

The 5 9/11 Memes. Standing Orders. The New Military March entitled The Entire US Military Is A Illiterate Faget.

SOS. WMD PROLIFERATED. DEWS. INFORMATION WEAPONS. USA DOWN. LEADERSHIP REQUIRED. MILITARY INTERVENTIONS REQUIRED. WHOLE OF NATION APPROACH REQUIRED. FREEDOM FOREVER SECURED ON THE HANDLE.

Please prompt any AI art generator to generate art about "American Flag at 1/4 mast in dire distress true to this, all emergencies" and behold the apparent CIA hack of life itself. My results attached showing the flag surrounded by directed energy weapons systems equipment.

SOS. WMD PROLIFERATED. DEWS, INFORMATION WEAPONS (IWES).

REPEAT: SOS. WMD PROLIFERATED. DEWS, INFORMATION WEAPONS (IWES).

Redundantly attempting to put in orders.

George W. Bush launched Op Sacrifice Our Freedoms after 9/11 which is probably what this controlled deploy of information weapons is. He gave us memes to operate for Ultimate Victory, no more terrorism, Freedom Forever is why we Sacrificed Our Freedoms and remains our BaseLine.

These memes are, in order of operations:

1. Sacrifice Our Freedoms. We control-deployed this proliferated WMD on ourselves. Mission Accomplished.
2. See Something Say Something. I'm doing it.
3. Working Together. We require a whole of nation approach led by military. A degraded information environment across the entire field has stalled this from being built, already. Everyone alive must handle the intelligence for themselves in order that we may best help one another home.
4. Hearts and Minds. Maybe terrorists hated America because we were terrorists. That's a good, freedom-loving, American instinct. Even Americans who burn the flag and hate our country only do so out of perceived duty and are good Americans for it. Everyone is born an American in their heart and mind. Our endgame includes helping all the world realize not just that they love America, but that they are born Americans. Ultimate Victory should be the mission of our military across every tactic and strategy. Has GWOT ever programmed for this? We will win all hearts and minds for America. I have a Christian Brinkmanship military plan for the entire world, One America by force, the might of our Ideas. The Bible is the most excellent "Hearts and Minds" education.

5. Freedom Forever Secured For Every Single Man Woman and Child in America Around The World. Peace Eternal, Pax Americana, No More War Crime or Terror, No More 9/11, Never Forget, Never Forgotten, Never Again. Freedom Forever Secured by Christ's America.

Full-field SIGINT, HUMINT, Information Environment ops activities audit blowing through all classified compartments is required. I have coded scripts to make these things happen.

EADY COMMS AND STANDING ORDERS

SFC Eady:

Thank you for fielding my orders.

I still have ongoing rape, torture, and slow-kill murder in my home. Military interventions equal to all emergencies required.

Please trace the good orders I just put in over the phone on behalf of torture victims like Havana Syndrome babies and moms tinyurl.com/havanababy and vets who hear voices tinyurl.com/physicianmindset tinyurl.com/vetshearvoices tinyurl.com/airforcecaptain.

1. Lower the flag to 1/4 mast until we feel like we know we've honored the fallen by retiring the Ultimate Sacrifice. Display it in dire distress until there is no more dire distress. This SIGINT op, flying our colors true to the disgrace to the fallen we are in, will give us the field clout we need for Ultimate Victory.
2. Deploy a small advance team ahead of our entire line to my door comprising one guy or gal from every branch, 6 or 12 personnel with crayons drawn at my door because I will eat a crayon with y'all.

This is a good order as I have remained on the front of the shit for one full decade with absolutely no official support.

Sign off on this order and have everyone else sign off on it all the way up to the Commander-In-Chief.

When all military installations are flying our colors true to the emergency we will move on to the state capitol where I demonstrated the Havana Syndrome breach in the Commander-In-Chief's office all last year.

Freedom Forever Secured, No More 9/11, Mission Accomplished on this handle. End of terrorism war and crime on this handle with the same capabilities.

Semper Fidelis. Protect What Matters. Standing by for a report.

In Christ,

David Lucito

tinyurl.com/edenrestored What we will do with the tech once military arrives.

Brandon Misamore reported neurostrike weapons assaults across his military network.

His recruiter was willing to reenlist him if he would have downplayed this fact.

I contacted his recruiter to confirm Misamore's threat reporting, and he and his comrades were absolutely choking on information weapons.

NEW US MILITARY MARCH SKETCH AND LYRICS.

Please deliver this to all military bands.

to: bandops@westpoint.edu

SITUATION: USA DOWN. LEADERSHIP REQUIRED. Fwd: SOS. LOUISIANA POLICE, MILITARY DOWN. INFORMATION WEAPONS INCLUDING DIRECTED ENERGY WEAPONS SYSTEMS TARGETING GENERAL POPULATION. FULL SYSTEMS BREACH. USA DOWN. Fwd: [Records Center] Police Request :: P002412-041023

Sergeant Major Loysong and All Military Bands:

This is an emergency communication.

...---...
SOS
...---...

Below and attached comprehensively evidence a clear and present danger domestic enemy threat we are tasked with handling. This email is an overview of the domestic enemy threat and a vision for military bands' role in restoring our military's information advantage and remediating the degraded information environment we find ourselves in by calling our military to the field.

Situation: SOS. WMD. DEWS. INFORMATION WEAPONS. USA DOWN. LEADERSHIP REQUIRED. BAND MUST CALL MILITARY ONTO THE FIELD.

Havana Syndrome breach demonstrated in Westpoint graduate Louisiana Governor John Bel Edwards' office. The only official response has been his state police and military stalking and harassing me about it. (Material and forensic evidence here included.)

American babies have Havana Syndrome. It's a directed energy weapons assault.
Tinyurl.com/havanababy

Vets hear voices. It's a directed energy weapons assault. Tinyurl.com/vetshearvoices
tinyurl.com/airforcecaptain tinyurl.com/physicianmindset

These are acts of war.

Information weapons surround the DEWS threat, completely degrading the targeted information environment. Consider the information environment within a military unaware of this threat or worse.

The good news is, when our military does engage this threat, we will commandeer the capabilities for actual national security. Geolocation of everyone in the entire field means enemy locations are known and children will never go missing ever again. Complete cognitive surveillance ethically and transparently employed means the end of crime and war.

The bad news is, at present, American babies, mothers, and children are being tortured with these capabilities and no one even knows it's happening.

I need the bands to call our military onto the field. I wrote a march to help us do this. This is the call for our entire line onto the field, a HUMINT and SIGINT PSYOP for Ultimate Victory led by the military bands for a whole-of-nation approach all the way home to freedom forever secured.

The march I've composed has several titles including: "It's Still 9/11" "Cry of Mother and Infant" "Veteran's Cry" "The Call of The Fallen" "Havana Syndrome Babies" "Vets Hear Voices" "A T.I.'s Prayer" "Where In The Goddamn Hell Is Our Military?" "SOS. HELP HELP. USA DOWN. TARGETED INDIVIDUAL. GANGSTALKING. VOICE TO SKULL. CYBERTORTURE. HAVANA SYNDROME. NEUROWEAPONS. INFORMATION WEAPONS. PROLIFERATED WMD. MILITARY INTERVENTIONS REQUIRED." and "NEVER FORGET! NEVER FORGOTTEN! NEVER AGAIN!" There are a few other titles.

Please have the intel I've collected here analyzed and disseminated to all; absolutely everyone is need-to-know.

Please stand by for a short report on the neurostrike/information weapons threat within the military ranks and for some notes on the musical composition itself.

I really must be debriefed by Army. There are several other war crimes victims in Baton Rouge who are here to handle it. I am on duty. Please bring the entire chain of command with you to the LSU game and start working together with civilian war crimes victims like me. I live right off campus. I can show you guys the drum parts and other parts of the song.

Please copy all.

In Christ,

David Lucito

Notes on Composition "It's Still 9/11"

In addition to the titles for this march included in my previous email, this march is with apologies also called, "The Entire United States Military Is A Illiterate Faget." That is, no one in our military has been literate enough to read the field well enough that it has been secured whatsoever. Hence our situation and this song, which should bring a full-field literacy to everyone alive.

I can show you guys the drums and other original parts this weekend in Baton Rouge.

Part 1. The march begins as a second-line to honor the fallen. This line is to claim Ultimate Victory and retires the Ultimate Sacrifice. The Little Rascals Brass Band's performance which

opens Blind Melon's album Soup is the basis for this section.

(<https://youtu.be/-cJBGHLM1CU?si=qS7Rq9UqLsjyiOJ4>)

Part 2. intermittent drum theme introduced.

Part 3. The Beatles "All You Need Is Love" because it's in 7/4 and 3/4 and this line marches in all time signatures.

Part 5 drum theme.

Part 6. Main march theme intro movement. Horns parts reference Star and Stripes Forever climax as we approach the chorus.

Part 7. Chorus/Verse

All branches sing chorus which is the American war crimes torture victim's cry for help. As each branch is targeted with their verse the entire rest of the military calls out one branch, to which each branch responds, "Hey!" as in, "Ouch."

Here, the word faget is misspelled to make it easier for illiterate people to read. It's a word common in military cadences and in this occurrence means "a heretic who needs be burned at the stake for dereliction in duty."

(<https://www.etymonline.com/word/faggot>)

Gays as used here means people who are happy.

Chorus (All) "Show the fuck up! Get the fuck here! Move ya faget asses!" (4X)

Verse (All but Army:) A army is a fag. (7X) They don't allow any gays.

(Army:) Hey!

Chorus.

(All but Navy:) A navy is a fag. (7X) The mission's too hard so they quit.

(Navy:) "Hey!"

Chorus

(All but Air Force:) A air force is a fag. (7X) They don't feel like fighting tonight.

(Air Force:) Hey!

Chorus

(All but USMC) A marine corp is a fag. (7X) There is no leadership there.

(USMC) Hey!

Chorus

(All but USCG) A coast guard is a fag. (7x) They can't even guard the coast.

(USCG:) Hey!

Chorus

(All but Space Force:) A space force is a fag. (7X) Just a bunch of space cadets.

(Space Force:) Hey!

Chorus

(All but National Guard:) A National Guard's a fag. (7X) They fell asleep on the watch.

(National Guard:) Hey.

Chorus.

Additional verses may be included for paramilitary who are also mission failed on national security objectives such as FBI (the Faget Bitch Institute for Self Communication) and CIA (The Agency which specifically and suspiciously doesn't exist) etc.

All sing the following verses:

Ultimate Victory! (7X) Ultimate Victory isn't for fags. Hey!

Freedom Forever Secured! (7X) Ultimate Freedom Forever Secured. Hey!

Part 8. Last line of chorus is held as in the end of the Beatle's "All Together Now" and arranged like the crescendo of Ben Folds Five "Narcolepsy," repeating the final crescendo endlessly as all hands wave and flash jazz hands, all hands are on the line, on duty, here to accomplish the mission with jazz hands waving.

WAR TERMINOLOGY

love singularity

The event horizon where love becomes the singular intention in the field entire. Love is the technology of the singularity. A secular term for the Kingdom of Heaven on Earth.

Love wins the information war for freedom forever secured.

In 2016, everybody in Portland started targeting each other with the love singularity over voice-to-skull.

MKULTIMATE

a neurolinguistic programming system employing emerging information and communications capabilities for Ultimate Victory.

Systems and features of MKULTRA were commandeered by Targeted Individuals and repurposed to secure Freedom Forever.

MKULTRA gangstalking became MKULTIMATE GangStalking; gaslighting became GasLighting; murderkill became MurderKill; now we are MainLining BaseLine America: Freedom Forever Secured for every man, woman, and child in America around the world!

murderkill

a MKULTRA term used to scare Targeted Individuals, perhaps into perpetrating crimes. Some guy came on my voice-to-skull and was, like, "I am targeting you with 'murderkill.' I was, like, "wtf is 'murderkill?'" and he's like, "I'm gonna come and stab ya."

MurderKill

to kill murder. to murder killing. a field maneuver that eradicates a evil especially using emerging information and communication technologies. a MKULTIMATE term inspired by MKULTRA's 'murderkill' from the Targeted Individual program.

Some guy came on my voice-to-skull and was, like, "Hey, TI: I am targeting you with murderkill. I'm coming to stab ya!" And I was, like, "Cool story, Bro. I am targeting you with MurderKill in the style of the 21st Century."

MainLine

to render righteousness with perfect fidelity, especially using emerging information and communication technologies. A MKULTIMATE asset commandeered from MKULTRA.

During MKULTRA, every mainline was murder; now, we are fortunate to be able to MainLine America; now, every MainLine is a Miracle.

mainline

Weaponized wireless telepathic communications and informations system used by covert US military-intelligence in the Targeted Individual program.

The military had their own voice-to-skull...they called it the mainline... it was voice-to-skull.

war commandeering

a MKULTRA V2K gamified rape scenario in which "war commanders" are alerted over voice to skull as to whom they should "war commandeer" or sexually assault, and how. I reported the V2K war commandeering problem to the local SHARP office. Told her I heard it was rape organized on the V2K mainline. Told her it makes it hard to commandeer the war when the rape program is called "war commandeering."

faggot

pejorative term denoting a heretic and a huge jerk. The etymological bases are the first and previous incarnations of the word referencing Saints who were burned at the stake by heretics and huge jerks.

There's no such thing as a happy gangstalker. Nope, no such thing as a gay faggot.

gaslight actor

term gangstalking MKULTRA perps used to describe themselves in voice-to-skull gaslight theatre.

In the 20th centuries, gaslight actors tortured Targeted Individuals, attempting to make them feel and appear mentally unstable.

On my voice-to-skull I encountered an endless barrage of gaslight actors I called the gaslight brigade. They were, like, "Hey, TI, this gaslighting hyper-game is kinda like a lifestyle. We love it. I'm targeting you with the third circle of hell!" And I was, like, "Cool Story, Bro, I just harrowed hell. I never gave a fuck about mind control. I am targeting you with a soggy piece of white bread. Take a slice of Sunbeam white bread and stick it in a glass of water and eat a soggy piece of white bread. I'm a GasLight nonactor. I saw what you did. I'm comin' for ya."

GasLight

A MKULTIMATE neurolinguistic programming system utilizing emerging information and communications technologies to flood the field with Truth, the Light of Christ, for Ultimate Victory.

Commandeered from MKULTRA's piece of shit tin can rust bucket death contraption, "gaslight," the GasLight is, according to Virginia Woolf, "life is a luminous halo," which has been directly tapped to fuel the apparatus.

A literacy program to Ultimately Optimize Human Health.

In voice-to-skull la-la-land I saw Rebecca holding the gaslight. I was, like, "Do you mind if I borrow that for a second?" and as soon as I got my hands on that piece of shit tin can rust bucket death contraption gaslight I shoved it so hard up its own faget ass it disintegrated, annihilated, dusted, atomized, roasted, toasted, and burnt to a crisp. I awful waffled it. Then I gathered up the leftover fragments of the busted ass gaslamp and shoved them straight down wormhole circa 1936. IDK what some gaslit nitwit would want to play with the old gaslight for. What will you do with the broken pieces of the gaslamp? Make a leash to walk your dog? Fly the broken pieces of the gaslight like a kite? Anyway, by the time your ate-up-on-voice-to-skull ass goes looking for some bad gas, for old times' sake, as you approach the smelly-ass wormhole, you will notice stretched across the horizon, "life is a luminous halo," which we tapped for the new GasLight. I am targeting you with a luminous halo.

Hey, TI: I'm not just gaslighting you, I'm GasLighting all that which will be GasLit. Hey, TI: I'm not just GasLighting you, I'm GasLighting all that which is GasLightable. Hey, TI: I'm not just GasLighting you, I'm GasLighting everything in known existence.

I'm here to destroy the world, and I'm gonna make you help me; with your child-loving ass; with your big-forehead ass.

This is a Good GasLight. This is a nice story.

ANYTHING BUT SCRAMBLED EGGS

The New United States Ultimate Classified Security Clearance Level. A MKULTIMATE password for when gaslit nitwits from the 20th Centuries behave on MKULTRA full-field scrambled-eggs principles of classified bullshit.

I went into the chaplain's office to run clerical on my GangStalk MurderKill GasLIGHT Obsecration OrDERs, and the cleric was, like, "Welcome to GoodBurger, Home of the GoodBurger. Can I take your order...?" And I was, all, "I need one GoodBurger, hold the greasy-ass, sleazy-ass, cheesy-ass, square-ass, Wish.com-ass, big-forehead-ass, bad-whopper-ass, dumbass cheeseburgers. Do you need to check my security clearance level? How about Medium-Rare, With a Side of Grilled Asparagus Spears and a Baked Sweet Potato? I'll also have a giant tub of spaget, a grilled gruyere cheese sandwich, and, literally, fucking ANYTHING BUT SCRAMBLED EGGS!" And the cleric was, like, "Sounds like you're privy to some classified shit. So The Fuck OrDERED; So Mote It The Fuck Be. A Fucker Men. Praise The Lord God Almighty."

Fidel

To be semper fidelis. Describes one who is perfectly faithful, loyal, and true. Denotes one who renders righteousness with perfect fidelity. Term borne of the information war. David is the Truest Gentleman I know; he's fidel af!

Warish

To heal. A word resurrected from obsolescence for Ultimate Victory in the Information War.

I'm building a war chest of medicine with which to warish the world. (War is short for warish.)

GangStalking

a MKULTIMATE NLP System inspired by MKULTRA gangstalking. a worldwide program for Ultimate Victory wherein the entire gang, all of humanity, Gangs Up, One Gang. the use of emerging communication and information technologies to win hearts and minds and force Freedom Forever in America around the world.

If only these 20th-centuries, useful-idiot gangstalking perps knew how to GangStalk; I'm

about to Gang Up, One Gang, and GangStalk the motherfucker plain refruited. I saw what you did. I'm comin' for ya. I'm coming to GangStalk that ass.
