is to create aviation-like capability in spaceflight; this is one of the most technically dynamic and difficult challenges that mankind can choose to take on.

At SpaceX we cut through the noise and believe in the essentials of hands-on, hardcore engineering. We build it, test it, and fly it.

We are looking for the remarkable talent to join us in our efforts.

FULL TIME | CO-OPS | INTERNS   www.spacex.com

Snacks will be provided at this event.
