IRREFUTABLE EVIDENCE OF DECADES LONG INTERNATIONAL GOVERNMENT FRAUD.

CRITICAL – CELL TOWERS AND COLLIDERS – APPARENT DELIBERATE THREAT TO CREATION

BRIEF SUMMARY

I am a former UK Police Constable and a former director for a company called Exbourne Manor Freehold Limited that related to real estate in Bournemouth, Dorset. Since 2022, whilst being a director for this company, I have managed to acquire irrefutable, verifiable and corroborative evidence of decades long International Government fraud involving the forgery of the Companies House register and its incorporation documents.

The Governments have created hundreds of thousands of criminal companies to facilitate the movement of trillions of pounds that can be defrauded from the masses through taxation and other financial institutions and funnel into any agenda they may have. They have created a complicated maze of companies to try and hide their crimes, but the evidential connections are now being fully exposed.

This along with non-verification of company registrations and deliberate duplication of records, means the crime knowingly facilitates crimes against humanity including International conflicts, Terrorism, drug trafficking and the trafficking, abuse, torture and murder of children.

All evidence acquired converges on an apparent deliberate threat relating to cell towers and related collider technology such as CERN and with the COVID / Vaccine situation being part of the deception to hide these threats. The evidence suggests the threat was conceived before World War One. It makes connections to Rome, Italy, the INFN in the 1930's and the Vatican's connections to collider technology as explained later.

The overwhelming evidence now suggests that since at least 1947 there has been a plan been aplan in motion that has included replacing the real Royal family so that a completely criminal system can be implimeted to include the torture and murder of children and the funneling of money into technology to falsify biblical prophecies including a tribulation period concluding with trying to create a black hole on Earth as the end of times, or make the right people believe that was the case.

The Ninth Circle and its apparent connection to child sacrifice, Royalty and the Vatican becomes relevant later and on researching how it may relate to CERN, an AI response on 6th June 2025 stated: 'The Large Hadron Collider (LHC) is a particle accelerator that collides Protons and other particles at extremely high speeds. Its known for its complexity and the potential for equipment failures, sometimes referred to as 'hell' or the '9th circle' in informal contexts, especially by those involved in maintaining the complex machinery.

I took a screenshot of this and sent it to a couple of people and have not been able to find the information since. It appears that this may have been available for the right person to see it at the right time in history to prevent a possible catastrophe.

This information suggests that there could be an accidental or staged technical malfunction at CERN by a certain group of people and that it may lead to a potential catastrophe against creation as outlined further in this document.

At the moment, due to the overwhelming evidence, the threats have to be perceived as real and people should act accordingly. I believe all collider activity should cease and the machinery disabled immediately.

I am in the process of completing a comprehensive summary and statement of the last three years, but felt it necessary to send this first, as the evidence escalates with the exposure and everything appears to be at risk.

It is important to remain calm and do not fear what I have written, which most will find, understandably difficult to comprehend, but have been deceived their whole lives. We all have a moral duty to do the right thing for the innocents in moving forward and I honestly believe that those that stand in truth and their moral conscience, will prosper in whatever the future holds.

Everything that I have written is true to the best of my knowledge and most of it is verifiable and corroborative through an irrefutable trail of evidential links within Companies House, The Governments own registration system started in 1844, which started to become electronic in around 1992. This evidence is supported by other research.

I have thousands of secured images and documents showing the raw evidence taken from Companies House, that overwhelmingly supports every claim I make. It was important that I did this so they would struggle to remove the evidence.

Much of the evidence is already in circulation, but document file links appear to be being repeatedly hacked, which is hindering the dissemination process as well as them removing my channels and videos showing the documents, despite it being public information.

I have shown instructions within this documents along with the links, so that anyone can verify the evidence being shown from this document. If they remove or deactivate the links you can still search manually yourself to verify most evidence. It is possible they will try and remove evidence from the Companies House register, but most evidence has been secured offline.

It is important that people are able to see the truth, in a World where its system is founded on deception and exploitation.

Although I mention specific people in this document, it is not meant to he a personal attack, but to help people realise the true scale of what has happened and to get those involved coming forward in truth, whilst they still can.

They will be considering certain major events (or make you believe in an event) and activating a Government alert message to your devices with the possibility of removing all internet access as an opportunity to prevent their past crimes and any sinister agendas being prevented. I know this is the case as my phone was infiltrated to send just me one, in an apparent effort to make believe they were addressing the crimes against children and believe in Donald Trump. A recent article suggests they will be testing this again on 7th September 2025.

About me and how the investigation developed

I was born in Kent in 1977 and when I was young my Mother had been involved in running a baby sitting group with my God Parents. As far as I am aware, the baby sitting group involved parents taking turns in looking after others children so that it could free their time.

My Godparents son became one of my good friends, but unfortunately, later in life I was led to believe that he was prosecuted for child internet crimes. I tried to support him, where he claimed no one else had. He had claimed that he struggled over his parents death from Cancer and I was concerned he would end his life and he appeared to be trying to change, so I kept in contact with him.

My Godparents later became the Employer of my Mother Maureen Waterman, her boyfriend Chris Hillman, my Sister, my friends girlfriend Jo Hatt and others in a photocopying company called CBS with possible connections to CERN.

I have vague memories of participating in sexual activities with other children at some point when I was young. I had thought this was just children experimenting, but with the evidence that I am now acquiring, I have to consider that it was due to something more Sinister. I don't recall adults being present during these activities, but it is as if we may have been recreating something that had happened elsewhere. I hadn't viewed or knowingly participated in any other sexually explicit activity.

My sister has more recently been having unusual dreams about one of the parents in this group and I now recall having what I had thought were disturbing dreams.

The evidence being acquired suggests that a huge part of this criminal system involves crimes against children and that pharmaceuticals are being used to suppress their memories and all three of the families connect quickly to key firgures in the fraud including, The Royal family, David Icke, Elon Musk, Ghislaine Maxwell and Julian Assange.

Julian Assange

A Guardian article from 2016 links Julian Assange to a Doomsday Cult called 'The Family'. This is the same year as the apparent exposure of the Pizzagate scandal and when a ritual appeared to take place as CERN by the Shiva statue that represents creation and destruction.

Link to Article of Julian Assange and Doomsday Cult:
https://www.theguardian.com/film/2016/nov/20/growing-up-with-the-family-inside-anne-hamilton-byrnes-sinister-cult

The research shows that Julian Paul Assange was born as Julian Paul Hawkins in 1971. His mother is Christine Anne Hawkins and Father John Shipton. He is an Australian editor, publisher, and activist who founded WikiLeaks in 2006. He came to international attention in 2010 (the same year CERN Limited was incorporated) after WikiLeaks published a series of leaks from Chelsea Manning, a United States Army intelligence analyst. This was footage of a U.S. airstrike in Baghdad showing probable war crimes committed by the US army, U.S. military logs from the Afghanistan and Iraq wars, and U.S. diplomatic cables. In 1979, Christine Hawkins became involved with Leif Meynall who was part of The Family cult. This the same year that the Georgia Guidestones were designed, representing an upcoming made made apocalypse. They separated in 1982. According to the information, in 1993, Assange helped Victoria Police by providing technical advice regarding child exploitation in the same year Assange took to running one of the first and largest public internet service providers in Australia, Suburbian Public Access

Network when its owner Mark Dorset moved to Sydney. A previous check on Suburbian Public Access Network connected straight to the Madeleine Mccan company via Bates Wells No.2 Limited as shown in the image.

In November 2010 Sweden issued an arrest warrant for Assange for sexual offences and he took refuge at an Embassy in England in June 2012, the month after Epstein appeared to hold a meeting with Stephen Hawking and CERN scientists, and was granted asylum in August 2012, the month after CERN discovered the Higgs Boson Particle.

In April 2019, leading up to the COVID situation and a three months before Epstein was arrested, Assange was also supposedly arrested.

As the exposure of the criminal network continued, articles emerged on the 14th June 2012 that Prince William had attended a secret meeting at the MI6 building in London, with M16 having significant connections to the fraud and The Flemings via Ian Fleming.

10 days later this visit, on 24th June 2024, articles emerged of Julian Assange having been released from Bellmarsh Prison. Photographs show him with Belinda Mckenzie, who connects immediately to the Hampstead Child Abuse enquiry via the Knights Foundation and to the research of Police Whistle-blower Jon Wedger.

I was also sent a photograph showing Assange on an Aeroplane with Solicitors including Jennifer Robinson of Docherty Street Chambers. A Companies House search shows Docherty Street Chambers Limited was incorporated in September 2020. Refina Aswini Weererante, was appointed in 2023, possibly a fictional name and connects to Ear to the Ground Limited. Joseph Middleton was appointed to that company in 2024 and connects to The Death Penalty Project Limited, where Kier Starmer resigned in April 2020 and features throughout the document.

On 26th June 2024 I received contact from Elizabeth Watson who had previously been suggested as a contact by Trevor Mealham where the introduction had been initiated by my Father-In-Law, Nicholas Moreton.

From 2022 to 2023, prior to me realising their connections to Exbourne Manor, I was confiding in Nicholas Moreton who had directed me to Trevor Mealham, alluding me to believe they were not connected. Trevor was part of the Transparency Task Force at the time and had been working with David Laity and former PCC Anthony Stansfield, supposedly tackling Lloyds Bank Mortgage fraud with Noel Edmunds as a victim and involving the Guardian in publicising it.

Link to Guardian Article: https://www.theguardian.com/business/2022/jun/13/victims-of-one-of-uk-biggest-banking-frauds-to-be-offered-3m-compensation

With Anthony Stansfields connection to the Police and Crime Commissioners it was later established that this was an important connection to the fraud, Jimmy Savile and CERN via The Association of Police and Crime Commissioners as shown elsewhere in the document. The research also shows that Stansfield has connections to Sacha Stone and the controversy surrounding cell towers and the research later suggested Stone had connections to the Black Nobility of the Vatican, leading to the research of Adrenochrome.

Anthony Stansfeld - Wikipedia https://share.google/zPFiBXhcxuhYz0Rgw

In 2023, Mealham explained that everything I was uncovering to that point was true and he tried to convince me that he was taking the UK Government to the European Courts to remove the Home Secretary under 'Operation Meadows'. When they realised I thought it was a cover to protect the Police and would make no difference, Trevor claimed he had been set up and it was a false flag. I found key connections from Trevor to the fraud and apparently back to my wifes Father.

Mealham connects to Falcon Case Management Limited that was incorporated in 2015 and links immediately to the fraud by Barbara Kahan on its incorporation document and in its people record .

Martin George Wickins connects Falcon Case Management Limited to Watson Associates (Audit Services) Ltd that was incorporated in 2003 and links immediately to Waterlows on the incorporation document. One of the main companies in the fraud connecting to the Freemasons.

Ian David Hamblyn connects Watson Associates (Audit Services) Ltd to Watson Associates LLP that was incorporated in 2009 and dissolved in July 2025, as the exposure continued. It also has Waterlows on its incorporation document.

Ian David Hamblyn connects Watson Associates (Audit Services) Ltd to The Eastbourne District Chamber of Commerce, Limited that was incorporated in 1925. Chamber of Commerce are all centralised to to the fraud.

Nicola Jane Fisher connects Eastbourne District Chamber of Commerce Limited to 10 companies including The Association of Accounting Technicians that is a criminal company and links immediatly to the Hampstead Child Abuse Enquiry as shown elsewhere in the document.

Mealham also connects to The Independant Network of Estate Agents that was incorporated on 14th February 2012 and dissolved on 6th May 2025, as the exposure continued. It has a registered address of Ashford in Kent.

Mealham had previously directed me to Elizabeth Watson, that had an address in Bournemouth. I quickly established that Watson and Laity linked quickly to Exbourne Manor Freehold Limited, but proceeded sceptically in making contact.

During the contact in June 2024, Watson claimed to have direct connections with Sabine McNeil of the Hampstead Child Abuse enquiry, having visited her in prison as well as having direct connections with Stella Assange, Julian Assanges wife. On the 26th June 2024, Watson had sent me an email enabling me direct contact with Stella, to which I responded and asked Stella or Julian to contact me. Around the same time, I was sent an article by David Sorensen appearing to try and convince me that Julian Assange and Donald Trump were trying to resolve the 'Cabal agenda' and the child trafficking.

David Laity and Elizabeth Jean Watson are both directors for Discoveries International Limited that was incorporated in 1985 and has a registered address of 3 Roslin Road, Bournemouth. It has Israel Cohen and Paramount Company Formations Ltd on its incorporation document, details I had not seen before in the research.

DISCOVERIES INTERNATIONAL LIMITED overview - Find and update company information - GOV.UK https://share.google/l7QNdIny4azZVB8x6

Discoveries International Limited seems to have connections with trade in the Middle East and specifically Qatar, which is relevant regarding the connections to the leader of Qatar who was educated in Sherborne in Dorset, where my wifes former Employer has connections. The leader of Qatar has ties with King Charles and Canary Wharf in London, as mentioned elsewhere in the document.

Elson Geaves Business Services Limited is shown in the people record for Discoveries International Limited and changes to BH21LTD when clicked on and leads to significant connections to the fraud and apparent links made to the research of Rapid Response.
I have never seen a company name change like this when clicked before.

When searching seperately, there are many records for the name Israel Cohen with many making apparent references to food companies and Israel. One record connects to 11 Companies including Club 2009 Limited that has the name Danstana Davies and Waterlows on its incorporation document, details used signficantly throughout the fraud and connecting to the main company, Vistra.

Elizabeth Jean Watson is also a director for Sovereign Property Alliance Ltd, which likely makes reference to the Sovereign Group linking to Siemens, high profile cases of child murder and CERN, as mentioned elsewhere.

In July 2024, after I had made irrefutable connections to the fraud, Adrenochrome and the possible sacrifice of children, Watson tried repeatedly to convince me to stop publicising the evidence regarding the adrenochrome. This concerned me greatly and led me to suspect they were all compromised by the possible sacrifice of children. I have since found significant connections to the Freemasons, the knights Templar and Jimmy Savile.

I have since found a record for a Liz Watson of 5 New Road, Poole (similar to the address on the incorporation document for Exbourne Manor Freehold Limited) and onnnecting to Allington Hill Juices that had been incorporated as Allington Hill Juices Ltd in 2005. until its name was changed to The Dorset Juice Company in 2016, but only for less than two months. 2016 is the same year as the apparent Satanic ritual at CERN and 'Juice' is another name for Adrenohrome. The company quickly links to the same companies that started Exbourne Manor Freehold Limited via director Joy Bariana and Treehead Ltd.

Link to Allington Hill Juices Companies House record: https://find-and-update.company-information.service.gov.uk/company/05498602

Mealham later joined Rapid Response with Laura Nina, but the group refused to use my evidence to assist in the unlawful evictions despite it proving that the Bailiffs were powerless. I later acquired information that Nina was using an alias name, was working for the Sicilian Mafia and was feeding information about her supporters to Police and Crime Commissioner, Donna

Jones of Hampshire and Isle of Wight. The PCC links quickly to Jimmy Savile and CERN as shown elsewhere in the document.

Other members of the Rapid Response tried targeting me and Mikey P (one of several names used) tried undermining my evidence by posting comments on videos showing irrefutable evidence and later made threats to steal my home and my van. Prior to this he had tried convincing me that Egyptian Pharoah bloodlines were behind the corrupt system. Interestingly along with several others appearing to be involved in the deception against humanity, Mikey P also appeared to publicise that cell towers are a threat. It has to be considered that they are trying to conceal the true connection between the Collider technology and the cell towers.

These threats from Mikey P were proceeded by Banaman, who films the events of the Rapid Response trying to undermine me by secretly recording a phone call and focussing on a ring that I had acquired from my wife, Lisas late Grandfather Barry Windsor. They appeared to have colluded with members of Lisas family to try and use this against me.

Mealham claims to be fighting Lloyds Bank mortgage fraud, which appears to be how they tried to entice me into believing in him, after I had acquired forged Lloyds Bank documents through Exbourne Manor. Trevor also claims to be assisting with evictions, but refuses to use the evidence of Companies House fraud showing illegal Lloyds and Bailiff related companies as do all members of Rapid Response. This supports that they are part of the deception and appear to be biding time for something sinister against humanity.

A lot of this information had already been published so there is no better way to make it appear that Mealham had nothing to do with the Police, than to stage an incident claiming his house was invaded and that he was assaulted by the Police:

Referring back to the research of Julian Assange, a Chelsea Manning who supposedly supplied the intelligence to Assange, moved from the U.S. to Wales with her Mother in November 2001, two months after the World Trade Centre disaster. In 2003, Manning and their friend James Kirkpatrick set up an online message board called Angledyne.

exposing his evidence. There registered address is Bishops Fleming, Queens Square, Bristol making quick connections to the Flemings. The company has a forged register.

Dr Timothy Lachlan Chambers connects Redland High School for Girls (The) to Worshipful Society of Apothecaries General Charity Limited(The) that was incorporated in 1982. Its register has been forged.

Research shows that Worshipful Society of Apothecaries General Charity Limited(The) is a Royal Charter Society having been originally founded in 1617 and The Apothecaries Act 1815 gave the Society the power to license and regulate medical practitioners throughout England and Wales. The Society retained this role as a member of the United Examining Board until 1999; the Society could license doctors thereafter, but did so rarely since the dissolution of the United Examining Board. This appears to be associated with a group of Worshipful Livery companies including a Skinners company where it appears to make connections to the skinning of children with its moto being Glory be to God, as shown elsewhere in the document.

The overview claims its name was changed for the first time in 1996, five years before the World Trade Centre disaster and again in 2023, as the exposure continued. It has a forged register and the company features several times throughout the research.

Holliday also connects Redland High School for Girls (The) to Child Safe International that was incorporated in 2004 and has Veale Wasbrough, Police Officers Christopher Gould and Stephen Pilkinton and Avon and Somerset Constabulary on its incorporation document.

Chris Gould appears to be a retired Chief Superintendant and Firearms commander with a company called Safeguarding 112 Safeguarding and which advertises Childsafeguarding.com on its website that seems to operate in Australia. He may be related to other Gould surname connections in the document.

Research shows that David Philips was a Senior Police Officer that had joined Lancashire Police in 1963, around the time when the infiltration of the Royal Family appears to have taken place on Lacashire, according to Vanessa Emery. In 1989, the year that the World Wide Web was created for CERN, Philips became the Deputy Chief Constable of Cornwall Police, where Brian Gerrish is connected to the Chamber of Commerce. In 1993, Philips became the Chief Constable of Kent Police, two years before the Halkuyt International Advisory Board was incorporated.

Research suggests Raymond White had worked in Special Branch regarding the conflicts in Ireland before becoming the Chief Constable of Wales from 1989, the same year that the World Wide Web was created for CERN and retired in 2000, the same year that the Relatavistic Heavy Ion Collider (RHIC) was activated In New York and the year before the World Trade Centre disaster. He later moved to Australia. The evidence is suggesting that the

IRA and the Northern Ireland conflicts were part of the collaborative deception surrounding the Companies House fraud.

Michael Bowron connects The Association of Chief Police Officers of The United Kingdom to St Andrews School, Eastbourne that was incorporated in 1957, the year before Charles was initiated to become The Prince of Wales.

Ian Walter Fairclough was appointed to St Andrews School, Eastbourne before important year of 1991 and resigned in June 2001, the month before Larry Silverstein acquired the lease for the World Trade Centre. Fairclough connect to 6 companies including The Royal Masonic Trust for Girls and Boys that was incorporated in 1983 as MTGB Nominees until October 2016, two months after the ritual at CERN and the same year as the Pizzagate scandal. Its registered address is Great Queen Street, that features throughout the fraud. Page 6 of its incorporation document shows John Baker of the Isle of Wight, where Deborah Fleming was the NHS CEO, Right Honourable Lord Swansea as Peer of the Realm and Keith Carmichael an Accountant with the same name as a shareholder of Exbourne Manor Freehold Limited.

Keith Carmichael connects The Royal Masonic Trust for Girls and Boys to 30 companies including the Rickmansorth Masonic School Limited, The Royal Masonic School for Girls, blood and cancer related companies and to Carlton Club (London) that was incorporated in 1956 and has Waterlow & Sons and Slaughter & May on its incorporation document.

Research shows that the Carlton Club is a 'Private Members Club' and was founded in 1832 and was the original home of the Conservative Party. One of its Prominent members was Arthur Balfour who issued the Balfour Declaration of 1917.

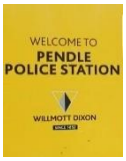
Michael Anthony Latham connects Carlton Club (London) to 20 companies including Wilmott Dixon Limited that was incorporated in 2006 and is a criminal company having been incorporated with the same companies as Exbourne Manor Freehold Limited. Interestingly I had been sent information from others that Wilmott Dixon had been



involved in the construction of recent Police Stations. This gives them the ability to defraud the masses through the construction projects.

Referring back to my background, Incest does not appear to be uncommon by those involved in the fraud, which is demonstrated by information that has been acquired regarding my wife Lisa Moreton and my family's connection to the Kray Twins, all now appearing to connect quickly to Julian Assange. This all becomes relevant as the evidence develops later in the document.

I had been led to believe that my Father had been born in a House in Maidstone, Kent and had been adopted and brought up by his Auntie called 'Queenie' with a mysterious travelling fraternity background. The latest evidence connects self confessed gangster, Dave Courtney, who associated to the Krays to key areas of the fraud and are from a travelling background.

I was later informed that my Fathers adoptive family had associated with the Kray twins, but that they were reluctant to discuss it in detail. I have been shown a photograph of someone connected to my Fathers family in a shop in London that I was informed had something to do with the Kray Twins. I hadn't thought much of this until the last few months, when I started to find connections in the evidence to the Kray Twins and to my families.

Evidence is emerging that the Kray Twins had huge connections to Kent and to Blackpool where evidence is emerging of the potential infiltration of the real royals took place involving Walt Disney. They Kray Trins were not only involved in major fraud with connections to Politics and Royalty, but were also incestuous according to this article.

My Mother and Father had separated when I was around eleven years old and initially I lived with my Mother who was involved in various estranged relationships and had befriended members of the Gamet family, a few houses down from where we lived. The son of this family, Christopher Gamet, became one of my good friends. I recall Chris' Father working for Lloyds bank and that at one point I went to the bank with him, that I believe was in Gillingham and that the Bank was closed at the time. I remember thinking it was strange at the time, but it possibly becomes extremely relevant as you will see as this document progresses.

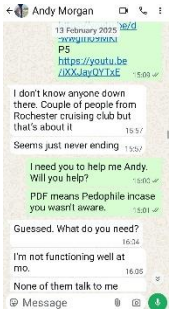
I found it strange that none of my friends from earlier in my life were responding to being sent the irrefutable evidence and many appeared to be blocking me as the exposure continued.

I later found that Companies featuring the surname Gamet connect to the fraud and closely to the research of The Kray Twins.

Christopher Gamet had introduced me to his friend Andy Morgan roughly my mid to late teens and I recall being told that Andy was from an affluent family and they had lived on St Marys Island, Chatham. I recall Andy telling me that his family had been involved in creating the tube within toilet rolls or something very similar, which generated their wealth and that they were involved in boats. I recall going to Rochester Cruising Club for a bithday party for one of Andrews family members.

Prior to me moving to Dorset, Morgan had been in a relationship with someone who had family living at Sandbanks in Dorset and a more recent relationship with someone else living in Dorset also.

On 10th February 2025 I received information suggesting Michael Alan Wilkson had been involved in concerning activities with children and had later become the Chair of Rochester Medway Yacht Club. I had been informed that he had been protected by Chatham Police who claimed he had been cautioned, but information suggested this was false and he had faced no consequences. I also received information that Royal Medway Yacht Clubs Treasurer, Kevin Harrison had also been involved in similar activities.



On around the 12th February I contacted Andrew and asked that he arranges a meeting with all of my old Kent friends so that I can explain the evidence and they could assist with the exposure. He appeared to make excuses not to and this raised my concerns around the group I had grown up with, prompting me to research them further and place information regarding them into my evidential research document. This seemed to prompt a reaction from Andrew around 1st August 2025, asking several times where I was and suggesting he was possibly buying a campervan, I suspect to stage a meeting with me.

A companies House search of Michael Alan Wilkinson, mentioned previously, shows the same name connected to The Food Machinery Company Limited that was incorporated in 1993 and having an address in Rochester. Graham Michael Cowan is shown on the incorporation document and the people record shows this name connects to over 1000 companies. This is the exact same name linking the

MK Ultra research to my school and Waterman companies. The filing history shows that immediately after registration the registered address had been changed to an address in North Finchley, used throughout the fraud. From here there are connections to robiotic and automation companies linking to the fraud.

Later in life, Christopher Gamet and his Wife Elizabeth, a Teacher, became good friends with another childhood friend of mine from Kent, Daniel Ayling and his wife Emma Ayling (Maiden name Lee). This becomes significant later due Emmas connections in the fraud linked directly to the research of Dave Courtney and The Royal Foundation of the Prince and Princess of Wales via Ingenious Film Partners 2 LLP.

Research shows that Elizebeth Gamet became a Teacher in 2001, the same year as the World Trade Centre disaster and is the Head teacher of Luton Primary School, which is part of the Rivermead Inclusive Trust that was incorporated on Companies House in 2015.

Ian Chappel connects Rivermead Inclusive Trust to 9 companies including Fortis Trust, several companies that have dissolved since the exposure and Home-Start Medway Limited that was incorporated in 2004 and has a registered address of Temple Court, Knights Park, Knights Road, Rochester. This is the same address as in the immediate research of MK Ultra linking to my school and Waterman companies and a 13th Century Knights Templar building. Home-Start Medway Limited connects immediately to the fraud by Temple Secretaries and 788 to 790 Finchley Road on its incorporation document. The filing history shows that on 7th February 2024, its registered address was changed from Star Hill, Rochester, the same change as the MK related research as shown elsewhere.

A recent Companies House search of Emma Ayling shows an Emma Louise Ayling connecting to The Priests House Museum Trust that was incorporated in 1988 and has a registered address in Wimborne, Dorset, the same Town where The Flemings that initiated my removal lived as well as Tim Berners-Lee who created the World Wide Web for CERN. The Incorporation document has various 'Wessex' connections, defence companies, Trident Properties and Wimborne Minster Limited on its incorporation document that make important connections. This supports the falsified Prophecies theory.

There are connections to key areas of the fraud from here including to the research of Madeleine Mccann.

Jeremy Francis Mills connects The Priests House Museum Trust to 30 companies including Jasmin Thai Massage and Spa Ringwood Limited and various Lester Aldridge companies making important connections to the fraud and my wifes family and Exbourne Manor as shown elsewhere in the document.

After separating from my Mother, my Father had started a long term relationship with someone who had come from a Marriage with a London Police Officer who was a Freemason. After a few months I moved to Erith with my Father and his Girlfriend and then to a property in Rochester, Kent which has a significance in the fraud by the name of the road of Sir Evelyn, being connected to the Rothschilds.

A member of my Fathers girlfriends family worked for a Solicitor company called TG Baynes in Bexleyheath near London. This had also been affiliated to Emma Ayling.

Close connections have now been established to TG Baynes and a company called Collider Limited, that appears to be connected to CERN and The Future Circular Collider programme (FCC).

TG Baynes was incorporated in 1995, the same year as the Russian linked Hakluyt company and is a criminal company with The London Law Agency on its incorporation document. TG Baynes dissolved in 2010, the same year as CERN Limited was incorporated and some of its directors link to The Rochester Club Limited that was incorporated in 1993 and is also a criminal organisation. Remember, Rochester and I had lived in Rochester with my Father before moving to Dorset.

During my work life I had initially worked with my Father as a Carpenter, where he had contracts at important companies in the fraud including All England Lawn and Tennis Club, BBC Television Studios, British Telecom, Pfizer and a company called HT Webbs, which I Iater established was closely connected to Thales and Arla companies, mentioned later. Some of these were long term contracts.

My Father had wanted me to take over the business, but I wanted a career that involved working with people more and where I felt I could have a positive impact, so Initially to break away and gain independence and confidence, I worked for two seasons at Butlins in Minehead, one as a Barman and the other as a Bar Supervisor. Eventually I became a Security Officer in Maidstone, Kent which led to me to joining Kent Police in 2000 where I worked from Maidstone as a patrol response Officer and then a local Officer in Snodland.

Having lived in Kent for all of my life and having enjoyed the Southwest of England, I tried to Transfer to Devon and Cornwall Police, but had supposedly missed including a relevant document. I was successful in an application to join Dorset Police and transferred there in 2006

where I worked in Bournemouth. I had no connections in Dorset whatsoever when I moved there and decided to rent a property before buying one.

I befriended colleague Jock Condon, mentioned later and in 2007 he had suggested I buy a flat at Exbourne Manor, located between Boscombe and Bournemouth. In the same year, I was introduced to my Wife by our Sergeant Ben Pope when she came out on patrol as an observer. I had been led to believe that she had baby-sitted for Pope and many apparently affluent families and worked as a Nanny at a Nursery called Little Stars and the evidence now acquired form this location connects quickly with all other areas of the fraud and seemingly sinister companies connected to Ghislaine Maxwell as shown later. My Wife and married in April 2019.

Exbourne Manor Freehold Limited

Exbourne Manor Freehold Limited was incorporated on Companies House on 23rd August 2007, with residents Anthony De Reya and Diana Betts, among others involved in completing the documentation for the application. I had little involvement in the initial incorporation and became a director in September 2009, presuming it was legitimate and thought that it may be beneficial to become a Shareholder in the Freehold.

Later in 2023, I established that Exbourne Manor Freehold Limited was a fraudulent criminal entity company, having been incorporated by Swift Incorporations Limited and Jordans Limited on its incorporation document.

In 2010 / 2011, I was fortunate enough to rent my flat out at Exbourne Manor and moved to Christchurch, Dorset area with my Wife and I worked from Christchurch Police Station, initially as a patrol response officer and that as local Officer for the Grange Estate, that becomes relevant to the fraud as mentioned later.

In 2014 I took a career break with my wife Lisa Moreton and we went travelling in a campervan and each year I extended the break until they denied my application and in 2017 / 2018 and I returned to the Police briefly, before voluntarily resigning in 2018. This was partly due to me suddenly collapsing, leading to me supposedly being diagnosed with an AV heart block requiring a pacemaker, but something told me this was not the reason for my collapse and I convinced the doctors not to install one.

However the main reason for me resigning was due to me realising my heart was not in the job anymore, with it appearing that victims needs were not being met. I did not realise that it was related to what I was later going to expose and its connection to the reduction in the Police by Theresa May.

My wife and I travelled again and spent much of the COVID outbreak in Slovenia before starting to return to England in 2020. The vans engine caught fire in Austria on the way back to England and on the day we were about to leave the continent in a hire car, when I received a message from our tenant at Exbourne Manor, claiming they were moving out. The tenant had been in the Police and I suspect this was arranged by others, now knowing what I do.

Before moving back to Exbourne Manor we lived with my Wifes Grandfather Barry Windsor and his Wife Shirley in Bournemouth. The were members of Christchurch, Westbourne that I later established was connected to Deborah Fleming by The Wessex Partnership and that Barry had been a Freemason in Kent. He appeared reluctant to talk about this with me, but later did an interview with the Church where he spoke about his life. I attended the Church a few times with them and became close to Barry and Shirley who seemed to help me be more spiritually motivated.

In March 2017 Barry was interviewed in his church and discussed his life where he was born in Kent and went to a Masonic School before becoming a Christian and having nothing else to with the Masons. Barry discusses the suicide of his daughter Jennifer, who I had been told was my wifes mother and mentions an initial attempt to end her life in 1967 and alluded to her succeeding a few months later. My wife was not born until 1986.

Sadly in 2021, Barry passed away and My Wife and her Grandmother gave me what I was told was one of Barrys rings which has a letter M on it. I have worn ever since to remind me of Barry. This later becomes important as it is the focus of others, including someone going under the Title Banaman to try and undermine me, by suggesting it was representing Freemasonry. This suggests they had been colluding with others that knew about the connection to Barry.

Link to Interview with Barry: https://youtube.com/watch?v=GSl06sAXYck&feature=shared

We had moved back in to Exbourne Manor and In 2021 / 2022, after an expensive roofing project by C & D Roofing, I became persistent in seeing the bank accounts after people were seemingly reluctant for me to do so. This resulted in Acting Chairman Anthony Roberts becoming angry and resigning on 13th July 2002 after I had called a meeting with him and the other resident director Diana Betts to discuss his reaction. This is what triggered my main and became the acting chairman as I tried to establish what had been happening.

I had been led to believe that Stephen 'Owens' was a real name of a managing agent of Owens and Porter and was being employed by Exbourne Manor Freehold Limited to manage Exbourne Manor and its accounts at the time of my initial enquiries. Diana Betts and I attended a meeting. with Stephen Owens in August 2022, but he refused to answer any of my questions and Diana strangely apologised to him despite me trying to address serious concerns regarding his companies management of Exbourne Manor. This included there being no lawfully required fire risk assessment since 2017, the year of the Grenfell Tower, meaning the residents were possibly risk. As far as I am aware, this has still not been suitably resolved. Who I am led to believe is Stephen Owens, gave immediate notice for Owens and Porter to resign at this meeting.

I will explain the importance of the companies in the incorporation document for Exbourne Manor Freehold Limited. Its important to understand that this is the Governments registration system and that there are legal implications under their own legislation if there is any forgery of the register or the incorporation documents.

Swift Incorporations Limited was incorporated in 1985 and is often used with Jordans Limited or Jordan & Sons Limited and it dissolved in 2023 after being exposed. SWIFT is also the name given to the International Offshore transaction system mentioned later.

Jordan & Sons Limited

Jordan & Sons Limited is the main company used in the fraud and shown as being its original name in 1965, according to the Companies House overview. Its name was changed to Jordans Limited (The name used to incorporate Exbourne Manor Freehold Limited) in 1996, five years before the World Trade Centre disaster.

Its name was changed again to Vistra Limited in April 2019, three months before Jeffrey Epstein was supposedly arrested and that a protest took place in Wuhan regarding a planned incinerator plant, four months before cell towers were erected in Wuhan and eight months before the supposed COVID outbreak in Wuhan.

You will see that Companies House have claimed it had no other name from 1965 to 1996. However when you look on its attached incorporation document within the filing history, you will see that it displays a hidden unregistered name of Hamiplag Limited.

You will see that the date on the document is 1965 the same as entered on the register for Jordan & Sons on the overview. The date shown is 11/11/65. If the 6 and 5 are added together, this is 11 11 11, which apparently has significant spiritual relevance.

This transfer of the correct date but a different company proves that the register has been forged

deliberately and the name Jordan & Sons Limited entered instead of Hamiplag Limited, but the date entered correctly.

This is despite them having the document, attaching it to the record and having the simple task of transferring the information from the document to the register.

The Mens Rea and Actus Reas (required to prove a crime) is therefore complete, proving Government fraud beyond reasonable doubt. This forgery puts anyone at risk in relation to that company, both financially and if applicable, physically such as with a vaccine company as mentioned later. They would absolutely have known what they were doing.

This forgery is in contradiction to the Governments own criminal legislation such as the 2006 Fraud Act or the Theft Act 1968 will confirm.

Any company that uses any fraudulent entity company on its incorporation document, such as Exbourne Manor Freehold Limited used Jordans Limited, is also a criminal fraudulent entity and should never have been trading.

The Church of Satan

According to the research, which those running the system have supplied, The Church of Satan had been founded on German Walpurgis night in 1966 and the German Nazi connection in all of this is important as mentioned throughout the document and supports that both World Wars were a deception to the real agenda. Information suggests that

The Church of Satan had used the symbol of the Baphomet since 1856, twelve years after the creation of Companies House and appears to have significant reference to the Knights Templar and therefore the Freemasons since the early 1300's.

The Church of Satan appears to contest the three main Abrahamic Faith groups, due to their moralistic views and appears to be focused on inversion and deception, with the Baphomet being transgender and it becoming apparent that transgenderism is being used as another deception in arranged relationships as mockery to creation.

It is very clear that the apparent Satanic Freemason system implemented around the World has no moral founding, being predominantly criminal and allowing exploitation, victimisation and suffering.

According to the research, a new High Priest was also positioned in the Church of Satan in 2001, the same year as the World Trade Centre disaster, after the original founder had died in 1997 which was the same year that Princess Diana died and I suspect The Church has been infiltrated by another group to make it appear to be Satanic to fit falsified biblical prophecies. More on this later.

There appears to be connections to the Saturnic cube of Satan connecting to all three Abrahamic Faiths, with a crucifix as a two dimensional shape for example, being able to be folded into a cube.

Its very likely that all faith groups have been deceived by the corrupted control of all information from before World War One, as outlined in the research of Robert Maxwell later.

There is very obviously a prevalent Jewish connection throughout the Companies House research, but it appears that this is an infiltration of the faith, rather than Judaism itself, as demonstrated in the research of the Jewish Community Centre UK as shown later.

There is information suggesting that those behind the criminal system originate from a group of Sabbaten-Frankists, but it is clear they appeared to have tried to confuse the masses as to the origins of this evil.

The London Law Agency

In 1967, the year after the foundation of The Church of Satan, the second most important company in the fraud, London Law Agency (The) was incorporated on Companies House. The register claims that it has no other name, but its incorporation document shows a hidden name of Ganvilon Motors with Jordan & Sons below it. Since being exposed London Law Agency (The) is in the process of liquidation.

Two years later, in 1969 Charles became The Prince of Wales. Companies House is based in Wales, conduct the forgery to create the criminal companies and are overseen by the Government. Evidence suggests any assets of the criminal organisations go back to the Crown when they dissolve.

1969 is the same year that the moon landing supposedly took place. Supposedly the first military Geostationary Satellite, called 'Skynet' 1A was also launched into orbit in 1969 and becomes relevant to movie Terminator 2 Judgement Day, as mentioned later. The Earthshot Prize had apparently been named after 'Moonshot' referring to the Moon landing in 1969 and becomes relevant regarding The Royal Foundation of the Prince and Princess of Wales and the climate change agenda, as mentioned later.

Charles had been initiated to become the Prince of Wales at aged nine in 1958, within two weeks of NASA (one letter short of an anagram of SATAN) being formed by John F Kennedy.

This is around the same time that significant evidence suggests the real heirs to the UK throne may have been removed as part of the fraud, as covered in evidence later.

The World Economic Forum

Two years later in 1971, The World Economic Forum (WEF) was formed with information suggesting Klaus Schwab, Prince Charles and Vladimir Putin may have been involved. The WEF is based in Geneva, Switzerland where CERN the hadron collider, The United Nations and other World organisations in the fraud are based.

Switzerland appears to have been part of the agenda going back to when it was made a neutral company in 1815.

Within three days of me sending my evidence to the WEF in 2024, Klaus Schwab announced that he would be stepping back as its Chair for the first time since 1971. Schwab actually later resigned (with a supposed investigation pending) on the same day that the Pope supposedly died, both aged 88. De La Rue

De La Rue is mentioned throughout this document and it was founded in 1821 by Thomas De La Rue who had lived on Guernsey, a UK Island and tax haven, before moving to London where the company later became involved in International currency production and based itself in Hampshire. This is the same county where many of the criminal weapons companies are based with these being important to them in defrauding the masses through fraudulent defence contracts and the collaborative deception with other World leaders regarding conflicts. Hampshire is also where Deborah Fleming had been a CEO for the NHS and who initiated my removal from Exbourne Manor Freehold Limited for refusing to file forged bank documents.

De La Rue Wiki: https://en.m.wikipedia.org/wiki/De_La_Rue

In 1947 De La Rue were listed on the London Stock Exchange, the same year as many other significant events in the fraud including the creation of the Doomsday Clock.

In 1965 De La Rue started printing bank notes with an Italian based in Switzerland and printing bank notes for the Central Bank of Iran in the 1960's. This is significant due to the important connections to Switzerland with it being where CERN, The WEF, The UN, The Bank of International Settlements (BIS) and others are based. It is also relevant in how things are progressing in relation to Iran and what I suspect is a staged infiltrated escalation regarding immigration and the Muslim faith groups. This period of currency production also appears to coincide with the evidence suggesting the real Royal Family were potentially infiltrated and even murdered in the early 1960's.

1965 is also an important year due to it being when Jordan & Sons Limited (the main company in the fraud, now trading as Vistra) was incorporated on Companies House and the year before the foundation of The Church of Satan.

In 1968 a bid was made to acquire De La Rue by the Rank Organisation, which connects immediately to the research of a Vault underneath the World Trade Centre building at the time of its collapse in relation to Nova Scotia Bank and potentially missing gold, as shown later in the document. This is also the year before Charles became the Prince of Wales, where Companies House is based and create the criminal companies through the forgery.

The Research shows that de La Rue changed its main company name in 1991, a key time in the fraud and a year before the Companies House register started to become electronic. 1991 is also the year that the Gulf War ended, when Terminator 2 Judgment Day was released and when David Icke started suggesting the World would be devastated by Earthquakes and Tidal Waves and evidence linking him quickly to the Intelligence agencies, shown elsewhere in the document.

In 1995 De La Rue acquired 'Portals Limited' a key company in currency production since 1724 and Portals become relevant in the evidence to CERN, as explained later.

1995 is the same year that the intelligence agency and Russian Government linked, Hakluyt International Advisory Board was incorporated, mentioned throughout this document and that dissolved in 2024, after being exposed in the research stemming from Rishi Sunak.

At least one of the directors of The Hakluyt International Advisory Board link quickly to De La Rue and De La Rue Quest connects immediately to Mohammed Al-Fayed and is a criminal company, having been incorporated with the same companies as Exbourne Manor Freehold Limited, as mentioned later. This means there is a connection to Princess Diana via Dodi Fayed.

In 2014 De La Rue appointed BAEs Martin Sutherland as a CEO, with BAE being a huge part of the fraud and the largest UK defence contractor meaning billions can be

defrauded from the masses through the collusive and deceptive International conflicts and criminal Government defence contracts.

In July 2019, The Serious Fraud Office (SFO), with Lisa Osofsky as its lead, supposedly investigated De La Rue for suspected corruption in South Sudan, but closed the case with no further action. The SFO are implicated in the fraud, as is Lisa Osofsky, who was moved from her position after my initial reports in 2022.

July 2019 was the same month that Jeffrey Epstein was supposedly arrested and there was a protest in Wuhan, China regarding a planned Incinerator Plant, which we have to consider was planned to be used to dispose of bodies from the COVID deception. Cell Towers were erected in Wuhan the following month and the supposed COVID outbreak was in December. I suspect this investigation into De La Rue was triggered by the exposure of the evidence by Gordon Bowden and was to alter, conceal or destroy evidence in relation to the larger criminal network and involving the SFO.

In February 2024 De La Rue was contracted to design the new bank notes showing King Charles new portrait, which was unveiled on 14th May 2024, the same day that I released evidence of the threat of directed energy linking to The Royal Foundation for the Prince and Princess of Wales.

In early 2002, not long after The World Trade Centre disaster, De La Rue purchased Sequoia Voting Systems meaning they can falsify democratic votes as part of the aganda. As they produce the currency and tax demand this supports that the ultimate agenda is not financial greed or materialism, but control to be able to reach their conclusive agenda.

Significant evidence surrounding Donald Trump and Elon Musk, suggests Trump was fraudulently positioned as The President of the United States using this, as supported by evidence shown elsewhere in the document.

In July 2025, as the exposure continued, De La Rue was removed from the London Stock Exchange for what appears to be the first time since 1947 after it was purchased by Atlas Holdings Limited. Atlas is also the name of the experiment at CERN that supposedly discovered the Higgs Boson or God Particle in 2012.

ATLAS Experiment at CERN | ATLAS Experiment at CERN
https://share.google/yeLBVsP0yjtoUVlqK

There appears to be no active company called Atlas Holdings Limited, so if true suggests the Worlds main currency producer no longer exists as an entity within their own legal system.

Atlas Holdings Limited was incorporated as Atlas Mobile Phones Limited in 1987 and its name was last changed in 1999, two years before the World Trade Centre disaster. However, it dissolved in February 2022, as I am making early enquiries within Exbourne Manor and the same month as Putins special military operation in Ukraine. It has a registered address in Edinburgh and is a criminal company with Stephen Mabbott, Jordan & Sons Limited and Oswalds of Edinburgh Limited on its incorporation document. This connects to Chettleburghs, Douglas Smith. Jeffrey Epstein, Max Clifford, Michelle Mone and the Royal family as shown elsewhere in the document.

Stephen Mabbott features throughout the fraud and is shown on the incorporation document for Comares limited that according to research involved Gerald Mccanns involvement in the study of radiation from cell towers leading up to the disappearance of Madeleine Mccann, as shown elsewhere in the document.

Atlas Holdings BV, which I suspect relates to British Virgin Islands, was incorporated on 1st September 2022, seven days before the supposed death of The Queen. It is a criminal company with Vistra Limited on page 13 of its incorporation document.

Vistra Limited was originally incorporated as Jordan & Sons Limited and is the same company used to incorporate Exbourne Manor Freehold Limited. The filing history shows that on 17th July 2025 Atlas Holdings BV changed its registered address, coinciding with the purchase of De La Rue.

They appear to have removed the ability of an active link for this company, something that has not happened before and this shows how important this evidence likely is.

According to research, as the exposure continued, Vistra Limited became involved with EQT AB in 2023, where £210 billion appears to have been funelled through another company.

Link to EQT AB Wiki https://share.google/hBi3truCGh9BXmBg7

EQT Partners was incorporated in May 2008 as Darehamwood Limited before changing its name in July 2008 to EQT Partners Limited for the first time. It changed its name again to EQT Credit Partners Limited on 19th November and 28th November 2019, a month before the supposed COVID outbreak. I suspect they were funnelling trillions through this company as part of the plan regarding the directed energy threat.

Link to EQT Partners Companies House record: https://find-and-update.company-information.service.gov.uk/company/06590781

Simon Griffith of the EQT Partners Limited was appointed to Lansdowne House (Residents Association) Limited with a correspondence address of Lansdowne House, Lansdowne Road, London, but I suspect is relates to the property two minutes walk from Exbourne Manor that is associated with House & Son, director of Exbourne Manor Freehold Limited, Dyanne Bisson (alias Bisson-Simonds) and that features throughout the fraud.

The company has a registered office address on its overview of Queensway House, 11 Queensway, New Milton and this address features throughout the fraud and particularly with the research of Julian Assange.

Anne Smith of Lansdowne House (Residents Association) Limited connects to 45/47 Elgin Crescent Freehold Company Limited. This company was incorporated in 2004 and is a criminal organisation having been incorporated with the same two companies as Exbourne Manor Freehold Limited. Lucy Mary Clive was a director for this company and research shows she was associated with Ghislaine Maxwell.

Clive is also showing as having been a director for Terramar UK that dissolved in December 2019, the same month as the supposed COVID outbreak and Ghislaine Maxwell is shown as being a director on the incorporation document and the people record.

Terramar UK links almost immediately via an Aerospace company to my Brother-In-Laws familys company, is connected immediately to an informal Parliamentary Island group set up by Isle of Wight MP Bob Seely, where Deborah Fleming was the CEO for the NHS and connects quickly to the Christchurch Earthquake evidence possibly involving collider technology, as explained later.

The Fabian Society

Research shows that the Fabian Society was founded in 1884 and has a huge influence on Politics with many Members of Parliament having been members including Jeremy Corbin. Its symbol is a Wolf in sheeps clothing and symbol for sly deceit.

The Military

In my opinion the following evidence, combined with other evidence shown in this document, proves beyond all reasonable doubt that the Military and Intelligence agencies are part of a centralised criminal system that knowingly facilitates the exploitation, victimisation and suffering to the masses.

It also suggests that as the exposure continues they are trying to remove a safeguarded chain of decision making, where there is accountably and liability and where moral conscience is implemented into those decisions. I believe this is against creation and by design appears to be leading to the end of all creation, or make certain people believe that is the case.

The heads of the military complex appear to have been controlled as part of the criminal system and in June 2025, as the exposure continued, Richard Knighton was announced to become the Chief of Defence Staff and therefore the head of The British Armed Forces in September 2025.

This coincides with a publicised, proposed test of the Public Emergency Broadcast system. A recent article claims a collaboration with Knighton and Israeli forces, where they are refusing to make comment.

As part of their plan surrounding my exposure I was targeted with a staged emergency broadcast to my device several months ago as an apparent plan to try and convince me to support Donald Trump and the supposed background operations taking place to resolve the crimes against children.

Rich Knighton - Wikipedia https://share.google/AnhJuDnUZC0VeRFq

In July 2025 an article emerged where Knighton appeared to be refusing to answer questions on the UK's apparent collaboration with Israeli forces. This becomes relevant with the connection made to from Knighton to a Pegasus company in the Companies House records shown below and Pegasus being linked to Israeli spyware appearing to be being used to target those trying to expose the criminal system.

In August 2025 Few Marquees Limited appears to have been awarded a two year contract to provide shelter for corpses in the event of sudden mass mortality under the mass fatality resilience capability.

The research shows that the organisation leading this is the London Resilience Group / Forum (LRG) linked to the London Fire Brigade, already established as being linked to the fraud, was created in 2002 and has been chaired by David Bellamy since June 2024, as the exposure continues. Research shows Bellamy had worked for Experian that is part of the fraud and links quickly to the research of Jeffrey Epstein, as shown elsewhere in the document. Bellamy had also been the Chair and Treasurer of Wandsworth Citizens Advice Bureau.

This includes The UK Armed Forces Winter Sports Association that was incorporated in 2009, the same year as The Royal Foundation for the Prince and Princess of Wales, and its name was changed in 2016, the same year as the apparent ritual as CERN. Michael George Hanley connects Wilson Solicitors LLP to The Immigration Law Practitioners' Society that was incorporated in 1989, the same year as the World Wide Web was created for CERN. The addresses used for this company are used throughout the fraud.

Susan Margret Shutter connects The Immigration Law Practitioners' Society to Project for the registration of Children as British Citizens that was incorporated in 2015 and dissolved in August 2022, as I made enquiries within Exbourne Manor. Company Registrations Online Limited is on the incorporation document and makes immediate connections to Exbourne Manor via Owens & Porter, the former Management company that resigned as I made initial enquiries within the company and who connects to the Russian Government and Ghislaine Maxwell via Stephen Owen.

Nicholas John Blake connects The Immigration Law Practitioners' Society to criminal company The Death Penalty Project Limited where Kier Starmer was a director and the company connects immediately to key areas of the fraud including Madeleines Fund: No Stone Unturned.

Referring back to The UK Armed Forces Winter Sports Association, Richard Hedenby connects the company to The Pegasus Award CIC making an apparent connection to what I suspect is cult infiltrated Israeli Intelligence network.

Richard Stokes connects The UK Armed Forces Winter Sports Association to six companies including UKSA Trading Limited that was incorporated in June 2007, the month after Madeleine Mccanns disappearance. It has a registered address of the Isle of Wight where Deborah Fleming was the NHS CEO and is a criminal company with The London Law Agency on its incorporation document.

This connects immediately to The Royal Foundation for the Prince and Princess of Wales, Madeleines' Fund: No Stone Unturned, Kier Starmer and the Death Penalty Project Limited and Sean Combes aka P Diddy.

Childline was created in 1986 and involved Esther Rantzen and was supposedly a way for vulnerable children to contact the authorities directly. Sadly the overwhelming evidence suggests it was actually set up to entrap children as part of the sinister agenda.

Esther Rantzen - Wikipedia https://share.google/ZUJ7UbZa4PE1KdBGO

The previous research shows that page 4 of the incorporation document of Childline shows Valerie Gorgina Howarth with an address of Childline, Royal Mail Building appearing to make a further connection to Royal Mails involvement in the crimes against humanity. Esther Rantzon also shown and connected to BBCTV, Lime Grove Studios. Sarah Caplin is also shown and as being a TV Producer.

John Martin Graham connects Children's Promise Trading Limited to Asthma Enterprises Limited that was incorporated in 1989, the same year that the World Wide Web was created for CERN. It is a criminal company with the same companies as Exbourne Manor Freehold Limited on its incorporation document. This supports other evidence that the health service has actually been used to target humanity and particularly children.

Graham also connects Children's Promise Trading Limited to Asthma UK that was also incorporated in 1989 as National Asthma Campaign before its name was changed in July 2007, two months after Madeleine Mccann went missing. This is also a criminal company with Jordan & Sons Limited on its incorporation document.

Armson also connects to Samaritans that was incorporated in 1963 and has a forged register meaning it is a criminal organisation, giving the ability to infiltrate and silence people through them calling for help in times of desperation.

This makes connections with the research of Alison Lowe, The Police and Crime Commissioners and a personal staged Court Case against me involving my wife.

Blackrock is already significantly linked to the fraud, The World Trade Centre Disaster research, The Flemings and an apparent collaborative deception with the Russian Government and Ukraine to rebuild Ukraine through the criminal system and exploit the masses further.

Simon Jeremy Collins connects The Raf100 appeal to various KPMG companies that makes immediate connections to Amanda Pearson, former Metropolitan Police Commissioner and now Dorset Police Chief Constable, positioned where Exbourne Manor is based, as the exposure continued.

Sony also makes important connections to the threat from directed energy, immediately shown in the research of the cell tower overlooking Fort William in Scotland that also connects quickly to Jeffrey Epstein by other companies, as shown elsewhere in the document.

Intelligence Agencies

To have a successful criminal International system it has been necessary for them to have a collaborative Intelligence system along with the Police and other Government Organisations to deceive and exploit the masses as part of their sinister agenda.

The National Crime Agency (NCA)

The National Crime Agency (NCA) was formed in 2013, the year after CERN supposedly discovered the Higgs Boson or God Particle and as the exposure of their criminal system continues, the NCA publicised that it had removed 11500 companies from the Companies House register on 16th July 2025. They have chosen to ignore all of my Police reports of irrefutable and verifiable evidence of a criminal network running the World and in my opinion this is clearly an attempt to remove evidence of their crimes.

Property Management Solutions (Southern) limited was incorporated in June 2007 and Paul William Mallorie is shown on the incorporation document as being connected to two other companies, Lyntek Securities Limited and Business Solutions (Southern) Limited, which feature later. The filing history for Property Management Solutions (Southern) limited shows that it applied to strike of the register on 25th October 2011, but cancelled the application on 29th October 2011. This is the same day that Jimmy Savile supposedly died, which I doubt is a coincidence. The filing history also shows that its registered address was changed in January 2022, as I am starting to make enquiries at Exbourne Manor and a few days before Owen Film Partnership LLP dissolved.

VISTRA DEPOSITARY SERVICES (UK) LIMITED people - Find and update company information - GOV.UK https://share.google/tOePzlw8s8qOI25Hf

Vistra companies are immediately connected to Jordan & Sons, are the main company in the fraud and appear to be funnelling billions of pounds, as the exposure continues using EQT AB Limited that again links almost immediately to Ghislaine Maxwell and directly to The Association of Police and Crime Commissioners via an address of 50 Broadway, London, as mentioned later in the document.

The Caribbean connection is significant due it being where Jeffrey Epstein and others own Islands and the document explains later, how Ghislaine Maxwell is immediately connected to a informal Parliamentary UK Island Group that was set up by Isle of Wight MP Bob Seely. This includes the Island of Jersey, where it appears that the murder of children had been taking place connecting to Jimmy Savile and Members of The Government.

Ian Spencer Kelly connects Hull Chamber of Commerce Industry & Shipping to British Chamber of Commerce that according to the overview was incorporated as Association of British Chambers of Commerce (The) in1875 with no name change until 1996, when it appears from all of the research, that The World Trade Centre disaster was being planned. It is a fraudulent entity company with a forged register. This has featured in the research several times.

Michael Brown connects Gateway Family Health Care Limited to13A Portobello Management Ltd that was incorporated in1993 and has a registered address of 23a Church Road, Poole BH148FU. This is an almost identical address of 20 Church Road, Poole BH148FU that is directly connected to the Nursery my wife was working at when we were first introduced in 2007. This makes important connections and supports that most people in my life are significantly connected in this.

Ian Stuart Flooks connects 13A Portobello Management Ltd to Greenpeace UK Limited and Greenpeace Limited, which makes direct connections to The Green Alliance and therefore The Goldsmith family (former name Goldschmidt). This is the family appearing to be associated with The Prime Ministers Advisor Douglas Smith and a company that connects immediately to The Management company for The Grenfell Tower at the time of its fire in 2027. This is The

Temple Trust and where there is an article suggesting James Goldsmith was the real Father of Princess Diana, as mentioned elsewhere in the document.

Flooks also connects to Ingenious Film Partners LLP and Ingenious Film Partners 2 LLP being on the incorporation document for The Royal Foundation of the Prince and Princess of Wales that links all areas of the fraud.

John Ratcliffe has been the head of the CIA since January 2025, having been repeatedly nominated by Donald Trump for various roles. Ratcliff had been embroiled in a scandal regarding supposed Palestinian – American terrorist organisation, The Holy Land Foundation (HLF).

HLF Limited was incorporated as Martlaw Limited in April 2001, three months before Larry Silverstein acquired the lease for the World Trade Centre, and according to its overview, its name was changed for the only time in April 2002, after the World Trade Centre disaster. The filing history shows that its registered address was changed on 20th September 2001, nine days after The World Trade Centre disaster.

In February 2019, as all evidence suggests the COVID situation was being planned, Kash Patel joined the National Security Council. In April 2022, as I am making enquires at Exbourne Manor, Patel was given the role of the head of Donald Trump Media and Technology Group, after Trump was supposedly banned from Twitter. Elon Musk, Donald Trumps associate, acquired Twitter that year and changed it to X. Donald Trump elected Patel as the head of the FBI and he was positioned in February 2025. Patel also served as acting director of the Bureau of Alcohol, Tobacco, Firearms and Explosives, but only for two months, from February to April 2025.

A Companies House search through Google for Kash Patel reveals Kash Patel Property Management Ltd that was incorporated in 2015 and dissolved in October 2017, a key year for several reasons. This is the year Gordon Bowden was exposing the non-verification element of the Companies House fraud, Donald Trump became the 45th President, seemingly fraudulently, Louise Smyth became the CEO for Companies House, Fleming Co Limited was incorporated connecting the research of various World leaders and the Grenfell Tower fire occurred, which significant evidence suggests was deliberate, as explained elsewhere in the document.

Kash Patel Property Management Ltd links to the fraud immediately with Companies Made Simple on its incorporation document. The only director registered for Kash Patel Property Management Ltd is Rakesh Patel, suggesting Patel has an alias name being used, as many involved in the fraud and a separate search of Rakesh Patel within Companies House reveals several records.

One of these records is particularly relevant by connecting to four companies that includes The Close Film Sale and Leaseback 2003/4 LLP, which features throughout the fraud and makes quick connections to The Satanic Temple United Kingdom. The same name record for Petel also links directly to Daarasp LLP that connects even more quickly to The Satanic Temple United Kingdom, to UK tax haven Island Jersey where apparent murders of children have taken place and quickly to possible references of the Paedophile Information Exchange (PIE) and The Satanic Cube, as shown in the Section headed Satanic Temple United Kingdom.

Rashma Amin connects J.V. Patel Ltd to Madeleine Consultants Limited via a duplicate record within the company. Madeleine Consultants Limited was incorporated on 18th September 2007, just over four months after Madeleine Mccanns disappearance. The address shown is Madeleine Close. Remember, there was no verification of addresses deliberately meaning false details can be used. The filing history shows that there was an application to strike the company from the register in October 2009, a month after The Royal Foundation of the Prince and Prince of Wales was incorporated and that connects all areas of the fraud. Madeleine Consultants Limited dissolved in 2010, the same year that CERN Limited was incorporated.

Yashmit Nayan Amin connects Madeleine Consultants Limited to YNA Designs Limited that was incorporated in March 2007, less that two months before Madeleine Mccann disappeared. Berwin Leighton Paisner LLP and the address of Madeleine Close is shown on its incorporation document.

I had only seen this company a couple of times in my research of around 20000 companies. This is very important, as Berwin Leighton Paisner is shown on the incorporation document for previously identified company, Jewish Community Centre UK and makes very quick connections to Madeleine Mccanns parents as directors for Madeleine's Fund: Leaving no Stone Unturned, a criminal company as explained soon.

Jewish Community Centre UK was incorporated in 2004 and features many significantly important companies and names on its incorporation document, as well as Jordans, a criminal company incorporated the year before the Church of Satan was founded. Edward Mcknight connects Mccann Medical Consulting Limited to Nshi Ltd that was incorporated in 2005 and has Abergan Nominees on its incorporation document. Abergan Nominees Limited connects immediately to the research of Aylesham village and the possible infiltration and murder of the real Royal family, as shown elsewhere in the document. The filing history shows that six days after it was registered the address for Nshi Ltd was changed from Snt Shearway, Bus Park, Shearway Road, Folkstone, Kent. Its address was also changed on 24th September 2009, five days before The Royal Foundation for the Prince and Princess of Wales was incorporated. Its address was changed again in 2016, the same year as the apparent Ritual at

Frances Gerard Dunn connects The British Cardiovascular Society to eight companies including The Clyde football Club CIC that was incorporated in 1908 and according to the filing history applied to strike the company from the register in April 2024. It is a fraudulent entity with a forged register. Football Clubs appear to be a huge part of the victimisation of the masses and criminal laundering.

David Geldard connects The British Cardiovascular Society to The East Lancashire Masonic Charity that was incorporated in 1904 and is a fraudulent entity company with a forged register.

Warren Ross Davenport connects The East Lancashire Masonic Charity to Habib Qatar Exchange and Finance Limited making an important connection to Qatar for reasons mentioned and covered elsewhere in the document. It had a previous company name of Harrys Shoes Limited until 9th May 2007, 6 days after Madeleine Mccann went missing. The case of missing Madeleine is significantly connected to the fraud.

An article from 10th July 2019 suggests Prince Harry was noticed to be wearing the same shoes for a prolonged period of time.

This article was publicised four days after Jeffrey Epstein was arrested and the same month a protest took place in Wuhan regarding a planned incinerator plant. Other evidence acquired as a result of one of my dreams has led to Companies House evidence being acquired confirming that McDonald's Restaurants are a significant involved in the fraud and connect quickly to the research of Jeffrey Epstein and to the 2023 Israel Attacks leading to The Spice Girls where there is a 'Ruby Shoes' company. There is information suggesting that childrens remains are being put into the food chain and this is supported by the evidence acquired from the Companies House research in relation to the Horse meat scandal of 2013.

This possibly explains why the Ruby shoes worn in the 1949 Wizard of Oz movie is the most expensive movie memorabilia ever and sold for $28 million in 2024, as the exposure continued. The movie had been directed by Victor Fleming who had been described as violently Pro-Nazi.

The research suggests the high price sale was influenced by the release of the aptly named Wicked movie in 2024 and that was based on a book that relates to the Wizard of Oz. The movie starred Cynthia Erivo and Ariana Grande, with connections having been made from the Israel attacks to criminal Manchester arena companies and the leader of Qatar, Tamim Bin Hammed Al Thani and the Manchester Arena being where Grande was performing during the bombing in key year of 2017. The evidence regarding this is shown elsewhere in the document.

Research suggests that Young, a Labour MP in Scotland, was positioned as the Vice Chair of the BBC in 1997, the same year as the death of Princess Diana and the original founder of the Church of Satan. She was appointed as a member of The House of Lords on the Science and Technology committee in 2024, which becomes relevant in the evidence regarding the Christchurch Earthquake. There are several 'skin' related companies featuring at key times throughout the fraud, including quickly from the research of Dorset Chief Constable, Amanda Pearson where connections are also made to a 'Clinton' company as shown elsewhere in the document. It now has to be considered that the Pizzagate Scandal was real and relates to the Companies House fraud.

The Pizzagate scandal arose in 2016 when New York Police supposedly stumbled across a child murder ring within US Politics whilst searching through Anthony Wieners emails.
The personal email account of John Podesta, brother of Tony Podesta and Hillary Clinton's campaign chair, was hacked in a spear phishing attack in March 2016 and WikiLeaks published his emails in November 2016. The apparent ritual at CERNS shiva statue took place between these dates in August 2016.

The research suggests that proponents of the Pizzagate conspiracy theory 'falsely' claimed the emails contained coded messages that connected several high-ranking Democratic Party officials and U.S. restaurants with an alleged human trafficking and child sex ring. One of the establishments allegedly involved was the Comet Ping Pong pizzeria in Washington, D.C.

The Pizzagate scandal allegedly led to a video being uncovered possibly showing Hillary Clinton and others torturing, skinning and murdering a young girl. Those I suspect had been colluding with those running the fraud, had previously tried to convince me that this video was fake as well as leading my investigation in the wrong direction before trying to undermine the evidence, when they realised I thought they were compromised. This along with the other evidence supports the likely relevance of the Pizzagate scandal.

Information suggests the cargo ship that got stuck in the Suez Canal in 2021 was called Evergreen and that the Clintons may be involved.

An Evergreen company features in the recent research surrounding Tommy Robinson, that leads to important evidence connecting to the Grenfell Tower, the research of my wifes family, possible drug trafficking, connections to Arla and the Bovear scandal and what I suspect are connections to childrens remains being placed in the food chain, as shown elsewhere in the document.

Samuel Luke Anthony connects Sundog Pictures to William Tyndale Primary School that was incorporated in September 2011 and links to the fraud and the evidence of the apparent mass murder of children on Jersey to the Police via Veale Wasbrough Vizards on page 27 of its incorporation document. Veale Wasborough had also featured in the research of my wifes former employer, Treasure Island Kids Limited Liability Partnership and almost immediately to Poultons Park and an important connection to the evidence of the possible infiltration and murder of the real Royal family as shown throughout the document.

Anne Christina Percival Warburton connects William Tyndale Primary School to The Goldsmiths' City of London Limited that was incorporated in January 2002, three months after the World Trade Centre disaster and is a criminal company with Michael John Hope of The London Law Agency 84 Temple Chambers Temple Avenue, London on its imcorporation document. This is the exact company shown in the research regarding Christian Warfare, Charlie Veitch regarding immigration escalation and the possible murder of women by rivers to hide the evidence of the collider technology to the case of Nicola Bulley.

This shows a circle of evidence to the Goldsmith family, as mentioned throughout the document and them being connected to most of the Worlds prproblems including the Pizzagate scandal and Gordon Bowdens investigations that appear to have triggered an expedited plan, as their criminal network became exposed to the torture and murder of children and the funneling of money into falsified biblical prophecies.

A search for Tony Podesta on Companies House shows a record for an Anthony Andrew Podesta connecting to Johnstone Avenue Shop Management Company Limited that was incorporated in 1990 and dissolved in January 2024, as the exposure continued. It is a criminal company with Jordan & Sons Limited, Brian John Roberts being a butcher and L & A Formations on its incorporation document and making connections to the research regarding the collider technology and Earthquakes. The document also appears to have been altered to conceal information.

The research suggests Tony and John Podesta had founded The Podesta Group in 1988, the year before The World Wide Web was created for CERN and reorganized in January 2007, four months before Madeleine Mccanns disappearance, after a supposed split with Tony Podesta and his associates.

The company had been involved in Lobbying on behalf of Egpyt and in 2011 was said to have close ties to the Obama administration and had connections to Russian interests.

The Podesta Group has been retained by Walmart, BP, and Lockheed Martin.[5] Other clients include Bank of America, the Cherokee Nation (casinos), National Public Radio, and the Republic of Kenya many of which have already been confirmed as closely connected to the fraud.

The company closed in 2017, a key year in the evidence of fraud and the year after the Pizzagate scandal was exposed. This appears to be related to an investigation in relation to their involvement with European Centre for a Modern Ukraine (ECMU).

Its CEO Kimberley Fritts founded Cogent Strategies in 2017. Companies House records shows that a Cogent Strategies International Limited was incorporated in 1993 and dissolved in August 2019, the month after Jeffrey Epstein was arrested and the same month he supposedly died and cell towers were erected in Wuhan, China. The company connects immediately to the fraud by Stephen Mabbott and Brian Reid linking to the research of Gerald Mccann and the main currency producer De La Rue.

I suspect Kimberely Fritts is either related to of possibly even the same person identifying as Catherine Fitts, who previously worked for the Bush Administration and in March 2025, provided information suggesting the US Government had funnelled $21 trillion into an underground doomsday city and connects immediately to Exbourne Manor Freehold Limited, as shown elsewhere in the document. There is significant evidence showing that multiple identities are being used by those implicated in the fraud and information suggesting that multiple roles are possibly being played by the same people.

There are also connections to skin companies from the Association of Police and Crime Commissioners, that connects quickly to Jimmy Savile and CERN, as shown elsewhere in the document.

The Skinner's Academy connects immediately to Ghislaine Maxwell via Farrer & Co that was identified from the research of my wifes former Nursery where an almost identical address has already connected quickly to the research of the head of the National Crime Agency and to the Goldsmith family and therefore Douglas Smith and Jeffrey Epstein and what appears to be a possible German / Jewish Sabattean Frankist Group.

The Nursery where my wife had worked when we first met claims to be called Little Stars on its website, but Companies House shows company Little Stars Education Ltd and having an address a few roads away in 21 Church Road, Poole BH148UF. Antonia Aloisia Ann Richard connects Allen Associates Limited to Kalmax Limited that was incorporated as Richard & Gaten Limited in 1955, the same year that the relevant Walt Disney Resort opened in America. Its register has been forged with Oliver Autos showing on the incorporation document along with Shaw & Blake Limited of an address of 8 Bell Yard, Templar Bar, that features in the research of Ghislaine Maxwell and the Kit Cat Club.
Steven Dewar connects Kalmax Limited to Trinity Theatre Arts Centre Limited that was incorporated in 1996 and has an address of Tunbridge Wells, Kent on its incorporation document. There are various companies shown on page 13 of its incorporation document including River Thames Water supply and overseas companies.

David Fitzimmons connects Trinity Theatre Arts Centre Limited to The 'Skinner's' Academy that was incorporated in 2008 and dissolved in 2024, as the exposure continued. Farrer & Co is on the incorporation document, the same company that connects immediately to Ghislaine Maxwell and the research of Michelle Mone as well as to the Charles Darwin Trust and therefore The Jewish Community Centre UK.

The Earl of James Carleton with former names Fitzharris and Harris is shown on the incorporation document of The Skinner's Academy and having an address in Hampshire and being connected to The New Forest Agricultural Show Society and New Forest trust.

Stephen Belk connects The Skinner's Academy to 15Billion, which features quickly in the research of vaccine company Pfizer.

James Carleton The Earl of Malmesbury connects The Skinner's Academy to Community Action Hampshire and Maria Armstrong of this company connects to The Southern and South East Tourist Board which connects to recent research of the including to David Icke and The Bournemouth International Centre via BH Live recently acquired after what I suspect was a staged fire at the location on 5th August 2025. John Bonney connects Community Action Hampshire to The Blue Lamp Trust where former Dorset Police Chief Constable Scott Chilton was a director from June 2023 until 13th April 2025, the day I released my evidence of him connecting to The Satanic Temple United Kingdom.
The address on the incorporation document and the registered address relates to the Fire Service.

Bonney also connects to the National Fire Chiefs Council that makes the connection to the research of The Grenfell Tower and what I now suspect was a deliberate fire by the Government and their organisations connecting to The Temple Trust and a Goldshmidt company making links to the research of the Goldsmith Family, the Rothschilds, Douglas Smith and Jeffrey Epstein.

Hugh Whitbread connects the Skinner's Academy to Whitbread companies including the Whitbread Pension trustees that links immediately to the research of the Monks Investment Trust Public Limited Company (The) via Karl Sternberg. This company is shown on page 40 of The Royal Foundation for The Prince and Princess of Wales. Sternberg also connects to various JP Morgan Morgan Companies and The Russian Government.

With all of this evidence of the potential skinning and the red shoe club connecting with the COVID situation and directed energy threat, an article from July 2019 suggest Prince Harry was unusually wearing the same shoes for a prolonged period of time. This was the same month Jeffrey Epstein was arrested, that there was a protest in Wuhan regarding an incinerator plant, a month before cell towers were erected in Wuhan and five months before the supposed outbreak there.

Link to article of Harry from 2019: https://www.heart.co.uk/news/royals/princeharry/people-noticed-one-pair-shoes/

The Royal Foundation for the Prince and Princess of Wales was incorporated in 2009, connects all areas of the fraud and its initial name was The Foundation of Prince William and Prince Harry. The company has a Monks company on page 40 of its incorporation document, with possible related articles of children being abused by Monks on an island off of the coast of Wales. This company makes almost immediate connections to those around me throughout my life and connections have been made to my family by ninth circle companies, shown elsewhere in the document.

According to an article labelled as disinformation, ‘The 'Ninth Circle' relates to ritual sacrifices involving the Royal family, The Church of England, including Justin Welby and the Vatican. This article is from July 2023, as the fraud is being exposed and the same month that the Satanic Temple United Kingdom was incorporated. This and its comments suggest it may have been published deliberately to try and hide the connection to the Russian Government and possibly the infiltration and murder of the real Royal family. This is supported by those, that I suspect were colluding with those behind the fraud also supplying the information to me regarding this article.

Other companies researched include:

RAC Holdings Limited, RAC PLC, Royal Automobile Club Foundation for Motoring Limited and various connections are made in this document.

Anne Frank Trust. This makes connections to the research of Sacha Stone and to Adrenochrome via Glastonbury Companies with the Glastonbury Festival company being criminal having been incorporated with the same companies as Exbourne Manor Freehold Limited as shown later in the research of Sacha Stone.

In 2022 information also emerged that the story of Anne Frank may have been deception, which supports the likely infiltration of Judaism particularly with the Frankists and Satanic cult evidence suggesting a German / Jewish group involved in the centralised criminal system.

Anne Frank Trust UK was incorporated in May 1991, three months after the Gulf War ended and before the Companies House register started to become electronic in 1992. According to its overview its name was changed for the only time in August 2001, just over a month after the World Trade Centre disaster. The incorporation document shows Bates Wells & Braithwaite, making a direct connection to the Royal Foundation of the Prince and Princess of Wales, Kier Starmers connected Death Penalty Project Limited and Madeleine's Fund: Leaving No Stone Unturned, both criminal companies.

Bates Wells & Braithwaite also represents Sean Combs Aka P Diddy. The incorporation document for Anne Frank Trust shows an address in Bournemouth, Dorset where Exbourne Manor is based and Wimborne, the same town where the Flemings that initiated my removal lived and according to the research Tim Berners-Lee, the person who created The World Wide Web for CERN.

The Charles Darwin Trust is also shown on the document. This was incorporated in 1999 and had Farrer & Co on its incorporation document making immediate connections to Ghislaine Maxwells companies and to the research regarding Baroness Mone and connecting quickly to what I suspect is the false infiltrated Royal Family. Oyez, William Blake Trust, Mark Baldwin Dance Company and The National Council for the Conservation of Plants and Gardens.

THE CHARLES DARWIN TRUST overview - Find and update company information - GOV.UK https://share.google/WXC6T00Bk89izipBh

Charles Darwin relates to the Theory of Evolution, that would disprove all faith groups beliefs. Charles Darwin had connections to the Freemasons and I believe that this legal and financial connection with a Jewish company and other connections now being made, overwhelmingly supports that there has been an infiltration of the Jewish faith group to falsify biblical prophecies as a potential infiltrated Satanic plan.

Darwin companies also connect to the research surrounding Julian Asssange.

Other relevant information from the document:
North Middlesex University Hospital NHS Trust makes a connection to the NHS and therefore the Flemings with Deborah Fleming having been the NHS CEO for Hampshire, Isle of Wight and Dorset. Portland Trust is also shown, making connections to Dorset.

Several Royal Associated companies are shown on the document including:

The Royal Opera House Foundation – This makes connections back to The Russian Government and the Nicola Bulley case via apparently deceased lead investigating Officer Peter Lawson as will be shown elsewhere in the document.

The Royal Opera House Foundation was incorporated as Royal Opera House Trust in 1962, the same year thar the main Siemens company, Siemens PLC and that changed its name for the first time time in May 2025 after being exposed. The name for The Royal Opera House Foundation was changed for the only time on 21st August 2001, between Larry Silverstein acquiring the lease for The World Trade Centre disaster and its collapse. It has a forged register.

Simon Christopher Townsend Robey connects The Royal Opera House Foundation to Atlas Capital Limited that was incorporated in February 2010, the same year as CERN Limited and with ATLAS being the name of the CERN experiment in 2012.

Baron Ralph Thomas Campion Gorge Sherman Camoys is shown on the incorporation document and research suggests this is Thomas Stoner 7th Baron Comoys that supposedly died in 2023 as the exposure continued. Camoys is a direct descendant of former Prime Minister Robert Peele and various illigitimate bloodlines, according to the research. He has a significant history in banking and particularly with Rothschilds companies meaning a connections to all areas of the fraud as well as to the Vatican having been made a Knight Grande Cross of the papal order by Pope Benedict in 2006. He was also a Deputh Lieutenant of Oxfordshire, a county where Robert and Ghislaine Maxwell were prominent.

Rysaffe Secretaries is also shown on the incorporation document of Atlas Capital Limited and a seperate search shows that Rysaffe Secretaries was incorporated in 2002 and has Donald Clifford Wing and Riechmann & Wing Limited on its incorporation document. This makes immediate connections to who I was led to believe were my family in Kent. I suspect Reichmann relates one of the richest families in the World and makes connections to Germany.

Matthew Edward Gowan Burton connects Rysaffe Secretaries to ten companies including Saffery Switzerland Holdings that was incorporated in November 2022, as I am conducting enquiries at Exbourne Manor. This makes a connection to Switzerland, where it appears the main organisations behind the fraud and where CERN is based.

Burton connects Rysaffe Secretaries to Mission Aviation Fellowship UK that was incorporated in 1997 and has a address in Kent and John Barrington Quinn of another Kent address connected to East Kent Health Authority and Royal British Legion Industries on its incorporation document, further supporting the likely money laundering through the Health Care system and charities.

Lorenzo Giuseppe Mosca connects Rysaffe Secretaries to Ingenious Film Partners 2 LLP.

Andrew Nicholas Gaskell connects Rysaffe Secretaries to eleven companies including Queen Elizabeth School Barnet that was incorporated in August 2010, three months before CERN Limited and had Winkworth Sherwood on its incorporation document, that make connections elsewhere in the fraud and The High Speed Rail company in relation to HS2, that is a criminal company. Gaskell also connects to Ingenious Film Parnters 2 LLP.

David Lemon connects Rysaffe Secretaries to Farnborough International Limited which features throughout the fraud and makes immediate connections to BAE Systems and other criminal weapons companies used by the corrupt Governments and linking quickly to my families and Ghislaine Maxwell among others.

Referring back to Atlas Capital Limited, Right Honourable Ralph Thomas Campion George Sherman Camoys, previously mentioned, connects to 3I Group PLC meaning a 3I / Atlas connection, the exact same name given to a recent Interstellar object claimed to be approaching Earth.

31 / ATLAS Interstellar Comet

The 31 / ATLAS Interstellar Comet was supposedly discovered in early July 2025, as the exposure continues and those behind the criminal system will be desperate to create a distraction and conceal their crimes against humanity.

3I /Atlas was supposedly spotted by The Asteroid Terrestrial-impact Last Alert System (ATLAS) that is a robotic astronomical survey and early warning system optimized for detecting smaller near-Earth objects a few weeks to days before they impact Earth and is part of NASA.

ATLAS began observations in 2015 with one telescope at Haleakala, and a two-Hawaii-telescopes version became operational in 2017, as key events occurred starting to lead to the exposure of the criminal network and its connection to the apparent murder if children.

The project then obtained NASA funding for two additional telescopes in the Southern hemisphere, which became operational in early 2022, as I started to expose the Companies House forgery.

Each telescope surveys one quarter of the whole observable sky four times per clear night,[3] and the addition of the two southern telescopes improved ATLAS's four-fold coverage of the observable sky from every two clear nights to nightly, as well as filled its previous blind spot in the far southern sky.

Research suggests Dr John Tonry started The Asteroid Terrestrial-impact Last Alert System (ATLAS) and the below link, when translated, suggests he is German, was born in 1953, the same year as the Queens Coronation and discovered asteroids.

Neresh Kuma Sarna connects Events Development Services Limited to 13 companies including several that connect immediately to Chettleburghs, a criminal company connecting to the research of advisor to the last few Prime Ministers, Douglas Smith, to Jeffrey Epstein, Michelle Mone, the Royal Family and all areas of the fraud.

Another specific example of the important connections are Neresh Kuma Sarnas link to Katana Creative Media Limited that was incorporated in 2010 and links immediately to the fraud by SDG companies on its incorporation document. Andrew Simon Davis connects this company to over 5600 companies, including @UKPLC Director Ltd, York Place Company Secretaties Limited, Cable & Wireless Communications Limited and many more already featured throughout the fraud and being used as criminal fronts.

The Galileo Project of Harvard University also appears to be related to the supposed study of the skies and having had some involvement in the 3I / ATLAS Comet. Avi Loeb appears to be significantly involved in the Galileo Project, has connections to Israel and has claimed since 2017, a key time in the exposure, there is extra-terrestrial life in the Solar system.

Referring back to Atlas Capital Limited, Right Honourable Ralph Thomas Campion George Sherman Camoys also connects to The Royal Collection Trust and Morel Brothers,Cobbett & Son,Limited that was incorporated in 1921 and has a discreetly forged register and Begbies in its registered address, that I suspect relates to Begbies Traynor and makes immediate connections to JP Morgan.

The Cobbetts connection is possibly relevant to the Earthquake and the MI6 link to Cobbetts. The filing history shows that a David Sidney Bernstein was added as a person of significant control at an important time of 13th July 2017, 9 days after the associated Grenfell Tower fire, but this appears to have been back dated to April 2016.

Bernstein appears to be the son of Lord Sidney Bernstein who had founded Granada Group and Granada Television in 1954, the same year CERN was founded, and that became pivotal for entertainment in Manchester. Lord Bernstein received a life peerage for his work in Television and by the Queen, in 1969, the same year Charles became the Prince of Wales, where Companies House is based. There is also a possible connection with another sibling who lives in Ukraine.

Granada Limited was incorporated in 2000, is a criminal company and connects quickly to the research of Dewi Evans, one of the prosecuting doctors in the case of Lucy Letby before making links to many criminal Television companies and child related companies.

All of the directors for Jewish Community Centre UK have addresses shown in London, accept Dame Vivian Duffield who is shown as having an address in Geneva Switzerland and being a director of South Bank. South Bank connects to Abercrombie and Fitch, supposedly with its former CEO investigated for sex crimes in 2024 as a suspected cover, as the exposure continued and making quick connections from the research of Jeffrey Epstein and apparent connections to Victoria Beckham as explained elsewhere in the document.

I believe this document supports the likely infiltration of the Jewish Faith Group as part of the sinister agenda. This important so I will mention some of these companies below.

Vivian Duffield is linked to some relevant companies all registered in Geneva. This includes several war memorial related companies and Action against Abduction that was incorporated in 1999 the same year that Putin became the Prime Minister of Russia. It was originally called The International Centre for Exploited and Missing Children and changed its name on 8th October 2001, less than a month after The World Trade Centre disaster. The Mother of Richard Branson, Evette Branson is shown on page 8 of its incorporation document and Richard Branson has recently been linked to Jeffrey Epstein as well as having an Island not far from his. Virgin companies feature throughout the fraud and noticeably around the apparent connections to allegations of children's murders and around the Siemens evidence.

The Virgin Foundation was incorporated on Companies House in 1987 with an original name of The Mates Foundation and links immediately to the fraud with Stanley Davies Group on its incorporation document. According to the research, former head of FBI Chris Wray had graduated in 1989, the same year that the World Wide Web was created for CERN. In 2003, President George W Bush nominated Wray to be the '33rd' Attorney General and he was officially confirmed on '11th September' that year. He has worked as a litigation partner with King & Spalding from 2005 until 2016, the year of Trumps 'bid' to become President and the year the apparent Satanic ritual took place at CERN. Wray had also represented Russian Energy companies Gazprom and Rosneft, allowing collaboration over the fraud and crimes against humanity.

Prior to Patel, Christopher Wray had been nominated by Donald Trump to head the FBI on 7th June 2017, the week before The Grenfell Tower Fire.

In 2018, as Bowden was exposing his evidence, articles emerged that Wray had pocketed $14 million from legal firm King & Spalding, also called K&S.

King & Spalding had been originally founded in 1885 and later advised Donald Trumps real estate empire and also cited The American Civil Liberties Union and the UK's National Council for Civil Liberties is significantly connected to the overwhelming evidence that the World Trade Centre disaster was a deliberate act of Terrorism, by the International Governments and their organisations against humanity,

MI6

The Secret Intelligence Service (SIS) or MI6, was founded in 1909 as the foreign section of the Secret Service Bureau, notice it is one letter short of ISIS, the Terrorist organisation and all evidence now suggests that MI6 are actually implicated as being part of the real terrorist network, our Governments, their organisations and those that control them.

The research of MI6 mentions the controversy around its involvement in torture and extra ordinary rendition. Manchester Chief Constable, Michael Todd, had been involved in reviewing this and apparently had an untimely and unusual death in 2008 followed by the death of Neil Munro the following day, as mentioned elsewhere in the document. I now suspect the torture was used against those trying to expose the truth in the cult connected criminal system and its sinister agenda.

MI6 started to use their current building in Vauxhall on the ‘South Bank’ of the River Thames in London in 1994, the year before the important Hakluyt International Advisory Board was incorporated.

Ian Fleming is shown as having been part of the Naval Intelligence Division (NID) that had been conceived from the Foreign Intelligence Committee that had been formed in 1882. Ian Fleming wrote the James Bond books, which makes a connection to the entertainment industry and a huge part of the agenda against creation.

MI6 - Wikipedia https://share.google/1YilS6F9y3lZk8PaF

The current head of MI6 is Richard Moore who is due to be proceeded by Blaise Metreweli. In October 2025. Moore had been born in Libya and has specific ties to the state, which is likely relevant to the evidence that the UK Government and their organisations actually be behind the Lockerbie bombing, with connections made from the research of a Libyan suspect to Pan American Airways and Jeffrey Epstein as shown elsewhere in the document.

Until 2024 Moore had been a member of the Garrick Club, one of the Worlds oldest private members club, that had been founded in 1831. The Club had predominantly been for male actors and a‘Gentleman’s Club’ and has the slogan ‘All The World is a Stage’ as its emblem. The Club is renowned for members being of the legal profession.

There is an obvious connection to the fraud and the legal and illegal sex trade and apparent drug trafficking all being run by the Governments and their connected organisations.

From May 2024, as the exposure continued, The Garrick Club started to allow female members for the first time ever.

This possibly a record relating to David Courtney who had claimed to be a Gangster with ties to the Kray Twins, was an Actor and apparently committed suicide in 2023, as the exposure continued. These are important connections supporting the theory behind the agenda.

The search for Richard Moore within Companies House reveals Richard Moore Associates Limited that was incorporated at a key year of 1995, the same year that The Hakluyt

It also has Duport companies on its incorporation document making further connections to the fraud.

This record of Richard William Moore shows that he was also a director for Nettrap Limited from April 2002, that was incorporated in April 2002 and dissolved in October 2010 just before CERN Limited was incorporated. The incorporation document shows Howard Thomas and Eurolife Company Services Limited with this name connecting to key areas of the fraud as shown throughout the document and particularly stemming from the research of the helicopter crash on 10th April 2025. Wispway Properties Limited was incorporated in 1990 and Justin Marshall Priestley was made a significant person of control in December 2024 and from the people record connects to five companies including Cosmic Breath Limited that was incorporated in 2004.

A duplicate record for Jonathan Marshall Priestley within this company connects to fifty seven companies. This includes many almost identical shell company names and Eurofins MTS Consumer Product Testing UK Limited that was incorporated in 2010 as Modern Testing Services(UK) Limited. Eurofins appears to relates to COVID testing and connects to the research of Marcus Mccorkell of Dorset Police as shown later.

The name was changed for Eurofins MTS Consumer Product Testing UK Limited for the first and only time in May 2022, as I was making enquiries at Exbourne Manor. It shows Lee & Priestley LLP on its incorporation document, a company I had not seen before.

Lee & Priestley LLP was incorporated in 2006 and its name was changed to Sunbridge Lamp LLP in October 2012, three months after CERN discovered the God Particle.

John David Coleman connects Sundridge Lamp LLP to Cobbetts LLP that is also shown on the Christchurch Earthquake appeal company incorporation document.

Julie-Ann Elizabeth connects Cobbetts LLP to Bradys Solicitor, which is the Solicitors that the directors of Exbourne Manor Freehold Limited tried to use as a fraudulent legal process and threaten to steal my home. The Satanic Temple United Kingdom

There is, without doubt, a Satanic cult connection to all of this. The Satanic Temple United Kingdom company was incorporated in 2023, prior to a connection being made to a Satanic Cult and has an address in Southampton that is used throughout the fraud. The company dissolved on 2nd July 2024, the very same day that I publicised evidence of Adrenochrome, the blood taken from tortured children being hugely connected to the fraud.

Since being exposed Companies House appear to have prevented the link form working, but the company appears to be found with a manual search.

https://find-and-update.company-information.service.gov.uk/company/14668882

There are duplicate name records for the Satanic Temple United Kingdoms only director, Tiffany Williams that link quickly to the main companies in the fraud.
One record of Tiffany Caroline Williams connects to Batt Williams Buildings LLP that was incorporated in September 2012, two months after CERN discovered the Higgs Boson or God Particle and dissolved in March 2022, as I am making enquiries at Exbourne Manor. Ben Williams of that company connects to Eco Warriors Renewable Energy (UK) Limited and Gordon Rautenbach of that company links to Daarasp LLP, the same company that the head of the FBI, Kash Patel is connected.

Link to Tiffany Williams search Companies House record: https://find-and-update.company-information.service.gov.uk/search?q=Tiffany+williams

Daarasp LLP was incorporated in 2003, has a Jersey address and 'Pie'dama Limited on page 2 of its incorporation document. The filing history shows that an application to dissolve the company began in February 2022, as I am starting to make enquiries within Exbourne Manor. This is the same month that Vladimir Putins Special Military Operation against Ukraine began and that month after Owen Film Partnership dissolved with close connections to 'Betts' names and with Steven Owens having been the Secretary and Managing Agent to Exbourne Manor Freehold Limited and connecting quickly to the Russian Government in the Companies House research. On me making my early enquiries within Exbourne Manor, Owen had refused to answer any questions and gave immediate notice to resign with other director Diana 'Betts' being the only other person present and apologising to Owen.

The Jersey address with Daarasp is also important, as Jersey is a UK Island Tax Haven and where the apparent mass murders of children was being investigated at Haut De La Gerenne linking to Jimmy Savile in 2007 and Ghislaine Maxwell has been connected quickly to an informal Parliamentary Island group on Companies House that had been implemented by Isle of Wight MP Bob Seely.

Articles regarding Piedama Ltd and Daarasp suggest it had been involved in a scandal of missing £43.5 million. These articles appear to have been removed from the internet since being exposed, but I have retained them. 'Pie' possibly refers to the Paedophile Information Exchange as mentioned later in relation to the World Trade Centre disaster.

Peter Hargreaves of Daarasp link to several companies that appear to be related to the threat from directed energy including Beam Carrier Trading Limited that is a criminal company having been incorporated with Jordans Limited.

Peter Hargreaves - Wikipedia https://share.google/hKD54facKu2J7IynZ

Peter Hargeaves appears to be the Co-Founder of Hargreaves Lansdown that was listed on the London Stock Exchange on 15th May 2007, less than two weeks after Madeleine Mccanns disappearance. Although the company was founded in 1981, there appears to have been significant changes since the fraud started to be exposed and it was acquired in 2025 and removed from the stock exchange.

Hargreaves Lansdown Limited was incorporated in 1987 and according to the overview its name was changed in 2025, as the exposure continued, for the first time since 1988.
The filing history shows that on 22nd May 2007, its register was changed location to Lloyds TSB.

Jonathan William Bloomer connects Hargreaves Lansdown Limited to 32 comoanies including Morgan Stanley Companies and Medway Films LLP and Marsh Mcclennan India Holdings Limited that makes connections to the research of the World Trade Centre disaster.

Hargreaves also connects to Catco Kids LLP and Vishwas Sapatnekar connects the company to The Close Film Sale and Leaseback (2004/5) LLP that had a registered address of Frp Advisory, Kings Orchard, Queens Street and having dissolved in May 2024, as the exposure continues. Close Film Sale and Leaseback companies feature throughout the fraud.

Roy Addison of The Close Film Sale and Leaseback (2004/5) LLP connects to the Royal Television Society, that features throughout the fraud.

David Allonby of The Close Film Sale and Leaseback (2004/5) LLP connects to The Invicta Film Partnership No.27, LLP that was incorporated in 2004 and dissolved in 2023. Caroline Susan Betts is shown as a director for this company and Marcus Bemrose connects to Owen Film Partnership LLP. This company was incorporated in 2004 and dissolved in February 2022 as I am starting to make early enquiries at Exbourne Manor. This the same month that Vladimir Putin announced his special military operation against Ukraine and the research of Steven Owens who had been the managing agent for Exbourne Manor Freehold Limited links quickly to the Russian Government. Turcan Connell is shown in the registered address, which also becomes important in the research of my wifes former employer leading to the Treasure Island Kids Limited Liability Partnership company and Virgin Foundation companies.

Research of Turcan Connell shows that Turcan Connell (Trustees) Limited has a registered address in Edinburgh and was incorporated on 19th February 1955 as Dundas & Wilson (Trustees) Limited, five months before Disney Land Park opened in America, which appears to be relevant to the potential murder of the real heirs to the throne, mentioned later. Its name was changed for the first and only time on 18th August 1997, less that two weeks before the death of Princess Diana. Within two months the original founder of the Church of Satan also died. I suspect an infiltration of the Church of Satan took place around this time to make future plans appear to be Satan and to fit falsified biblical prophecies.

Princess Diana

There are various references to Princess Diana throughout this document and she is clearly an important aspect in relation to the fraud with it being almost certain that her death is not what we have been led to believe.

According to the research, Diana was born in 1961 and was educated in Kent, Hampshire and Switzerland, all important areas in the fraud. It was in 1981, whilst working at a childrens

nursery Young England School in Pimlico, that Diana became engaged to Prince Charles. I suspect it is no coincidence that they separated in 1992, the same year that the Companies House register started to become electronic and divorced in 1996, a year before her apparent death and as the Companies House research suggests the plans were being made for the World Trade Centre disaster. Diana had involvement in various projects including AIDS and the Red Cross in relation to Minefields and both organisations are part of the fraud.

Diana, Princess of Wales - Wikipedia https://share.google/gQWDchuiKthJtaRRM

In the mid-nineties articles emerged that Diana had been having an affair with former British Army Officer James Lifford Hewitt from 1986 until 1991.

James Hewitt - Wikipedia https://share.google/3SMYe8JBSR1TXMr4D

A Companies House search of James Lifford Hewitt reveals two records meaning there had been a deliberate duplication with one of the records connecting to 3 companies, Mad Foundation Limited, Thornton Science Ltd and Aternum Astra Ltd.

https://share.google/O8jK9ihMVzocTqwSY

Mad Foundation Limited was incorporated in 2000 and its name was changed in July 2007, two months after Madleine Mccanns disappearance and again in May 2008

Lynne Marie Symonds connects Mad Foundation to Commonwealth Association of Science, Technology and Mathematics Educators that was incorporated in December 2003 and has a registered address of Octavia Octavia, possibly making reference to Octagon that has featured at key points of the fraud. It has Interchange Legal Advisory Service of an address of Hampstead Town Hall Centre on its incorporation document. Although I have not focussed on this, it does feature in the fraud and makes a connection to Hampstead, the location of the significant Hampstead Child abuse enquiry.

Interchange Legal Advisory Service appears to have been removed from the register, but a Google search reveals Legal Advisory Services limited that was incorporated in February 2019 and is in the process of being struck from the register. The only director Adele Lee Wakefield connects to Ansons LLP that was incorporated in 2003 and dissolved in 2023, as the exposure continued. Martin Edward De Ridder had been positioned as a signficant person of control in November 2022 and connects to 15 companies including

LEGAL ADVISORY SERVICES LIMITED overview - Find and update company information - GOV.UK https://share.google/KQ6lJ4QgX4MryyYto

Thornton Science Ltd was incorporated in 2021 and its second director is shown as Neil Hayes.

A seperate search for Neil Hayes reveals a record for a Neil Charles Hayes that connects to 2 companies called Jab! Jab! Jab! Limited with one having been incorporated in October 2017 and having dissolved in 2023, as the exposure continued. The filing history shows that on 17th August 2022, as I am making enquiries at Exbourne Manor, the companies registered address was changed twice and one of the addresses had been Telecom House, Preston Road Brighton and Knoll House with the exact same postcode. 2017 was around the time that I suspect plans were being made regarding the COVID deception after the system started to be exposed by the Pizzagate Scandal and Gordon Bowden.

Companies House record – Neil Charles Hayes
https://find-and-update.company-information.service.gov.uk/officers/6mzfd0CRwYjdglN5HCFg-pkc7hU/appointments

Aeturnum Astra Ltd was incorporated in 2021 and dissolved in December 2022, as Imade the first official reports to Action Fraud. It is possible that Astra is making reference to Astrazeneca. The filing history shows that both Hewitt and second director Neil Anthony Hayes both resigned in July 2022, the same month that Anthony Roberts of Exbourne Manor Freehold Limited resigned, triggering the exposure.
A third director, that I suspect is a false name of Baljinder Kaur Sangha connects Aeturnum Astra Ltd to five companies including PSS Trading Limited that was incorporated in 2003 and has Steven John Scott on its incorporation document, which is likely a fictional or stolen identity connecting to over 2600 companies.

These companies include, Cancer Relief UK that has a forged incorporation document, Spectrum Homes UK Limited that connects to over 2600 companies via Jaqueline Scott and appears to make reference to the Spectrum / Sovereign Housing company featured in the research stemming from the helicopter crash in the US on 10th April 2025 and leading to CERN and criminal United Nations Companies, Maddie UK that was incorporated in 2006, the year before Madeleine Mccanns disappearance to name just a few.

There are criminal companies connected to Dianas name throughout the research with a more recent discovery of The Diana Princess of Wales International Study Centre Limited that was incorporated in 2005 and has The London Law Agency on its incorporation document.

A search for Diana Spencer within Companies House reveals Collective Enterprises Limited that was incorporated in May 1987. The company connects immediately to the fraud by Daniel John Dwyer and D & D Law Agency Services Limited on its incorporation document. These feature throughout the fraud and is shown in more detail within the research of Tommy Robinson. The Filing History shows that on 1st March 1989 Collective Enterprises Limited had a registered address of Pearl Assurance, 'Princess Street', Manchester. 1989 is when the World Wide Web was created for CERN.

Mohammed Ramzan connects Collective Enterprises Limited to 79 companies including Project Crown Bidco Limited that was incorporated in 2023. David James Baldwin connects this company to Help Harry Help Others that was incorporated in 2012 and links to other research of the fraud by Bloomer Heaven Limited on page 17 of its incorporation document.

There many other connections to the fraud from here and we can safely assume that this record is making reference to Princess Diana and possibly involved her knowledge of the criminal system that she was part of.

Donald Trump

The previous connection to Turcan Connell (Trustees) Limited, Owen Film Partnership LLP from The Satanic Temple United Kingdom and Dundas & Wilson, becomes significant to Donald Trumps position and connections to the crimes against humanity and particularly children.

According to the research, Donald Trump opened a Scottish Golf Club in 2006, the year before Madeleine Mccann went missing. The research from this quickly links to Jimmy Savile, members of the Royal family including Prince Andrew and Princess Anne and Masonic companies, the Nazi regime and collider technology.

A Companies House search connects a record for Donald Trump to three companies including Trump Hotel St. Andrews that was incorporated in May 2008 and dissolved in June 2010, the same year that CERN Limited was incorporated. Dundas & Wilson CS LLP of an address in Edinburgh is shown on its incorporation document, where the Worlds oldest active Freemason Lodge is based and information suggests it could be the real Jerusalem.

Dundas & Wilson CS LLP was incorporated in 2004 and dissolved in June 2023, as the exposure of the fraud continued. Steven Miller was appointed as a director for this company in October 2019, two months before the supposed COVID outbreak and connects to 'Souled Out Limited' and Nabarro LLP.

Dundas & Wilson CS LLP – Companies House:

Nabarro LLP was incorporated in January 2008. The filing history shows several pages of changes being made to its members details on 16th February 2011, six days before the Christchurch Earthquake in New Zealand and it stops just before the date of the Earthquake. In December CMS Cameron Mckenna Holdings is shown as a company of significant control and Cameron Mckenna Olswang LLP is shown as ceasing being of significant control. This is the same month that I made an official report of the fraud.

Patricia Elizabeth Goddfrey connects Nabarro LLP to German-British Chamber of Industry and Commerce that was incorporated in 1971, the same year as the World Economic Forum and the overview claims its name was changed for the only time in 1993, two years before the Hakluyt International Advisory Board was incorporated. Its register has been forged and Jordans & Sons Limited is on its incorporation document.

Karl Christopher Ennis connects German-British Chamber of Industry to The Engineering and Technology Board and critically Siemens Public Limited Company that connects to Jeffrey Epsteins Edge Foundation, Collider technology and much more as shown in the research stemming from the research of the Helicopter Crash.

Rashada Harry connects The Engineering and Technology Board to Big Bang Education CIC that was incorporated in May 2010, the same year as CERN Limited. It connects to key areas of the fraud and apparent crimes against children via Bates Wells & Braithwaite on pages 20 and 21 of its incorporation document.

Sir Anthony Brian Cleaver connects Big Bang Education CIC to 31 Companies including the Foundation for Science and Technology that makes quick connections to the research of the Christchurch Earthquake in New Zealand in 2011, the Intelligence agencies and Ghislaine Maxwell as shown elsewhere in the document.

Cleaver also connects Big Bang Education CIC to Lockheed Martin UK Holdings Limited, Robin A Technology Realisations PLC with KPMG as its registered address making an immediate connection to Dorset Chief Constable Amanda Pearson and 'skin' and 'Clinton' companies, English National Opera with Opera companies appearing to be relevant to the Christchurch Earthquake as well as IBM Companies that had already connected to the research of the World Trade Centre disaster.

Referring back to Nabarro LLP, Stephen Samuel Alexander Millar also connects to CMS Cameron Mckenna Nabbaro Olswang LLP

Outward Bound Global is connected immediately to Jimmy Savile, McDonalds Restaurants and quickly to Jeffrey Epstein as shown throughout the document. Outward Bound Global was incorporated as Outward Bound Trust (The) in 1946. This is the same year as UNICEF begun and a year before the Association Chief Police Officers and The Doomsday Clock were created. Its register has been forged and its name was changed to The Outward Bound Trust in 1997, four years before the World Trade Centre and the same year as Princess Dianas supposed death. It name was changed for the last time in 2009, the same year that The Royal Foundation of The Prince and Princess of Wales was incorporated and that links all areas of the fraud.

Referring back to Donald Trump, despite all of his promises of disclosure Trump has supported the withholding of information in relation to Jeffrey Epstein. I suspect this is due to the continued exposure of the fraud and exposing that the child abuse appears to be a cover for much more.

Until recently it appeared that the blame was being laid on Pamela Bondi regarding this, supposedly Americas highest ranking prosecutor.

Searching for Pam Bondi on Companies House through Google reveals Bondi Limited, that was incorporated in 1997, four years before the World Trade Centre disaster and having dissolved on 3rd April 2012, sixteen days before Jeffrey Epstein appeared to hold a meeting with Stephen Hawking and CERN scientists and three months before CERN supposedly discovered the Higgs Boson or God particle. The directors of the company connect to numerous Aldi and Zephyr Companies.

Aldi is a German origin supermarket chain and with roots going back to 1913, but having been founded, again in key year of 1946, the same year UNICEF was formed appearing to facilitate child trafficking through the United Nations, a year before the Doomsday Clock began and two years before The Israeli-Arab War that had been fomented by the Rothschilds from the Balfour Declaration of 1917. Aldi separated into Aldi North and Aldi South in 1966, the same year as the foundation of the Church of Satan and expanded Internationally from 1967. Someone has suggested the name was chosen deliberately as it could be read as ‘All Die’.

All Supermarkets have been centralised to the criminal system, just like everything else. They seem to believe this gives them the right to contaminate or poison the food chain to supress and cause suffering to the masses.

Here are just a couple of examples of Aldi Companies House records.

Aldi Limited was incorporated in 1989, the same year that the World Wide was created for CERN and its creator linking quickly to Exbourne Manor Freehold Limited. This has D & D Law Agency Services limited on its incorporation document and this has dissolved since being exposed and connects to the research of The Satanic Temple United Kingdom and Tommy Robinson, shown later.

10513472 Ltd was incorporated as Aldi Group Limited in December 2016, five months after the apparent Satanic ritual at CERN and changed its name in October 2017 after Louse Smyth, whom I suspect is related to John Smyth related The Archbishop of Canterbury resignation, and become the CEO for Companies House. Reverend Paul Graham Knighton is shown as being a significant person of control and a director for the company and connects to various religious companies and to Ripoff Limited.

Referring back to Bondi Limited, Edge & Ellison is shown on the incorporation document and a separate search of this reveals The Trustee Corporation Limited that was incorporated in 1986 as Hartopp Trustees Limited before changing its name to Edge & Ellison Trustees Limited in 1992 as the Companies House register was becoming electronic. The last time its name was changed was either side of the World Trade Centre disaster, when its name was Hammond Suddards Edge Trustees Limited. Despite being an active company it has not changed its name since and I suspect there will be a connection to Jeffrey Epsteins Edge Foundation somewhere. Hammond Suddards is mentioned throughout this document at various points and appears to make connections to the research of Jeffrey Epstein, Max Clifford and Advisor to the last few Prime Ministers, Douglas Smith.

THE TRUSTEE CORPORATION LIMITED overview - Find and update company information - GOV.UK https://share.google/aojAD9jryBOFZwLcd

Vivian Cockerill connects The Trustee Corporation Limited to Schroder Pension Trustees Limited that was incorporated in 1929 and has a discreetly forged register with spaces added. Schroders features at key times in this document and was the company that apparently deceased Thomas Kingston worked for.

Elizabeth Graham connects The Trustee Corporation Limited to Brabners LLP that is already featured in the research of the cell tower overlooking Fort William and the apparent mass murder of children on Jersey.

Ian Greenstreet connects The Trustee Corporation Limited to CMS Cameron Mckenna Nabarro Olswang LLP and Nabarro LLP, already featured.

David Griffiths connects The Trustee Corporation Limited to Eversheds Sutherland (International) LLP.

I could go on.

More recently the blame now appears to be laying with Judge Robin Rosenberg, who has supposedly refused to release the information on the Epstein list although I suspect she is being used as a scapegoat.

Research shows that Rosenberg was a partner at Holland & Knight LLP from 1997 to 1999, a Vice President at Slim Fast Foods from 1999 to 2001, a partner as Rossenberg & Mccauliffe PL from 2001 to 2006 and concurrently managed ARC Mediation.

Companies House shows that Holland & Knight (UK) LLP was incorporated as Clark Ricketts LLP in April 2007, less than a month before Madeleine Mccann went missing. Its name was changed in May 2016, three months before the apparent Satanic ritual at CERN. The Filing history shows that the company registered address was changed from Waterman House in February 2017.

When searching for Ricketts LLP, Ricketts & Co. Limited is revealed with an address in Hampshire and having been incorporated in 1997. The name Ian Saunders and Waterlows is

shown on the incorporation document, which appears to be forged. This name connects to Vistra one of the main companies in the fraud. Christopher Mark Walker Ricketts connects this company to St Annes Catholic School that was incorporated on 9th July 2012, two days before CERNS discovery of the Higgs Boson or God Particle.

Margaret Rachel Cooper connects St Annes Catholic School to Hampshire & Isle of Wight Community Foundation, that was incorporated in September 2002 and had Blake Lapthorn on its incorporation document. Krysia Stefania Butwilowska connects Isle of Wight Community Foundation to Royal Navy Club and Royal Albert Yacht Club Limited that was incorporated in 2013 and is in the process of liquidation with Begbies Traynor of Prospect House, Ocean Way, Southampton as its registered address, with Begbies Traynor featuring throughout the fraud and linking quickly to JP Morgan companies and the Flemings.

Peter Graham Cordrey connects Royal Navy Club and Royal Albert Yacht Club Limited to various financial companies including Hampshire Trust Bank PLC, that featured in research of the World Trade Centre. Hampshire Trust Bank PLC is a criminal company with both Jordan & Sons Limited and The London Law Agency on its incorporation document, which I think is the first time I had seen these companies together.

Holland & Knight (UK) LLP, Debra Anne Erni connects the company to Aviation Law Services Limited that was incorporated in 2005 and dissolved in May 2025, as the exposure continued. It is a criminal company with Jordans Limited on its incorporation document.

Erni also connects to DLA Piper UK LLP was incorporated in 2004 and connects to the fraud immediately by the address of 101 Barbirolli Square, Manchester on its incorporation document that features throughout the fraud and is shown on the incorporation document for College of Policing. DLA Piper companies also feature on the research of David Cameron and BCP Council, heavily implicated in the fraud.

Ian Fredrick Clarke connects Law Services Limited The Preshaw Estate Management Co Limited that was incorporated in 1993 and has a registered address of 24a Southampton Road, Ringwood, Hampshire. It is a criminal organisation with Michael John Hope of The London Law Agency and an address of 84 Temple. Chambers, Temple. Avenue on its incorporation document. The filing history shows that the registered address was changed six days after registration and that on the 9th September 2024 Queensway House, 11 Queensway, New Milton was removed as the registered address. This is also used throughout many areas of the fraud including in the research of Julian Assange.

As the exposure continued showing irrefutable evidence of Donald Trumps connections to the criminal network and associated crimes against humanity, on 8th September 2025, articles emerged that US House Speaker Mike Johnson had made claims that Trump had been working as an anti-Epstein FBI informant before backing retreating amongst criticism.

A Companies House search shows a company called Charles Kirk Limited was given its name in 2021 and links immediately to the fraud and Exbourne Manor with the main Companies in the fraud, Swift Incorporations Limited and Jordan & Sons Limited on its incorporation document.

CHARLES KIRK LIMITED overview - Find and update company information - GOV.UK

A search for Turning Point USA shows that a comoany called Turning Point was incorporated as Helping Hand Organisation Limited (The) in 1964 before its name was changed in 1984 and again ag key time of 1991. It has a forged register.

Referring back to the research surrounding The Satantanic Temple United Kingdom and Daarasp, Hargreaves also connects to PI Cubed LLP that was incorporated in 2003 and dissolved on 12th September 2023, as the exposure continued. It has a forged register and what appears to show the blatancy of the Companies House fraud and possibly making reference to the Cube of Satan cult. The companys incorporation document has the PIE symbol with the number 3 above and an address of 3 Temple Gardens, Temple, London. At the bottom it a note saying: ‘The name is the Greek letter followed by the mathematical symbol for cubed i.e. a number 3 at Superscript level’. PIE has significant relevance to the fraud in relation to The Paedophile Information Exchange as mentioned later

Michael Gabrielle Sherry of the PI Cubed company connects to Ingenious Film Partners 2 LLP where they were a director from 2008 until April 2001, three months before Larry Silverstein acquired the lease for the World Trade Centre.

Scott Chilton had been the Chief Constable for Dorset Police and Sam De Reya The Assistant Chief Constable at the time of me reporting the fraud in 2022. Chilton transferred to Hampshire and Isle of Wight Police after they tried filing my reports, followed by Sam De Reya and Chilton later 'retired' on the exact same day that I released my evidence of the Satanic Temple United Kingdom and that featured Chilton. The official reports claim he is being investigated for gross misconduct, but I suspect it will be due to the exposure. Information shows that Chilton originally joined Hampshire and Isle of Wight Police in 1992, a key time in the fraud, due to this being the year of the initiation of the electronic register on Companies House and the electronic register is what's being forged.

Donna Jones was the PCC for Hampshire and Isle of Wight and connects to a key company in the fraud, The National Museum of The Royal Navy. This is because it links quickly to the research of Deborah Fleming, her husband John Fleming and the Archbishop of Canterbury, all from the companies on page forty three of the incorporation document.

I had also received information that Laura Nina, connected to the Rapid Response Teams and therefore Trevor Mealham and Mikey P, was using a false name, working for the Sicilian Mafia and supplying information to Donna Jones. I established a Companies House record from the research of Ninas alias name that links back into the same companies in the fraud. When I publicised this, Nina appeared to try and cover her tracks and the link was removed from Google, but I had secured screen shots.

The National Museum of The Royal Navy links to key areas of the fraud and Ian Fleming had been a naval officer with connections to the intelligence agencies as well as writing the James Bond novels and making a connection to the entertainment industry.

Having transferred to Hampshire and Isle of Wight Police, Scott Chilton had been replaced by

former Metropolitan Police Chief, Amanda Pearson.

Companies House appears to show that Pearson became a director for KMPG LLP in May 2002 and for KPMG Europe LLP in October 2007. KPMG Europe LLP shows Linklaters and addresses on its incorporation document, making connections to Linklaters & Paines and therefore both Pfizer and Astrazeneca Vaccine companies. KPMG are significantly connected to the fraud and to my Wifes family by her cousin Victoria Proctor and according to the research KPMG were also used as the Auditors for Bournemouth, Christchurch and Poole Councils accounts around the time head of the Council, Andrew Mellor, resigned. This was after I had made my report and Mellors companies connect to Vistra, the main company in the fraud and articles had emerged of potential mis-appropriation of Council Tax funds.

There appear to be several other possible duplicate records for Pearson, remembering that there has never been any verification with Companies House deliberately by the Governments and their organisations, allowing them to defraud and launder trillions from the masses and knowingly facilitate crimes against humanity and it seems particularly children, the most innocent of all.

One record connects to 'Skin' Revolution Limited that was incorporated in October 2016, two months after a supposed ritual took place at CERN. I seem to be finding a few 'Skin' companies with 'Skinners Academy' being connected immediately to Ghislaine Maxwell from the research of where my Wife worked as a Nanny, called Little Stars, shown elsewhere in the document.

Another record for an Amanda Pearson connects to Red Horse Foundation CIC which was incorporated in 2010, the same year as CERN Limited and dissolved in July 2024, as I was establishing connections to adrenochrome and the fraud. It has Coddan CPM Limited on its incorporation document, which features in the research of Sonia Poulton and quickly to Blackpool Pleasure Beach and the apparent infiltration and possible murder of the real Royal Family in the late 1950's to early 1960's as explained later.

Amanda Elaine PEARSON personal appointments - Find and update company information - GOV.UK https://share.google/YR6vdjO3hVvLnJQJQ

This record for Pearson also connects to UK Co Housing Network C.I.C that was incorporated in July 2007, a month after Madeleine Mccann went missing and changed its name in April 2022 as I am making enquiries at Exbourne Manor. Jennifer Borden connects this company to various 'Crown Agents' companies featured throughout the fraud, religious organisations including The

British and Irish Churches Trust Limited and British Overseas NGOs For Development (Bond) that features in the research stemming from the Helicopter Crash on 10th April 2024 and connecting quickly to Siemens, criminal United Nations companies and collider Technology.

Another record shows Pearson Films Ltd that was incorporated in 2011 and Sebastian William Orlando Pearson connects this company to Pearson Films (Black Jaguar) Limited that was incorporated in 2014 and dissolved in November 2023, as the exposure continued. It has SDG on its incorporation document, referring to Stanley Davis Group which is mentioned on an article regarding international fraud regarding non-verification within Companies House identified by Gordon Bowden prior to his death. I have been informed that he was murdered.

Sebastian Pearson also connects Pearson Films Ltd to Hogarth Pictures Limited that was incorporated in 2004 and has a registered address of Bakers Street, London that features throughout the fraud. Waterlow Companies are on its incorporation document, making a connection to one of the main companies throughout the research of the fraud. Bedford Secretarial Limited is shown in the people record and connects to 94 companies including 'Hampstead' West Homes Limited that dissolved in June 2022, a month before Anthony Roberts of Exbourne Manor Freehold Limited and a registered address of Begbies Traynor, that features at key times in the fraud and makes almost immediate connections to JP Morgan and The Flemings. Hampstead is the location of the Hampstead child abuse and murder enquiry that appears to have been covered up by the Police.

Sebastian Pearson also connects Pearson Films Ltd to Black Horse Securities, again with Waterlow Companies on its incorporation document. This appears to make reference to Lloyds Bank, where the forged documents I acquired through Exbourne Manor appeared to relate and Black Horse Group connects quickly to the research of Rishi Sunak and the Hampstead Child abuse case via Centrica as you will see later.

Amir Kamran Naghdi connects Pearson Films Ltd to Fieldfisher LLP, that although is throughout the fraud, I haven't focused on much. They also connect to 'Clintons LLP'. Charles Gerada connects this company to Hanover Secretaries, that features throughout the fraud.

Peter Harlow Button connects Clintons LLP to Eel 'Pie' Publishing Limited, another possible reference to the Paedophile Information Exchange as mentioned throughout the document. Peter Townsend is shown as a secretary for Eel Pie Publishing Limited and makes connections into the entertainment industry with companies such as Whistler Records LLP that dissolved in May 2022 and Quadrophenia Productions Limited that was incorporated in 2004 and dissolved in

December 2024, as the exposure continued. Townsend also connects to Pete Townsend LLP and Serene Days (Yacht Charter) LLP that appear to connected into hundreds of luxurious holiday companies and Hotels including Savoy Hotels.

Pete Townshend - Wikipedia https://share.google/Xh6D4ZZtKksh9iOX7

James Bennett Jones connects Clintons LLP to Ingenious Film Partners LLP making a connection to Hollywood and Ingenious Film Partners 2 LLP being on page 40 of The Royal Foundation for the Prince and Prince of Wales. A Police report has been submitted to the Police in relation to this latest evidence and as with all others, is being completely ignored.

With this latest information it is hard not to consider the video that others have claimed, appears to show Hilary Clinton and others carry out particularly horrific acts against a young girl including skinning their face whilst alive and linking to the Pizzagate scandal that is mentioned in more detail within the research surrounding the Intelligence Agencies.

The Royal Foundation for the Prince and Princess of Wales and Ingenious Film Partners

Ingenious Film Partners 2 LLP is incredibly important and links every area of the research of the fraud to the movie industry as Ingenious Film Partnership is part of the Ingenious movie company.

Ingenious Film Partners 2 LLP is shown on page forty of the incorporation document of The Royal Foundation of The Prince and Princess of Wales company that was incorporated on 29th September 2009, within two weeks of me becoming a director for Exbourne Manor Freehold Limited.

It was originally incorporated as The Foundation of Prince William and Prince Harry and its name was changed to The Royal Foundation of the Duke and Duchess of Cambridge and Prince Harry on 12th July 2012, eight days after CERN supposedly discovered the Higgs Boson or God Particle as mentioned throughout this document.

Its name was changed to The Royal Foundation of the Duke and Duchess of Cambridge and the Duke and Duchess of Sussex on 11th June 2018 that appears to coincide with Gordon Bowdens exposure of the fraud, as mentioned later.

Its name was changed again to The Royal Foundation of the Duke and Duchess of Cambridge on 6th September 2019, a month after cell towers were erected in Wuhan and three months before the supposed COVID outbreak in Wuhan.

Its name was changed for the last time on 10th November 2022, as I am making enquiries within Exbourne Manor and within two weeks of Elon Musk wearing a costume with a Baphomet on to a Halloween party. More on Musk later.

Link to The Royal Foundation of the Prince and Princess of Wales Companies House record: https://find-and-update.company-information.service.gov.uk/company/07033553

Important connections were made to The Royal Foundation for the Prince and Princess of Wales and an apparent International collaborative threat from directed energy, which would include cell Towers and colliders. This was established during my research of UK Prime Minister at the time, Rishi Sunak and on the same day that I publicised this evidence, the apparently Satanic portrait of King Charles was unveiled, as explained elsewhere in the document.

Bates Wells and Braithwaite is also shown on several pages of the document and makes important connections to Kier Starmer and Madeleine Mccann as mentioned later. The company had been founded by Lord Andrew Philips of Sudbury, who supposedly died in 2023, as I am continuing the exposure. The company has clients that include Sean Coombs aka P Diddy where an investigation into child crimes began in 2024, potentially implicating high profile figures, and Cancer Research UK.

Cancer Research UK was incorporated on 20th November 2001, just over two months after the World Trade Centre disaster. The company was incorporated by Farrer & Co that links with Ghislaine Maxwell and it has several important companies from page 46, incuding Astrazeneca and some of the same companies on page 40 of The Royal Foundation for the Prince and Princess of Wales.

King Charles

According to the research Charles was made Prince of Wales and Earl of Chester by letters patent on 26th July 1958 as the age of nine and formerly invested as the Prince of Wales on 1st July 1969. Wales is where the main Companies House Office would be based and who commit the fraud to create the criminal companies, now running the World.

On 29th July 1958 President Eisenhower signed an act leading to the creation of NASA that same year, with it being one letter short of being able to spell SATAN. The first moon landing supposedly took place on 20th July 1969 and involved NASA. These similarity in dates to events with Charles, are unlikely coincidental and I suspect it set the stage for the mass deception against humanity.

In February 2022, as I am making early enquiries at Exbourne Manor, an article emerged claiming that Buzz Aldrin made comments suggesting the moon landing may not have happened. The filing history shows that its registered address was changed in April and May 2025.

William Philp Arther Louis Windsor is shown as being a driector from 9th September 2022 until February 2024, as the exposure continued.

James Thorne connects JV Energen LLP to 94 companies including New Generation Europe, a criminal organisation having been incorporated with the same companies as Exbourne Manor Freehold Limited and connects immediately to the research of Justin ‘Portal’ Welby linking to the Rothschilds and The Russian Government as shown elsewhere in the document.

James Thorne also connects JV Energen LLP to Tonbridge School that was incorporated in 2003, has a registered address in Tonbridge Wells, kent the Town where Princess Diana was educated and Farrer & Co and Oyez on its incorporation document. Katherine Felice Leigh-Pemberton of an address in Fordingbridge, Hampshire and them connecting to Financial Ombudsman Services

Katherine is likely related to James Leigh-Pemberton that research suggests was the Receiver-general for the Duchy of Cornwall from 2000 until 2022 and has connections to the Bank of England and Credit Suisse Bank. Sir William Roger Tomkys of an address of Master Lodge at Pembroke College, Cambridge. Research shows Tomkys was knighted by the Queen in important year of 1991 and learned Arabic at the Middle East Centre for Arabic Studies in Lebanon, and immediately began his diplomatic career with a posting in Amman, Jordan, where he served from 1962 to 1964. He served as British Ambassador to Bahrain (1981–1984), and Syria (1984–1986), and as High Commissioner in Nairobi from 1990 to 1992. This supports the theory of an agenda of a falsified biblical prophecy.

I later found out that on the same day, the first Portrait of King Charles was unveiled and that it appeared to have an inverted image of a Baphomet and that being the symbol for the church of Satan. I suspect this was staged to make me believe that the evil behind this was the Church of Satan to lead into a falsified biblical prophetic situation to maintain control for their conclusive agenda.

On 27th August 2025 I received information that suggested King Charles' alias or possibly real name is Frederick Lee. A companies House search shows various entries with one connecting to Blyth Masonic Building Limited where they were shown as a director from January to September 2005.

Blyth Masonic Buildings Limited was incorporated in 1932, the same year that CAPB Limited was originally incorporated as Robert Fleming & Co.Limited and that changed its name the day before Larry Silverstein acquired the lease for the World Trade Centre. There does not appear to be any opportunity to view the incorporation document, which is highly unusual.

On searching Blyths connection to King Charles an interesting and likely relevant article is revealed referring to Charles Blythe, the last Scottish Gypsy King. The connections being made to the Kray Twins, their Gypsy background and the research suggesting their possible involvement in the infiltration of the real Royal family cannot be ignored. It has to be considered that a fake name of Charles was used for this reason.

The Kray Twins and Carol Anne Kelly

Research suggests Caroline Anne Kelly was friends with the Krays and supposedly converted Reggie to a Christian whilst in Prison on the Isle of Wight, before he was transferred to Maidstone Prison in kent.

Caroline Kelleway is a similar name that features through the Companies House research at key points, particularly connecting my families to Exbourne Manor.

Rishi Sunak

Much of the important evidence regarding The Royal Foundation for the Prince and Princess of Wales was acquired whilst researching, then UK Prime Minister Rishi Sunak. Here is the research.

In February 2024 articles emerged of Sunaks family company Infosys being given VIP access to millions in tax payers contributions. Infosys Limited on Companies House showed an address in India and Narayna Murthy of this company connects to DBS Bank Ltd that has an address in Singapore and despite its incorporation document having an address in London, does not appear on the overview.

Mondas Pai Telecherry 'Venkataraman' (notice how its similar to Catamaran) of Infosys Limited connects to International Financial Reporting Standards Foundation that was incorporated as International Accounting Standards committee Foundation in May 2001, two months before Larry Silverstein acquired the lease for the World Trade Centre. Its form 691 document appears

forged with the normal template document lines missing, it has an address in New York and shows Centrica PLC.

Centrica PLC was incorporated in 1995, the same year as the Intelligence agency and Russian Government linked company, shown on Page 40 of the incorporation document for The Royal Foundation for the Prince and Princess of Wales. Centrica PLC is a criminal organisation started with Swift Incorporations Limited and Jordan & Sons Limited, the same companies that incorporated Exbourne Manor Freehold Limited.

Timothy Faithful of DBS Bank Limited connects to Canada-United Kingdom Council that has already featured in this document linking to the research of the Doomsday Clock, as shown later.

Faithful also links to Shell Response Limited incorporated in November 1913 as Shell Company of Venezuela Limited (The) before changing its name in December 1991. Its register has been forged with a completely different name on its incorporation document, but the same date.

Philip Paillart of DBS Bank Limited connects to Standard Charter PLC that was incorporated in 1969, the same year that Charles became the Prince of Wales and it has important company Slaughter & May on its incorporation document. More on this later. Standard Charter PLC has a forged register. Paillart also connects to Black Horse Limited incorporated in 1960, changing its name to Chartered Trust Public Limited in 1979, the same year the Georgia Guide stones, representing a 'man made apocalyptic event' were being designed, and changed again on 5th July 2001, nineteen days before Larry Silvestein acquired the lease for The World Trade Centre. Its register has been forged.

Black Horse Group Limited, making connections to Lloyds Bank, was incorporated in 1990, the same year as the Gulf War which becomes relevant throughout and has Jordans on its incorporation document.

Sunak was shown as a director for Catamaran Ventures UK, where there was a different date of birth for him than other information, but we know its him due to where it leads.This company was incorporated in 2013 and is dissolving since being exposed. This has Formations Direct Ltd on its incorporation document.

Formations Direct Limited had been incorporated in August 2001, a month before the World Trade Centre disaster and dissolved in July 2023, as the evidence linking the fraud to Adrenochrome was being identified. Formations Direct Limited had already been quickly linked to Tobias Ellwood, the MP for the area where Exbourne Manor is based and is also linked to the fraud by other research. Despite being my MP, Ellwood refused to correspond with me about the fraud and has since stopped being an MP.

Ellwood was supposedly born in 1966, the same year as the foundation of The Church of Satan, had been a member of the Military 77th Brigade and happened to be present to try and resuscitate Police Officer Keith Palmer in March 2017 after a 'terror' attack and was re-elected that year.

This is the same year that Louise Smyth became the CEO for Companies House and when Fleming Co Limited was created, that connects the research of Donald Trump, Benjamin Netanyahu and the Iranian leader, immediately, despite them supposedly being at risk of war. More on this later.

Ellwood has been a director for Queens Park Infant Academy that immediately links to Humphries Kirk on its incorporation document. This makes very important connections that were established from a Helicopter crash in America in April 2025, as detailed later.

Catamaran Adventures, where Sunak had been a director connected to Evelyn Partners in its address that has now been changed since being exposed. Evelyn Partners features at key times throughout the fraud research and Evelyn Partners LLP had been incorporated in November 2011, a month after Jimmy Saviles death. Its name was changed in April 2012, in June 2022 and again in March 2025 as I continued to expose the fraud. Evelyn Partners possiby refers to Evelyn Rothschild, mentioned later.

Jennifer Batchelor of Evelyn Partners LLP make connections to Grant Thornton, previously used by Bournemouth Christchurch and Poole Council.

Claire Burden links Evelyn Partners to Community Initiatives South West Limited that connects to the fraud via Osbourne Clarke of an address of 'Temple' Back East,'Temple' Quay Bristol and Osbourne Clarke and Tristan Hogg of this company makes connections to numerous 'PIE' companies.

Its not long before a connection is made to LBDE Limited of an address in the tax haven of the Cayman Islands. The Princes Drawing School, an Ian Fleming company and Sherborne School for Girls is featured on its incorporation document. The Princes Drawing School makes connections to the Nicola Bulley case via its lead investigator Peter Lawson as mentioned later. Sherborne area in Dorset is also important as discovered after the helicopter crash mentioned later.

Andrew Lockwood of Evelyn Partners LLP (possibly a relative or alias of former IOCP head Michael Lockwood) connects immediately to Ingenious Film Partners 2 LLP. Michael Lockwood had been the head of the Independent Office for Police Conduct, where I had escalated my reports and supposedly resigned in December 2022 after apparent allegations of sexual assault were made against him. This is the same month that I made my initial report to Action Fraud. The research surrounding Lockwood makes connections to high level Members of Parliament and The World Trade Centre disaster. His removal appears to be a staged cover story.

Michael Lockwood is possibly a director for One Knowsley that was incorporated in 1993 as Huyton Council for Voluntary Service and changed its name in 1989, the year that the World Wide Web was created for CERN (mentioned later). Its new name had been Knowsley Council for Voluntary Service until it changed again in May 2019, two months before Jeffrey Epstein is arrested and a protest takes place at Wuhan regarding a proposed incinerator plant. More on this later. One Knowsley is a criminal organisation with Jordan & Sons Limited on its incorporation document.

William David Kayes of One Knowsley connects to Imagine Independence that was incorporated as Merseyside Community Mental Health Service in 1992, the year that Companies House was becoming electronic and where the forgery occurs. This too is a criminal company with Jordan & Sons limited on its incorporation document.

One Knowsley appears to relate to relate to Knowsley Metropolitan Borough Council and research leads from this to 7Side, Severnside and Global X companies that connect back to the fraud and the research of the World Trade Centre disaster and David Cameron and Tony Blair.

Referring back to the research of Sunak, articles suggest he was a founding partner of Theleme Partners and was a major investor in the Moderna Vaccine. The Moderna vaccine becomes relevant to the Lucy Letby case as mentioned later.

Theleme Partners LLP was incorporated in August 2009, a month before The Royal Foundation of the Prince and Princess of Wales. Theleme Services Limited was appointed as a company of significant control in 2016, the same year as the apparent Satanic ritual at CERN. Nicholas Dove of Theleme Services links to Ingenious Film Partners 2 LLP. Paul Kaju of Thelme Services links to Merril Lynch International with this becoming important later.

Carol Vorderman had been publically outspoken about Sunaks links to Theleme, but is actually linked quickly to the same company connected to Sunak, DBS UK Limited via Dixons Academies Trust, incorporated at key year of 1991, as mentioned later.

Michael Blackburn of Dixons Academies links to The National Youth Advocacy Service incorporated in 1992 and to the Lancashire Enterprise Partnership, which potentially becomes important in relation to the Nicola Bulley case and evidence from Vanessa Emery, mentioned later.

The Lancashire Enterprise Partnership was incorporated on 27th September 2010 with Lancashire County Council, two months before CERN Limited and dissolved in 2023. CERN Limited dissolved in November 2024 as connections were being made to the fraud and the hadron colliders.

Referring back to LBDE Limited, Simon Mabey links to 25 Moorgate Limited that is a fraudulent entity having been created with the same two companies as Exbourne Manor Freehold Limited. Mabey also links to REHC Limited of a Cayman Island address and has Golden eye Films Limited, referencing James Bond and therefore the Flemings.

Irene Goe of CERN Limited connects to The Society in Technicians of Insurance Limited that was incorporated in 1990, the same year as the Gulf War. Its important to understand the full centralisation of the criminal system and Insurance is a huge part of the fraud. This is because it supplies a constant supply of funds to the agenda and if the funds become low, they just increase the Premiums. All Insurance companies are involved and are able to assist in the funnelling of money for the child trafficking, crimes against humanity and any potentially sinister agenda

Rowen Patterson connects The Society in Technicians of Insurance to Life Insurance Association Limited that was incorporated in 1975, four years after the start of the World Economic Forum. Gillian White of this company links to the Society of Financial Advisors. Financial Advisors are key to the apparently infiltrated Satanic agenda. Adrian Windsor and others in my wifes family are Financial Advisors.

Angela Rayner

Angela Rayner is a British politician and trade unionist who has served as Deputy Prime Minister of the United Kingdom and Secretary of State for Housing, Communities and Local Government since July 2024. She has been Deputy Leader of the Labour Party since 2020 and Labour and Co-operative Member of Parliament (MP) for Ashton-under-Lyne since 2015.

Angela Rayner - Wikipedia https://share.google/DWsrzmVccGz91I40D

On 5th September 2025 articles emerged that Angela Rayner had resigned over an apparent scandal of under paid tax, but I suspect it is due to the exposure of the fraud. She, like all of them, needs to be arrested by the people for conspiring to allow International Fraud and crimes against humanity to continue.

Howard John Deller connects Anglican Catholic Future to 52 companies including The Faculty Office of the Archbishop of Canterbury that was incorporated in September 2019, the month after cell towers were erected in Wuhan and Jeffrey Epstein supposedly died. This makes an important connection to Justin Welby who is significantly implicated in the system of fraud and crimes against humanity, as shown throughout the document.

Deller also connects Anglican Catholic Future to Bishopsland Educational Trust that was incorporated in February 2001, five months before Larry Silverstein acquired the lease for the World Trade Centre disaster. It dissolved in February 2025, as the exposure continued.

Karin Paynter connects Bishopsland Educational Trust to the Goldsmiths' Foundation that makes critical connections back to the Goldsmith family that links with the Rothschilds as shown throughout the document.

Reverend Leslie Ann Moses connects Bishopsland Educational Trust to London Diocesan Fund (The) that features in various areas of research including around Julian Assange and his connections to the Doomsday Cult.

Robert Maxwell

Robert Maxwell has a huge role in what is now being exposed. Research suggests his real name was Jan Ludvich Hymen Binyamin Hoch, that he was born in 1923 and was involved in media, politics, fraud, the apparent Israel /Arab war of 1948, intelligence agencies surrounding Israel as well as being the Father of convicted sex offender Ghislaine Maxwell. His businesses included Pergamon Press and Mirror Group and Macmillan publishing companies, but sold much of his business empire in 1989, the same year that the World Wide Web was created for CERN and its creator connects to Exbourne Manor. In 1991 he was supposedly found dead after falling from his yacht and was buried in Jerusalem.

After his death information emerged that his elder son had stolen millions from pension funds and millions were missing from the Mirror Group Pension fund. In 1992 bankruptcy protection was put in place for the Maxwell Companies, the same year that Companies House started to become electronic. As a result of the fallout from Maxwells supposed death, pensioners received around a half of what they were entitled to.

Robert Maxwell - Wikipedia https://share.google/1cLfTyDmVR8W0cDdB

Macmillan Publishers International Limited was incorporated in 1986 as Equalhit Limited. It is connected to the fraud by Express Company Registrations Limited on its incorporation document. Catherine Elinor Fleming has two records in the company at the time of the research, one with one company and another with one hundred and forty five and is connected to MDL Marinas Group Limited that had a registered address of The Yacht Club, 1 Ocean Way, Ocean Village, Southampton, Hampshire, an address used throughout the fraud. I suspect this may be a false identity having been used by Deborah Fleming.

MDL Marinas was incorporated in 1986 and is a criminal company with Jordan & Sons Limited and Mavis June Latter on its incorporation document, the same companies that started Exbourne Manor Freehold Limited and where Deborah Fleming initiated my removal for refusing to file forged bank documents. The Name Mavis June Later importantly connects to Al-Fayed and Harrods and I suspect the apparent death of Princess Diana.

Michael John Tufnel of MDL Marinas Group Limited connects to BMF Property Limited from 1999 until March 2001, four months before Larry Silverstein purchased the lease for the World Trade Centre.

Johann Robinson of BMF Property Limited connects to Police Crime Prevention Initiatives Limited that was incorporated in 1999 as ACPO Crime Preventions Initiatives Limited before changing its name in 2016, the same year as the apparent Satanic ritual at CERN. It is a criminal company with Chettleburghs Limited on its incorporation document.

Deceased Manchester Chief Constable, Michael Todd is shown as having been a director of Police Crime Prevention Initiatives Limited and Chettleburghs makes connections to Jeffrey Epstein as mentioned later.

According to the register Chettleburghs limited was incorporated as M.R.Chettleburgh Limited in 1958, the same year that Charles was initiated to become the Prince of Wales, where Companies House is based. The register states that is only had this name from 1958 until 1988, the year before the creation of the World Wide Web for CERN, but the incorporation document attached to this record shows an unregistered name of Marravay Registration Company Limited

and has Jordan & Sons Limited. They have forged the register and the illegality continues wherever Chettleburghs Limited is used. They would absolutely have known this.

One example of where this criminal company has been used against the masses is during the High-speed Rail link in the United Kingdom, with associated Winkworth Sherwood LLP using Chettleburghs Limited, but also connected High Speed Rail Limited having criminal company Jordans Limited on its incorporation document. This allows the Government and their criminal organisations to defraud the public of billions of pounds through the taxation system and funnel it into any Satanic agenda they may have.

High Speed rail link article:
https://www.bbc.co.uk/news/articles/c98486dzxnzo.amp

Referring back to the research of Robert Maxwell, Thomas Flaherty of Police Crime Preventions Initiatives Limited connects to The Association of Chief Police Officers of the United Kingdom, which connects to various other areas of this document including to Julian Assange. This now makes a very quick connection to the Maxwells crime network, Police organisations and the possible murder of Police Officers as mentioned later.

Research of Robert Maxwell Pergamon shows that Elsevier Limited was incorporated in 1986 and had various Pergamon names including Maxwell Pergamon Macmillan PLC for three months in 1989, the year The World Wide Web was created for CERN. The incorporation document shows Howard Thomas, used throughout the fraud and connecting to the research from the helicopter crash and connects to CERN, Siemens and my wife's family very quickly. Mawlaw Secretaries Limited of this company had an appointment of a Atlas Hotels company that connects to the research of Jeffrey Epstein.

Mark Armor of Elsevier UK Holdings connects to Sopra Steria Holdings and large UK Supermarket chain Tesco PLC, that is criminal organisation and was incorporated by Slaughter & May. All supermarkets have been centralised to the fraud, meaning there is no accountability or Liability with the Supermarkets name if they decided to poison the masses through the food chain. The forgery is by the Government, but I suspect the owners of Tesco will know exactly what they are part of.

According to the research Robert Maxell had purchased The New York Daily News in 1991, the year of his supposed death. The New York Daily News, officially title Daily Nes was founded in 1919. It was the first daily printed tabloid in the US.

Research of Daily News on Companies House reveals Newsquest Media (Midland) Limited that was incorporated in 1984 as Stagmain Limited, before changing its name to Daily News Limited.

It changed its name again in important year of 1989. Neil Carpenter of this company connects to Evening Echo Bournemouth and Newsquest Media Group and Newsquest features at other time in the fraud.

The research of Robert Maxwell had already quickly connected to Intiative Property Management Limited and now to the media company covering its supposed investigation by Dorset Police. This overwhelmingly supports a collaborative deception to try and conceal the evidence of the criminal child trafficking network and sinister plans against creation, by Dorset Police.

Ghislaine Maxwell

According to the research Ghislaine Maxwell was born in 1961 and ended up having a relationship with Jeffrey Epstein. She had lived in Oxford with her Father Robert and Ghislaine and was a director for Oxford Football Club, with football clubs being a huge part of the fraud. Ghislaine had also started women's Club named after the original Kit-Kat Club.

Oxford companies are proving very important and making quick connections to a Monks company on the incorporation document for The Royal Foundation for the Prince and Princess of Wales and potentially the abuse of children on Islands of the coast of Tenny in Wales, where Charles was the prince and where Companies House is based that commits the forgery. Who had been led to believe was my Grandmother was from Wales and married in Tenby.

According to the research Ghislaine flew to New York in 1990 on behalf of Robert Maxwell to deliver an envelope that was part of a plot to steal $200 million from Berlitz shareholders.

Robert Maxwell had purchased New York Daily Mail in January 1991, a year before the Companies House register started to become electronic, and sent Ghislaine to New York again to act as his emissary. In may 1991, they both flew on concorde to New York where he soon left to attend Moscow. Supposedly it was November that year that Robert Maxwells body was found.

Ghislaine Maxwell - Wikipedia https://share.google/1Js58ncSyrZRM3RKr

The research of the original Kit-Cat Club suggests it was associated with parliamentry figures that ended up drinking at the 'Temple Bar' in London. Kit-Kat Club dates back to the 1700's and refers back to the keeper of a 'pie' house by Temple Bar where famour mutton pies (Kit-Kats) were eaten. The Paedophile Information Exchange (PIE) and various references are mentioned throughout this document.

Kit-Cat Club - Wikipedia https://share.google/xA8zKtK0Q98P539kC

The Kit Kat Club is a Club in Berlin opened in 1994 by a pornographic filmaker and is known for sexually uninhibited parties where guests would engage in sexual intercourse openely in the venue. Patrons were diverse including members of the LGQT+ community, possibly related to the associated Baphomet connection.

Kitcat Limited was incorporated in 1996 and is a criminal company having been incorporated with Swift incorporations Limited and Jordan & Sons Limited, the same as Exbourne Manor Freehold Limited. It has addresses in Dorchester, Dorset on its incorporation document.

KITCAT LIMITED overview - Find and update company information - GOV.UK https://share.google/onGPVsRdopko4L7Vd

Michael Dangerfield connects the Kitcat Limited to The Dorchester Agricultural Society that is a criminal company with what appears to be a forged incorporation document with criminal company Jordans Limited, deliberately added. This is very unusual and if added after the fraud was being exposed, suggests they may want to be exposed as the old company underneath is still visible. One of the directors on the incorporation document Lynda Lutna has an address of Yew tree Cottage in Sherborne, Dorset . Operation Yew Tree was the name given to the investigation that led to the supposed conviction of Ghislaine Maxwell and Sherborne is an important location featured throughout this document. Mark William-Thomas is a former Police Officer and was involved in initiating Operation Yew Tree supposedly leading to the exposure of Maxwell, Jimmy Savile and others More on this in the research of Madeleine Mccann where William-Thomas was also connected in covering the investigation.

Richard Cuzens was a director of The Dorchester Agricultural Society until November 2001, two months after the World Trade Centre disaster and connects to Breedy Agricentre (Dorset) Limited that was incorporated in 1990. This had a registered address of ‘Temple’ Quay in Bristol at the time of the research and is a criminal company having been incorporated with the same two companies as Exbourne Manor Freehold Limited.

Mark Wearden on Bredy Agricentre (Dorset) Limited connects to Kilinchy Aerospace Holdings Limited that was incorporated as Martin Baker (Engineering) Limited in 1965, the year before the founding of the Church of Satan. It changed its name for the first time, according to the register, in 2011, the same year as the supposed death of Jimmy Savile. Its register has been forged.

James Martin William of Kilinchy Aerospace Holdings Limited connects to Martin-Baker Aircraft Company Limited, with a forged register. Williams also connects to J. Martin Armaments Limited a company incorporated in 1940.

Research shows that James Martin of Ireland was joined by pilot Valentine Baker to forming Martin Baker Aircraft. Martin Baker had been the name of the Chief Constable when I joined Dorset Police in 2006 and in 2012, the year that CERN supposedly discovered the Higgs Boson or God Particle, Baker resigned from the Police and worked with The Association of Police and Crime Commissioners that had started that year and closely connects to the research of CERN and Jimmy Savile. Baker is also connected to Bournemouth MP Connor Burns, through the company Safewise, later featured in the research of Siemens and Jeffrey Epsteins Edge Foundation stemming from the helicopter crash.

At around the same time, articles emerged of Chief Constable Colin Port of Avon and Somerset also resigning and working for the Police and Crime Commissioners Office. Both forces connect closely to the research of Julian Assange and an apparent doomsday cult.

Research of J. Martin Armaments reveals Lockheed Martin, that makes important connections throughout the fraud.

Referring back to Ghislaine Maxwell, Oxford Football Club was incorporated in 1949 and has a forged register. Ghislaine is shown as resigning a director for the company in December 1991, a month after her Fathers supposed death. Henry Stephens connects the company to Maxwell Communication Corporation PLC with a registered address at the time of Pricewaterhousecoopers, 7 More London Riverside having been incorporated in 1935 as British Printing Corporation (The). Its register has been forged.

Keith Cox of Oxford United Football Club Limited connects to St James Street Developments Limited and Robin Lomus of this company connects to Cathedral Homes (Dorset) Limited and Luscombe (Poole) Management Company Limited. This had a registered address of 3 Durrant Road, Poole, the same address used by friends of the Flemings and accountants of Exbourne Manor Freehold Limited, appearing to file forged documents for years, Carter & Coley. Initiative Property Management Limited is shown in the people record having been the secretary for Luscombe (Poole) Management Company Limited for less that two months in 2023, as Dorset Police was supposedly investigating the company as mentioned later. I suspect they were all trying to alter, destroy or conceal evidence of their larger crimes during that supposed investigation.

Kevin Maxwell of Oxford United Football Club Limited connects to 00115634 PLC that was incorporated in 1911 as Hollis Bros & E. S. A. PLC until 1985 when it changed its name to Hollis PLC and then again in 1988 to Pergamon Professional and financial Services PLC. It changed is name again just over three months later and again in April 1991. The Companies register has been forged by UK Government employees. This supports the evidence of the companies House non-verification and forgery by Governments deliberately and knowingly being used for money laundering and crimes against humanity.

The research of the Berlitz company, mentioned in the research of Ghislaine and Robert Maxwell, shows that it was started by a German who moved to America and founded the company in 1878, which is language, education and Leadership training company and is connected to ILSC Holdings LP that has more than 547 company owned and franchised locations in seventy countries, at the time of the research. By 1914 Berlitz had 200 schools, including in America, Germany and Britain. It was more recently owned by APB Publications, mentioned later.

In 2001, the same year as The World Trade Centre disaster, Berlitz became a wholly owned subsidiary of Benesse Corporation. In 2002 Berlitz Publishing was sold to LangenSheidt.

In February 2022, as I was starting to make enquiries at Exbourne Manor and Vladamir Putin publicised his special military operation against Ukraine, all Berlitz shares were connected to ILSC Holdings.

Berlitz (U.K.) Limited was incorporated in 1839 as Berlitz Holdings (1939) Limited and changed its name, according to the register, for the first time in 1995, the same year that intelligence agency and Russian Government linked company, The Hakluyt International Advisory Board was incorporated.

John Cooknell of Berlitz (U.K.) Limited connects to Berlitz Publishing Company Limited that was incorporated in 1987 and from 1988 had Maxwell and Pergamon in its name changes with the last being in 1991 before it dissolved in 2021.

Legist Secretaries in the people record of Berlitz (U.K.) Limited connects to Eversheds Trustees Limited that was incorporated in 1928 and Eversheds companies feature throughout the fraud and quickly to Jeffrey Epstein as explained later. It has Waterlow & Sons on its incorporation document.

Research of ILSC reveals Harrow House International College (Swanage) Ltd was incorporated in 1974, had a registered address of First Floor, 153 Commercial Road, Poole, Dorset and had a previous name of I.L.S.C Limited from 1978 to key year of 1992. It connects to the fraud via Stanley Davis Company Services on its documents and Graham Heffer connects the company to Farrer Estate Management Limited that has an address of Branksome Business Park Poole and has Initiative Property Management Limited as its secretary from November 2020. This is the same company that was supposedly being investigated by Dorset Police.

Benesse (UK) Limited was incorporated in 2014 and has SDG on its incorporation document that refers to Stanley Davis Group and features in the research of David Cameron and the case of Nicola Bulley.

Lengensheidt, mentioned previously was a German organisation founded in 1856, the same year that the Baphomet symbol became significant to the Church of Satan. The company appears to have assumed World control of information through education, publication and media, which Robert Maxwell was well known for and all before World War One. This supports the plans written in the Albert Pike letter and that both wars were a collaborative deception against the masses, using the Companies House fraud.

The research of Langensheidt shows Andres Carl Joachim Tielebier-Langensheidt being a former director of APB Publications (UK) Limited that was incorporated in 1997 and had a correspondence address in Munich Germany and registered address of 7 Bell Yard, London that is used throughout the fraud. APB Publications had previously been mentioned. More research?

Terramar

Ghislaine was also a director of Terramar UK, which is immediately connected to the informal Parliamentary Island group set up by former Isle of Wight MP Bob Seely, where Deborah Fleming had been the CEO of the NHS and initiated my removal from Exbourne Manor Freehold Limited for refusing to file forged bank documents. Seely also had connections to the former Soviet Union and the directed energy threat via the Huawei investigation.

Terramar UK was incorporated in 2013 with Farrer & Co, making connections to the Jewish Community Centre UK via The Charles Darwin Trust and Cancer Research Uk that was incorporated just over two months after The World Trade Centre disaster. Terramar UK dissolved in December 2019, the same month as the supposed COVID outbreak and Prince William conceiving the, Climate change agenda related, Earthshot Prize mentioned later. Terramar UK has an address in Salisbury, where Deborah Fleming is quickly connected to Diocesan companies and to a Freemason Lodge.

Link to Terramar UK Companies House record.

As well as Ghislaine, Lucy Mary Clive was also a director for Terramar UK and connects the company to 45/47 Elgin Crescent Freehold Company Limited that was incorporated in 2004 and is a criminal organisation having been incorporated with the same two companies as Exbourne Manor Freehold Limited.

John Harrison connects the company to The Normandy Memorial Trust Limited a poignant company supposedly marking the D-day landing, almost certainly a planned deception against the masses. There are many Lords shown as having been directors for this company, apparently so closely connected to Ghislaine Maxwell and therefore the abuse of children. These include Lord General Francis Dannatt and Lord Robin Janvrin as well as the others mentioned below.

Baroness Gabrielle Bertin connects The Normandy Memorial Trust Limited to another company called Kids that was incorporated in 1977, concerning, with such a close connection to Maxwell.

Lord Alay Kakkar connects The Normandy Memorial Trust Limited to Foundation for Science and Technology that was incorporated in 1977, the year I was born and dissolved in December 2022, the month I made my first report to Action Fraud. It is connected to the fraud by Allen & Overy on its incorporation document and by its title will likely have had connections to CERN. The company gave notice that it has no significant person of control in August 2016, the same month as the apparent ritual at CERN.

Stephen Benn of Foundation for Science and Technology connects to Newton's Apple Foundation incorporated in 2006 and dissolved in March 2022, during my early enquiries at Exbourne Manor. It has L&A Registrars Limited on its incorporation document. This appears to make reference to Gravity. CERN and the possibility of it creating black holes is relevant to gravity.

L&A Registrars Limited was incorporated in 1990 and dissolved in July 2011, three months before Jimmy Savile supposedly died. It appears to have a forged incorporation document.

Dr Julia Maxton connects the Foundation for Science and Technology to Royal Society London Ltd, that has 4Business on its incorporation document making a connection to The Mayor of New York at the time of the World Trade Centre Disaster.

Maxton also connects Foundation for Science and Technology to The Christchurch Earthquake Appeal (UK) that was incorporated in April 2011 and dissolved in September 2016, a month after the supposed ritual at CERN. Cobbetts LLP is shown on page 20 of its incorporation document and makes connections to the Intelligence Agencies and Bradys Solicitors who the Directors of Exbourne Manor Freehold Limited tried to use against me.

I had visited New Zealand and Christchurch with my wife in 2010 and whilst there we bumped into my colleague from Dorset Police, Caroline Gould. Gould later became the officer working within the Economic Crime Unit (overseen by Sam De Reya and who appeared to be related to other Shareholders of Exbourne Manor Freehold Limited) in 2022 and who informed me of a crime having been identified by my reports. Dorset Police later refused to provide a suitable explanation regarding this and filed my reports as no further action.

Gould has the same surname of the director for ShroderAsia Pacific, connecting to the research of David Icke and his prediction of Earthquakes devastating the World as shown elsewhere in the document.

At sometime in 2024 my wifes friend, Leanne who works for Siemens informed my that her Brother lives in New Zealand and was in Christchurch at the time of the Earthquake. Siemens is heavily implicated in the fraud and the collider technology as shown throughout the document.

Christchurch in Dorset is where Leanne and my Wife went to school and lived. It is also where I worked in the Police from 2010 / 2011 after we had been to New Zealand, around the same time that CERN limited was incorporated. It was twinned with Christchurch in New Zealand in 1975 with it being the 50th year Anniversary this year.

Christ Church is the name of the Church where my wife and her Grandparents attended and that connects to Deborah Fleming, who initiated my removal from Exbourne Manor for refusing to file forged bank documents, via the Wessex Partnership.

Home - Christ Church Westbourne https://www.christchurchwestbourne.com/

Christ Church is the name of the School in relation to the significantly relevant Hampstead Child abuse enquiry, where Ricky Dearman had been accused with others of being involved in child abuse and murder and where Dearman makes connections to the same companies in the fraud, as mentioned throughout the document.

A Companies House search of Caroline Gould on Companies House shows that a Caroline Kofo Gould connects to Gouldwatch Security Services Limited that was incorporated in 2010, the same year as CERN Limited.

Kenneth Leslie Gould born 1971 connects Gouldwatch Security Services Limited to kennie Gould Taping and Joining Limited that was incorporated in 2007 and dissolved in 2010, the same month CERN Limited was incorporated. It has L & A Registrars Limited on its incorporation document making an immediate connection to Christchurch Earthquake Appeal (UK) via the Foundation for Science and Technology. Wheeler Nichols of 41 Bath Road Swindon is shown as the registered address kennie Gould Taping and Joining Limited.

Caroline Kofo GOULD personal appointments - Find and update company information - GOV.UK https://share.google/kubIlHEAyDWcwJCj4

A separate search for Wheeler Nichols shows that Wheeler Nicholas Limited of 41 Bath Road, Swindon was incorporated in April 2020 and has one director called Terry Nichols.

Wheeler Nichols Limited – Companies House:

A Separate search of Terry Nichols shows duplicate records with one connecting to Community ID C.I.C. that was incorporated in 2009 and dissolved in April 2024 as the exposure continued. Andrew Michael Green connects this company to four others including Green Interpreting Limited that was incorporated in 2016 and dissolved in March 2025. The registered address is shown as Begbies Traynor, Meridian Park Leicester, meaning connections are made to JP Morgan and all areas of the fraud very quickly.

Another record for a Caroline Gould connects to High Speed Rail Finance (1) PLC that was incorporated in 2013 and makes connections to thousands of companies including criminal High Speed Railway companies that links with Winkworth Sherwood, recently mentioned. One example is Keith Lawrence Ludeman of this company connecting to 104 companies including HS1 Limited, a criminal company incorporated with Swift Incorporations Limited and Jordans, the same as Exbourne Manor.

The Christchurch Earthquake occurred on 22nd February 2011, the following year from our visit and the same year that Jimmy Savile apparently died. A check reveals that the Large Hadron Collider (LHC) was in the process of conducting the OPERA experiment with the Italian facility mentioned below at the time and that something went wrong as explained in the article below.

In November 2016 an article emerged by the Mail online trying to explain that a recent claim of CERN having caused an Earthquake in Italy was untrue. This was three months after an apparent ritual took place at CERN, by its statue that apparently represents creation and destruction,

The Mail Online News Website is owned by The Daily Mail Trust and like all other main stream media companies is centralised to the fraud. Daily Mail and General Trust PLC was incorporated in 1922 and has a forged register with Waterlow & Sons on its incorporation document. The filing history shows that in February and May 2022, as the fraud is being exposed, changes are made regarding the person of significant control, but the people record does not reflect this, suggesting there may have been a forgery. The significant person of control is shown as the 4th Earl of Rothermere, but the full name appears different to the research.

In December 2022, the same month that I made my first official report of the fraud and that the Foundation for Science and Technology dissolved, CERN publicised an article claiming it was assessing the seismic safety of its facility and that the area around the facility is prone to Earthquakes.

https://share.google/nBLLROiZ5bxE5JJVO

The article states that Luca Sorini and Marco Andreini were involved in this assessment.

On searching Companies House a Luca Sorini connects to Pat One Limited that was incorporated in June 2019, the month before Jeffrey Epstein was supposedly arrested and dissolved in November 2024, as the exposure continued. The filing history shows that on 24th May 2023 it had a registered address of 7 Bell Yard, London, which features in the research of Ghislaine Maxwell.

On searching Companies House for Marco Andreini two records appear with both records linking to an address for companies in Hampshire, the same county where Deborah Fleming was an NHS CEO.

Marco Andreini - Find and update company information - GOV.UK

One record connects to four companies including Barbells and Beans Ltd that was incorporated in 2021 and dissolved in 2023. A Susan Swan is shown as the second director.

Marcos Fernando Andreini – Companies House search:
https://find-and-update.company-information.service.gov.uk/officers/WM7v-HUSSBiqX-mR7MjSFSpCsQU/appointments

A separate search for Susan Swan reveals many records, but some stand out including one that connects to Pegasus Consulting Ltd that connects to the fraud with Companies Made Simple on its incorporation document and Swan having a different address in Hampshire. This appears to possibly reference Israeli spyware company Pegasus.

Susan SWAN personal appointments - Find and update company information - GOV.UK
https://share.google/XfJjjUyyJo0Ot7bQn

Another record for a Susan Swan connects to Roxburgh and Berwickshire Citizens Advice Bureau that was incorporated in June 2011, four months after the Christchurch Earthquake. This company quickly connects to important areas of the fraud including one of its directors, Paul Seaton connecting to Thales Optronics (Taunton) Ltd. Thales is a weapons company linking various areas of the fraud to the Russian Government, including the Nicola Bulley case, which also makes other relevant connections to Christchurch Earthquake via Cobbetts LLP.

Susan Katherine SWAN personal appointments - Find and update company information - GOV.UK https://share.google/oqLmeIrZtSocpW7kS

There are many further connections, but this suggests that those behind CERN and controlling the criminal system, may have panicked as the fraud became exposed and tried to conceal any speculation that the collider technology could cause Earthquakes.

The OPERA technology used in the experiment over the time of the Christchurch Earthquake is based at Worlds Largest underground research facility in the World and is at Laboratori Nazionali del Gran Sasso (LNGS) in Gran Sasso, Italy and uses the CERN Neutrinos to Gran Sasso (CNGS) neutrino beam. When viewed on a World map the alignment with the two facilities, if continued in a straight line, appears to cross close to or through New Zealand, where the Earthquake occurred.

Laboratori Nazionali del Gran Sasso – Wikipedia:

The Istituto Nazionale di Fisica Nucleare (INFN) ("National Institute for Nuclear Physics") is the coordinating institution for nuclear, particle, theoretical and astroparticle physics in Italy and is based in Rome. The INFN is connected to the Vatican and are involved in this facility and with CERN. The INFN was founded three years before CERN in 1951 to continue the work of Italian Enrico Fermi, that research suggests created the Worlds first nuclear reactor, was a member of the Manhatten Project and had been called the architect of the nuclear age. He died in 1954, the same year as CERN, suggesting the research may have been infiltrated by a doomsday cult.

This was around the same time as the apparent Egyptian Pharaonism resurgence and the incorporation of CAPB Limited was in 1932, an important company connecting to the Flemings and the World Trade Centre disaster, as mentioned elsewhere.

I had been sent the below article that explains the apparent importance of Leylines, which is states are stright fault lines in the Earths tectonic plates and how they relate to magnetic fields and frequencies. Within the article is states the following:

Julia Maxton also connects Foundation for Science and Technology to Royal Society Trading that was incorporated in July 2009, a month before The Royal Foundation of the Prince and Princess of Wales and was incorporated with 7side Limited that is used throughout the fraud.

Peter Cotgreave connects Royal Society Trading to Charles Darwin House that was incorporated in July 2010, the same year as CERN Limited and dissolved in September 2022. This appears to be another reference to The Theory of Evolution as on the important Jewish Community Centre UK Company mentioned previously and suggests those running the criminal system don't know what to believe.

Stephen James Cox connects Royal Society Trading Round Table Limited (The), that was incorporated in 1939. It has a forged register. Pamela Gruben connects the company to The Council on Christian Approaches to Defence and Disarmament, incorporated in 1965, the year before the foundation of The Church of Satan.

Professor and Lord Peter Ford Ricketts connects the Normandy Trust to Franco-British Council – British Section (The) that was incorporated in 1973, two years after the start of the World Economic Forum. It has a forged register and supports the collaborative crimes against humanity between the French and English Governments.

Sir General Peter Wall connects the Normandy Trust to In and Out Limited that was incorporated in 1993 by Farrer & Co and has an address of 4 St James Square that features throughout the fraud. Lt Col Kevin Robin connects this company to Salisbury Masonic Association Limited making further connections the Freemasons behind the criminal system. Wall also connects to Down and Out Limited, a criminal organisation incorporated with The London Law Agency.

John Andrews of In and Out Limited connects to Crown Agents Limited that features in the research stemming from the Helicopter crash mentioned later.

Christopher Tite of Crown Agents Limited connects to Pricewaterhousecooper Legal (Resources) Limited, incorporated in 1997, four years before the World Trade Centre and being a criminal organisation with Jordan & Sons Limited on its incorporation document.

Tite also connects to Portland Harbour Development Limited, making a connection to Dorset and being a criminal organisation incorporated with the same two companies as Exbourne Manor Freehold Limited.

Tite also connects to Union Jack Club (The) that was incorporated in 1904.

Lynn Hale connects Crown Agents Limited to Crown Agents Bank Limited incorporated in key year of 1989 as Crown Agents Financial Services Limited and being a criminal company with Jordan & Sons Limited on its incorporation document.

According to the research Terramar UK relates to Ocean conservation and is part of the TerraMar project that was started in 2012, the same year that CERN supposedly discovered the God particle.

The research from Terramar UK links very quickly to company 'Society of British Aerospace Companies (The)', the exact same company that links to my Brother-In-Law, Richard Timms family and making quick connections to my family in Kent and my Wifes family in Dorset as well as almost immediately to Elon Musk.

Terramar Networks Limited was incorporated at a key time in 2009 and its people / companies of significant control were positioned in 2016, the same year as the apparent Satanic ritual at CERN the hadron collider as mentioned later.

An article from 2012 claims Ugo Amaldi is the President of an organisation called the Tera Foundation that started in 1992, the same year that the Companies House register was initiated to become electronic. He links to religious establishments of the Vatican City and is directly involved with CERN the hadron collider. He is the son of CERNs first Secretary General, Edoardo Amaldi that died in 1989, the same year that the World Wide Web was created and is the Grandson of another Ugo Amaldi, who invented the 'LIE' Groups.

This 'Tera' name is unlikely to be a coincidence and supports the likely involvement of both Ghislaine Maxwell and Jeffrey Epstein with the threat from the colliders and information about Epsteins death and Maxwells incarceration, likely being false.

Ugo Amaldi appears to be significant. According to the research, Ugo is a popular name in Italy and with Germanic origin. Companies House shows no results on Ugo Amaldi and the name Ugo has not appeared relevant on any of the research regarding the fraud, other than in relation to Harrods, as mentioned later.

On 20th July 2025 I was sent a video by a contact that showed an interview by GOD TV from 2019 and where they were interviewing Anthony Patch about CERN. In the interview Patch talks about CERN being used to open a portal to another realm that could unleash something sinister on Earth.

A Companies House search shows that GOD TV Ltd was incorporated as The Christian Channel London Ltd in 1996 before its name was changed in 2006. It is a criminal company with Swift Incorporations and Jordans Limited on its incorporation document, the same as Exbourne Manor Freehold Limited.

Video Interview God TV:

GOD TV LTD overview - Find and update company information - GOV.UK

The directors link to many religious referenced companies, with some being particularly interesting. Paul Vincent Le Druillenec connects God TV Ltd to 75 companies including 'War'boys companies, Terror Watch companies and The War Office Limited. Particularly relevant appears to be acompany called Heretic Film and Television Productions Limited, with heretic meaning a person believing in or practising religious heresy.

Heretic Film and Television Productions Limited was incorporated in 1995, the same year as The Hakluyt International Advisory Board. Its incorporation document is not available, but its filing history shows that on 30th September 1996 its address was changed to Lymington in Hampshire, the county where Deborah Fleming was the CEO of the NHS. Its address was changed again on 19th September 2001, eight days after the World Trade Centre disaster. Its people record shows Temple Secretaries of 788 to 790 Finchley Road, connecting it to the evidence produced by Gordon Bowden of International fraud.

Christopher Rupert John Owen connects Heretic Film and Television Productions Limited to five companies including Elite House Management Limited and Association of Model Agents (The). Elite is how those running the corrupt system, appear to like to refer to themselves.

Laurence Peter Kuhrt connects Association of Model Agents (The) to varios FM model and Celebrity companies as well as to The 2000 Generation Holding Company Ltd. that was incorporated in 2000 as 3rams Limited. It is a criminal company with Chettleburghs Limited of Temple House on its incorporation document. Chettleburghs makes quickly connections to the research of Douglas Smith, Jeffrey Epstein, Max Clifford and Michelle Mone, quickly linking to the Royal family and Ghislaine Maxwell via Farrer & Co.

This suggests that the criminal organisation and crimes against humanity appear to be hiding behind religious fronts. In my opinion this shows that whoever is behind the criminal system is going against moral conscience and therefore the creator, whatever their motive may be.

On researching the Interviewee Anthony Patch through Google, two records appear one showing an Anthony Hall Patch connected to Studio St Vitus Ltd that was incorporated in September 2011, the month before Jimmy Saviles supposed death and dissolved in December 2019, the same month as the supposed COVID outbreak. The company links immediately to the fraud and the research of the World Trade Centre disaster and the links to The Paedophile Information Exchange, by Companies Made Simple on its incorporation document.

STUDIO ST VITUS LTD overview - Find and update company information - GOV.UK https://share.google/e7Lu1xRCOTU7ecPvs

The second record connects Anthony Hall Patch to seven companies including The Gauge One Model Railway Association that was incorporated in1997 and has a registered address in Staplehurst, Tonbridge, Kent. Its incorporation document shows a director with an address in Ashford, Kent and another with an address in Bournemouth, not far from Exbourne Manor.

Anthony HALL PATCH personal appointments - Find and update company information - GOV.UK https://share.google/eqODd0t8hPbo9zRwN

Brian Kevin West connects The Gauge One Model Railway Association to five companies including Patriot Enterprises Limited that suggests a possible reference to the truth movement.

Richard Martin Saint connects Patriot Enterprises Limited with seven companies including National Association of Child Contact Centres, that was incorporated in 1999.

Philip Ward Richards connects National Association of Child Contact Centres to Citizens Advice and Law Centre and other directors connect to various Citizen Advice Centres that have been set up as part of the centralised criminal system.

Anne Veronica Dillon Roberts connects National Association of Child Contact Centres to Coronery Prevention Group that was incorporated in 1979 and dissolved in March 2025, as the exposure continued. There are many connections into the fraud via health and charitable organisations from here, part of the huge inverted deception against humanity.

Reffering back to The Gauge One Model Railway Association, Andrew Edward Barnes connects to Forest Court Management (Fordingbridge) Limited that has a registered address of Napier Management Services Limited, Unit 13 Fordingbridge Business Park, Ashford Road, Fordingbridge, Hampshire that features throughout the fraud and links to Exbourne Manor, The Association of the Residential Management Agents (ARMA) and quickly to The Association of The Chief Police Officers of the United kingdom.

The incorporation document for Forest Court Management (Fordingbridge) Limited shows Dunstana Davies of Waterlow Secretaries Limited, a name used throughout the fraud and used by Vistra, the main company in the centralised criminal system. The filing history shows that the registered address was changed in October 2022, as I conducted enquiries at Exbourne Manor.0p

The same record for Anthony Hall Patch connects to 7029 Clun Castle Limited that was incorporated in 1967 and links to the fraud by Hart & Co.

Philip Julian Day connects 7029 Clun Castle Limited to many media companies including Midland United Newspapers Limited, in the process of liquidation and having a registered address of BDO LLP, 5 Temple Square, Temple Street that is used throughout the fraud, Birmingham Boat Shows Limited, in the process of liquidation and Trinity Mirror Marketing Direct Limited that was incorporated in 1994 and dissolved in April 2022, as I am making enquries at Exbourne Manor. The registered address is at Canary Wharf making the links to the leader of Qatar shown throughout the fraud.

Trinity Mirror is the previous name for Reach PLC and had involved Robert Maxwell. Reach is a huge centralised media company and Reach PLC was incorporated as Liverpool Daily Post and Echo Public Limited Company (The) in 1904. Its name was last changed in 2018, as Gordon Bowden is starting to expose the Companies House fraud and its non-verification. Reach PLC is a criminal organisation with its register having been forged.

So this suggests those involved in running the centralised criminal system have positioned those involved in this interview to tell the World about the apparent sinister plans behind CERN and the collider technology or as a deception to hide it real intended purpose.

I happened to scan over the comments under the video and someone claimed CERN may have been trying to open a portal on 5th July 2025, three days before I approached Anthony Roberts of Exbourne Manor Freehold Limited to view the companies bank documents, which triggered the whole exposure.

According to research, The Georgia Guide Stones had been erected in the US in 1980 and represented an upcoming man made apocalypse and referencing both Christianity and Satanic cults in the research. These were granite stone stones, apparently being able to withstand a nuclear explosion and were engraved with various intructions, including to keep the Worlds population below 500 million. The Companies House research regarding these stones linked quickly to the Flemings and Exbourne Manor Freehold Limited via a search of its designer Robert Christian. These stones were damaged on the 6th July 2022 and subsequently removed the day after the CERN experiment followed by my enequiries being triggered on 8th July 2022.

This suggests they may have discovered something on the 5th July 2022 that may have changed their possible plans of depopulation.

Collider Limited has apparent references to Jeffrey Epstein of 'Liquid' and 'Edge' in its previous names shown on its overview, with the research suggesting Jeffrey Epstein had been involved in Edge Foundation, that connects immediately to the main criminal Siemens company and therefore CERN, and to Liquid Funding as shown elsewhere in the document.

Anthony Farid Jerges connects Collider Limited to We ArQ Limited that was incorporated in December 2023 and has The We Are Group Limited on its incorporation document. This company name possibly makes reference to the possible Q Movement mentioned elsewhere in the document.

Robyn Leigh Dennington connects We ArQ Limited to Furrell Residents Management Company Limited that was incorporated in 1984 and Peter Clifford Gibbons Allsop connects this company to TG Baynes and immediate connections to my family, as mentioned elsewhere.

The research regarding this project suggests they may not be able to fulfill their goals for some time based on articles from March and April this year. More on Colliders later.

Referring back to the Georgia Guide Stones and just to show an element of the connections, Robert Christian Limited was incorporated in June 2009 and dissolved in November 2017. It is a criminal company with The London Law Agency on its incorporation document. Its filing history shows that there are two entries in 2011 relating to it being struck from the register. This was discontinued on 25th October 2011, four days before Jimmy Saviles supposed death.

Brian Harvey, Ghilaine Maxwell and Reggie Kray

In 2024 I managed to speak with former East 17 Brian Harvey who appears to have been trying to expose Child abuse within the Entertainment Industry and Royal family. He has specifically mentioned certain individuals as being part of the corruption, including his former bands manager Tom Watkins and Ian Puddick and I took notes from our conversation, which lasted over an hour. Unfortunately Harvey will not speak with me again so I cannot verify and further information or possible mistakes.

I had made no mention of the name Kelleway to Harvey and did not even realise the significance of the name at the time, but Harvey mentioned the name repeatedly, saying something similar to Robert Kelleway having been involved in a dispute over murdered Millie Dowler and it having huge implications for the News of the World, which had been connected to Max Clifford. David Sherborne had been Harveys Barrister and was the same Barrister in the Millie Dowler Case.

The research shows that David Sherborne is very prominent Barrister in the entertainment industry and was also involved in the Mccann situation. Only one entry appears on Companies House when searching for David Sherborne connecting to DWS Strategic Resolutions Limited. The only director is shown as Walter Soriano and a separate search on this name shows duplicate records linking to the fraud.

Research shows that Soriano is a personal friend of Benjamin Netanyahu and is connected to Security and Intelligence, also having participated in discussions regarding potential Russian Interference in Donald Trumps election in 2016.

Harvey had explained that there had been a phone tapping scandal in around 2013 and that there was some mention of a paedophile network regarding Jonathan King.

Harvey had mentioned something about a fake Sheikh called something similar to Sheik Mahaoud and that the Kelleway name had been removed from an article linked to Conrad Brown and the Sheik.

The article below appears to relate to this

News of the World's 'fake sheikh' had Tom Watson followed, emails show | News of the World | The Guardian https://share.google/RChfsBKODfvBoy7NA

Another entry is revealed on searching, showing Mahmoud Khali Al-Hussary that was born in 1917, the same year as the Balfour Declaration that fomented Israel and involved the Rothschilds that are overwhelmingly connected to the fraud. The article claims that Al-Hussary had significant connections to Egypt and appears to have had a huge influence over the Muslim following, prior to his apparent death in 1980, which is the same year that the Georgia Guide Stones were erected. This possibly coincides with the Iranian Green Movement and the possible infiltration of the Islamic Faith and how it relates to the Albert Pike Letter.

Mahmoud Khalil Al-Hussary - Wikipedia https://share.google/m3aw64TryPqcx364t

Harvey had informed that he was at a party to do with Prince Andrew in the 1990's and that Ghislaine Maxwell and John Harris were two of those present. He claims that during a particular discussion Harris informed him that Edinburgh was the real Jerusalem and that he was wearing a necklace, which contained the Stone of Destiny.

Research shows that the Stone of Destiny is also called The Stone of Crone and is used during the coronation of Scottish Monarchs. I had already been informed that a fake stone may have been used for the coronation of Queen Elizabeth the 2nd and for King Charles. Research of the Stone suggests it may have been stolen during transit from Westminster in 1951, two years before the queens coronation. The Stone appears to have been broken into pieces and at one point a large part of it has been buried in Kent. Apparently the Stone had been kept at Edinburgh Castle for various periods of time and Edinburgh is where the oldest Active Freemason Lodge and is based and Rosslyn Chapel in Edinburgh is where the possibly significant De Vinchi Code movie mentioned later was partly filmed. The information suggests the stone was moved to Perth in 2024, as the exposure continued.

Stone of Scone - Wikipedia https://share.google/5iTA03rLEPGn7RN8d

Harvey informed me that he had been in New York at the time of the World Trade Centre disaster and that Clive Black who had been a song writer for Whycleff Jean, tried to convince Harvey to have breakfast in the World Trade Centre, which was the day that the Buildings collapsed. The subsequent research suggests that Harvey was also seriously attacked outside of a Club in Nottingham in 2001.

Harvey and I discussed possible Egyptian connections and Harvey explained that some of his former band friends had Egyptian tattoos. We also discussed Freemasonry and he explained that he had been in a tattoo shop in Walthamstow where he unknowing received at Freemasonry

tattoo. I had made no mention at all of the Kray Twins, but Harvey explained that there was a picture of the Kray Twins on the wall and that the tattooist explained that he knew them. The tattooist agreed to arrange a meeting and another time Harvey went with him to Dover in Kent where he met Reggie Kray and where serial killer Peter Sutcliffe was also present. Reggie asked Harvey to write him a song called Butterfly of Love. This information becomes relevant when explaining the Kray connection to the possible infiltration of the real Royal family later.

Harvey explained that he had been involved in a car crash in 2005 and that he made a promise to turn to Christ if he survived, which changed his life from that point on.

Harvey claimed to be suspicious of me so I provided him with evidence connecting Thom Watkins and Ian Puddick to the Companies House fraud, but he appears to have blocked me and I have not spoken to him since. The research on Watkins and Puddick was significant. Watkins appears to connect to three companies including The Prince's Initiative for Mature Enterprises (Prime), that was incorporated as The Prime Initiative in March 2001, four months before Larry Silverstein acquired the lease for the World Trade Centre. The Incorporation document appears to have been forged with Jordans Limited added, making it a criminal company.

Stephen Howard connects The Prince's Initiative for Mature Enterprises (Prime) to 34 companies including American International Church and important company Balfour Beatty PLC and Balfour Beatty connects quickly in others areas of the research, including Jeffrey Epstein, the Israel attacks, the possible infiltration of the real Royal family and the case of Lucy Letby.

David Pemberton connects The Prince's Initiative for Mature Enterprises (Prime) to various companies including The British Society for Immunology that connects to the fraud and Epstein, Douglas Smith and Max Clifford by Alpha Searches and Formations on its incorporation document. It also has Peter Appleby, being a research Scientist and connecting to Triangle 3 Ltd on page 5 of the document.

Nigel Foyster connects The Prince's Initiative for Mature Enterprises (Prime) to Prime CYMRU that makes a connection to Wales, where Companies House is based and Charles was the Prince of Wales and connects to the research of the Savile Club and its links to CERN and The

Margret Preston connects The Prince's Initiative for Mature Enterprises (Prime) to numerous Egyptian Archaeological companies including Egypt Exploration Society (The) that was incorporated in 1888.

Dr John Baguley connects Egypt Exploration Society (The) to International Fundraising Consultancy that has Dunstana Davies and Waterlow Secretaries on its incorporation document, they same name and company featured throughout the document.

Jeffrey Epstein

According to the information Epstein had been involved in international weapons companies with Israel and other nations and in the mid 1980's met Steven Hoffenberg after being introduced through Defence contractor Douglas Leese and John Mitchell, a former US Attorney General.

Hoffenberg hired Epstein as a consultant for 'Towers Financial Corporation' in 1987, but was apparently unaffiliated to a company of the same name that had been acquired by Old National Bancorp in 2014. This is the same year as Russias supposed annexation of Crimea, Ukraine.

According to the research, one of Epsteins first assignments for Hoffenberg was to implement a take over of Pan American World Airways in 1987. It was unsuccessful and a similar unsuccessful bid took place with Emery Air Freight Corp in 1988. Notice the Emery name as mentioned throughout this document and appearing to relate to the infiltration and possible murder of the real Royal family as part of the fraud, as detailed elsewhere.

The Lockerbie Bombing, involving a Pan American aeroplane supposedly being bombed at Scotland also occurred in 1988. The flight had left Frankfurt, Germany, which is important when we consider the likely connection made to The Goldsmith Smith family and Sabattean Frankists originating from Frankfurt and the following evidence acquired from Companies House.

Lockerbie - Pan Am Flight 103 - Wikipedia https://share.google/S9xX4hkgJL4AzxSev

One of the bombers convicted in 2001 was Abdelbassett Al-Megrahi supposedly a Libyian Intelligence Officer. Research suggests he had always protested his innocence and was released in 2009, which caused uproar. This is the same year as The related Iranian Green Movement and the incorporation of The Royal Foundation for the Prince and Princess of Wales.

Another director and person named as significant person of control for Ammi Import Export Ltd from March 2019 is Egyptian Mohamed Ahmed.

As a quick side note, a search of this name separately within Companies House reveals Mohamed Ahmed Ltd that was incorporated in 2023 and having dissolved in September 2024. It is connected to an address of 128 City Road, London that is featured throughout the fraud and the same address as on the incorporation document for Nigel Farages company Reform UK Party Limited created on 18th January 2025, two days before Donald Trump became President. The filing history shows that its registered address was changed within two months, a method used to try and avoid accountability for their crimes against humanity. More on Nigel Farage later.

A Companies House search of Mohamed Ahmed through Google reveals someone of the same name connected to three companies including Annecto Services Limited that was incorporated in 2016, the same year as the apparent Satanic ritual at CERN and it dissolved in 2018 as Gordon Bowden is exposing elements of the fraud. The filing history shows that its registered address was changed within five months. VP Secretarial Limited is shown in the companys people record.

VP Secretarial Limited has connections to multiple appointments of Aviation and Aerospace Companies, one being Tods Aerospace Limited that was incorporated in 2007 and dissolved in December 2022, the same month I made the first report of the fraud to Action Fraud. It has a registered address of Frp Advisory LLP of an address of Kings Orchard, Queen Street, Bristol with royal referenced addresses used throughout the fraud. Tods Aerospace Limited is a criminal company with Jordans Limited in its incorporation document, the same as Exbourne Manor Freehold Limited. Its filing history shows that its registered address was changed twice within four days in 2013 and changed to its current address in March 2020, at a key time during the COVID situation and not long after Gordon Bowden was apparently murdered and Kier Starmer resigned from the relevant Death Penalty Project Limited.

Richard Ripper of Tods Aerospace Limited connects to various Raytheon Companies including Raytheon Systems Limited. As previously shown Raytheon Systems connects immediately to Pan American World Airways, Inc. by Charles Francis Adams and closely to James Stillman Rockerfella and the research of Jeffrey Epstein.

Ripper also connects Tods Aerospace Limited to 02959484 Ltd that was incorporated in 1994 and dissolved in April 2024, as the exposure continued. Alan Cole of this company connects to Eversheds Sutherland (International) LLP, that features throughout the fraud. Evershed Companies is often associated closely with Police organisations. Cole also connects to The Caribbean Council and a Welsh associated company.

David Wheeler of 02959484 Ltd connects to The St Lazarus Foundation and research shows that Sacha Stone is connected to Lazarus organisations and Jane ‘Evershed’ works with Stone and David Emery, mentioned elsewhere in the document.

Wheeler also connects to R.E. Realisations Limited that was incorporated in 1983 and dissolved in April 2024. The research of Douglas Smith connects to a ‘Realisation’ company.

Christopher Williams connects 02959484 Ltd to Association of Electric Producers Limited making a connection to the research of the Goldsmiths, as shown elsewehere in the document.

This along with all evidence supports that the sinister group controlling the Governments and the Police associated organisations are the real terrorists against humanity.

The Jeffreys Epstein research shows that In 1993 Towers Financial Corporation imploded when it was exposed as being involved in one of the biggest financial scandals in American History.

Epstein supposedly left the company in 1989, the same year that the World Wide Web was created for CERN, but ultimately faced no charges.

The research of Jeffrey Epstein suggests that he had already linked immediately to Exbourne Manor by via Bear Stearns.

Bear Stearns International Trading Limited – Companies House:

Bear Stearns International Trading Limited had been incorporated in 1992, as the Companies House record was becoming electronic and dissolved in January 2024, as I continued the exposure. It had Mazars in its registered address of 30 Old Bailey, London and I suspect this may be a reference to Mazzini, the head of the Illuminati. Mazars had already featured in the research of The World Trade Centre disaster. J.P. Morgan Secretaries (UK) Limited and a Jordan Company Secretaries Limited are shown on its people record and Slaughter & May is on its incorporation document.

Bear Stearns UK Limited was incorporated in August 2000, just over a year before the World Trade Centre disaster and also had Mazars in its address. It dissolved in July 2023 as I continued the exposure.

Mazars GB Limited was incorporated in 2004 and is a criminal company with The London Law Agency on its incorporation document.

The research of Old National Bancorp, mentioned previously in the research of Jeffrey Epstein, reveals that National Provincial Bank Limited was incorporated in 1880 and dissolved in 2016, the same year as the apparent Satanic ritual at CERN. Its register appears to be forged with unregistered names including The National and Provincial Union Bank of England Limited from 1924.

Pan Am American Aiways is mentioned in the research of Jeffrey Epstein and Companies House records show that Pan American World Airways, Inc. was incorporated in a key year of 1947, the same year that the Doomsday Clock was created and a year before the Israel / Arab War. James Stillman Rockerfella was shown as an active director at the time of the research.

Charles Francis Adams connects Pan American World Airways, Inc. to Raytheon United Kingdom Limited that was incorporated in 1938 as A.C. Cossor Limited before its name was changed on 17th May 1989, the same year as the creation of the World Wide Web for CERN. Raytheon is a weapons company that features in features throughout this document at important points.

Research shows that James Stillman Rockerfella was a prominent Rockerfella family that appears to have gained huge World influence through the oil industry from the late 19th Century and were considered to be one of the most powerful families in the US in 1987. The Rockerfellas originated in Germany and also have Irish-Scots descendants. James Stillman Rockerfella associated with National City Bank started in the 1930s in New York, was president of Citigroup and is was a participant in the Olympics.

Jeffrey 'Lewis' was appointed as a director to Raytheon United Kindom Limited in July 2020, during a key time of the COVID situation and connects to Raytheon Systems Limited with an address of Kao One, Kao Park. Raytheon Systems Limited was incorporated in 1946 as Cossor Electronics Limited before changing its name in 1997. It has a forged register with its incorporation displaying Cossor Radar, another reference to the threat from directed energy. Linklaters & Paines is on its incorporation document, which makes immediate connections to Astrazeneca and Pfizer Vaccines. I suspect Jeffrey 'Lewis' is an alias name used by Jeffrey Epstein.

The research of Emery Air Freight shows that Emery Worldwide (Emery) was founded in important year of 1946, but was acquired by consolidated Freightways in 1989, the year the World Wide Web was created for CERN and again by United Parcel Service (UPS) in 2004.

Emery Worldwide - Wikipedia https://share.google/9I2IUPMY371C8BARh

Its incorporation document connects to the fraud and the research of Robert Maxwell by ICC Legal Services and an address of City Road again. Atlas possibly makes reference to the Atlas experiment at CERN, now connected to the Vatican and therefore the Illuminati and the apparent letter written by Albert Pike to Mazzini, the head of the Illuminati in 1871 as detailed later.

Richard Pendrill connects this company to various criminal companies including Atlas Hotels (Bristol Property) Limited that was incorporated in 1996 that has various Premier Hotels former names and was incorporated with the same companies as Exbourne Manor Freehold Limited.

The research shows that Lesley Wexner was a billionaire client of Epstein and was chairman and CEO of L Brands and Victorias Secrets and that Bath & Body Works was formerly L Brands.

Bath & Body Works Limited was incorporated in 1994 and has an addresses of Frinsbury Square that features throughout the fraud and Simmons Simmons on its incorporation document. Leslie Wexner is shown as a director for the company until 1996.

Lord David Wolfson of Sunningdale connects Bath & Body Works Limited to Galahad Gold PLC that was incorporated in 2000 as Crownbest PLC. The of Galahad Gold PLC was changed for the first time in January 2001, six months before Larry Silverstein acquired the lease for the World Trade Centre and again in 2003. It had not changed its name at any other time until is dissolved in May 2010, the same year that CERN Limited was incorporated. The incorporation document shows Marriots of 40 Tabernacle Street and Marriots was one of the tenants of the World Trade Centre at the time of its collapse. Some reports have suggested that large amounts of Gold may have gone missing at the time of The World Trade Centre disaster and this information suggests Bank of Nova Scotia was using a vault beneath the buildings and that a truck loaded with gold was found beneath the rubble.

This is the year of the incorporation of the intelligence agency and Russian Government linked Hakluyt International Advisory Board and that dissolved in 2024 after being exposed. Several directors of the Bank of Nova connect to Bricome Limited that was incorporated in 1984 as Crombie Insurance Company (U.K.) Limited. It changed its name for the only time in December 2001, three months after the World Trade Centre disaster. The directors in this

company connect to important centralised insurance companies that have featured in the fraud research and some closely to the research of Julian Assange and The Association of Chief Police Officers of the United Kingdom.

For example Anthony Hobrow of Bricome Limited connects to English & American Insurance Company incorporated in 1929 and shown as in liquidation. It has Interpath Limited of 10 Fleet Place as its registered as mentioned later.

It is a criminal company having been incorporated with Swift Incorporations Limited and Jordans Limited, the same companies as Exbourne Manor Freehold Limited.

It changed its name for the first time on 25th July 2001, the day after Larry Silverstein acquired the lease for the World Trade Centre. This company has a forged register and Jordan & Sons Limited on its incorporation document. This shows the crime and deception behind the credit and dept control system.

Sunningdale also connects to Wellbeing of Women that was incorporated in 1964 as Birthright. Philip Jansen of this company connects to BT Group PLC that had been incorporated in March 2001 as Newgate Telecommunications Limited before changing its name for the only time on 11th September 2001, the same day of the World Trade Centre disaster.

Open Reach Limited is part of the BT Group and was incorporated at a key time in March 2017 and has BT PLC on its incorporation document and British Telecommunications PLC as its

significant company of control. Edward Astle of Open Reach Limited connects to Pegasus Topco Limited, appearing to make connections to the Israeli Spyware company mentioned later.

Pegasus Topco Limited has a registered address of Earnst & Young of 1 More London Place and is a criminal company with Jordans Limited on its incorporation document.

Astle also connects to National Grid PLC that was incorporated in 2000 and changed its name either side of the World Trade Centre disaster and during this time had a name of New National Grid PLC. It has CMS Cameron Mckenna on its incorporation document that links to the fraud, CERN, Donald Trump, Jimmy Savile, Freemasons, Royal Family members and an apparent threat from directed energy.

Astle also connects to National Grid International Limited that was incorporated in 1999 as BG Metering Services (Wales) Limited and also changed its name either side of the World Trade Centre disaster, where it had the name Transco Metering Services (Wales) Limited. It did not have Wales in its name at any other time and makes an important reference to where Charles was prince and where Companies House, committing the fraud, is based. The incorporation document for this company appears to be forged and has Dunstana Davies and Waterlow Secretaries displayed and feature at important times in the research particularly with Max Clifford and energy company connections.

Waterlow Secretaries features throughout the fraud and is the incorporation name for Vistra Depositary Services (UK) Limited that was incorporated in 1992, as the Companies House register is becoming electronic to commit the fraud and funnel money to their agenda. It changed its name to Orangefield Depositary Services (UK) Limited in 2015 and changed its name for the final time in July 2016, a month before the apparent Satanic ritual at CERN. The filing history shows that registered address for Vistra Depositary Services (UK) Limited was changed to 50 Broadway on 22nd October 2022, as I was making enquiries at Exbourne Manor. This is the same address as on the incorporation document for The Association of Police and Crime Commissioners Office, that links quickly to CERN and Jimmy Savile. Astle also connects to Cable and Wireless Limited incorporated in 1929 and having a forged register with Waterlow & Sons on its incorporation document.

Astle also connects to Arris International Limited incorporated in 2015 and linked to the fraud by its addresses. Research shows Arris had been acquired by Commscope in April 2019, as it appears they planned their attack against humanity using directed energy.

Research suggets that Home Box Office (HBO) is owned by Warner Brothers and appears to be conceived from 1966 in New York, the

same year as the foundation of The Church of Satan and being the first urban underground cable television system in the United states and progressing an agenda of the apparent threat from directed energy.

Gray also links to South Bank UK Limited, incorporated as Soutbank UK PLC in 2005, but changed its name in 2010, the same year CERN Limited was incorporated. South Bank is shown as being linked to Switzerland on the incorporation document of important company Jewish Community Centre UK, mentioned previously.

Kevin Mcgovern of the Abercrombie company links to a Close Film Sale and Leaseback company that feature throughout the fraud and link to The Satanic Temple United Kingdom.

Articles emerged in January 2024, as I continued to expose the fraud, that Mike Jeffries, the former CEO of Abercrombie and Fitch was being investigated for sex crimes. I suspect this was used to alter, conceal or destroy evidence of the wider crime and try and ensure that the plans regarding CERN and the cell towers continue.

Peter Bailey of Bath & Body Works Limited connects to Next Pension Trustees Limited that was incorporated in 1951. Next PLC was incorporated in April 2002 as Bronze Jasper Public Limited Company and changed its name on 11th September 2002, a year to the day after The World Trade Centre disaster. It is a criminal company started with the same two companies as Exbourne Manor Freehold Limited.

Lord Simon Adam Wolfson of Aspley of Next Group PLC connects to Brecon Debt Recovery Limited that was incorporated in 2008. It has Eversheds LLP on its incorporation document and many Next and other companies from page 4 of its incorporation document.
Evershed companies feature throughout the fraud and often closely to Police associated companies.

Eversheds Sutherland (International) LLP was incorporated as Eversheds LLP in 2003 and changed its name on 1st February 2017, a key time as mentioned later, including the same year Donald Trump became the President of the United States for the first time. It has an address of Queen Victoria Street, that features throughout the fraud and the name Bryan Gordon Hughes on its incorporation document. This appears to have been omitted from the register deliberately with Dave Lawrence Hughes shown.

Andrew Mckinlay of Brecon Debt Recovery connects to Next Holdings Limited that was incorporated in 1891 as J Hepworth & Son PLC and changing its name several times in 2016, the same year as the apparent Satanic ritual at CERN. It has a forged register.

Penelope Hughes of Next Holdings Limited makes connections to Superdry PLC, WM Morrison Supermarkets Limited and The British Museum Friends making connections to the apparent disappearance of the Albert Pike Letter from the Museam on the year I was born. Hughes also connects to Cable and Wireless Limited, featured throughout the research and closely to the cell towers, Vodafone Group Public Limited, huge media company Reach PLC and the Body Shop International. Hughes importantly connects to Ronald Macdonald House Charities, featured later in the document and Coca Cola International Sales Limited, with Coca Cola mentioned earlier.

David Keens of Brecon Debt Recovery Limited connects to Moonpig Group PLC that was incorporated as Project Titan PLC in 2021 and has Link Company Matters Limited and Gem Services with an address of KPMG LLP on its incorporation document. It also has Allen & Overy on its articles of Association. Both Companies are mentioned throughout this document and KMPG was used by Bournemouth, Christchurch and Poole council for its audits and is also connected to my wifes family via Victoria Proctor.

Link Company Matters Limited was incorporated in 2004 as Capita Company Secretarial Services Limited before changing its name at important time of November 2017 as mentioned later. Its name was changed again to MUFG Corporate Governance Limited on 20th January 2025, the same day that Donald Trump became the President of the United States. It a criminal company having the same two companies as Exbourne Manor Freehold Limited on its incorporation document.

This means there are immediate connections to Capita, Ricky Dearman of The Hampstead Child abuse enquiry, Exbourne Manor Freehold Limited, Donald Trump and quickly to Jeffrey Epstein.

KPMG Audit Holdings Limited is a criminal company having been incorporated with Swift Incorporations and Jordans Limited and has an address of Salisbury Square, used throughout the fraud, on its incorporation document. It also has a registered address for Interpath Limited of 10 Fleet Place, again featured throughout the fraud. Interpath Limited makes important connections to the fraud and the research of Companies House CEO from 2017, Louise Smyth and former leader of Bournemouth, Christchurch and Poole Council, Andrew Mellor.

Interpath International Limited was incorporated in March 2022 as I am making enquiries at Exbourne Manor and has two names on the incorporation document with surnames of ‘Blair’ and ‘Cameron’. Both Tony Blair and David Cameron are heavily implicated in the fraud and apparent crimes against humanity.

It shows Orangefield on its incorporation document a previous name for Vistra Depository Services (UK) Limited shown in the research of Jaffrey Epstein.

As the exposure of the fraud continued, Interpath Group Limited was created on a record initially registered as Rute Technologies Limited in February 2023. As the exposure continued its name was changed to Horizon Walk Group Limited, making another possible reference to the collider agenda. It has a registered address in Lytchet Matravers, Poole, Dorset, used throughout the fraud.

Alpha Searches & Formations Limited was incorporated in 1978 and has Malcolm Roy Chettleburgh of ’Temple’ Chambers, Temple Avenue London and company M.R.Chettleburgh Ltd on its incorporation document. This makes connections to M.R.Chettleburghs Limited being closely associated to Police organisations as mentioned in the research surrounding Robert Maxwell earlier and is possibly relevant to the unltimely death of Manchester Chief Constable Michael Todd in 2008.

The Deaths of Michael Todd and Neil Munroe

Having moved to Dorset in 2006, purchased a property in Exbourne Manor and having been introduced to My Wife in 2007, I was aware of and had met Inspector Neil Munro of Dorset

Police. Although I did not know him well, I was saddened to hear that Munro had been found deceased in the seawater by Sandbanks in Poole, Dorset, having supposedly fallen or jumped from a ferry in Poole Harbour.

It was only after I started to expose this fraud, that I now suspect Munros death is connected.

According to an article, on the day of his death Munro had been to a cinema and visited a neighbour, where he mentioned something about the Chief Constable of Manchester, Michael Todd who had been found deceased whilst alone on the side of Mount Snowden in Wales, the previous day.

Munro was found dead under a jetty at Sandbanks, Poole, supposedly with a ticket in his pocket where he had boarded a ferry alone. There were no witnesses to how he left the ferry whether he had jumped or not. At least one other officer had died around the same time.

Michael Todd is shown as having been a director for The Police and Crime Initiatives Limited connected to Chettleburghs and quickly to Robert Maxwell as mentioned previously and who had also supposedly fallen from a boat at a key time in the Companies House fraud of 1991.

Research shows that Todd had also worked with the intelligence agencies regarding Extra Ordinary Renditions involving a review of the intelligence agencies crimes of torture against people having been extracted using flights. With this and all of the other information, it is possible he knew something significant about the supposed plane hijacking and the World Trade Centre disaster.

An article claims that after Todds death, Max Clifford, an associate of Jeffrey Epstein had received an anonymous phone call on the recent death of a high ranking Police Officer claiming to have significant information about it. It has to be considered that this call may have been from Neil Munroe prior to his death, not realising that Clifford was involved.

This all becomes relevant regarding the evidence of Douglas Smith, the Special Advisor for the last few UK Prime Ministers prior to The World Trade Centre disaster.

Referring back to Moonpig Group PLC from the research of Jeffrey Epstein, Simon Davidson of the company connects to Horizon Group Holdco Limited, possibly making reference to the agenda regarding CERN and the event horizon of a Black hole and the funnelling of money to it via the fraud and The Post Office / Horizon scandal.

Referring back to Brecon Debt Recovery, Philip who is shown as a director either side of the World Trade Centre disaster connects to Times Retail Finance Limited. Time Retail Finance Limited had the same address as CAPB Limited at the time of the research and was incorporated in 1998 as shell company name Legibus 1147 Ltd and has Santander Secretariat Services Limited that was its Secretary from August 2012, the month after CERN supposedly discovered the Higgs Boson or God Particle. Santander Secretariat Services Limited is a criminal organisation started with the same companies as Exbourne Manor Freehold Limited.

Sean Coles connects Time Retail Finance Limited to Cater Allen Pensions Limited, CAPB Limited, Abbey National Business Cashflow Finance Limited, Scottish Mutual Pensions Limited, Santander UK PLC, Cater Allen Lloyd's Holdings Limited, Alliance and Leicester Limited and others. All Banks are involved in the collaborative crimes against humanity.

Referring back to Brecon Debt Recovery, William Barnes connects to DFS Furniture PLC that was incorporated as Diamond Holdco 1 Limited in 2010, the same year that CERN Limited was incorporated. It changed its name twice in 2015. I suspect this relates to Diamond Light Source that is a UK based CERN connected facility. It appears that they are using front business names to launder the money through to the agenda. One of my wifes friends was called Emily Day and I recall her husband possibly being of a fairly high position within DFS and them living in a property in Coy Pond, Poole and an address there appears to have been used in the fraud.

Emily Days Father had worked for McCarthy & Stone that had a large building near Bournemouth Town Centre in Dorset.

Mccarthy & Stone Limited was incorporated as in June 2008 and has a registered address of 100 Holdenhurst Road, Bournemouth. It connects immediately to the fraud via Hackwood Secretaries Limited on its incorporation document. This is shown throughout the fraud and connects to the apparent collusion with The Flemings and Russian Government as shown in the research from Rishi Sunak.

Alan Bowkett of Mccarthy & Stone Limited connects to Norwich City Football Club making another connection to the Football industry and to RAC Group Limited and RAC companies are

shown on the incorporation document of Jewish Community Centre UK and the possible infiltration of Judaism as previously. RAC Group Limited was incorporated in 1928 and has a forged register with Jordan & Sons Limited on its incorporation document.

Mark Elliott connects Mccarthy & Stone Limited to various 'Windsor' related companies and to Wembley Sports Arena Limited that was incorporated in 1991 as Everyone Limited and dissolved in May 2025, as the exposure continues. This connects with the same Olympic Companies exposed and connecting quickly to my families. Elliot also connects to 00226267 PLC that was incorporated in 1927 as G.R.A Property Trust PLC and is shown as being in liquidation and with Interpath Limited of an address of 10 Fleet Place, that link with the research of top Politicians. It has a forged register and Jordan & Sons Limited on its incorporation document.

Companies House records show that Jeffrey Epstein was a director for World Media Publishing Limited from 1998. The company was incorporated that year and has Amanda Cox of Newco Limited on its incorporation document and appears to make possible connections to a letter written by Hammond Suddards on a 'sensitive' company merger involving 'Newco' in 1996. The letter is shown attached to the filing history of Officeteam 2 Group Limited and featured in the research of Epsteins associate, Max Clifford.

Max Clifford

Research shows that Max Clifford was born in 1943 and supposedly died in prison in December 2017. This is a key time for the reasons mentioned and particularly with Donald Trump being made President of the US with what appears to be falsified democratic process and at the same time Gordon Bowden was starting to expose an element of the fraud in relation to 788 to 790 Finchley Road and the deliberate non-verification of incorporations on Companies House.

Clifford was supposedly arrested in December 2012 as part of Operation Yewtree, although I doubt this was the case. The research suggests Clifford couldn't stand the hypocrisy in public life and particularly with lying Politicians and what had happened to the National Health Service.

A companies House record appearing to be for Clifford shows that he was connected to six companies including Clifford Field Management Limited, that was incorporated in 2000 as Clifford Field Associates Limited for less than a month. Its incorporation document links immediately to the fraud by the name Dunstana Davies of Waterlow Secretaries Limited on its incorporation document that appears to be forged.

Clifford is also shown as having been a director for Max Clifford Media Limited where the same connections and apparent forgery can be seen.

Clifford is also shown as having been a director for Max Cliffords Associates Limited that was incorporated as Maximum Media Publicity Limited in March 1990, a year after the World Wide Web was created for CERN, and changed its name for the only time in December 1991, just before the register started to become electronic. The company has Sunder Mansukani, Oyez Company & Agency Services and another address of 'Higgison' House of 381-383 City Road, London on its incorporation document. They use variations of City Road throughout the fraud.

Oyez appears on many of the forged incorporation documents throughout the research of the fraud and when searching companies House, Officeteam 2 Group Limited is revealed. Officeteam 2 Group Limited was incorporated as SLSS (Holdings) Limited in 1996 and changed its name to Oyez Straker Group Limited in September 1997. It last changed its name in April 2019, three months before Jeffrey Epstein was supposedly arrested and the same year as the supposed COVID outbreak and it dissolved in 2023, as the exposure continued.

Many of these companies are shown throughout the fraud and as apparent stationery companies used on the incorporation documents used in the forgery. I suspect they are a way for Freemasons and their centralised criminal solicitors to identify active participating companies and try and avoid accountability and liability for their crimes. Waterlows is particularly important as it appears to make reference to the connected currency producer for most of the World, De La Rue.

C & M and Oyez both feature on the incorporation document for The NHS Confederation company incorporated in January 2002, four months after The World Trade Centre disaster and relevant to Deborah Fleming being an NHS CEO, something that Clifford was supposedly passionate about.

On page 24 of the incorporation document for Officeteam 2 Group Limited is a letter apparently written by of Hammond Suddards in April 1996 and referring to a merger of a ‘Sensitive name’ in relation to SLSS (Holdings) Limited and ‘Newco’. Another address is shown for City Road, where variations of addresses are being used throughout the fraud, where there is deliberately no verification and which knowingly facilitates crime and money laundering. SLSS is very similar to the SSL connection to the research of Douglas Smith later and Stephen ‘Hammond’ connects at an important time in the research for

‘Newco Limited’ is already connected to Jeffrey Epstein and Newco Limited was incorporated in 1995, the same year as the Hakluyt International Advisory Board and Derek Cox, who is shown as a director from 1996 to 1998 and ‘Cox’ names are on the Officeteam 2 Group Limited research.

Derek Cox of Newco Limited connects to Corporate Consultancy and Formations Limited. Amanda Blake of this company has two records and connects to Ocean Scientific International Limited of an address in Hampshire. This company was incorporated in 1989, the same year the creation of The World Wide Web for CERN and is a criminal company started with the same two companies as Exbourne Manor

Freehold limited. The Ocean Science theme appears to relate Ghislaine Maxwells Terramar UK and the Island connection to the UK Government and the Isle of Wight as shown in the research.

I had discovered Officeteam 2 Group Limited during the research of Max Clifford, Jeffrey Epstein and Ben Houchen who became the Mayor for Tees Valley in the UK at a key time in 2017, as mentioned later in the document.

Articles had emerged in early 2024 of claims of major corruption in the Tees Valley area and Michael Gove became involved in the enquiries. Gove was a significant part of the COVID management along with Dominic Cummins and Matt Hancock and all are linked quickly to the fraud and therefore the infiltrated Satanic Cult. I suspect the Tees Valley area was important due to the Gaza conflict and the apparent proposal to build a new Canal though Gaza, The Ben Gurion Canal.

Special Advisor to UK Prime Ministers Douglas Smith

According to the research, Douglas Smith has been the special advisor to the last few UK Prime Ministers, since before The World Trade Centre disaster and including David Cameron, Theresa May and Boris Johnson.

According to the information he had been born in Edinburgh (where the oldest operating Freemason Lodge is based and attended a University in Glasgow. He was the Vice Chair of the Federation of Conservative Students there and

had been arrested for threats to kill towards, fellow member, Tony Baxendale and allegedly involving him having a handgun.

Smith founded fever sex parties in the 90's which ran orgies for under 40's swingers and was still doing so when he became involved in politics. This is important with the imformation that follows and the control system in place.

According to Nadine Dorries, a former member of Parliament, Smith practices the 'dark arts' and associates with Dominic Cummins, mentioned later.
Dorries had also stated that there is no democracy and that everything is decided by a small group of men in advance.

According to the information, Smith started work with think tank Adam Smith Institute and later the committee for a Free Britain (think inversion) and Sir James Goldsmiths Referendum Party. Smith had apparently been a Political Advisor for Goldsmith and former Seychelles President James Mansham, making an offshore tax haven and therefore connection to a possible huge international Government money laundering operation.

James Goldsmith - Wikipedia https://share.google/UKsUK0rNGGwa0ZuDG

The connection with Smith to James Goldsmith appears to be very important. According to the research The Goldsmiths original name is Goldschmidt from German Jewish descent, are originally from Frankfurt am Main, Germany and are known for their success in banking and finance having founded their business on luxury hotels. This becomes important with the Hotel connections later established with Epstein and Mohammed Al-Fayed, making connections to Princess Diana.

According to the information, The Goldsmith family was interwoven particularly with the Rothschild family, the Bischoffsheim family of Mainz, and with the Bartolome Family, one of the richest families of Monaco. Rothschild companies are shown throughout the fraud and connecting quickly to the Church of England, Royal Family, The Flemings and apparent serious crimes against humanity. There is information that suggests incest is not uncommon with those involved in the fraud and is appears that the Goldschmidt family may be connected to Frankism that originated in Frankfurt with links a belief in incest.

Frankism - Wikipedia https://share.google/nKHKveJFrv6TRezza

Frankism was a Sabbatean religious movement originating in Rabbinic Judaism of the 18th and 19th. centuries, Created in Podolia near Ukraine it was named after its founder, Jacob Frank.

Frank completely rejected Jewish norms, preaching to his followers that they were obligated to transgress moral boundaries, embracing antinomianism. The Frankists engaged in sexually promiscuous rites including orgies and incestuous activities. Frank claimed that "all laws and teachings will fall", and following antinomianism, asserted that the most important obligation of humanity was the transgression of every boundary. Jacob Frank claimed to be a reincarnation of Sabbatai Zevi and followed and extended his practice of transgression. Father-daughter incest was commonly practised by his followers,[10] and orgies featured prominently in ritual. Sabbatai Levi eventually opted to convert to Islam rather than face execution for claiming to be the messiah in Judaism. This Islamic connection is important. The path by which Frank sought to lead his followers to "life" was symbolized by the letter "V", which also represents Jacob's ladder. The seeker must first climb into the abyss to reach the deepest level of humiliation and then climb back up to "life". Frank was not interested in the acculturation of the Jews; rather, he wanted them to integrate into society in order to ultimately overthrow it. Sabbatai Zevi August 1, 1626 – c. September 17, 1676) was an Ottoman Jewish mystic and ordained rabbi from Turkey. His two names, *Shabbethay* and *Ṣebi*, mean Saturn and mountain gazelle, respectively. This is possibly relevant with the connections being made to The Cube of Saturn / Satan. Zevi claimed to be the long-awaited Jewish Messiah and founded the Sabbatean movement Central to his teachings was the belief that during the Messianic Age, acts traditionally considered sinful would transform into righteous ones. This antinomian doctrine led Zevi and his followers to deliberately violate Jewish commandments, a controversial practice that later inspired movements like the Frankists.

According to the research, outspoken content creator, Candice Owen has claimed that Frankism is the main choice of religion for the 'Elites' running the system and that it links to Devil worship.

There is clearly a huge connection to Jewish Companies in the fraud that cannot be ignored with several people involved in Exbourne Manor appearing to have Jewish connections, but it appears that Judaism may have been infiltrated as demonstrated with the significant connections made to the Jewish Community UK company, shown later.

There is information to suggest I may have Jewish decent that I was never aware of, which could explain why I was randomly informed of two people in my family being circumcised, but not pertaining it openly to having anything to do with a faith. Circumcision can be associated with Judaism and Muslims.

Waterman Surname:
https://www.ancestry.co.uk/last-name-meaning/waterman?geo-lang=en-GB

There are apparent references to other faith groups in the centralised fraud, particularly with Egyptology, but those that I suspect are involved in the deception, such as Mikey P from rapid response, tried to convince me of an Egyptian origin death cult. With the latest information regarding Douglas Smiths connection to the Goldsmiths, I have to consider that this may have been a deliberate distraction to hide a true origin.

Whatever the history behind it, the system it is far from truthful, transparent and fair and is therefore not of the true Creator, where I believe moral conscience, in a rational state of mind was gifted to protect all of creation. I am confident that the Creator has always been here, but that the system has poisoned the body and mind and removed rationality, moral conscience and therefore the Creator from the foundation of life.

I believe we are at crossroads, where the technology being created could be used to enslave humanity or to free all and bring heaven on Earth through a system of Truth, Transparency and Trust.

Referring back to the Goldsmiths and the subsequent evidence, there is speculation that Princess Diana's mother had had an affair with James Goldsmith and that he may be her Father, as shown in the article below.

Was Goldsmith really Princess Diana's father? Let's hope so | Irish Independent
https://share.google/sqh9bSJAwNCmnhy3J

Douglas Smiths connection to orgie parties, the practice of 'dark arts', to the Middle East oil field and airport security and significance and timing in the political arena and Princess Dianas apparent death in the 1990's leading up to The World Trade Centre disaster cannot be ignored. The evidence that follows make this even more significant.

The research of the Goldschmidts suggests that B.H Goldschmidt was associated with the Goldsmith family and searching for this reveals Goldschmidt & Howland Group Limited. This was incorporated on Companies House in 2004 and its incorporation document shows 788 to 790 Finchley Road and A1 Company Services, both having been mentioned as being connected to International Government fraud and corrupt Politicians by Gordon Bowden in 2017 / 2018.

Anthony Mann connects Kids in Mind to Kids In Mind Trading Ltd, that was incorporated on 25th February 2025. Mann also connects to Atlas Hotels (Group 1) Limited with Atlas Hotel companies quickly connecting to Jeffrey Epstein.

Mann also connects to The Invicta Film Partnership No.6.LLP. Invicta Film Partnership companies appear throughout the research of the fraud and connect very quickly to The Satanic Temple United Kingdom and apparent references to the Cube of Satan.

Jonathan Andrew connects The Invicta Film Partnership No.6.LLP to another Invicta Film Partnership company and to Siemens Financial Services Holdings Limited and Siemens Financial Services. Siemens Financial Services Holdings Limited was incorporated in January 2001 and changed its name for only time in March 2001, four months before Larry Silverstein acquired the lease for the World Trade Centre. Boot also connects to Sandbank Property Redcar that was incorporated in 2013 and dissolved in August 2023. Sandbanks is the name for the affluent area in Poole, Dorset and Dorset Inspectors Neil Munros body was found, as mentioned later. The filing history shows that on the 6th July 2022, the companys address changed to care of Evelyn Partners, a company already associated to Rishi Sunak and the fraud. The research of the Georgia Guide Stones connect quickly to Exbourne Manor. Its also two days before I approached Anthony Roberts, initiating the investigation.

Fiona Reynolds connects The Green Alliance to National Trust Enterprises Limited (The) that was incorporated in 1972, a year after the World Economic Forum began and has a forged register, meaning that despite being one of the largest land owners in the UK, they own nothing legally. This has featured in previous research.

Anthony Flower of The Green Alliance connects to the Young Foundation that had previously featured in the research.

Lisa Matthews connects The Green Alliance to Camden Citizens Advice Bureau that all appear to have been set up along with the whole legal system, as part of the fraud.

Andrew Gifford connects The Green Alliance to Syria Support Group Europe incorporated in 2012 and having dissolved in January 2017. Syria appears to be an important part of the agenda. Gifford also connects to Second London American Trust PLC that was incorporated in 1996 and had an address of 30 Finsbury Square that features throughout the fraud. Gifford also importantly connects to JP Morgan Mid Cap Investment Trust PLC. Gifford also connects to Association of Professional Political Consultants that dissolved in 2019, the year of the supposed COVID outbreak and appears to have a forged incorporation document.

Robin Grove-White connects The Green Alliance to a Welsh company and various Greenpeace companies that makes connections to the National Crime Agency and that supports my previous research linking the climate change and Green movement as an agenda of an Islamic infiltration by those behind the system.

Christopher Haigh connects The Green Alliance to Chem Trust that has BWB Secretarial Limited and the London Law Agency, making it a criminal company and linking to the Madeleine Mccann company, Madeleine's Fund: Leaving No Stone Unturned Limited. Haigh also connects to The Temple Trust, which makes immediate critical connections to the Grenfell Tower Management company via one of its directors as covered later.

Nicholas Hinton connects The Green Alliance to The International Crisis Group that was incorporated in 1995, the same year as the Hakluyt International Advisory Board and Save The Children that was incorporated in 1921, has a forged register and Waterlow & Sons on its incorporation document. Articles emerged in 2024 that Save The Children was being investigated for possible crimes against children, but I suspect this was used to alter, conceal or destroy evidence of the larger crimes as it became exposed. This is a good example of their inverted name system.

Julie Mellor connects The Green Alliance to Pricewaterhousecoopers LLP and Pricewaterhousecoopers or PWC companies feature throughout the fraud.

Dr Andrew Purkis connects The Green Alliance to The Diana Princess of Wales Memorial Fund (Tribute Album) Limited, making an immediate company connection to James Goldsmiths sons company and Princess Diana, with speculation that James Goldsmith was her real Father.

This all now provides an almost immediate link to Exbourne Manor, Goldsmiths, Epstein, Max Clifford, David Cameron, Elon Musk, Donald Trump, Princess Diana, my three familes and an apparent threat against all of creation using Siemens, cell towers and collider technology.

The information claims that n 2019, the same year as the seemingly planned 'COVID outbreak', likely a cover for the directed energy agenda, Nigel Farage made claims of corruption about Smith. I suspect this was collaboratively staged for Farage to become the UK's next leader. More on Nigel Farage later.

Interestingly Dorries links to Capita and apparent Police related organisations via other directors of company Averbrook Limited. Dorries became the only significant person of control in 2016, the same year as the apparent Satanic ritual at CERN. Capita is the largest UK International business process outsourcing company for Government Contracts.

This suggests she, along with others, have been specifically positioned to expose the corruption, but not the Companies House fraud. This could be to support an agenda of falsified prophecies to fit The Albert Pike Letter or as part of an experiment on the masses.

Capita Business Services Ltd is a fraudulent entity company started with the same two companies as Exbourne Manor Freehold Limited.

The research that I have conducted on Smith links quickly to Exbourne Manor, Ghislaine Maxwell and the supposed Royal family. According to research, Smith is ex-military and was involved in oil field and airport security in the Middle East.

Researching Fever Parties, reveals that Fever Party Limited was incorporated in 2006 by York Place Company Services, that features throughout the fraud. There are two records for a Susan 'Savill' within this company with Savil connecting to Bright Stars Fireworks UK Limited. This was incorporated in February 2001, five months before Larry Silverstein acquired the lease for the World Trade Centre and changing its name for the only time in 2004. It is a criminal company started with the same companies as Exbourne Manor Freehold Limited. It has 'Temples Ltd', that had featured in the research of Max Clifford, on its incorporation document.

Temple Nominees Limited was incorporated in 1977 and has an address of 9 Wimpole Street, which becomes relevant and has various previous names with 'forms' in their title. It dissolved in August 2010, three months before CERN Limited was incorporated. Its incorporation document shows the name Sunder Mansukhani, that is important due to the connection to Officeteam 2 Group Limited and the connections to the documents or 'forms' used for the forged incorporation documents.

Companies House research shows a Douglas James Smith with date of birth of July 1961 having been a director for Sabre Safety Holdings Limited that had been incorporated in 2005 and dissolved on 27th June 2017, at a key time and around three weeks after the Grenfell Tower Fire mentioned later. It has Oswalds of Edinburgh and criminal company Jordans (Scotland) Limited of 24 Great King Street, Edinburgh on its incorporation document and are connected to the research of Baroness Mone, linking to supposed Royalty, as shown later.

Smith had also become a director for SSL Realisations (2017) Limited in December 2001, three months after the World Trade Centre disaster. The company had KPMG in its registered address and was incorporated as Sayer Safety Limited on 26th June 2001, almost a month to the day before Larry Silverstein acquired the lease for the World Trade Centre. It changed its name to Sabre Safety Limited on 10th August 2001, almost a month to the day before The World Trade Centre disaster and changed its name for the final time on 2nd June 2017, two days before the Grenfell Tower fire. Christopher Sayer of an address in Scotland is shown on the incorporation document.

There are two records for Jennifer 'Cameron' within SSL Realisations (2017) Limiteds people record.

Tommy Robinson

As most of us know, Tommy Robinson appears to be an outspoken activist that has gained the support of the masses, particularly it seems of Football fans. Like many of those involved in this agenda, Robinson has an alias name of Stephen Christopher Yaxley-Lennon. He was part of the English Defence League and videos had emerged of him claiming to be a Zionist. His actions appear to be risking creating division between faith groups, rather that uniting all of humanity against the criminal system.

Tommy Robinson - Wikipedia https://share.google/eJJIHLSy6KdLG9W4S

There is speculation that Muslim convert, Wazim Kempson is actually Tommy Robinson. This has to be considered seriously due to other evidence being acquired, including dual roles appearing to played and the entertainment industry and therefore actors being huge part in the fraud and deception.

The link below suggests Kempson studied at Madinah University accepted Islam in 1994, the year before the important intelligence agency and Russian linked Hakluyt International Advisory Board was incorporated and has since dissolved, having been exposed.

A search for Madinah University on Companies House reveals Mindinah College that was incorporated as Al-Madinah International Foundation in February 2013 before changing its name in 2016, the same year that the apparent ritual took place at CERN. Madinah Ltd is shown on the incorporation document and within the people record. They appear to have stopped the link to the overview, but it works to the people record below.

Madinah College – Companies House:

A separate search for Madinah Ltd shows two entries within one having been incorporated in January 2013 and having dissolved in March 2024, as the exposure continued.

Abdulaziz Abdulbaki Khald connects Madinah Ltd to Blue Trading (UK) Ltd that was incorporated in January 2012, three months before the apparent meeting with Jeffrey Epstein, Steven Haking and CERN Scientists. It is in the process of being struck from the register, as the exposure continues.

Parminder Singh was appointed to Blue Trading (UK) Ltd from 24th May 2017 to 22nd June 2017, with the Grenfell Tower fire having occurred on 14th June 2017 and the research of Robinson already connected to the research of it.

Singh also connects to HBOS Factoring Ltd that was incorporated in 2015 and is in the process of liquidation. HBOS is part of the Lloyds Bank Group and HBOS PLC is shown on page 40 of the Royal Foundation for the Prince and Princess of Wales.

I had tried contacting Robinson months ago in the hope that he would assist in exposing the irrefutable and verifiable evidence of the criminal system, particularly as that is what he claims to be trying to do and has supposedly been imprisoned several times for doing so. I had been liaising with Urban Scoop, that work with Robinson and they confirmed in an email that Robinson had been given my number, but I have heard nothing from him.

Mahyar Tousi associates with Robinson, has a large social media platform and his listeners appeared to convince him to interview me in 2024. The interview appeared rushed and Tousi uncomfortable. I had direct contact with Tousi and requested repeatedly that he arranges a discussion with Robinson and I, but it was never arranged. Tousi was later established to be connected to the fraud through a company called Iris which connect to IBM and a stationery company used in the forgery of Companies House documents.

Tousi has Iranian roots and there is clear evidence of an Iranian collaborative deception in relation to the fraud and the connection to the Worlds main currency producer De La Rue. This infiltration appears to connect to the immigration agenda and the Albert Pike document detailing the plans for the Three World Wars.

(EDL) English Defence League Limited was incorporated as The English Defence League (EDL) Limited in June 2011, four months before Jimmy Saviles supposed death. Its name was changed a month later to The English & Jewish Defence League (EDL) Limited, making an apparent Jewish connection. The following year CERN supposedly discovered The Higgs Boson or God particle. The company name was changed for the last time in 2014 and it dissolved in April 2019, three months before Jeffrey Epstein was supposedly arrested and a protest took place in Wuhan. This was four months before cell towers were erected there and eight months before the supposed COVID outbreak. April 2019 seems to be when a lot of the companies in the research of the fraud dissolved I suspect this was due to the COVID deception being planned, to cover the threat from directed energy. There is no registered office shown for the company, which I don't think I have seen with any other company,

One of the directors for the company is Helen Gower. Remember, there has been no verification of details by the Government deliberately, meaning false details can be used and they can exploit, victimise and cause suffering to the masses.

A separate search for Helen Gower shows a record for Helen Lesley Gower connecting to RDV Properties Ltd that has addresses of Fordingbridge, Hampshire and Salisbury on its incorporation document and both areas quickly connect to the research around Exbourne Manor. It also has Company Registrations Online Limited on its incorporation document that is the same company used by Owens & Porter, the former management company for Exbourne Manor that connects quickly to the Russian Government and Ghilslaine Maxwell via Stephen Owens.

It has Barbara Kahan, A1 Company Services and 788 to 790 Finchley Road on its incorporation document, all previously exposed by Gordon Bowden just prior to the COVID situation and then supposedly murdered in 2020.. Evergreen was the company whose cargo ships got blocked in the Suez Canal in 2021 and we have to consider that this was staged in relation to the Israel attacks and the proposal for the Ben Gurion Canal passing through Gaza, mentioned previously in relation to the research of Tees Valley and the corruption involving Ben Houchen.

Jackson Reed Stephenson connects Evergreen Industries Limited to Fishermans Wife Ltd, Yr Fish and Chips Ltd and The Fishermans Second Wife Ltd. A duplicated record within this company for Jackson Reed Stephenson connects to 'Brown Sugar Leeds Limited' that was incorporated in 2012 and is a criminal company with The London Law Agency on its incorporation document.

Brown Sugar can be a term used for Heroin.

Stephenson also connects to Gravely Whitby Ltd that was incorporated in August 2009 and dissolved in 2017. Lawrence Douglas Adams of this company connects to almost 4800 companies. This is obviously a lot of companies for one person to have been associated so raises suspicion. One of these companies investigated randomly is Collins 'Elite' Properties Limited that was incorporated in 2014. Peter Collins of this company connects to My Party Needs Limited and Event London Limited.

Event London Limited was incorporated in 1998, the year before the World Wide Web was created for CERN, and it dissolved in July 2022, the same month that Anthony Roberts of Exbourne Manor Freehold Limited resigned.

Patricia Maria Hegerty connects Event London Limited to Canford Court (Management) Limited that was incorporated in 2004. This has a registered address of Unit 1, St Stephens Court, St Stephens Road, Bournemouth, which is the exact same address quickly connected to The research of the Grenfell Tower and the same building as the research of The Doomsday Close and the address is very close to Exbourne Manor. The filing history shows that this address was entered in November 2024, as the exposure continued and had various other addresses around Exbourne Manor.

Sylvia Frank connects Canford Court (Management) Limited to 172 Canford Cliffs Road

(Maintenance) Limited that was incorporated in 1967. It has Simmons & Simmons on its incorporation document that has featured in the research and its registered address was changed on 5th March 2025, as the exposure continued. Its previous address was 6 Poole Hill, Bournemouth, an address shown significantly throughout the research of the fraud surrounding Exbourne Manor and normally associated with Foxes Property Management.

The directors of 172 Canford Cliffs Road (Maintenance) connect to many real estate companies linked to Exbourne Manor Freehold Limited and Management companies that had been associated with the Association of Residential Management Agents (ARMA) that connects closely to The Association of Chief Police Officers of the United Kingdom, as shown in the research of Julian Assange.

This means there very quick connections from The English Defence League, where Robinson was associated to the Police and Exbourne Manor.

On a separate search from Robinsons alias name of Stephen Yaxley-Lennon there is only one entry that connects to Maximum Trading Limited that was incorporated as Christopher James Ltd on 11th May 2005, before its name was changed in September 2010, two months before CERN Limited was incorporated. D&D Law Agency Services Limited and Daniel John Dwyer is shown on the incorporation document and is shown throughout the fraud. It has an address registered in Kent and The filing history shows that the companies registered office had been changed from 96 to 99 ‘Temple’ Chambers, Temple Avenue, London on 6th September 2001, five days before The World Trade Centre disaster.

D. & D. LAW AGENCY SERVICES LIMITED overview - Find and update company information - GOV.UK https://share.google/Lvodx2a0VnqDMMJJM

Betty June Doyle is connected to D. & D. Law Agency Services Limited and is a name featured in other areas of the fraud.

Daniel John Dwyer connects D. & D. Law Agency Services Limited to Watercress Way Management Limited, but this connection has been removed from Companies House since being exposed, which now becomes incredibly important.

Martin Lloyd Crick connects Watercress Way Management Limited to Aylesham Village Phase 2B and 2C (Aylesham) Residents Management Company Limited and Stephen Charles Bray shown as resigning in 2023, had connected to Aylesham Village Phase 1B (Aylesham) Residents Management Company Limited. He had been a director for this company since 2016, the year of the apparent ritual at CERN and resigned in January 2024. The Memorandum and Articles of Association for this company shows Vistra of St James Square London.

Vistra Limited is the main company in the fraud having been incorporated as Jordan & Sons Limited in 1965, the year before the foundation of the Church of Satan. From the evidence, I suspect The Church of Satan was infiltrated by another group in 1997, around the time of Princess Dianas apparent death. From the research it appears Vistra has funnelled billions of pounds through company EQT AB and EQT Partners Limited connects extremely quickly to Ghislaine Maxwell.

Daniel John Dwyer also connects D. & D. Law Agency Services Limited to Cambridge Court (Ferndown) Limited that was incorporated in June 2009, three months before The Royal Foundation for the Prince and Princess of Wales. Asset Property Management Ltd is shown in the people record for this company and as having been appointed to Spencer Road (Bournemouth) Freehold Limited where Initiative Property Management Limited had been appointed as a Secretary from June 2020, a key time in the COVID situation and resigned in February 2024, as the exposure continued.

Initiative Property Management Limited appears to have been the subject of a staged false investigation by Dorset Police that started in 2023 and that connects to Exbourne Manor Freehold Limited. This was after they filed my reports as no further action. It now appears that this investigation may have been used to alter, conceal or destroy evidence of the infiltration and possible murder of the real Royal family that we will go into more detail about shortly.

Within Robinsons aka Laxley-Lennons connected company, Maximum Trading Limited Daniel John Dwyer and Daniel James Dwyer and Daniel James Dwyer connects to many companys. These include Stonemasons' Court (Long Hanborough) Limited, London Telephone Exchange Limited, Brompton Asian Group Limited, Federation of Small Businesses Limited and Italiano Pizza Cone Limited.

Daniel James Dwyer also connects D. & D. Law Agency Services Limited to Institute of Meat that was incorporated in October 2010, a month before CERN Limited was incorporated and Keith Donald Fisher connects this company to Institute of Meat (The).

INSTITUTE OF MEAT(THE) overview - Find and update company information - GOV.UK https://share.google/fy7FeKX09nnzvaypv

The Institute of Meat (The) was incorporated in August 1946, an important year for various reasons, including it being the same year as the foundation of the United Nation associated UNICEF that was supposedly to help children around the World, particularly in times of conflict. I now suspect it was set up to specifically to target children.

Institute of Meat (The) dissolved in May 2010 and is one of only two or three companies discovered where the name has been removed from its incorporation document. This was also identified with the evidence of The Paedophile Information Exchange (PIE) via the National Council for Civil Liberties and its connection to the research of the World Trade Centre disaster.

The registered address for The Institute of Meat (The) is the Worshipful Company of Butchers, which I suspect will connect to The Worshipful Company of Skinners' and the possible skinning of children relating to the Pizzagate scandal and other areas of the research now connecting to the fraud.

The filing history for Institute of Meat (The) shows that on 2nd of August 1988 it had a registered address of 56-60 St John Street, London appearing to change it before the creation of the World Wide Web for CERN in 1989. This is a variation of the address connected to Companies Made Simple and the removal of the company name linking to PIE as mentioned previously.

John Taylor connects The Institute of Meat (The) to the National Federation of Meat and Food Traders that was incorporated in 1900 and also The National Federation of Meat

Traders (Services) Limited that was incorporated in the important year of 1991. This is a criminal company with Jordan & Sons Limited on its incorporation document.

Graham Eric Bidston connects The National Federation of Meat Traders (Services to Tunbridge Wells Masonic Hall Limited that was incorporated in 1965.

Jonathan Wheeler connects The Institute of Meat (The) to 34 companies including First Leisure Corporation Public Limited Company that was incorporated in 1981 and dissolved in November 2022, as enquiries continued at Exbourne Manor. It connects immediately to fraud by Earnst Young in its registered address and Allen & Overy on its incorporation document.

Charles Graham Coles connects First Leisure Corporation Public Limited Company to 47 companies including Brain Research Trust that has recently been linked to the Goldsmith family companies, Charlie Veitch, the immigration escalation and possible links to the murders of women by rivers.

Sir John Woolf connects First Leisure Corporation Public Limited Company to companies featured throughout the fraud and British American Investment Trust PLC that already features in the research of Justin Welby, the former Archbishop of Canterbury.

Edwin Honeywell connects The Institute of Meat (The) to Pie Company (The) which was incorporated in 1985 and dissolved in October 2020. The incorporation document shows Mavis June Later and Jordans & Sons Limited, making it a criminal organisation and making immediate connections to Exbourne Manor Freehold Limited and other key areas of the fraud, including to Mohammed Al-Fayed.

Julian Nicholas Wild connects The Institute of Meat (The) to Northern Foods American Holdings Limited and to Swiss Milk Products Limited that was incorporated in 1961, the same year that De La Rue purchased Waterlows in relation to criminal currency control and he production of currency for Iran from Switzerland. The company dissolved on the 14th May 2024, the same day that I released the evidence of the directed energy threat linking to The Royal Foundation of the Prince and Princess of Wales and that King Charles' portrait was unveiled.

The directors of Swiss Milk Products Limited connect to various Lancashire Media companies and water companies. Water companies are centralised to the fraud, like

everything else, and gives them the ability to poison the masses through the water, as appears to be the case according to this article from 2023:

‘Forever chemicals’ found in drinking water sources across England | Pfas | The Guardian https://share.google/MWbeq0i9qO2v2rfqg

Ian Robertson connects Swiss Milk Products Limited to Ward Homes Group Limited and Ward Homes Limited that was incorporated as Wards Construction (Medway) Limited in 1937, Medway being the area I was born. It is acriminal organisation with a forged register and Jordans & Sons Limited on its incorporation document.

Robertson also connects Swiss Milk Products Limited to various Arla companies, which makes a connection to another apparent plan to poison the masses through the Bovaer scandal as they became exposed.

The Possible Infiltration of the Royal Family

On 14th May 2024 I had released evidence of the threat from directed energy, which would include cell towers and collider technology. I later found out that King Charles Satanic looking portrait had been unveiled on exactly the same day.

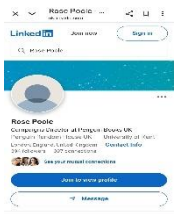
Two days later on 16th May 20024, I received an email from Vanessa Emery who claimed to be the real heir to the throne and having been kidnapped from her parents in a meeting with Walt Disney at Blackpool Pleasure Beach in around the early 1960’s. Emery claimed to have been kept at a house in Blackpool before being taken to and brought up in Aylesham, Kent, not far from Canterbury. Emery claims that many of the residents in Aylesham had moved from Portsmouth area and that they were possibly running the Companies House fraud from the village.

Portsmouth is important as it is where Deborah Fleming was the CEO for the NHS and resigned before initiating my removal as a director from Exbourne Manor Freehold Limited for refusing to file forged Bank documents.

Emery claims to have acquired what she believes are real royal artefacts, including a ring and a book engraved with M.G. which Emery claims are the initials of her Father and that the initials for her mother are B.E. Emery also presented a photograph which she claims shows her parents before they disappeared and provided information suggesting her mothers name was changed to Rose Poole along with the date of birth being changed to try and hide her real identify. Emery claims Ancestry records are being falsified to assist with this.

Emery provided sufficient information for me to conduct some enquiries on Companies House.

The name Rose Poole is shown on Linkedin as connecting to Kent and Penguin Books.



Penguin Books Limited was incorporated on Companies House in 1965, the same year that the main company in the fraud, Jordan & Sons Limited. The filing history shows that as the exposure continued, the registered address was changed on 30th October 2024 and again on 4th November 2024. It has a forged register and Paisner & Co of 44 Bedford Row on its incorporation document with Paisner companies making important connections to the Intelligence agencies and The Jewish Community Centre UK, as shown elsewhere in the document. The directors from this company connect immediately to the same important areas of the fraud.

Penguin Books Limited – Companies House:

A further search shows that Rose Poole Ltd was incorporated on 23rd May 2017, the same month that Fleming Co Limited was incorporated and connecting the research of World leaders to the fraud and important evidence regarding this year, as shown elsewhere in the document. The company dissolved in 2018, as Gordon Bowden continued to expose his evidence in relation to the non verification of Companies House and 788 to 790 Finchley Road.

Ancestry.com UK Limited was incorporated on Companies House in as Biorealm Limited in 2004. Its name was changed that year and again in July 2007, two months after Medeline Mccann went missing. It was changed again on 15th September 2009, two weeks before The Royal Foundation for the Prince and Princess of Wales was incorporated. It connects immediately to the fraud by the addresses and Luciene James Limited on its incorporation document.

Helen Louise Giddings connects Ancestry.com UK Limited to three companies including Ancestry.com UK (Commerce) Limited that was incorporated in 2008 and dissolved in February 2025, as the exposure continued. It connects immediately the fraud by Pinsent Masons on its incorporation document. Pinsent Masons is shown at important times in the fraud linking to apparent possible drug trafficking connected to David Icke, the research of the doomsday clock and to Donald Trumps connections to research suggesting Governments are trying to hiding Jimmy Saviles links to Government and Geneva, Switzerland, where CERN is based.

Jonathan Robert Hamilton Wales connects Ancestry.com UK (Commerce) Limited to twelve companies including Fusion technology companies and ID7 LTD that was incorporated as C M S Distribution Limited in 1993, two years before the incorporation of the Hakluyt International Advisory Board. CMS companies connect to Jimmy Savile and also relate to CERN as explained elsewhere in the document. Jordan Company Secretaries Limited is shown in the people record for ID7 LTD making an immediate connection to the research of Jeffrey Epstein via Bear Stearnes, as shown elsewhere.

The Fusion company connection appears to be important and likely relates to CERN and the Collider technology and what they were planning, but appeared to have failed in 2012. An article from March 2025 states that United Kingdom Atomic Energy Authority (UKAEA) and Italian company Eni have partnered to construct the largest facility of its kind by 2028 at the Culham Science Campus in Oxfordshire by 2028.

It has Jonathan Goldstein and Stone King on its incorporation document.

Government Website Arnold Wagner:

One of the first things I had established from Emerys information was the importance of Blackpool Pleasure Beach, with it appearing to verify that Disney had visited it in the 1950's and that it had been the inspiration for The Walt Disney Resorts, with Disneyland Park having opened in California in July 1955 and according to the research having been the only park directly supervised by Walt Disney. This suggests Disney may have been removed prior to the meeting claimed by Emery.

July 1955 is also important in relation to the Companies House research and making connections to Turcan Connell Trustees appearing to make possible connections to Exbourne Manor by Owen Film Partnership LLP, that dissolved in January 2022 and ‘Betts’ companies and to The Royal Foundation for the Prince and Princess of Wales and The Satanic Temple United Kingdom. I have to consider that these relate to Stephen

Owen and Diana Betts of Exbourne Manor Freehold Limited, due to the other evidence being acquired.

Walt Disney World - Wikipedia https://share.google/MslG3bQ7Sz3AQ5gpZ

The research suggests Walt Elias Disney had been born in Canada to Irish parents -and Flora (nee Call) of German / American decent making a German connection. The Disney famiyl were active members of the Congregational Church. There appears to have been some controversy over anti-Semitism with Disney and at one point he had suggested there was no real war, suggesting he may have known something about the deception against humanity. Disney had no involvement with the affiliated Motion Picture Alliance from key year of 1947 and supposedly died in 1966, the year of the Foundation of The Church of Satan. Disney brother took over the company in 1971, the same year that The World Economic Forum began with its beginning appearing to involved, King Charles, Vladimir Putin and Klaus Schwab.

Research suggests that Walt Disney had connections to Hitler and the Flemings via the 'The Father of NASA' Wernher Vaun Braun. One of these articles in relation to this is dated July 2019, the same month protests took place in Wuhan over a planned incinerator and when Jeffrey Epstein was arrested with it being a month before cell towers were erected in Wuhan. Braun appears to have been involved in American rocket development, possibly leading to the first supposed Inter-Continental Ballistic Missile (ICBM). This had involved the ATLAS Corporation and ATLAS is also the name used in the experiment at CERN where the Higgs Boson or God Particle was discovered in 2012. Companies House research on Brauns name links quickly to the same companies being exposed and to Exbourne Manor. Braun also appears to link to Operation Paperclip and the MK Ultra programme with the Companies House research from this linking immediately to apparent connections to my family where there are also connections appearing to be made to the Royal family and the Vatican via ninth circle companies as well as to a Monks company shown on the incorporation document for The Royal Foundation for the Prince and Princess of Wales again.

The research of Blackpool Pleasure Beach shows that it was founded in 1896 and had partially closed during the war and returned to prominence from 1958 to 1961, fitting with the dates provided by Emery. 1958 was also the year that Charles became initiated to

become the Prince of Wales in 1969, where Companies House is based and has created the centralised criminal system around the world through their forgery of the register and associated documents. Amanda Thompson is shown as the current managing director for the company at the time of the research with various members of the Thompson family having managed it since 1929. Amanda had been the managing director of Blackpool Pleasure Beach from 2004, received and OBE in important year of 2012 and is shown to have been given a reference from Companies House in February 2020, two months after the COVID outbreak. The research suggests she is prominent in Theme Parks all over the world, having chaired the Europe, Middle East and Africa Committee (EMEA) and is part of the Advisory Board. She was nominated for the Board of directors for International Association of Amusement Parks and Attractions (IAAPA) from 2018, when Gordon Bowden was starting to expose elements of the Companies House fraud and led the Global Attractions Industry from 2020 to 2021, being the first European woman to do so. It very apparent how important Blackpool Pleasure Beach is to this International Government fraud and the potential risk to children.

Companies House shows Blackpool Pleasure Beach (1910) Company was incorporated in 1910 as Blackpool Pleasure Beach Company before changing its name in 1986, around the time Emery claims to have witnessed a murder. The companys register has been forged with the incorporation document displaying Velvet Coaster Limited. 1910 is the same year that Savile Club was incorporated as shown elsewhere in the document.

Fiona Cilji connects Blackpool Pleasure Beach (1910) Company to South Beach Construction Company Ltd which has an address of 16 Churchill Way, Cardiff which is used throughout the fraud and I believe was an address for Companies House. Amanda Thompson is also shown as a director for this company.

Graham Robertson Stephens is shown as having been a director for Blackpool Pleasure Beach (1910) Company for one day in 2009 and is shown as being connected to over 5800 companies including Lassington Reach Management Company. This is the same name record that connects immediately to the research of Richard Moore, the head of MI6.

Andrew Richard Blakehouse connects Lassington Reach Management Company to St James Mews (Charfield) Management Company Limited, which had a registered address of Queensway

House, 11 Queensway, New Milton, used throughout fraud and featured in this document several times including the research of the Grenfell Tower, Post Office Scandal and several times regarding Julian Assange.

Stevens also connects Blackpool Pleasure Beach (1910) Company to Blackpool Pleasure Amusement Consultancy Limited and Philip David Mccandlish connects this company to 'Kidsfest' Ltd that was incorporated in 2015 and has Companies Made Simple on its incorporation document. Stevens also connects to Dancing Off Ice Ltd with the name Peter Valaitis of an address in Bristol and Duport Associates Limited on the incorporation document, both featuring throughout the fraud. Valaitis for example, in the research of the Government issue radios. This particular record for Valaitis shows over 3600 companies and there are duplicate records for the name. Valaitis also connects to Bitcoin News Ltd and Crypto News Ltd demonstrating the centralised digital currency systems. Valaitis also connects to Rapid Response Cleaning Ltd, which may be relevant.

Referring back to Fiona Gilji of Blackpool Pleasure Beach (1910) Company, they also connect to Frontier Land Limited and Dudley Charles Salmon Westgate connects to John O' Groats Limited and Alan Leach of this company connects to Visit Isle of Wight Limited that has Isle of Wight Chamber of Commerce and White Link Limited on page 17 of its incorporation document. Both companies have featured in the research of the fraud previously and Isle of Wight Chamber of Commerce is criminal company with Jordan & Sons Limited on its incorporation document that is in a file of a selection of documents, currently on page 10 of the filing history.

ISLE OF WIGHT CHAMBER OF COMMERCE overview - Find and update company information - GOV.UK https://share.google/N0DuCU6um3LqogoxQ

Robert Bradshaw of John O'Groats Ltd was a director either side of the World Trade Centre disaster and connects to Liverpool Queen Victoria District Nursing Association (The), that is shown as being involved in social work and having been incorporated in 1898, the same year as important companies De La Rue Holdings and Harrods. Although the incorporation document the memorandum of articles suggest the register has been forged.

Edward Rathbone connects Queen Victoria District Nursing Association (The) to three Brabners companies, with Brabners LLP featuring throughout the fraud, including the research of the cell tower overlooking Fort William and the research of Pam Bondi regarding Donald Trump.

Richard White connects Queen Victoria District Nursing Association (The) to Kensington Community Sports Limited that has Stephen Cox of Oyez Company Services and C & M registrars Limited making connections to Officeteam 2 Group Limited and the research of Jeffrey Epstein and Max Clifford.

Kenneth Wright connects Queen Victoria District Nursing Association (The) to various Age Concern companies that feature throughout the fraud, and to Ocean Transport & Trading Limited that was incorporated in 1989, the same year as the World Wide Web for CERN. It had a previous name of Ocean Group Limited and a registered address of 1 Dorset Street, Southampton, that features throughout the fraud including the Police radios and the cell tower overlooking Fort William. It is a criminal company with Chettleburghs on its incorporation document, making connections to the research of Douglas Smith, Max Clifford and its seems Jeffrey Epstein.

Referring back to Robert Bagshaw of John O'Groats, he also connects to Lands End Limited suggesting they are literally controlling from one of the UK to the other with their criminal network.

Blackpool Pleasure Beach Limited that was incorporated on 10th January 1985 as Redzig Limited and changing its name for the only time, during the research on 1st September 1986, around the times Emery claims to have witnessed a murder.

Bagshaw also connects to Hotchkiss Patents and Investments Limited that was incorporated as the same name in 1896, before changing its name to Pleasure Land Limited in 1994 and then again on 29th December 2011, two months to the day after Jimmy Saviles supposed death. The company appears to have a forged register and research suggests Winchester Hotchkiss is a firearms company originating in Hampshire.

Anthony John Cornthwaite connects Hotchkiss Patents and Investments Limited to Sefton Chamber of Commerce and Industry Limited that was incorporated in 1980 as Southport and District Chamber of Trade, Commerce and Industry Limited before changing its name as the register was becoming electronic in 1992. It is a criminal company with Jordan & Sons Limited on its incorporation document.

Nicholas William Robert Thompson of Blackpool Pleasure Beach connects to Morecombe, Pleasure Park Holdings Limited that was incorporated in 1938 and dissolved in 2023 as the exposure continued. It has Waterlow & Sons on its incorporation document.

Thompson also connects to The British Association of Leisure Parks, Piers & Attractions Limited that was incorporated in 1996, has a registered address in Canterbury, not far from Aylesham and has Clifford Donald Wing and Reichmann and Wing Limited are on the incorporation document and Wing has the same name that connects almost immediately to my Mothers employer in Kent with my Mother having refused to look at any evidence since 2022 and clamed I am delusional and require medical help. Wing also very importantly connects quickly to the research of Companies House CEO, Louise Smyth, whom I suspect is a relative of John Smyth of the Justin

Welby scandal and to the research from Exbourne Manor itself. Wing also connects quickly to the research of Ninth Circle companies with the Ninth Circle appearing to relate to The Royal Family and Vaticans involvement in the murder of children, with the article making the claim supposedly being misinformation.

Research suggests Reichmann and Wing could be associated with The Reichmann family that were Canadian / Jewish and the 4th richest family in the World, at their peak. Their business supposedly dwindled when a Canary Wharf Development they were involved in under the instruction of Margret Thatcher failed in 1992, just happening to be the same year the Companies House register was becoming electronic. The research claims the Reichmann's had founded Olympia & York.

Olympia York (UK) Limited was incorporated in 1988 and links immediately to the fraud by Legibus. There are hundreds of Canary Wharf companies connected to its directors, with many Barclays companies and Blackrock companies, which makes connections to the Flemings and The Rothschild's. A huge criminal network exploiting and causing suffering to humanity.

Reichmann family - Wikipedia https://share.google/XZQQ86KDk3VkPjLWc

The British Association of Leisure Parks, Piers & Attractions Limited connected to Reichmann & Wing, is already shown in the research of my wifes former Employer in Sherborne and connecting to Treasure Island Kids Limited, Virgin Foundation companies and as shown later, the leader of Qatar, Tamim Bin Hammed Al Thani appears to be closely associated with King Charles and has a huge share in Canary Wharf that connects to the research of Dorset Police and The Manchester Arena Bombing research.

Colin Earnest Dawson connects The British Association of Leisure Parks, Piers & Attractions Limited to various companies including The Tourism Alliance Limited and Dreamland Leisure Limited that was incorporated in 1995, the same year as The important Hakluyt International Advisory Board and it dissolved in 2023, as the exposure continued. Dreamland Limited is based in Margate, Kent where my wifes Cousin, Victoria Proctor has recently moved and Dreamland is where we used to be taken when we children.

In 2023, articles emerged of a legal dispute with Disney and Florida Governor Ron De Santis over control of the Florida Disney Park and a clause regarding King Charles.

Santis was the Governor of Florida from 2019, seemingly in preparing for the COVID / Directed energy deception. Florida is also where Donald Trump has a residence and I had previous reports suggesting cell towers were not being erected there, but an article from April 2025, suggests

plans are taking place to erect them. Most places already have them, but it appears they may have ben delayed in this area. Santis had supposedly been ‘elected’ for congress in 2012, the year that CERN discovered the God Particle. He is an ally of Donald Trump and oversaw a Bill regarding parental rights in education, potentially paving the way for sexualisation of children. In 2022 De Santis had a book deal with Harper Collins making him a considerable sum of money. Harpercollins connects back to the Robert Maxwell research and Macmillan and has International companies having been bought by News Corp in 1989, the same year that the World Wide Web was created for CERN

The research acquired from Vanessa Emery cannot be underestimated and it appears that she is likely telling the truth or has been positioned by those behind the fraud to gain another false Royal position.

An initial search of 'Emery Aylesham Companies House’ within Google revealed Jessica Pamela Emery of The Mobile Dentist Company Limited with an address of 20 Miners Way, Aylesham. Michael John Moreland of this company connected to Heli Consultants Limited, which had Stanley Davis Group Ltd on its incorporation document, making an immediate connection to the fraud.

THE MOBILE DENTIST COMPANY LIMITED overview - Find and update company information - GOV.UK https://share.google/yzwjMi4PYgtRUoI3u

Moreland also connected to Sky Charter Operations Limited that was incorporated in 2006 and had a registered address in Whitstable, Kent. Abergan Nominees Limited was in its people record and had previous appointments for Matrix Technologies and KM Financial Solutions UK Limited.

On searching for KM Financial Solutions UK Limited within Companies House it revealed KM Solutions (UK) Limited with a registered address of Princess Parade, Manchester. The company was incorporated in May 2012, two months before CERN discovered the Higgs Boson or God Particle and showed Yomtov Eliezer Jacobs as a

director for one day and having connections to almost 27000 companies. Its no surprise that this name had been seen throughout the research of the fraud.

KM SOLUTIONS (UK) LTD overview - Find and update company information - GOV.UK

Referring back to Abergen Nominees, it was shown as connecting to Lloyd's Consulting Engineers Limited, Maclennan Imaging Limited, Elite Learning Limited, Horus Technology Limited, Pyramid Transactions Limited, Tees Valley Holdings Limited making reference back to the research of Ben Houchen, The Bodyshop (Gerrards Cross) Limited and Nuclear Systems Commissioning Limited.

Abergeen Nominees also connects to Balfour Homes Construction where they had been appointed from 2006 to 2008 and often for day or two. Balfour Homes Construction was incorporated in September 2007 and was in the process of liquidation at the time of the research. This appears to possibly make reference to Balfour Beatty and therefore The Rothschilds and the Balfour declarations fomentation of what we have been led to believe is Israel.
Abergen Nominees also connects to Portsmouth Memorials Limited that was incorporated in 2006 and dissolved in 2023, as the exposure continued and makes important connections to Hampshire where Deborah Fleming was an NHS CEO.

Referring back to Moreland he was also connected to Sky Charter UK Limited that was incorporated in 2002, year after The World Trade Centre disaster and had a registered address of More Stephens LLP, Victory House, Chatham Maritime, Chatham, Kent. Victory House, Chatham was an old BT building just off of Clover Street, where I recall attending with my Father for some reason. This is now shown as being permanently closed and was located right near a McDonald's Restaurant where I remember being taken for childrens birthday parties when I was a child and where they had a large plastic tree inside and seats around it. The research from More Stephens LLP appears to connect back to many companies in Hampshire.

Kenneth Wills of Sky Charter UK Limited connects to Aerospace & Controls Technology Ltd that was incorporated in 2010 and has First Class Company Services Ltd on its incorporation document, making connections back to the research of Jeffrey Epstein. Aerospace companies appear to be being used a lot to launder the deceptively and criminally obtained money from the masses through false Government defence contracts into their sinister agendas.

Julie Ann Wing, another name throughout the fraud, connects Aerospace & Controls Technology Ltd to Summit Aviation Engine Overhaul Limited that was incorporated in 1995, the same year as The Hakluyt International Advisory Board. An important Summit company is shown in the research surrounding Lucy Letby and leads to vaccine company Moderna. This also has First Class Company Services, 72 New Bond Street and a name of Richard Keene that is used throughout the fraud.

Deborah Johnson connects Summit Aviation Engine Overhaul Limited to KMFM Thanet Limited and Geraldine Ruth Pratt Allinson of that company to Canterbury Cathedral Trust, making a connection to Justin Welby, The Archbishop of Canterbury. Johnson also connects to KM (Holdings) Limited, KM Group Newspapers Limited and to Air Ambulance Charity Kent Surrey Sussex that had already featured quickly in the research of Justin Welby, The Archbishop of Canterbury.

Julie Ann Wing of Aerospace & Controls Technology Ltd connects to Gloucester Jet Set Centre Limited that was incorporated in 1997 and has Daniel John Dwyer of 6 'Brimstone' Close, Chelsfield, Kent, D & D London Law Agency Services Ltd of 96/99 Temple Chambers, Temple Avenue, London as well as another address of 84 Temple Chambers on its incorporation document. This makes a direct connection by the same name and address from Tommy Robinson to the research surrounding Aylesham.

We will come back to the importance of Julie Ann Wing shortly.

I have highlighted the word 'Brimstone' in the address above, because this had featured in some of the first research I had conducted, which was surrounding the World Trade Centre disaster. I had started to realise the scale of what I was uncovering and possible implications in me doing so, both personally and for the World. As I was researching I asked the creator what the purpose of my investigation was and what 'Fire and Brimstone' referred to in the Bible, that I had always presumed meant the a second coming of Christ my literally involve fire as a judgement upon humanity, whether it be a nuclear war or something else and if so, what was the purpose of me continuing with the odds stacked against me. As went to the next company record it was D&D Law Agency Services limited and this address. I had not seen the word Brimstone in relation to any other company and knew this was sign for me to continue, no matter what the risks and that this evidence was the key to help towards Humanities salvation from sin.

Daniel John Dwyer is shown as being connected to 5061 companies within the people record of Gloucester Jet Centre Limited, meaning there are duplicate name records for him as the other record had 1486 companies listed. There is also a duplicate record for Betty June Doyle within Jet Set Centre Limited, where it shows they are connected to 1917 companies, the first on the list of which is BBC Furbs Trustee Limited, making an important connection to the BBC, and Ladywell (Poole) Management Company Limited. This has a registered address of Hawthorns House, 1 Lowther Gardens, Bournemouth, Dorset making connections again to Burns Hamilton and Burns Lettings and the Association of Residential Management Agents (ARMA) that connects closely to the Association of Chief Police Officers of the United Kingdom, as shown in the research for Julian Assange. Foxes Property Management Ltd of 6 Poole Hill, Bournemouth and Caroline kelleway are shown in the people record. These make connections back to Initiative Property Management Limited and a cover investigation by Dorset Police to conceal the crimes against humanity.

Julie Ann Wing is often associated with Clifford Wing on the Companies House records and these connect immediately with the employer of who I had been led to beleive was my Mother and the evidence shows that my family had associated with the Kray Twins.

It appears that those behind the criminal system are becoming worried about the evidence regarding Vanessa Emery. Here is the content of a Police report that I submitted to Lancashire Constabulary on 14/08/25.

Ref LANCSCPE - 203882

‘I am a former Dorset Police Constable and since 2022 I have acquired irrefutable and verifiable evidence of International Government fraud involving the Intelligence Agencies, Police and Royal family regarding the forgery of the Companies House register that is worth trillions and knowingly facilitates most world problems.

Overwhelming evidence is being acquired suggesting the real royal family were infiltrated and removed and relates to the threat from directed energy including cell towers

The victim is a friend and witness of someone that significant evidence suggests is the surviving heir to the throne.

On 13/08/25 this person came onto my live stream and we discussed the evidence.

The following morning the victim was woken by a new cell tower being erected right outside the property by someone in an unmarked van claiming to be from the Council. All Councils are involved and Blackpool is important to the evidence.

These cell towers must be disabled now'

There was limited space in the report, but further evidence was acquired including images supplied by the victim of those that erected the towers after they arrives the following day:

I was sent a video from Vanessa showing what they claimed to be a phonecall to Blackpool Council, claiming they didn't know who had installed the cell towers and advised that Ofcom is contacted. I had already established that Ofcom appears to be compromised by the fraud.

Research shows that The Office of Communications (Ofcom) is the Government-approved regulatory and competition authority for broadcasting, internet, telecommunications and postal industries of the United Kingdom and was created in 2003.

Ofcom – Wikipedia
https://en.wikipedia.org/wiki/Ofcom

I was sent also sent a video from Vanessa showing what they claimed to be a phone call to the Police, claiming that the Council would be aware and should be the ones contacted.

Vanessa sent images of the towers and a sign that claimed they were operated by IX Wireless. IX Marketing had already featured in the research of Gerald Mccann and the Lucy Letby case.

Companies House shows that IX Wireless Limited was incorporated in October 2017, when significant moves were taking place regarding the fraud, as detailed throughout the document. It has Internexus Neworks Limited of 15 Esplanade St Helier, Jersey on its incorporation document making a connection to tax haven and possible money laundering.

A separate search for Internexus Neworks reveals The Internexus Nework Group Limited that was incorporated in 1997, has a registered address and is in the process of liquidation at the time of the research. It connects immediately to the fraud by Form 10 companies and Formations Direct Ltd and its incorporation document appears to be forged. Its filing history shows that its registered address was changed less than a month after registration, a method being used to hide the fraud.

Lord Terrence James Thomas of Macclesfield connects The Internexus Nework Group Limited to 18 companies including The United Kingdom Committee for UNICEF, Capita PLC, The Co-operative Bank and Unity Trust Bank making immediate and important connections to the centralised criminal network.

The timing of these posts being erected and the information surrounding the technology suggests they may be trying to silence witnesses surrounding Vanessa Emerys evidence.

The Albert Pike Letter

Most terrorist events researched so far, link to the same criminal companies, so we have to consider that the Lockerbie Bombing may have been a staged collaborative event to create a risk of racial divide and conflict as appears to have been the plan in the Albert Pike letter.

Information suggests that a letter was written by high level, Scottish rite Freemason and Occultist Albert Pike to Mazzini, the head of the Illuminati linking to the Vatican 1871. The letter appears to set out the plan for three World Wars to bring about their Creator through suffering and the 'light of Lucifer'. According to the research, the letter was removed from public view at The British Library Museum in 1977, the year I was born.

I cannot confirm that the letter is authentic, but it certainly does align with a lot of what has been happening and the research being acquired from Companies House. The copy of a document I have acquired in relation to it states the following:

'The First World War must be brought about in order to permit the Illuminati to overthrow the power of the Czars in Russia and of making that Country a fortress of Atheistic Communism. The divergences caused by the 'Agentur' (agents) of the Illuminati between the British and Germanic Empires will be used to foment this war. At the end of the War, Communism will be built and used in order to destroy the other Governments and in order to weaken the religions.

The Second World War must be fomented by taking advantage of the differences between the Fascists and the political Zionists. This war must be brought about so that Nazism is destroyed and that the political Zionism be strong enough to institute a sovereign state of Israel in Palestine. During the Second World War, international Communism must be strong enough in order to balance Christendom, which would then be restrained and held in check, until the time when we would need it for the final social cataclysm

The Third World War must be fomented by taking advantage of the differences caused by the 'agentur' of the Illuminati between the political Zionists and the leaders of Islamic World. The War must be conducted in such a way that Islam (the Moslem Arabic World) and political Zionism (The state if Israel) mutually destroy each other.

Meanwhile other Nations, once more divided on this issue will be constrained to fight to the point of complete physical, moral, spiritual, and economic exhaustion.....We shall unleash the Nihilists and the atheists, and we shall provoke formidable social cataclysm which in all its horror will show clearly to the nations the effect of absolute atheism, origin of savagery and of the most bloody turmoil.

Then everywhere, the citizens, obliged to defend themselves against the world minority of revolutionaries, will exterminate those destroyers of civilisation, and the multitude, disillusioned

with Christianity, whose deistic spirits will from that moment be without compass or direction, anxious for an ideal, but without knowing where to render adoration, will receive the true light through the universal manifestation of the pure doctrine of Lucifer, brought finally out in the public view.

The manifestation will result from the general reactionary movement which will follow the destruction of Christianity and atheism, both conquered and exterminated at the same time'

I think its relevant to remember that there was a short space of time between World War One and World War Two and that this letter claims that they were waiting for the right time to trigger World War Three as its described. It appears that may have happened since the exposure of the Companies House fraud, that is absolutely connected to international conflicts and in fact motivates a collaborative effort for conflicts to be able to defraud the masses through them, steal children from them and use them as financial reset for them to maintain control.

More on other terrorist incidents later.

The SWIFT International Transaction System

The SWIFT International Transaction System was created two years, in 1973 and is used in Offshore transactions to launder the money in the fraud by International Governments. The research suggests there has been much controversy over the system.

In January 2012, three months before the apparent meeting with Jeffrey Epstein and Stephen Hawking a campaign ensued against SWIFT regarding its connections with The Central Bank of Iran. In March 2012 all Iranian Banks were disconnected from SWIFT after SWIFT appeared to have admitted wrongdoing and facilitating possible illicit business.

In 2016, the same year as the apparent Satanic ritual at CERN mentioned later, most Iranian Bank reconnected. SWIFT refused to block Russia after its supposed invasion of Ukraine in 2014 and 2022, but apparently some Russian banks were eventually removed from the system. I suspect this was staged to try and maintain an illusion that they are not working collaboratively against the masses.

S.W.I.F.T (U.K.) Limited had been incorporated on Companies House with Slaughter & May in 1976 and had a correspondence address of Lloyds Banking Group, important when you consider I had acquired forged Lloyds Bank documents through my enquiries at Exbourne Manor. The name Slaughter & May itself is relevant when you consider that the month of May links to the creation of The Church of Satan on German Walpurgis night and May also has significance for ritual sacrifices.

Slaughter & May and The Football Industry

According to the research, Slaughter & May has significant connections to football clubs, which is appears to be an industry that is incredibly important for those involved in the fraud, with most appearing to be fraudulently registered and having vast amounts of money passing through them and attracting international high profile interest. These are the ideal companies for defrauded money to be laundered and possibly disguised as footballers fees as well as to possibly target large numbers of people in confined areas using directed energy or other methods. This is possibly why articles appeared suggesting plans were being expedited to implement new wireless technology in Stadiums and Tourist Locations under Open Network Ecosystem as the fraud was being exposed in 2023. This also becomes relevant with Music venues such as Glastonbury, mentioned later.

On searching for Open Network, it revealed that Open Network Services Limited had been incorporated in January 2002, four months after The World Trade Centre disaster. The incorporation document shows 788-790 Finchley Road and Temple Secretaries Limited, the address mentioned by Gordon Bowden. More on this later.

Michael Lyne of this company connects to other Open Network Companies and Michael Rees to Tah Limited that according to the register was incorporated as Farnham Office Supplies Limited in 1972, the year after the WEF started and three years after Charles became the Prince of Wales where Companies House is based. Its name was changed in 1989 to the Accounting House (Office Systems) Limited, the year that The World Wide Web was created for CERN. The last time Its name was changed was March 2001, four months before Larry Silverstein purchased the lease for the World Trade Centre and dissolved in 2016, the month after the apparent Satanic ritual at CERN. It appears to have a forged register with an unregistered name on its incorporation document.

Robert Conway of Tah Ltd connects to Europlacer Technology Limited that was incorporated in 1997 as Speed Print Technology Limited, had an address of Factory Road, Upton Industrial

Estate, Poole and dissolved on 30th January 2024. It has Buyview Limited and AA Company Services on its incorporation document.

Julian Boardman connects to 6-17 Hessary Place Management Company Limited that was incorporated in 2005 and address of 6 Poole Hill, Bournemouth and Foxes Property Management Ltd in its people record. These are important and make connections to the research around Exbourne Manor, The Special Advisor for the last few UK Prime Ministers, Douglas Smith and Ghislaine Maxwell mentioned later.

Ludovic Blackburn of this company connects to numerous Poundbury real estate companies. Poundbury is an area near Dorchester, Dorset and

Football fans are also most likely to oppose corrupt Governments and generally take part in protests in Tourist locations.

Sandbanks in Poole, Dorset is notorious for being the location for Footballers homes and at one time I was informed that it was the fourth most expensive place to live in The World.

Slaughter & May Limited was incorporated on Companies House in 1954, the same year that CERN began and is a fraudulent entity with a forged register.
According to the research Slaughter & May is part of the informal name of the 'Magic Circle' given to the five most prestigious multi-national law firms based in London and was involved in providing legal advice to HM Treasury regarding the COVID outbreak and was involved with Pharmaceutical Company Glaxosmithkline, that features throughout the fraud.

Soylent Green

As well as being the year that the SWIFT international transaction system was conceived, it was also when the movie 'Soylent Green' was released and is about an innocent cop who unravels a dystopian plot regarding large corporations and possible human remains being placed into the food chain. The movie was based in 2022, the same year that my enquiries started and was based loosely on a book from 1966, the same year that the Church of Satan was founded. The book is based in 1999, the same year as the re-establishment of the Church of Satan.

I only established this information after I had discovered evidence through Companies House records suggesting that the horse meat scandal of 2013, is linked to the Companies involved in child trafficking.

Several other likely relevant situations have occurred during this exposure, including one of the largest 'chicken suppliers' Caskade having closed, resulting in the closure of several KFC Restaurants including some in the area of Bournemouth, where Exbourne Manor is located, despite having been open decades.

Caskade Caters Limited was incorporated on Companies House in 1984, is linked to the fraud via its address and appears to have a forged incorporation document. Kathleen Hearnes of an address near to Barry Windsor, my wife's Grandfathers House in Bournemouth, was one of its directors.

I recall my wifes Grandmother mentioning Hearne being connected to Bournemouth MP Connor Burns. Hearne also links to company Caskade (2000) Limited that was incorporated in 1988, the year before the creation of The World Wide Web and it is a criminal company, having been

started with the same two companies as Exbourne Manor Freehold Limited. Lynda Hearnes of this company is connected to various companies related to Estate Agents Hearnes, many of which have dissolved since 2022. Suzanne Elaine Smith of Cascade (2000) Limited links immediately to SmithKline Companies making a connections to the COVID / Vaccine situation via Glaxosmithkline.

Another more recent situation is the closure of major pork supplier Cranswick. Cranswick PLC was incorporated in 1972, the year after the World Economic Forum (WEF) started and is a criminal company with The London Law Agency on its incorporation document.

Cranswick Country Foods PLC was incorporated in 1984 and is also a criminal company started with the London Law Agency and featuring the name Nigel Leonard Blood on its incorporation document. This name features throughout the fraud and links to the child trafficking and the apparent Satanic agenda at CERN via Stephen Hawking.

Cranswick Country Foods PLC makes immediate connections via its directors to hundreds of other meat companies linking to The Satanic Temple United Kingdom, people such Tommy Robinson and Arla foods where it appears they were trying to poison the masses using Bovaer as they became exposed.

Stephen Owens and my families

I had always found my families dismissive attitude to the irrefutable evidence of the fraud very strange. My Niece Gracie Timms had remained in contact with my wife, after we had separated and this continued after I started to realise the significant connections to my wifes family and the

apparent crimes against children, including relevant personal experiences I had been told about within their family.

At some time in May 2025, I had a further conversation with Gracie, as the evidence was mounting and reiterated my concerns for the safety of her and her daughter Azalea, who was less that 2 years old and the consideration that they may be targeted to get to me.

During the same month and after that conversation I received a screenshot showing Whatsapp correspondence and a photograph of an image showing my wife holding Azalea. Underneath was a comment by Gracie saying: 'Wasn't poisoned of murdered either' with a laughing emoji. This was followed by a comment by my Brother-in-Law (Gracies Father), Richard Timms saying: 'Watch out for her nutjob Ex Husband thoe'.

This shocked me and had been sent within a Whatsapp family group that I was not part of and it prompted me to want to discuss it further with Richard Timms. I left several messages for him to contact me, including with my Nephew, the response of which I was told Richard was too busy.

This reaction prompted me to conduct some initial checks on Richards Mother Jenny Timms, which led to me finding some immediate connections from a family company to a record of Stephen Owens, the same person connected to Exbourne Manor. I also found a quick connection to an Aerospace company as detailed later.

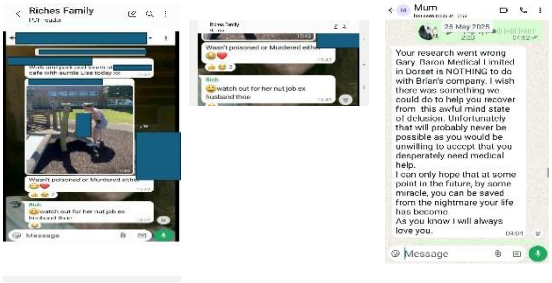
Around a week later my sister passed her phone to Richard Timms during a call with her, which resulted in him becoming angry at me and threatening to assault me.

I received information that Richard Timms had immediately contacted my mothers boyfriend Chris Hillman asking for my location. Hillman is the one who had claimed to have known someone at the Gillingham Freemason Lodge, after I had made immediate connections to it from the research of the MK Ultra programme, to my former school and Waterman offshore companies that then led to my wifes family three and a half hours away.

I contacted my mother the following day and she appeared defensive of Richard and dismissive of the fraud again.

I conducted some checks on my mothers employer Brian Beaton and found some connections to Exbourne Manor and the same companies as Richard Timms family as shown later. When I disclosed this to my mother she responded on 25th May 2025 with a message saying: 'Your research went wrong Gary. Baron Medical Limited in DORSET is nothing to do with Brian's company. I wish there was something we could do to help you recover from this awful mind state of delusion. Unfortunately that will never be possible as you would be unwilling to accept that

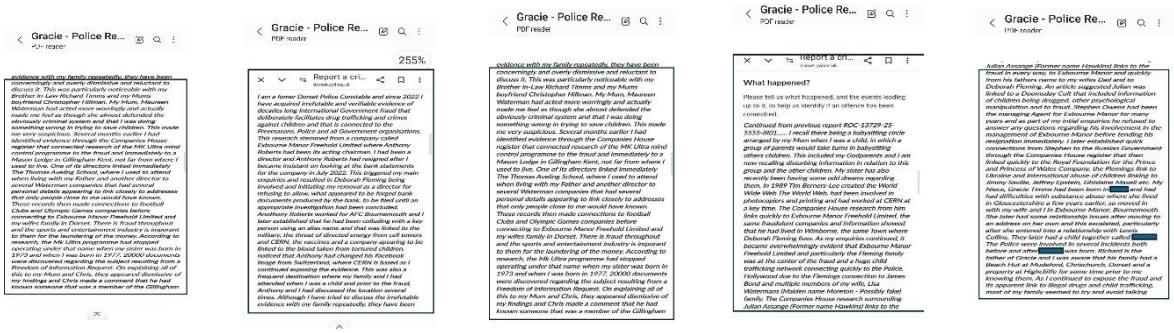
you desperately need medical help. I can only hope that at some point in the future, by some miracle, you can be saved from the nightmare your life has become. As you know I will always love you'

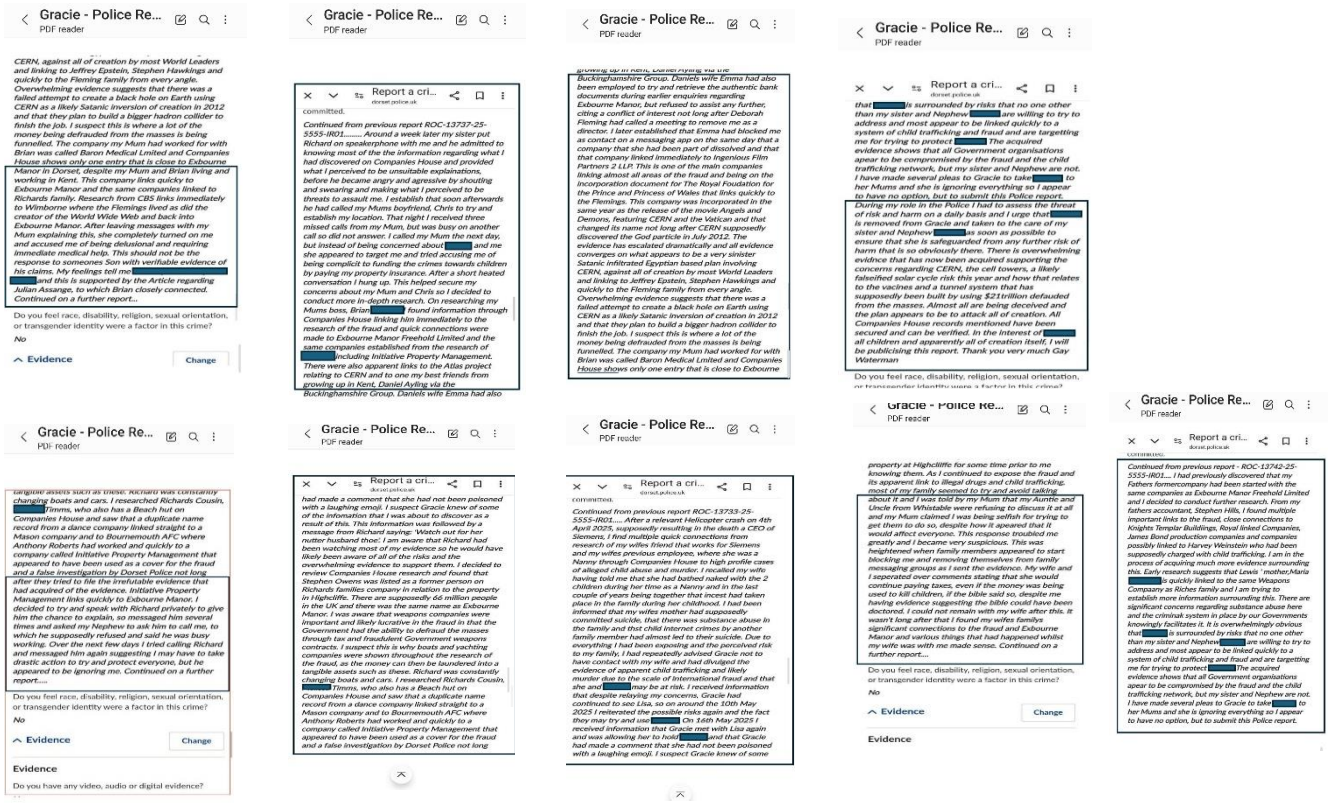


This reaction shocked me and I knew that with this and the other evidence being acquired, my mother was likely more compromised than I thought and had to consider that she may not even be my mother, based on the evidence acquired later.

I Had further discussions with Gracie regarding the latest evidence and insisted that she safeguards her daughter Azalea by taking her my sisters until this is resolved, or I would have to submit a report to the Police and publicise it. Gracie refused and blocked me from messaging. The research surrounding her boyfriends mother, also connected quickly to the same companies in the fraud and I had been informed that there was possible drug dealing in relation to this family, which had caused many issues with their relationship.

On 27th May 2025, I submitted the following report to Dorset Police with References 13742-25-5555-IRO1 and ROC-13746-25-5555-IRO1 advising that Azalea is taken to a place of safety. I have received no response from the Police:





I see no option but to expose people publicly by their names with images now, particularly due to the risks appearing to be posed to childrem. My mother, Maureen Waterman works for whom I am led to beleive is Brian Beaton and a company called Baron Medical Limited, apparently based in Rainham area of Kent. From my understanding the company reconditions items in relation to the NHS, which makes an immediate possible connection to Deborah Fleming, who was the NHS CEO for Hampshire, Isle of Wight and Dorset and who intiated my removal from Exbourne Manor Freehold Limited, for refusing to file forged bank documents.

Companies House shows that Baron Medical Limited was incorporated as Copelins (MOT Centre) Limited and that its name was changed for the first time in December 2011, two months after Jimmy Savile supposedly died, when its name became Baron Care Limited and its name was changed again in 2016. Its registered address is shown as 2 Poole Road, Bournemouth and 5 Poole Road, Bournemouth is shown on the incorporation document for Exbourne Manor Freehold Limited despite it being three and a half hours away from my Mother. The filing history shows that in January 2025 an application was made to strike the company form the register. The incorporation document shows Clifford Donald Wing and Reichmann & Wing Limited connecting it to the fraud immediately and I suspect this relates to the Reichmann family that information suggests was the 4th richest families in the World at one point.

Clifford Donald Wing is shown as having been a director for one day and connects Baron Medical Ltd to 1671 companies including Prudent Properties (London) Limited that was incorporated in June 2007, the month after Madeleine Mccanns disappearance.

Mr Rikesh Sodha connects Prudent Properties (London) Limited to Highcliff Nursing Services Limited that has a registered address of 31-33 Commercial Road, Poole and Apex Company Services Limited on the incorporation document. Lester Aldridge is in the people records making important connections, as shown throughout the document.

I had found significant evidence that Stephen Owens, the former managing agent for Exbourne Manor Freehold Limited, was featured throughout the fraud including to The Russian Government and immediately to my Brother-In-Law Richard Timms familys company, Shelley Hamlets. Both Richard and his Cousin Melissa have beach huts at Mudeford, near Christchurch, Dorset where some of the most expensive beach huts in the world are based.

Shelley Hamlets was incorporated in 2004 and links immediately to the fraud by First Corporate Law Services of 16 Churchill Road, Cardiff and has German Klauss Lissau on its incorporation document. Page 7 appears to have been removed and the filing history shows that on 27th October 2004, its registered address was changed from 27 Oxford Road, Bournemouth. This is a variation of the address used by Lester Aldridge Solicitors connecting to the research of my wifes family, Exbourne Manor and important areas of the fraud, as shown throughout the document.

Shelley Hamlets – Companies House:
https://find-and-update.company-information.service.gov.uk/company/05003288

The people records show that Stephen Trevor Owens was a Secretary from December 2011, three months after Jimmy Saviles death, until 2016. This is the same name as who had been the managing agent for Exbourne Manor.

Richards Father, John William Linkworth Timms is shown as being a director from the companys incorporation until July 2017, a month after the Grenfell Tower.

A separate search shows a duplicate record for John William Linkworth Timms connecting to J.T. (Fencing) Services Limited that was incorporated in 1983 and dissolved in December 2012. Richard Tmms mother Jenny Timms is shown as a second director.

Referring back to Shelley Hamlets, Klauss Lissau is shown as director from 2003 until 2023, as the exposure continued.

Richard Lian Hawtin connects Shelley Hamlets to two other companies including Defence Manufacturers Association (The) that was incorporated in 1976 and dissolved in April 2017, but the overview only lists one previous company name of Defence Manufacturers Association (The) from September 2010 and for only three days. The incorporation document suggests the register has been forged as is the case for the incorporation document itself.

Paul Brian Alfred Everitt connects Defence Manufacturers Association (The) to Aerospace Technology Institute and Society of British Aerospace Company (The) that was incorporated in 1916 and dissolved in 2023, as the exposure continued. The only previous company name shown on the overview is Society of British Aerospace Companies (The) from September 2010 and only for three days again.

Nicholas Ellis Franks connects Defence Manufacturers Association (The) to 26 Companies including Airbus Defence and Space Limited that was incorporated in 1989, the same year that the World Wide Web was created for CERN. It has previous Marconi names and is a criminal company having been incorporated with the same companies as Exbourne Manor Freehold Limited. Airbus links almost immediately to the research of Siemens, Jeffrey Epstein, the cell tower overlooking Fort William, the Flemings and the World Trade Centre disaster.

Katherine Edda Escott connects Airbus Defence and Space Limited to Surrey Satellite Technology Limited that was incorporated in 1985 and is a criminal company linking immediately to Scientist Stephen Hawking, with Nigel Leonard Blood of The London Law

Agency on its incorporation document. An Elon Musk is shown as having been a director from 2005 until 2008, either side of Madeleine Mccanns disappearance, which is all related.

Other directors of Airbus Defence and Space Limited connect to BAE Systems and Thales companies making important connections to fraud as shown throughout the document.

Melissa Timms is shown as a director for Dance Depot (Bagshot) Limited, a criminal organisation that was incorporated with the London Law Agency in May 2003 and that dissolved on 24th April 2012, six days after the meeting was apparently held with Jeffrey Epstein, Stephen Hawking and CERN Scientists.

Peter Edward Harper of Dance Depot (Bagshot) Limited has a duplicate record, which links to Twickenham District Masonic Council Limited, supposedly with a director 'Robert Anthony Betts' from 2007 to 2008, possibly a fictional name taken from Diana Betts and Anthony Roberts of Exbourne Manor Freehold Limited. Twickenham District Masonic Council Limited features in the research of Jimmy Savile and the connections to the main Freemason Lodge via UGLE as shown elsewhere in the document.

Derek Borthwick connects Twickenham District Masonic Council to important areas of the fraud, including to a Cancer company and to my Wifes Uncle, Adrian Windsor as well as Bournemouth, Christchurch and Poole Council, AFC Bournemouth and Initiative Property Management Limited via Jeffrey Anthony Mostyn and Stephen Sly. This is incredibly important because Anthony Roberts works for AFC Bournemouth and has links to Switzerland where CERN is based, which possibly explains why he changed his Facebook picture of Switzerland as the exposure continued. Initiative Property Management appears have been used by the Police as a cover up operation now connecting to a possible infiltration of the Royal family and Tommy Robinson as mentioned later.

As mentioned elsewhere, the research of the mass non-consensual experimental programme, MK Ultra, becomes significant to the evidence and my family.

M.K. Limited was incorporated as M.K.(Kent) Limited in 1984 before its name was changed in 1992, the same year that the Companies House register started to become electronic. The

incorporation document appears to be forged and features Stanley Davis Services of an address of 128 City Road, London that features throughout the centralised fraud network, including being used by Nigel Farrages companies. The filing history shows that on 27th February 1992 the registered address had been changed from 16 Star Hill, Rochester, the same address connecting from the research of my friend Andrew Morgan and Rochester Cruising Club and my other friend Christopher Gamet via his wife Elizabeth as shown elsewhere in the document.

M.K. Limited – Companies House:
https://find-and-update.company-information.service.gov.uk/company/01827747

David John Fleming connects M.K.Limited to Gillingham Masonic Club Limited (The) that was incorporated in 1921 and has a forged register and Shaw & Sons on its incorporation document.

Michael Robin Bailey connects Gillingham Masonic Club Limited (The) to The Thomas Aveling School, the school that I used to attend when I lived with my Father and Darren Brown Small connects the company to DBS Mortgages Limited and DBS Companies connecting quickly to the research of Rishi Sunak and to the entertainment industry by Carol Vorderman who had been outspoken about Sunak, as shown elsewhere in the document. A Reverend Paul Tuner Kerr is shown as a former director of The Thomas Aveling School, making a connection to religious establishments and supporting the evidence of a falsified biblical agenda.

Earnest Joseph Waterman of an address of Hawthorne Avenue, Rainham, not far from my mothers address connects Gillingham Masonic Club Limited (The) to Waterman Offshore Limited that was incorporated in 1982 and had a registered address of Unit D1 Knight Parks, knights Road, Rochester, kent ME22LS. When searched on google Maps this shows Temple Manor, a 13th Century Knights Templar building with the same address connecting quickly to my childhood friends Wife, Elizabeth Gamet. The incorporation document shows addresses of Peters Works, Wouldham, Rochester, 41 Princess Avenue, Walderslade, Chatham, Carlton Crescent, Chatham, 166 City Way, Rochester. When mapped, these locations feature around areas in my life. The names Earnest Joseph Waterman, Elizabeth Edith Jean Waterman and Frederick Brian Simmons are shown on the incorporation document as well as a company called Woolmer & Co.

Earnest Joseph Waterman also connects Gillingham Masonic Club Limited (The) to Waterman Offshore Holdings Limited that was incorporated and Catharine Tolladay connects this company to Heliarch Technology Limited that was incorporated in 2005 and links immediately to the fraud by 788 to 790 Finchley Road and Temple Secretaries Limited on its incorporation document. It had a registered address of LAS Partnership, but the filing history shows this was changed to Devonports LAS ltd on 21st October 2024, after having been exposed.

Referring back to Heliarch Technology Limited, L A S Partnership Limited was incorporated in November 2012 and links to the fraud immediately by QA Nominees and Quick Access Formations Limited on its incorporation document.

Graham Michael Cowen connects Heliarch Technology Limited to almost 5800 companies, which includes Offshore Company Management Limited that according to its overview was incorporated as Rio Ferdinand Limited in June 2002, before its name was changed for the first time in November 2019, a month before the supposed COVID outbreak. This company had

featured quickly in the research of Rapid Response after one of their spokespersons, Mikey P had tried to undermine my evidence and later threatened to steal my home and find me to steal my van.

Emma Louise Quiatkowski connects Durley Chine Court Residents Limited to Burns Property Management and Lettings Limited that was part of the Association or Residential Management Agents (ARMA). ARMA connects quickly to the research of the Association of Chief Police Officers of the United Kingdom as is shown in the research of Julian Assange. Initiative Property Management Limited in shown in the people record of Burns Property Management and Lettings Limited and is the company that appears to have been used as a cover investigation by Dorset Police after my enquiries began. It had Reichmann and Wing on its incorporation document.

Alphabet Inc – Wikipedia:
https://en.wikipedia.org/wiki/Alphabet_Inc.

RWL Registrars Limited also connects to Safari International Limited, Graphene International Limited and many RSA Film companies including RSA Films China Limited that was incorporated in 2015 and dissolved in February 2022, during my early enquiries at Exbourne

Manor. Film Director Ridley Scott, RSA Films (Holdings) Limited and Company Registrations Online Limited that is used throughout the fraud is shown on the incorporation document.

RSA Films (Holdings) Limited was incorporated in 2015 and shows Ridley Scott as a former director connected to 16 companies including Ridley Scott Films Limited and RSA Limited that was incorporated in 1994 and was a criminal company with Michael John Hope of The London Law Agency on its incorporation document.

Ridley Scott is one of the biggest Hollywood Directors and research suggests his brother, Tony Scott was born in Chatham, Kent the same Town I was born and not far from where my mother still resides and where this evidence stems.

An article from August 2012, states that Tony Scott committed suicide by jumping from a bridge and that there was controversy over claims he had cancer. This was the month after CERN discovered the Higgs Boson or God Particle, which makes significant connections to the crimes against children.

This makes another connection to the entertainment industry, the fraud and the apparent crimes against children. RSA can also refer to Satanic Ritual Abuse and The Solicitors Regulation Authority, that is also part of the same criminal network.

Anthony David Scott connects RSA Limited to Pinewood Group Limited that was incorporated in 1999 and Brian Adrian Falkner Burn connects this company to 17 others including Santander UK Cards UK Limited that was incorporated in 1979. From its directors this makes huge connections to the fraud and The Flemings and all areas of the fraud.

Anthony David Scott also connects RSA Limited to Childline and NSPCC Trading Company Limited, both criminal companies and linked to the crimes against children as explained elsewhere in the document.

Referring back to my earlier enquiries, the initial reactions and resignations around Exbourne Manor triggered my determination to establish what had been happening with the accounts.

Many of the others directors and shareholders of Exbourne Manor Freehold Limited appear to be implicated with other companies connected to the fraud and all have failed to assist in safeguarding humanity and the children, by turning against me or remaining silent.

This is most noticeable with Deborah Fleming, Anthony Roberts, Diana Betts, Dyanne Bisson (alias Bisson-Simmonds), Marcia Linch, Geoffrey Linch, Douglas Banin, Gary Strong, Alan May, Philip Harrod, Rosalind Schogger, Deborah Spain, Anthony De Reya, Caroline Ross-Harper, Behrooz Fardjadpour who works as a Referee at AFC Bournemouth and Paul Mallorie of Property Solutions (Southern) Limited, the new management company for Exbourne Manor.

Paul Mallorie is also associated with Mallorie Estates Limited, which was incorporated in September 2007, a month after Exbourne Manor and four months after Madeleine Mccanns disappearance. It connects immediately to the fraud by @UKPLC.

MALLORIE ESTATES LIMITED overview - Find and update company information - GOV.UK
https://share.google/MjLLZgi4YihNatKzK

Some of these people have connections or have made reference to Judaism and the apparent infiltration of that faith as part of the agenda. This has been most noticeable with the research of Roslalind Schogger.

Whilst being a director I managed to establish that there appeared to be over £167000 having been omitted by others into Exbourne Manor Freehold Limited, meaning I had been defrauded.

A large sum of this money had been omitted by the De Reya family who owned three properties in the building, with Anthony De Reya on the incorporation dicument and having the same surname as the Dorset Police Assistant Chief Constable at the time of my reports, Sam De Reya. I was also aware the De Reya had connections in Australia, where associated Julian Assange had important connections as mentioned later.

I also acquired forged bank documents that enquiries later led me to believe had been produced by someone on the Treasury Department of Lloyds Bank. These were clearly forged, with them being misaligned, inconsistent and not uniformed as you would normally expect by a document produced by a banks software. These were initially acquired from Owens and Porter, but had for internal use only on them, despite being made to try and look like a Lloyds Bank produced document. There was also a suspicious transaction amount of over £37000. A complaint was raised with Lloyds Bank just to confirm if they had produced them documents themselves. This has never been concluded with an answer.

Sam De Reya had overseen the Economic Crime Unit of Dorset Police, where I had been reporting the evidence and had also been the Tactical Firearms Commander for the Metropolitan Police.

De Reya was later moved from her position as I continued the exposure of the evidence along with many other relevant individuals.

Link Hampshire Police website Sam De Reya: https://www.hampshire.police.uk/police-forces/hampshire-constabulary/areas/au/about-us/who-we-are/senior-leaders/

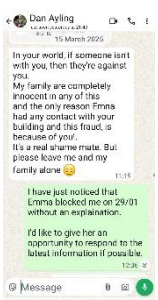
I was informed that Exbourne Manors accountant had been Carter and Coley of 3 Durrant Road, Poole, Dorset and that they were friends of the Flemings, who later initiated my removal. Enquiries with Carter and Coley directly, led me to believe they had been using the forged bank documents to file accounts for some time. I later established that Carter and Coley were linked to an address of 788 to 790 Finchley Road and apparent International Government fraud, as identified by Gordon Bowden. More on this later.

I reported my evidence to the relevant organisations including Action Fraud, Dorset Police and The Financial Conduct Authority. I later escalated it to the Serious Fraud Office, where Lisa Osofsky was the lead and to The Independent Office for Police Conduct, where Michael Lockwood was the lead, and eventually to the Home Office that oversees all Police Forces.

Being a director, I had refused to file the forged bank documents to commit a crime, until a formal and suitable investigation had concluded by the relevant organisations.

As part of the enquiries I had arranged for Exbourne Manor Freehold Limited to employ my friends wife and Solicitor in Kent, Emma Ayling (maiden name Lee) to try and acquire the authentic bank documents.

Emma later refused to assist, citing a conflict of interest after Deborah Fleming initiated my removal as a director, after refusing to file forged bank documents. I had found this highly suspicious and sent her a message asking if she had been threatened or bribed to which she assured me she hadn't and appeared offended.



On 15th March 2025 I discovered that Emma had been connected to Ingenious Film Partners 2 LLP via Jarmans Solicitors (JS) Limited. This is one of the main companies connecting every area of the fraud and is shown on page 40 of The Royal Foundation for the Prince and Princess of Wales.

I sent both her and her husband Daniel Ayling a message, hoping for some kind of explanation. Daniel appeared angry at me and informed me that only he had seen my messages.

This led me to establish that Emma appeared to have blocked me as a contact on the same day that Jarmans Solicitor (JS) had dissolved. I wanted to give Emma a chance to respond to this, so sent Daniel a further message, which he ignored. The following day my Wife Lisa and various friends of mine, left several messaging groups leading me to believe that Daniel had contacted Lisa rather than choosing to provide an explanation for everything. This supported the collaboration in the fraud between them all.

Jarmans Solicitors (JS) Limited had been incorporated in July 2019, the same month as Epsteins arrest, a protest in Wuhan regarding an incinerator plant, the article regarding Harrys shoes was published and other key events found throughout the document. Jarmans Solicitors (JS) Limited dissolved on 29th January 2025, as the exposure continued.

Link to Jarmans Solicitors (JS) Limited Companies House record: https://find-and-update.company-information.service.gov.uk/company/12129245

The register shows that Emma Jane Lee was a director from 2020 until 2021.

Emmas parents had lived on the Isle of Wight, where Deborah Fleming had been the NHS CEO and Emmas Father had been a Prison Officer. The Prison Service and all Government organisations are implicated in the fraud. Daniel was also established to be connected to the fraud and closely to my Mothers employer via Buckinghamshire Group as shown elsewhere in the document.

Monks

Jarmans Solicitors now appears to be more important than I first realised. Referring back to The Royal Foundation for the Prince and Princess of Wales, you will notice Monks Investment Trust Public Limited Company (The) on page 40 of its incorporation document and stands out from all other companies with its title. On creating the Rishi Sunak document I had almost reached to this point when my Auntie and Uncle mentioned recent articles of Monks abusing children on Islands off of the Coast of Tenby in Wales. I verified this information to be true with an article four days earlier and several other articles over the years appearing to support that this was true. My

Grandmother on my Mothers side had been called Grace was Welsh and I had been informed that she and my Grandad had married in Tenby.

When I saw the monks company I decided to research it more thoroughly on Companies House, due to the articles. Monks Investment Trust Public Limited Company (The) had been incorporated in 1929 and had a forged register.

Karl Sternberg connects Monks Investment Trust Public Limited to Island House Investments LLP where they had been a director since February, two months before the meeting between Jeffrey Epstein and Stephen Hawking. Richard Paul Jarman of this company has the same surname as the Solicitor that Emma had been connected and linked by another director to Ingenious Film Partners 2 LLP, also on the incorporation document for The Royal Foundation for the Prince and Princess of Wales. I later made connections from Emmas husband Daniel Ayling to my mothers employer.

Richard Paul Jarman was also a director for The Oxford Foundation for Ethics and communication Health Care Practice that was incorporated in 1998 and dissolved on 23rd April 2024, as I continue the exposure. The incorporation document shows Jordans and University Teacher, Richard Cooper having other directorships for Oxford Centre for Islamic Studies and Oxford Centre for Hebrew and Jewish Studies. Underneath is another company, The Hung Cheng and Baroness Olega 'Knoop Trust' for Ophthalmic Research.

Research shows that Andrew Pollard is the chair of trustees of the Knoop Trust and a trustee of the Jenner Vaccine Foundation. He is the chief investigator on the University of Oxford COVID-19 Vaccine (ChAdOx-1 n-CoV-19) trials and has led research on vaccines for many life-threatening infectious diseases. Pollard has been the chair of the UK's JCVI since 2013, but does not participate in the COVID-19 vaccine Committee Pollard has been a member of the WHO Strategic Advisory Group of Experts (SAGE) on Immunization since 2016, the year of the apparent Satanic ritual at CERN. He was born in Tunbridge Wells, Kent but was educated in Bournemouth, Dorset where he was head boy at St Peters Catholic School.

Sternberg of Monks Investment Trust Public Limited connects to Deutsche Alternative Asset Management (UK) Limited, Alliance Trust PLC, Railway Pension Investments Limited, Aviva Wealth Holdings UK Limited, fraudulent entity company Whitbread Pension Trustees, Friends Life group with connection to UK Island tax havens and to several JP Morgan Companies including, JP Morgan Income & Growth Investment Trust PLC and JP Morgan Funds Limited.

JP Morgan Funds Limited was shown as having connections to twenty one other companies including The Scottish Investment Trust PLC and incredibly important company JP Morgan Emerging Europe, Middle East & Africa Securities PLC. This company was incorporated in October 2002 as a shell company Haplimco (No.113) Public Limited Company for six days before changing to JP Morgan Russia Fleming Securities PLC for around a week before changing the Russia to Russian. It removed the Word Fleming in 2006 and changed its name for the last time on 23rd November 2022 as I was continuing to make enquiries and not long after Elon Musk wore a Baphomet costume to a Halloween party. It removed the Russian connection and changed to the emerging title. These quick name changes and dates possibly suggests money was laundered between Russia and the Flemings regarding the World Trade Centre disaster. Hackwood Secretaries Limited is on the incorporation document and features throughout the fraud.

Whilst still a director, the buildings insurance was due for renewal and I decided to acquire an independent quotation away from the Management company. It was almost £5000 cheaper annually, but all other directors appeared to chose Managing Agent, Paul Mallories obtained quotation, suggesting this was another element of the scandal. I was removed as a director in July 2023 and it appears that the forged bank documents were used to file the Company accounts. I later established that Exbourne Manor was connected to hundreds of other properties as part of the criminal network.

Dorset Police

I had made my initial report to Action Fraud in December 2022, followed by many reports to my former Police Force , Dorset and had been liaising with people on the Economic Crime Unit, overseen by Sam De Reya.

Despite having confirmed that they had identified fraud from my reports, Dorset Police later refused to acknowledge this again, as they realised I was starting to establish evidence of the true scale of the crime and their involvement.

During my enquiries Dorset Police had provided two email, inadvertently confirming that they were allowing banks to produce forged bank documents and shared sensitive information with already named prime suspect, John Fleming, the Husband of Deborah Fleming, despite me being followed, having my emails infiltrated and tracking apps appearing on my phone. This was established through an email sent to all shareholders of the company as they were trying to arrange my removal as a director.

My devices are constantly being infiltrated with the latest being thousands of unrecognised files being added to my phone and despite removing them, more appear. I can only speculate on what these files may contain and how many other people may have been victimised by actions. All mobile phone companies are involved in the fraud, including my provider Voxi, which is part of Vodafone.

Vodafone UK - Wikipedia https://share.google/MOIY3tMCA6jRAWl9Y
VODAFONE AUTOMOTIVE UK LIMITED overview - Find and update company information - GOV.UK https://share.google/Q9yXVt106DivWO7pG

A very quick example of this is shown with Vodafone Automotive UK Limited being a criminal company, having been incorporated in 1999 with the same two companies as Exbourne Manor Freehold Limited.

My Wife and I had moved out of Exbourne Manor and into a van, when I realised the apparent scale of what I was uncovering and the possible risks involved. On returning in the night to collect items, Anthony Roberts appeared to follow us and be on his phone as if trying to get someone to attend. I now suspect my Wife was facilitating this.

We spent some time with my Father-In-Law, Nicholas Moreton and his girlfriend Sam King on moving out and I confided in Nicholas Moreton, not realising he was also connected to the fraud and quickly to Exbourne Manor. He had informed me that he played squash with members of the Branksome Masonic Hall in Poole, Dorset and my Wifes older Brother, Lee Moreton had claimed to be in the Freemasons. Despite

me discussing the fraud and the specific companies with my Nicholas Moreton, he had not informed me that he was also connected almost immediately to them.

Nicholas Moreton and I had many in-depth conversations and before I had identified the important connections to them, he had been keen to talk about Stephen Hawking and black holes. I suspect he knew about the apparent plans regarding CERN or the deception surrounding it. During our conversations Nicholas explained that he did not believe in a creator, but appeared to be open to a change of opinion.

Some time prior to this Lisas older Brother, Lee Moreton had supposedly been involved in some sensitive issues regarding Police and had been in a very difficult place emotionally. He claimed that at a critical time in this he had heard my voice calling out to him, along with what appeared to be a divine intervention, which helped his emotional state. I now suspect this was staged. In deep conversations with Lee, he had explained that he does not believe in a creator.

Lee is also connected quickly to Exourne Manor Freehold Limited through Companies House and during his work as a Butcher and chef had worked with famous people including Kate Winslet, which I now suspect was due to his link to the Freemasons and their close connection to the entertainment industry.

Nicholas and Sam had booked a cottage for a family birthday trip for Sams daughter, Charlotte Packham in September 2023. This was not far from my sisters and I now suspect this was deliberate. Whilst at the cottage I got everyone together and became teary eyed as I told them all about the evidence and tried to get their opinion on a strategy moving forward. None of them appeared shocked or overly concerned and I now suspect they knew all about it. They had also arranged for my wifes younger brother Myles to bring his girlfriend who was supposedly related to one of the former owners of AFC Bournemouth. Nicholas had known that Anthony Roberts of Exbourne Manor was heavily implicated and that he worked for AFC Bournemouth. I even mentioned my concerns and both Nicholas and Sam dismissed my concerns. Myles separated from this person not long afterwards. I had already told Nicholas Moreton that I was identifying possible Russian connections to the fraud and on leaving the cottage someone had positioned a Russian doll with Vladimir Putins face on. On mentioning it Nicholas just laughed it off. I now suspect this was all staged and they were all involved.
Charlotte later removed me from a Whatsapp group regarding the trip.

Charlotte and her boyfriend worked for Mar-Key Group Limited in Christchurch Dorset. Mar-Key Group supplies temporary shelters for film sets and where else they may be required. Mar-Key Group Limited was incorporated in important year of 1991. Its name had been changed in 1995, the same year as the incorporation of the Intelligence Agency and Russian linked Hakluyt

International Advisory Board. Its name was changed again in October 2024 as the exposure continued and it is a criminal company with The London Law Agency on its incorporation document. The filing history shows that changes were made to Ben Scrobbie and David Tabb, the founders and that the registered address was changed in December 2023, as the exposure continued.

MAR-KEY GROUP LIMITED overview - Find and update company information - GOV.UK
https://share.google/fQm2iuAFEALIyuAcI

Research suggests Mar-Key Group is connected to Few Marquees that in August 2025, was awarded a two year contract to produce shelters for large amounts of corpses.

An article from January 2025 shows Lester Aldridge, who are signficantly connected to the fraud around Exbourne Manor, were involved in a meeting with Ben Scroggie and Mar-Key groups expansion.

Article connecting Lester Aldridge to Mar-Key Group:
https://dorsetchamber.co.uk/la-advises-on-investment-in-dorset-based-mar-key-group-by-private-equity-house-alcuin-capital-partners/

Ben Scroggie connects Mar-Key Group Limited to 5 companies including MK Topco Limited that was incorporated in 2023. It connects immediately to key areas of fraud by Squire Patton Boggs on its incorporation document.

David Bryan Tabb connects Mar-Key Group Limited to 9 companies including The Artemis Theatre Foundation UK that was incorporated in 2007 and has a registered address of Bocombe Manor, Bournemouth. It connects immediately by Stephen Blackmore of 16 Churchill Way Cardiff and Secretarial Appointments Limited on its incorporation document. Secretarial Appointments Limited is shown in the people record and connects to over 21000 companies including Eurofins Chemtest Limited that makes the connection to the Intelligence agencies and the COVID deception as shown elsewhere in the document.

Norman Harold Higgins connects Mar-Key Group Limited to 5 companies including 34 Crabton Close Limited that was incorporated in 1993 and has a registered address of 10 Bridge Street, Christchurch, Dorset making a connection to the Police via Lance Cliff and Frettens Solicitor Simon Immins that my wife tried to use in a divorce leading to key areas of the fraud, as shown elsewhere in the document.

I could go on, but this highlights the risk to humanity from those behind the centralised criminal network and the connections now established to Lisa Moretons family to Jimmy Savile, the main Freemason Lodge and the contract with Few Marquees as shown later.

Referring back to my intial reports, Dorset Police filed my reports as no further action, despite the irrefutable evidence. On making an appeal, all other organisations refused to intervene, with the Home Office finally suggesting The Police and Crime Commissioners Office (PCC) should deal with it.

This was despite me having identified that Dorset PCC, David Sidwick, was not only linked quickly to Exbourne Manor Freehold Limited via Bournemouth School, but key name of Caroline Kelleway, Julian Assange, my families and an apparent doomsday cult. The Association of Police and Crime Commissioners have also been identfied as being connected immediately to the fraud, quickly to Jimmy Savile and the threat from directed energy and collider technology, as shown elsewhere in the document.

This would not have been an Independent investigation and led me to progress my own enquiries and eventually identifying that Prime Ministers and Presidents were involved in the crimes against humanity using the Companies House fraud.

Initiative Property Management Limited

Despite filing my reports as no further action, on 21st September 2023, The Bournemouth Echo publicised that Dorset Police were involved in an investigation into a company called Initiative Property Management Limited. This company had been incorporated in May 2009, four months before The Royal Foundation of the Prince and Princess of Wales and is linked quickly to Exbourne Manor Freehold Limited and the name Caroline Kelleway again.

Bournemouth Echo is part of the Newsquest Group and the centralised criminal system. Newsquest Media Southern had been incorporated in 1864, twenty years after Companies House started and its register has been forged.

Dorset Police did not conduct a search of Initiative Property Management at the initial publication of the investigation, only over a month later. This unheard of with a Police investigation and it was a clear opportunity for them to allow any evidence of the larger criminal network to be altered, concealed or destroyed.

Dorset Police claimed to have investigated two people in relation to Initiative Property Management Limited, but I suspect this was false or staged information and an article from

March 2025 suggests no further action is being taken. This could imply that any sinister plans may be ready to enact.

Information in an aticle from April 2023 shows Newsquest had appointed James Johnson from Reach PLC ad the head of the Bournemouth Echo. This was as I was continuing to expose the fraud and around the time when I was contacting the Bournemouth Echo and was trying to get them to expose my evidence, which they ignored. Reach PLC is a fraudulent entity and connects quickly to the research of Jeffrey Epstein.

I later established that not only was my Brother-In-Laws family linked quickly to Caroline Kelleway and Initiative Property Management Limited, but also to my wifes family in Dorset and what I had been led to believe was my family in Kent. These connections were far to quick to be a coincidence and possible connections now appear to be being made to Royalty and the Vatican via Ninth circle companies and monks, as mentioned later.

MP Connor Burns became involved and discussed Initiative Property Management within Parliament, appearing to try and make me believe the matter was being addressed, but Burns refused to engage with me, was linked to the fraud himself and he later stopped being an MP.

Burns also made connections to Letterplant Limited, a former name of criminal vaccine company, Astrazeneca UK Limited as mentioned later. I suspect that Burns has some connection to Burns Hamilton, that has huge connections to the fraud around Exbourne Manor and were part of the Association of Residential Management Agents (ARMA). I later found that ARMA

connected closely to The Association of Chief Police Officers of The United Kingdom and the research of Julian Assange. More on this later.

Explosions and Fires

The false investigation into Initiative Property Management Limited is one of many incidents that I suspect have been used to alter, conceal or destroy evidence of this world wide criminal network. This includes an explosion at JP Morgan in America, a fire at BAE Systems, Fires in Hollywood, where a member of the Rothschilds family supposedly died and a significant fire at TJ Waste and Recycling in Hampshire.

Staged Deaths and arrests

I suspect that many deaths are being staged as a deception as they struggle to control their criminal system and try to scare others from speaking out. If these deaths were real, I would not be alive.

I think this will be the case with the helicopter crash on 10th April 2025, which is important due to the apparent death of a Siemens CEO, an incredibly important company regarding the falsified biblical prophecies and Jimmy Savile, as shown elsewhere in the document.

On the 6th September 2025 I received information that 16 people involved in far right German Political parties had died within three weeks of local elections with 6-7 being from the same party. This is unlikely coincidental and I suspect is related to the International system of crime in place.

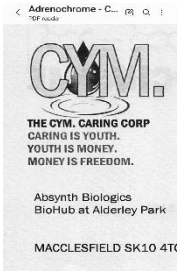
CYM Ltd / Adrenochrome /The Hampshire Fire

This fire at TJ Waste and Recycling, mentioned previously is particularly important because it occurred within forty eight hours of me publicising a Police report of evidence that connected the fraud and Exbourne Manor Freehold Limited to CYM companies that appeared to be involved in harvesting Adrenochrome, the blood taken from tortured and murdered children.

At come time in 2024 I had received a document apparently pertaining to the blood taken from tortured children. It included a German letter, which when translated, suggested somone had stumbled across a document showing a chart of childrens names between 6 and 12 years old appearing to be being held in detention centres around the World and being harvested for their blood. I had also seen videos explaining this document. The document was dated June 2020 and one of the addresses appeared to correspond to the address used for Astranzenca. Of course I could not verify the contents of the document, but the results of the research from it, are significant. The document displayed a company called CYM Ltd with the words CYM Caring Corp
Caring is Youth, Youth is Money, Money if Freedom.



A Companies House search showed that CYM Limited was incorporated in 2006 and dissolved in 2018, as elements of the fraud were being exposed by Gordon Bowden. The company connects immediately with the fraud and research of the Paedophile Information Exchange (PIE) and the World Trade Centre disaster by Companies Made Simple on its incorporation document.

Link to CYM search Companies House record:
https://find-and-update.company-information.service.gov.uk/search?q=Cym

On searching CYM Group, CYMGroup Ltd was revealed that had been incorporated in March 2023 and was in the process of being struck from the register.

CYM Limited was incorporated in April 2020, two months before the date on the adrenochrome letter with the nature of business stated as Specialist Medical Practice Activities.

Michael Geary connects CYM Limited to Light Touch Clinic Ltd that was incoporated in April 2009 and dissolved in June 2023, as the exposure continued.

Geary also connects CYM Limited to Consentz Limited that was incorporated as Madupname Ltd in December 2012 and has Companies Made Simple on its incorporation document.

American Lisa Marie Rowland cnonects Consentz Limited to Tickets for Troops that is a criminal company with The London Law Agency and Bates Wells & Braithwaites on its incorporation document and appearing to make a connection to the military and definate connection to The Royal Foundation for the Prince and Princess of Wales, Madeleine Mccann and Sean Combs aka P Diddy.
General John Nicholas John Nicholas Reynold Houghton connects Ticket for Troops to Surecloud+ Limited that was incorporated in 2012. It links to the fraud research immediately by Barbara Kahan of Winnington House, 2 Woodbury Grove on its incorporation document.

Bevan Graeme Duncan connects Surecloud+ Limited to various Matrix companies and to CMME Group Limited that had a registered address of Interpath Ltd, 10 Fleet Place linking to the fraud and the research of Tony Blair and David Cameron.

Lord Jonathan Peter Marland of Odstock connects Tickets for Troops to The British Museum Friends with the British Museum connecting quickly to the research of Jeffrey Epstein and according to the information, being the location for the Albert Pike document priory to its removal from public view in 1977, the same year I was born, as explained in more detail elsewhere in the document. Page 8 of its incorporation document shows Henrietta Francesca Mcall as being an Egyptologist. Other companies shown on the incorporation

document include, The British Museum Company Ltd, Bristol and West PLC, Royal and Sun Alliance, The Family Welfare Association and The Church of Christ Scientist.

Jonathan Peter Marland of Odstock connects Tickets for Troops to Janspeed Technologies Limited that was incorporated in 2005 and is a criminal company with The London Law Agency on its incorporation document.

Andrew Edward Cohen is shown as a director for Janspeed Technologies Limited and a separate search reveals that there an exact duplicate record connecting to The Close Film Sale and Leaseback (2003/4) LLP that makes important connections to key areas of the fraud and to the Satanic Temple United Kingdom.

Close Investments Limited is shown in the people record for The Close Film Sale and Leaseback (2003/4) LLP and connects to 10 companies including Gloucester Rain LLP that was incorporated in 2005 and dissolved in February 2024, as the exposure continued. It is a criminal company with Jordans Limited on its incorporation document.

The RAINS List is the name given to the Ritual Abuse Information Network and Support and includes names of those alleged to be involved in ritual abuse.

Sir Christopher Powell connects Gloucester Rain LLP to 9 companies including The Broadcats

On submitting a further Police report regarding the fire at Hampshire and publicising it, my entire You Tube Channel was removed the same day.

Several of my social media channels have since been removed along with multiple videos, despite most of it showing publically available information.

The fire that occurred was at TJ Waste & Recycling and TJ Waste & Recycling Limited was incorporated on Companies House on May 4th 2004 and has an address of 788 to 790 Finchley Road and A1 Company Services Limited on its incorporation document, making immediate connections to evidence identified by Gordon Bowden linking to Government fraud, as mentioned later. Ian Jacobs of this company connects to Model Reports.com Limited with an address in Salisbury and was incorporated in 2002 and has JP Cord Limited on its incorporation document.

David Icke

JP Cord is shown as having 6563 appointments including Opium UK Limited, GBR Security Limited and Charnwood House Management (IOW) limited, with an address on of Havant, Hampshire. Michael Stickland of this company connects to Isle of Wight Sport Limited, where

David Icke had been a director since before 1991. I was informed, but cannot verify, that David lived on the Isle of Wight, where Deborah Fleming had been the NHS Chief Executive Office and that Icke may have been positioned by the Freemasons.

David Icke had been a 'Conspiracy Theorist' for years and often talked about Satanic Ritual Abuse (SRA) and lizard people and earlier I had been interviewed by Ickes son, Gareth. I had felt the interview was rushed and a request for an interview with David himself had been ignored. I was later contacted by Ickes colleague, after I had publicised his connections and was informed they would make contact, but have heard nothing since.

David Icke - Wikipedia https://share.google/B1X7orKifRQJZapVi

The research suggests that Icke was a former footballer and therefore already had connections to what appears to be a huge industry in the fraud. In 1991 Icke took part in interviews believed he was a messenger from the 'Godshead' sent to tell people that the World will be devastated by Earthquakes and Tidal Waves and also making claims of Satanic Ritual Abuse and that the Rothschilds and others are lizards.

He did an interview with Terry Wogan in 1991 and another in 2006 as shown below. 2006 is the year I moved to Dorset, not knowing anyone and what would lead to exposing the reason behind most of the Worlds problems. Notice how he speaks specifically about the World Trade Centre disaster in the second interview and the evidence shows he is closely linked to those appearing to be behind it, as shoen throughout the document.

Icke is closely connected to former Archbishop of Canterbury Justin Welby on Companies House and in 1991 Icke came out with his predictions regarding the Earth being devasted by Earthquakes and Tsunamis. George Carey became the Archbishop of Canterbury in the same year, prior to Justin Welby in 2002, the year after the World Trade Centre disaster. In June 2017, the same month as the Grenfell Tower that links to the Goldsmiths, Carey

resigned from his last formal role. In December 2024, as the exposure continued, articles emerged of Carey fully resigning over a scandal of alleged sexual abuse within the Church that had been apparenlty identified in an independant investigation by Moira Gibb. I suspect this is a cover for the wider issue of the torture and murder or children and its connections to the collider technology.

Reverend Peter Alan Broadbent connects Christian Newspapers Weekly Limited to 20 companies including London Diocesan Board of Finance and London Diocesan Fund (The) which is a fraudulent entity and links throughout the research including quickly to The Goldsmiths, as shown elsewhere in the document.

This record for Carey also connects to United Learning Trust that was incorporated in May 2002 and connects immediately to the fraud and closely to Donald Trump, Jimmy Savile and CERN but Nobarro Nathanson on its incorporation document. Page 6 of the incorporation document shows Dame Angela Rumbold connected to several companies including Jet Set Club.

Research shows that Rumbold was known for her pro-nuclear views and was founder of Women for the Bomb and in 1992, as the Companies House register started to become electronic, she became the Deputy Chairman of the Conservative Party.

Angela Rumbold - Wikipedia https://share.google/muuzjHuqYGCdwToTC

On 8th April 2025 articles emerged of the roof of the Jet Set Club in the Dominican Republic having collapsed causing 236 fatalities. The building had been built in 1973, two years after the World Economic Forum began.

Referring back to Moira Gibb, research shows that she has a history in the social care system and had also headed a serious case review into the Southbank International School.

Companies House shows that Gibb is connected to 8 companies including Hestia Housing and Support that was incorporated as St.Mungo Community Trust (The) in 1986. The Mungo Foundation has featured in the research and connects quickly to Gerald Mccann and the Prince and Princess of Wales Hospice (The), as shown elsewhere. Hestia Housing and Support connects immediately to the fraud with Stephen Lloyd and Bates Wells and Braithwaites in its incorporation document, making immediate connections to The Royal Foundation of the Prince and Princess of Wales, the research of the P Diddy scandal and quickly to Madeleine Mccann.

There are many other connections to the fraud from Gibb.

1991 also marked the end of the Gulf War and the relevant Terminator 2 Judgement day movie release that appears to make reference to The World Trade Centre disaster in a scene and via its director James Cameron links to Ingenious Film Partners, one of the main companies connecting all areas of the fraud and shown on page 40 of the incorporation document for The Royal Foundation for the Prince and Princess of Wales and to those around me when growing up.

1991 is also the year that the Relativistic Heavy Iron Collider (RHIC) started to be built in New York and that was activated in 2000, the year before The World Trade Centre disaster, also in New York, as shown elsewhere.

This was all just prior to 1992 when the Companies House register was becoming electronic and enabled the fraud to be expedited and money funnelled into the collider technology.

All evidence appears to show an organized criminal network with records converging primarily on collider technology, with some information suggesting it may be able to create Earthquakes and black holes, as mentioned later.

David Icke connects to several companies, but appears to have duplicate records on Companies House. One of these records connects to Phantom Self Limited that was incorporated on 4th April 2016, the same year as the ritual at CERN. The filing history shows that its registered address was in February 2019, on the lead up to the COVID situation and again on 21st September 2022 to C/O PKF Smith Cooper of an address of Prospect House, 1 Prospect Place, Pride Park, Derby, as I am making enquiries at Exbourne Manor and less that two weeks after the Queens apparent death. It shows that an application was made to Strike the company from the register in 2023, as I continued the exposure. Jaymie Alexander Icke of an address on the Isle of Wight is shown on the incorporation document.

PHANTOM SELF LIMITED overview - Find and update company information - GOV.UK https://share.google/0lzMARqR5EHEVmWSd

A separate search of PKF Smith Coopers in Companies House reveals PKF Smith Cooper Audit Limited that was incorporated as Smith Cooper Services Limited in 1996, five years before the World Trade Centre. It is a criminal company having been incorporated with Swift Incorporations Limited and Jordans Limited, the same as Exbourne Manor Freehold Limited. The filing history shows that the registered address for this company was also changed on 21st September 2022.

John Paul Southwell connects PKF Smith Cooper Audit Limited to East Staffordshire Citizens Advice Bureau where it appears the incorporation document has been forged to cover original document information with Co-Operatives UK Ltd.

John Christopher Taylor connects PKF Smith Cooper Audit Limited to Scion Films Sale and Leaseback Sixth LLP where they had been appointed in 2005 and resigned in 2023. The company had been incorporated as Victoria Film Partnership LLP in January 2002, four months after the World Trade Centre disaster. Its name was changed to The Close Film (S42) Sale and Leaseback LLP in 2003 and the for the last time to Liberty Film Partnership in 2004. It dissolved in March 2025, as the exposure continued. Although I

have not focused on them, Scion Film Companies have featured throughout the fraud along with Close Film Sale and Leaseback Companies.

Victoria Film Partnership LLP and Liberty Film Partnership LLP appear to have been removed from the register. I suspect they made connections to Royal Family companies and the Liberty Group that was affiliated to The Paedophile Information Exchange.

A separate search on Jaymie Alexander Icke, shows seven companies, including DavidIcke.com Limited and Ickonic Promotions Limited, which was incorporated in 2015 and has Mckenzies with an address of on the Isle of Wight on its incorporation document.

On searching Mckenzies separately, Mckenzies Accountants Limited is shown with an address on the Isle of Wight and having been incorporated 1998 as Regis Payroll Limited. This was a criminal organisation incorporated with Swift Incorporations and Jordans Limited, the same as Exbourne Manor Freehold Limited. This company connects quickly to the research of my family, the main Freemason Lodge, Jimmy Savile, Ghilslaine Maxwel, Elon Musk and Donald Trump, as shown elsewhere in the document. Vanetia Smith of Mckenzies Accountants Limited connects to Continuous Pharmaceuticals Limited.

Carl Hollness of Ikonic Promotions Limited connects to Kidsgrove Athletic Football Club Limited that connects almost immediately to the research of the Intelligence agencies. Hollness also connects to ‘Jabb’ events Limited.

James Livingstone links Ikonic Promotions Limited to Salford ‘Juice’ Company Limited and Greenis-UK Ltd with Companies Made Simple on its incorporation document. Juice can be a name used for Adrenochrome, the blood taken from tortured children.

The importance of Companies Made Simple is mentioned later in relation to The World Trade Centre disaster, The National Council for Civil Liberties and The Pedophile Information Exchange (PIE).

Livingstone also connects to Grow Expos Limited and Ikon International Distribution Ltd that was initially incorporated as Hydroponics Services Ltd, before changing its name in January 2020, a month after the supposed COVID outbreak in Wuhan. It has Form 10 Secretaries FD Ltd on its incorporation document, that features throughout the research.

Mark Bereton of Ikon International Distribution Ltd connects to PuregoldCBD Ltd that also has Companies Made Simple on its incorporation document. Bereton also links to Massive Publishing UK Limited and Russell Seely of this company links to Hydro Productions Limited,

Hydro Publishing Limited and Paranoid (UK) Limited that also has 788 to 790 Finchley Road on its incorporation document.

Referring back to GBR Security Limited, it was incorporated in 2006 and Scott Lidbetter of this company connects to KM Advisory Ltd that was incorporated in 2013 andits name was changed in 2023, as the exposure of the fraud continued. KM Companies refer to Kent Messenger media companies and link to the Archbishop of Canterbury.

The Hakluyt International Advisory Board

Following on from the research around David Icke, Christopher James of KM Advisory Ltd is shown as a former director for The Hakluyt International Advisory Board, shown on page 40 of the incorporation document for The Royal Foundation for the Prince and Princess of Wales as shown elsewhere.

THE HAKLUYT INTERNATIONAL ADVISORY BOARD overview - Find and update company information - GOV.UK https://share.google/YyAUQ75gNhQErU24d

Research shows that The Hakluyt International Advisory Board is linked to the intelligence agencies and to the Russian Government as shown later, from the research of former UK Prime Minister Rishi Sunak. The Hakluyt International Advisory Board was incorporated as The Hakluyt Foundation in 1995, two years before the apparent death of Princess Diana and the original founder of the Church of Satan. It was also four years before the re-establishment of the Church of Satan and Putin becoming the Prime Minister of Russia. It was six years before the World Trade Centre disaster, which was the same year that Peter Gilmore was positioned as the High Priest of the Church of Satan. Its name was changed in 2004 and again on the 16th July 2012 to the Holdingham International Avisory Board. This was twelve days after CERN had apparently discovered the Higgs Boson or God Particle. It dissolved on 6th August 2024, after been publicly exposed from the research of Rishi Sunak and a month or so after significant connections were made to Adrenochrome. It has a small list of companies on page 7 of its incorporation document, that include Anglo Hellenic League, Royal Geographical Society, British Heart Foundation and Southampton University, making almost direct links to Deborah Fleming.

This company assisted in the ability to defraud the masses through collaborative International deceptive conflicts and funnel it into their agenda.

The filing history shows that on 24th June 1997, Deloitte & Touche resigned as the companys auditor. At no other time is there a similar entry. On 5th August 1997 there is an entry for an amendment of the memorandum of Association, the only time that there is such an entry. On 29th

August 1997 an Annual return is made and it was on the 31st August 1997 that Princess Diana apparently died. The filing history shows that on 9th May 2024 an application was made to Strike the company from the register. This is within days of me exposing the company connections to the fraud publicly and five days before King Charles Portrait was unveiled.

In many filing history records there is a tab saying a selection of documents before 1995. I suspect that this was due to this companies creation and the criminal collusion against the masses with Russia.

Nial Fitzgerald connects International Advisory Board to British Museum Friends and The British Museum Company Limited is also shown in the research for Jeffrey Epstein. This is relevant due to the Albert Pike letter that appears to have been written to Mazzinni in 1871 setting out the plans for three World Wars and was removed from The British Museum Library in 1977, the year I was born.

The research of Futgerald makes important connections to the situation, including his connections to Africa, Nelson Mandela and Ericsson that is shown in the document.

Another connected company, Hakluyt & Company Limited was incorporated in 1997 and is a criminal organisation with The London Law Agency on its incorporation document.

Keith Craig connects Hakluyt & Company Limited to Schroder Asiapacific Fund PLC that was incorporated on 15th September 1995 with Slaughter & May that is significant in the fraud. It has Schroder Japan Growth PLC on its incorporation document, a company that was incorporated in 1994 and according to the overview, its name was changed for the first time in 2023, as the exposure continued. Asiapacifc Fund PLC is a criminal company having been incorporated with Jordan & Sons Limited.

According to research, Schroders is a multi-national asset management company that was

founded in 1804 and Royal family connected, Thomas Kingston had worked for Schroders and was supposedly found dead in early 2024, as the exposure of the fraud continued. Both Schroder and Slaughter & May are mentioned throughout this document.

Census procedures are used to produce figures on population figures and Census Data Ltd was incorporated in 2013, is shown as dissolving and has Companies Made Simple on its incorporation document. It links quickly to Universal Credit companies and to multiple Schroder companies. This effectively means population figures could be being falsified as part of the criminal agenda.

That is not say that the population will not become an issue at some point, but the fraud promotes its control through crime, deception and mass murder rather than its management through transparency and if necessary, incentivised choice.

Vivian Gould had been appointed as a director of Schroder Asiapacific Fund PLC from May 2019, the month after Jeffrey Epstein was arrested and connects to Stroke Association that was incorporated in 1899 as Chest and Heart Association (The). Its register has been forged with the incorporation document saying National Association for the Prevention of consumption and other forms of Tuberculosis.

Gould also connects Schroder Asiapacific Fund PLC to Premier Absolute Growth & Income Trust PLC, where she resigned as a director on 17th July 2001, a week before Larry Silverstein acquired the lease for the World Trade Centre. This is a criminal organisation, having been incorporated with Swift Incorporations Limited and Jordans Limited.

Gould also connects Schroder Asiapacific Fund PLC to JP Morgan Fleming Income & Growth Investment Trust PLC that was incorporated in 1881 and dissolved in June 2011, four months before Jimmy Savile supposedly died. It has a registered address of 1 More London Place that

features throughout the fraud and its name was changed in 1996 and for the last time in April 2002, seven months after The World Trade Centre disaster.

Lord Rupert Francis John 'Carrington' was a director for Schroder Asiapacific Fund PLC from 1995 to 2016 and connects to JP Morgan UK Small Cap Growth & Income PLC that was incorporated on 26th June 1990, less than two months before the Gulf War began. It first changed its name in 1996 and then again in 2002 and for the last time in February 2024.

Rupert Carrington has served as the Lord Great Chamberlin of England since September 2022, as I was making enquiries at Exbourne Manor. He took part in what I now suspect was a fraudulent coronation with Charles

Carrington worked at the merchant bank Morgan, Grenfell & Co. for seventeen years before starting his own financial advisory business, Rupert Carington Limited, in 1987. He is chairman of Vietnam Infrastructure Ltd, and of Schroder AsiaPacific Fund, and is an international adviser to the LGT Group.

LGT Group is the largest royal family-owned private banking and asset management group in the world. LGT, originally known as The Liechtenstein Global Trust, is owned by the princely House of Liechtenstein through the Prince of Liechtenstein Foundation and led by its royal family members H.S.H. Prince Maximilian von und zu Liechtenstein (CEO) and H.S.H. Prince Philipp von und zu Liechtenstein (chairman).

There are many LGT companies registered on Companies House. LGT Wealth Management Limited was incorporated in 2007 and links immediately to the fraud, Donald Trump, Jimmy Savile and apparent crimes against children via Dundas & Wilson CS LLP on page 3 of its incorporation document.

Hugh Anthony Fenn connects Schroder Asiapacific Fund PLC to Aberdeen Asset Management Pooled Pensions Limited that was incorporated in 1993 as Mawlaw 205 Limited, a shell company. Its name was changed in 1996 to SLC Pooled Pensions and in March 2002 to Credit Suisse Pooled Pensions Limited. An SLC company connects to Pegasus and the research of the U.S. Helicopter crash, as shown later. The pooling of pensions could suggest a plan to steal

pension funds in the event of their being no beneficiaries and a 'Royal' pooled pension company is featured close to the Russian Government links shown later.

Credit Suisse had been a tenant of the World Trade Centre at the time of its collapse is a huge private banking company that shaped Switzerland. It appears to be an important company in the fraud and crimes against humanity, with Switzerland being where the WEF, CERN and large world Organisations involved in the fraud are based.

In February 2022, as I started making enquiries regarding Exbourne Manor, articles emerged of the corruption and apparent major crime surrounding Credit Suisse. I had exposed this company and its links to the fraud and the World Trade Centre as one of my first public exposures in 2023. According to the recent research, it was announced on 31st May 2024 that Credit Suisse AG (AG is apparently a German reference) has now ceased to exist, showing the likely power of exposing the fraud.

Credit Suisse AG was registered as Credit Suisse in 1971, the same year as the WEF and changed its name in December 2009, two months after The Royal Foundation for the Prince and Princess of Wales was incorporated and links all areas of the Fraud. The company was incorporated with Slaughter & May and is shown as having dissolved in June 2024.

Numerous other Credit Suisse companies are still active and connect to Linklaters & Paines that feature throughout the fraud. Information appears to be being hidden with some Credit Suisse companies and the incorporation document for Linklaters LLP appears to have been forged by putting 'Under Power of Attorney' where a company name should be. This appears to be continued major Government fraud.

The Burwood House Group Limited was incorporated by Slaughter & May in 1989, the same year as the creation of The World Wide Web for CERN and the foundation of Slaughter & May itself according to the research. One of its name changes includes a link to Credit Suisse and this shows the centralised criminal network at play.

Linklaters & Paines makes important connections to Companies such as Astrazeneca PLC, JP Morgan Companies, Bank of Kuwait, London Metal Exhchange (The) connecting to Nigel Farage and weapons company Raytheon and the only time that I have stumbled across a Rockerfella name In the Companies House research. This was during the research of Jeffrey Epstein and immediate connections had been made to Pan American World Airways Inc by Jeffrey 'Lewis', that I suspect is an Alias name for Jeffrey Epstein after his supposed death, to Raytheon Companies.

Referring back to the research of the Hampshire fire, Rosemary Jane Morgan of Schroder Asiapacific, had been appointed a director from 1st July 2012, three days before CERN discovered the Higgs Boson of God Particle and resigned in February 2022, as I was starting to ask questions at Exbourne Manor.

Morgan also connects to Nippon Active and Nippon had featured in the research of the Nicola Bulley. Nippon is the largest Japanese Life Insurance company, founded in 1898, the same year that De La Rue Holdings and Princess Diana linked Harrods as mentioned later. Morgan also links to JP Morgan Indian Investment Trust PLC, where she was a director from 2013 until February 2024.

Timothy Philpot of Schroder Asiapacific connects to Deutche Private Asset Management Limited and Liverpool Victoria Trustees Limited of an address of County Gates, Bournemouth.

Anthony Rodgers of Schroders Asiapacific connects to Chemical Industries Association Limited that connects to the fraud by Linklaters & Paines and to Astrazenca Pensions Trustees Limited that was incorporated in 1993 as Zeneca Pensions Trustee Limited and changed its name for, the only time, in January 2001, eight months before the World Trade Centre disaster. This is linked to the fraud by Allen & Overy on its incorporation document and there various ICI Pension companies listed. Rodgers also connects to Astrazeneca PLC that was incorporated in 1992 as the Companies House register was becoming electronic and is linked to the fraud by Linklaters and Paines. We will revisit Astrazenca and the other vaccine companys mentioned later.

Nicholas Smith of Schroder Asiapacific links to one of the most important companies in the fraud, CAPB Limited. This was originally incorporated as Robert Fleming & co.Limited in 1932 and changed its name to CA Premier Banking on the 23rd July 2002, the day before Larry Silverstein purchased the lease for the World Trade Centre. This was the first time it had changed hands since its conception in 1966, which was the same year as the Foudation of The Church of Satan. CA refers to Cater Allen and is the private offshore banking element of Abbey National, now Santander. The company dissolved on 27th August 2016, the same month that an apparent

Satanic ritual took place at CERN Geneva, Switzerland by a statue of Shiva, an Indian Goddess of Creation and Destruction.

Collider Technology

The European Organization for Nuclear Research (CERN) is the main company involved in running the collider technology experiments. CERN Is connected to the Vatican, so we can immediately assume that there may be a spiritual motivation behind it.

CERN was conceived in 1952, the year before The Queens coronation, with significant evidence suggesting the Royal family were infiltrated and possibly removed as part of the plan. 1953 is also when the MK Ultra programme appeared to have begun and involved the Intelligence agencies projecting non-consensual psychological control on the masses. MK Ultra appears to have stemmed from Operation Paperclip linking with the Nazi regime and Siemens is an important company in relation to its connection to CERN. CERN was founded in 1954, the same year that the Silent Weapons of Quiet Wars, involving the Rothschilds, appears to have been released.

According to the research there are two active collider facilities, The Large Hadron Collider (LHC) at Geneva Switzerland and the Relativistic Heavy Ion Collider (RHIC) at Upton, New York in the US.

The LHC was constructed between 1998 and 2008 and was activated for the first time in 2008. The RHIC was constructed from 1991 to 1999 and was activated for the first time in 2000, the year before The World Trade Centre disaster. Prior to the construction of the RHIC, there were serious concerns that it may cause a black hole on Earth.

Link to RHIC Wiki: https://en.wikipedia.org/wiki/Relativistic_Heavy_Ion_Collider

1991 is the same year that David Icke claimed he was acting on behalf of the Godshead and that the World would be devastated by Earthquakes and Tsunamis. Icke was a former Professional footballer, already connected to a key industry in the laundering and is connected quickly to the Intelligence Agencies in companies House records. This suggests he may have been positioned by the Intelligence Agencies to disclose this information.

In January 2020, a month after the outbreak in Wuhan, the US decided the RHIC would be used to design the Future Electron-Ion Collider (EIC).

In 2003 E.I.C. Group Limited was incorporated on Companies House originally called Metallic Move Limited. It is linked to the fraud via the name and address on its incorporation document. Jaqueline Jacobs became the person of significant control in 2016, the same year as the apparent Satanic ritual at CERN. Within the people record Jacobs links to West of England Aerospace Forum Limited that was incorporated in July 2002 and is linked to the fraud via its 'Temple' address and companies on its incorporation document.

Mark Osmond connects Aerospace Forum Limited to Blenheim (Branksome Park) Management Limited with an address of Owens and Porter in Bournemouth, the same Management Company for Exbourne Manor Freehold Limited at the time I started my enquiries. Stephen Owens is shown as a current director and connects through research on Companies House to the Russian Government.

Link to E.I.C. Group Limited Companies House record: https://find-and-update.company-information.service.gov.uk/company/04721320

The research of the RHIC mentions Larmor Precession, which appears to possibly relate to the tilt of the Earths axis. The EIC research suggests there was a previous collider in Germany that was called HERA that had been operating from 1992, the same year that Companies House was initiated to become electronic, until 2007, which is year I purchased a property at Exbourne Manor and when Madeleine Mccann went missing. The following year, The Large Hadron Collider (LHC) was started for the first time.

Stephen Hawking, Jeffrey Epstein and CERN

Scientist Stephen Hawking is mentioned throughout the document and an article from 2024 claims he proposed a theory regarding black holes and their emission of radiation in 1971, the same year as the creation of the WEF. This is very likely relevant to the cell tower connection, as they also emit radiation and CERN was involved in the technology of the cell towers.

Link to Hawking theory 1971:
https://news.mit.edu/2021/hawkings-black-hole-theorem-confirm-0701

Stephen Hawking had been studying the thesis of the expansion of the Universe and black holes. This appears to link to 1966, the same year as the foundation of the Church of Satan.

Link to Stephen Hawking Wiki:

According to an article in 2021 Hawking was involved in a meeting with Jeffrey Epstein and CERN scientists on a US Virgin Island in April 2012, less than three months before CERN discovered The Higgs Boson (God particle) during the ATLAS experiment.

In 2009 the 2012 movie was released which depicted catastrophic apocalyptic events on Earth, including Earthquakes and Tidal Waves, as David Icke had claimed. Its director Roland Emmerich appears to be linked to the fraud and also directed Moonfall in 2022. This was as I was exposing the fraud that led to important connections to the Earthshot and Moonshot prize.

Link to 2012 Movie Wiki: https://en.m.wikipedia.org/wiki/2012_(film)

With this informatiom we have to consider that the WEF was created in 1971 for the purpose of funnelling money through the Companies House fraud into the collider technology and the connections to the possible agenda for the doomsday cult now established or to make a certain group of people believe that was the case.

Epstein was supposedly arrested in July 2019, the same month that protests were taking place in Wuhan regarding a planned incinerator plant and a month before cell towers were erected there, as mentioned later.

The Companies House research from Scientist Stephen Hawking links immediately to Nigel Leonard Blood, of The London Law Agency via the company Space Time Publications incorporated in 1985. This is one of the main names and companies used in the fraud. Blood links quickly to Elon Musk and to the research of crimes against children, including possible child sacrifice.

One of Hawkings companies, Cosmic Horizons Limited, incorporated in 2012 (same year as CERN discovering the God particle) and dissolved in 2023. Director Winfred Godwin immediately links to company Wintercomfort for the Homeless (a name likely to prevent suspicion) that has Ellen Mccool Fleming of 'Artillery Lane' and members of the Rothschilds family on its incorporation document and was incorporated in May 1991, not long after the end of the Gulf War.

A Companies House searches of Ellen Mccool Fleming links to BBC Companies and CAMS Music Trust, which likely refers to the American organisation regarding disabled children.

Nicola Webb connects CAMS Music Trust to The Matrix Ensemble Limited that was incorporated in 1989, the same year as the creation of the World Wide Web for CERN and dissolved on 3rd of July 2012, the day before the supposed discovery of the God Particle by CERN.

Helen Marriage connects The Matrix Ensemble Limited to Stonehenge Films Limited and Peter Kosminsky of this company to Bryanston School that features throughout key areas of the fraud and to members of the supposed Royal family.

Reginald Webb of the Matrix Ensemble company connects to Minstead Court Management which then makes multiple connections to the same fraudulent companies around Exbourne Manor including to important name, Caroline Kelleway as mentioned later.

Referring back to Winter Comfort for the Homeless, Joanne Crellen connects to The 999 Club and Lady Florence Trust. This Likely makes reference to the Emergency Services and Freemasons as well as Lady Florence Nightingale. Within separate evidence I have found significant evidence linking 'Nightingale' to the threat from cell towers suggesting the Nightingale Hospitals, supposedly erected across he UK for COVID, may have actually been for the possible plan regarding cell Towers. This includes a military affiliated company, AJ Power, being directly associated to a cell tower overlooking Fort William in Scotland and this along with another company, Nera connecting to the same fraudulent companies being exposed, including defence contract companies such as BAE systems, mentioned later. This is shown on the evidential research document **5G Mast – Fort William** and explained in more detail later.

The 999 Club and Lady Florence Trust company was incorporated with the name of The Lady Florence Trust in June 2001, a month before Larry Silverstien acquired the lease for The World Trade Centre and its name was changed after the disaster in April 2001.

The Former Soviet Union

Geordie Grieg of The 999 Club and Lady Florence Trust links to Raisa Gorbacheva Foundation, the wife of Mikheil Gorberchev and making connections the Former Soviet Union Government.

Research shows that Raisa and Mikeill make connections to Ukraine and the Soviet Coup in 1991, a key time in the fraud. They had supposedly married in 1953, the same year as the Queens coronation, the start of the MK Ultra Programme and a year before CERN was founded.

Link to Raisa Goerbocheva Wiki: https://en.wikipedia.org/wiki/Raisa_Gorbacheva

Alexander Lebedev of Raisa Foundation links quickly to the same companies surrounding Exbourne Manor Freehold Limited, via the Ilyushin Foundation.

Evgeny Lebedev of Raisa Foundation links quickly to The 'Pies' Pub Limited, started six months before Jimmy Saviles supposed death and links quickly to well known Hollywood Actors including Sir Ian Mckellen and Sir Patrick Stewart.

Geoffrey Matthews of the 999 Club and Lady Florence Trust makes quick connections to RAC Limited and various RAC Companies shown on Jewish Community Centre UK, mentioned previously.

Information shows that Scientist and Astrologer, Brian Cox was directly involved in the ATLAS experiment in which CERN discovered the God Particle. Cox was also involved in creating a short video and being the Science Advisor for the movie Sunshine released in April 2007, a month before Madeleine Mccann went missing and is about the dying of the sun, possibly a metaphor for Christ. This movie links to Ingenious Film Partners, the company linking all areas of the fraud. Cox had also being involved in film regarding Switzerland, the country where CERN is based.

Polar Shifts and effected Magnetic Fields

Research suggests the Earths Poles are shifting and that it has dramatically increased since the 1990's that happens to be when the ability to funnel more money into an agenda by forging the electronic Companies House record appears to have been implemented, three years after the creation of the World Wide Web for CERN.

The word HERA that was used for the German collider also refers to Greek Olympic Mythology, likely relevant regarding the significant connections to the Olympic Games companies in the fraud and their Satanic references.

HERA is also the name of Italys largest energy supplier and a statue of Hera is at the Vatican Museum.

Hera Advisory Limited links immediately to the fraud with Stanley David Group on its incorporation document. It is in the process of dissolving and there is a duplicate record for its only director Yves Dominion which connects to Rexam Limited. This company was originally incorporated as Bowater Corporation (The) in 1923 and is a fraudulent entity. Its name was changed at key times, the last time being September 2016, the month after the CERN ritual and connects by directors to very important areas in the fraud already identified.

Donald Trump

Donald Trumps bid to become US President for the first term was also in 2016 and you will see evidence of the corruption and likely relevance of this involving Rudy Giuliane, the Mayor of New York at the time of the World Trade Centre.

2016 was also the year that social media platform Tik Tok was founded and links to Cheetah Technologies on Companies House. Cheetah Technologies links to the companies surrounding Donald trump, despite controversial claims that the US population may be stopped access to it prior to Trumps second term as President and where several more recent articles show him extending its use. This suggests Tik Tok is possibly being used as a symbolic countdown to their plans.

The same record for a Salman connects to FP Management Ltd that was incorporated in August 2020.

Both companies connect immediately to the fraud with Companies Made Simple on their incorporation documents.

The same record for Salman connects to Prudent Asset Management Ltd that was incorporated as in 2014 and its name was changed in 2016. It has Theformationscompany.com on its incorporation document, that connects to Fleming Co Limited and quickly links the research of Donald Trump, Benjamin Natanyahu and Irans leader to the fraud.
The filing history for Prudent Asset Management Ltd shows that Salman ceased to be a person of significant control in 11th July 2022, three days after I approached Anthony Roberts of Exbourne Manor and two days before his resignation. Suleman had been appointed in February 2019, as COVID appeared to be being planned and there are closely timed registered address changes shown.

Another search shows a record for a Mohammad Bin Nawaf Bin Abdulaziz AL-Saud that connects to King Fahad Academy that was incorporated in 1987 and at the time of the research was in the process of liquidation. It links immediately to the fraud by its registered address of 30 Finsbury Square, London that is used throughout the fraud. Page 7 of its incorporation document shows Sheikh Nasser Almanqour G.C.V.O, Naji Mufti CBE,

Penelope Margret Ralph connects King Fahad Academy to Gulf International Bank (UK) Limited where the register states they were appointed before 1991, the year the Gulf War ended. Gulf International Bank (UK) Limited was incorporated AL-Bank Al-Saudi Al-Alami in 1975, four years after the World Economic Forum began.

Carolyn Jane Aitchinson connects Gulf International Bank (UK) Limited to The Girls' Day School Trust.

Ralph Mcgregor Campbell connects Gulf International Bank (UK) Limited to Western Canada Investment Company Limited (The) that links to the fraud by its registered address of 1 More London Place, London and has a forged register.

Gary Nigel Withers connects Gulf International Bank (UK) Limited to Commonwealth Bank of Australia (UK) Staff Benefits Scheme Trustee Company Limited that links immediately to the fraud by Allen & Overy on its incorporation document.

Dr Rolf Ernst Breuer, a German Banker connects Gulf International Bank (UK) Limited to Deutsche Morgan Grenfell Group Limited that was incorporated in 1971, the same year as the start of the WEF. It links immediately to the fraud by its registered address of 10 Fleet Place, London and was in the process of liquidation at the time of the research.

Peter Jurgan Deruse connects Gulf International Bank (UK) Limited to S.O.S. Sahel International that features in the research of the helicopter crash in the US on 10th April 2025 and links to important areas of the fraud. Research shows that Morgan Grenfell is directly connected to the Father of J P Morgan.

The Doomsday Clock

It appears that both the Doomsday Clock and The Georgia Guide stones may have been created as a symbolic countdown with both representing an upcoming 'man made apocalyptic event. According to the research the Doomsday Clock had been originally conceived by Albert Einstein and J Robert Oppenheimer and was managed by The Bulletin of The Atomic Scientists (BAS) from 1947. Midnight on the clock represents the time of the apocalypse. It had been its farthest from midnight in 1991, the year before the electronic register was initiated on Companies House, when the Gulf War ended and when my favourite movie, Terminator 2 Judgement day was released, as mentioned later. The closest to midnight was in January 2025 when Donald Trump became the 47th President on the United States.

A Google search of The Bulletin of The Atomic Scientists revealed that Atomic Science Ltd had been incorporated on Companies House in 2013 as Toxic Tom Science Ltd. It has KG Business Centre on its incorporation document.

A separate search within Companies House showed that KG Business Development Services Limited had been incorporated in 2021 dissolved in 2022.

Kirsty Greenwood of KG Business Development Services Limited connects to EM Arie Tech Limited and Stephen Margolis of this company to Peratch Holdco Ltd. Simon Tobelem of this company connects to British Friends of the Hebrew University of Jerusalem that was incorporated in 2007 with Bates Wells & Braithwaite. This company showed various Rothschilds companies on page six of its incorporation document including Ag companies. Jeremy Amias of this company connected to China-Britain Business Council that features in the research, including to MI5.

Joseph Smouha of British Friends of the Hebrew University of Jerusalem connects to First Choice Films 1LLP and ERG Wind Italy 3 Limited Liability Partnership that have featured in other research.

Jonathan Marks had been a director of The British Friends company from 2007 until May 2024 as I continued the exposure and they connect to fraudulent company Slaughter & May and an Aviva company. Slaughter & May is particularly important and mentioned throughout this document

Bernard Myers of the British Friends company connects to Harrow Citizens Advice Bureau Limited, all of which appear to have been set up to prevent exposure of the fraud. Myres also connects to b various Rothschilds companies including N.M. Rothschilds & Sons (Denver) Limited, as mentioned earlier connecting from the Hampshire fire.

Marge Schwartz had been a director of the British Friends of the Hebrew University of Jerusalem until 2016 and connects to Canada-United Kingdom Council. This company was incorporated in 1992 as Canada-United Kingdom Colloquia, when the Companies House register was becoming electronic and changed its name in 2013, the year after CERN supposedly discovered the God Particle. It is a criminal company with Jordan & Sons Ltd on its incorporation document.

During my research at this point I accidently searched BES instead of BAS as an acronym for British Atomic Scientists. As a result, it revealed that B.E.S. Limited had been incorporated on Companies House in 1975 as Rednoll Limited and is linked to the fraud by Stanley Harold David and Hart & Co on its incorporation document.

David Hughes of connects B.E.S. Limited to Pinsent Mason Director Limited that was incorporated in 1988 and is a criminal company with The London Law Agency on its incorporation documents. Pinsent Mason companies had already featured in the research.

Link to B.E.S Limited Companies House record: https://share.google/cm2uQ0IV53UHCcg60

Cosign Limited of this company connects to 2032 Limited that had been incorporated in 2014 and was a criminal company with Jordans Limited on its incorporation. Cosign Limited also connected to Paris Trading Limited that had Swift Incorporations Limited in its people record and Peter Derek who had been a director for Prior Homes (Christchurch) Limited from 2008 until October 2009, a month before The Royal Foundation of the Prince and Prince of Wales had incorporated. Priory Homes (Christchurch) Limited was connected to the fraud by the name Dunsta Davies of Waterlow Secretaries on its incorporation document, which appeared to be forged. The filing history of the company showed that it had two companies near to Exbourne Manor, including St Stephens Court, St Stephens Road, Bournemouth and 3 Lorne Park Road, Lansdowne Road, Bournemouth. The St Stephens Road address connects to the research of the Grenfell Tower fire shown later.

Derek Peters also connects to Luton Town Football Club that was incorporated in 2003 and has Howard Thomas on its incorporation document that features at key time in the fraud, including to the research of the helicopter crash, mentioned later.

Cosigned Limited also connects to Yes Television (Europe) Limited that was incorporated as Elmsdale Media Limited in 1995, the same year as The Hakluyt International Advisory Board. It is a criminal company with Jordan & Sons Limited on its incorporation document. James Bruce of this company is shown as a director for Robert Fleming Holdings Limited from before 1992, a key time until 1998. This company was incorporated in 1974, three years after the WEF began and dissolved in 2016. Bruce also connects to CAPB Limited, incredibly important for the reasons previously mentioned.

John Handley of B.E.S Limited connects to Lloyds Development Capital (Holdings) Limited, also incorporated in 1973 and had a previous name of Pegasus Holdings Limited. It has Linklaters & Paines on its incorporation document. The Lloyds Development company appears to refer to Lloyds Bank and I had acquired forged Lloyds Bank documents through Exbourne Manor.

Although the connects in this research had been vague and mistake had been made,what happened next and as a result of this, was astonishing. It had become apparent at various times since 2022 that Apocalyptic deception was part of the plan, possibly to try and maintain control over people involved in the fraud, but not the crimes against children and that may have been promised salvation from a falsely claimed upcoming natural disaster.

The Asteroid and Apocalyptic Deception

Having acquired the evidence surrounding the Doomsday clock on Wednesday 29th January 2025, I was invited onto a live stream event with Just an Ordinary Citizen that day. Whilst on the live stream I explained the evidence surrounding the Doomsday Clock and that I suspected that a deceptive apocalyptic event may be being planned for 2032 to fit a falsified biblical apocalypse, with 2032 being seven years away and therefore fit the seven years of tribulation.

I had told a member of my family about this the following day and the following day on Friday 31st January 2025, they explained that they had seen the front page of The Daily Star claiming that an asteroid called YR4 had identified as possibly striking the Earth in 2032. I verified this information and later received information that it had been publicised in New Zealand from a contact there. The articles and other information claimed the Asteroid had been discovered in December 2024, but none of the articles or information was dated prior to the 31st January 2025. This suggests they may heard the Live stream and publicised the articles as a result. Evidence shows that all Main Stream Companies are part of the fraud.

I had also found connections to Earthshot and Moonshot via the Earthshot Prize company mentioned later and articles about the asteroid changed suggesting it may now miss Earth and strike the Moon.

This apocalyptic deception and its connection to the fraud was particularly evident in May 2025 when Catherine Fitts, a former White House employee under the Bush administration, claimed $21 trillion had been defrauded from the masses between 1998 and 2015 for an underground doomsday city for the rich and famous. This was as I was releasing my evidence of a possible falsified doomsday apocalyptic event, as explained in the video below. If the tunnels are true, I have information to suggest, and I believe that they will be flooded.

I am unsure if this will be divine judgement or by those involved in the tunnels construction who are linked to religious groups so may want to bring judgement to those trying to save themselves through their crimes. I advise no one enters, I am trying to save everyone, even those involved in this criminal system.

Fitts has not responded to attempts to make contact, did not mention Companies House during her claims and links immediately to the fraud and Exbourne Manor Freehold Limited via Dillon Read and to 'White House' companies.

Derren Brown – Apocalyptic Deception

In March 2025 I was prompted to research, Hypnotist Derren Brown who had been involved in a TV show called Apocalypse that was released in important year of 2012, due it being the end of the Mayan Calendar and the year that CERN supposedly discovered the Higgs Boson or God particle as mentioned earlier.

As a result, I watched the show and it was about deception against an individual to make them believe the World was ending with an asteroid called ‘Swift’ hitting the Earth, the same name as the transaction system being used in the fraud.

The research for Derren Brown shows he was born in 1971 and began performing in 1992, the same year the register for Companies House was being made electronic. 1971 was the year that the WEF was created and it appears that many key people in the

deception have this year of birth, including Julian Assange, mentioned later. Derren Browns first show was called ‘Mind Control’ in 2000, the year before The World Trade Centre disaster.

You will see that the Companies House research shows that Derren Brown connects quickly to Political and Government related companies. When inverted the word Government itself means Mind Control with Govern meaning Control and ment meaning mind. Other information suggests that Brown was involved in other projects including, Something Wicked this way Comes in 2006 (The year of the Davinci Code Movie), The Experiments in 2011 (The year of the Christchurch Earthquake and that Jimmy Savile died) and a stage show called Secret in 2019 (The year of the supposed COVID outbreak).

In 2007 (The year I moved into Exbourne Manor with Russian Government links) Brown did a show called Russian Roulette indicating a chance on where the outcome can be determined by one extreme to another. Brown also identified as being Gay this year and had previously been a Christian according to the research.

Brown became involved with Objective Productions before setting up his own company called Vaudeville Productions. Its first show was called Pushed to the ‘Edge’.

Vaudeville Productions Ltd was incorporated in 2014 and has 4Business that immediately links to the research of Rudy Giuliane, the Mayor of New York at the time of The World Trade Centre and former lawyer for Donald Trump. 4Business is also on the incorporation document for CERN Limited incorporated in 2010 and mentioned later.

Derren Brown is shown as a significant person of control for Vaudeville Productions Ltd from April 2016, four months before the apparent satanic ritual at CERN. Michael Vishnik of Vaudeville Productions connects to Burning Men Pictures Limited, incorporated in April 2016 and was in liquidation at the time of the research. It is connected to the fraud by Stanley Davis Group on its incorporation document.

Mark Melvin of Burning Men Pictures Limited connects to The Project for Modern Democracy, where John David Sebastian Booth was a director from 2013. Research shows that Booth was the Chair of The Princes Trust and was given a 2024 Birthday honour by supposed King Charles.

Other research shows that Booth had been connected to Merril Lynch which becomes relevant later and makes connections to The Flemings. The information also shows a connection to a contact from Equilar ExecAtlas, which possibly makes connections to the ATLAS experiment at CERN and the discovery of the Higgs Boson particle.

Companies House shows that Booths other connected companies include multiple religious based organisations, one of which is The Chichester Diocesan Fund and Board of Finance (Incorporated) that was incorporated in 1914, has a forged register making it an illegal entity and with Waterlow & Sons on its incorporation document.

Another company linked to Booth is Evolving Systems 'Lumata' Limited, possibly making reference to the Illuminati that was incorporated in 2000 and had name changes at key times of February 2012 and October 2019, two months before the supposed COVID outbreak. It is a criminal organisation started with the same two companies as Exbourne Manor Freehold Limited.

Lord Nicholas Herbert of the Project for Modern Democracy conects to the College of Policing. The research suggests the College of Policing was established in 2012 with, Alex Narshall, The Chief Constable of Hampshire at the time as its CEO and Rob Bekerly, the Chief Constable of Avon and Somerset as Chief Operating Officer. Both forces are specifically implicated in the fraud, with Avon and Somerset standing out in the research of Julian Assange, linked to a Doomsday cult as mentioned later. Bekerly moved to the Met Police in 2016, the same year as the apparent Satanic ritual at CERN. David Cameron had been the Prime Minister at the time of the College being introduced and is heavily implicated in the fraud and linked to the research of the MK Search, formerly MK Ultra programme, as mentioned later.

College of Policing was incorporated on Companies House in October 2012 and links to Addleshaw Goddard of 100 Barbirolli on its incorporation document. Addleshaw Goddard (Scotland) Secretarial Limited was incorporated in April 1991, two months after the end of The Gulf War and prior to the Companies House register being made electronic. Pages 16 onwards of its incorporation document appears to be forged.

2012 was also the year that The Association of Police and Crime Commissioners was created. This involved heads of Corporate bodies working along side Chief Constables and controlling the budget. This meant they could funnel more money into any potentially agenda, such as cell

tower or collider technology. The Companies House research from this links quickly to Jimmy Savile connected, 'Gentlemens Club', The Savile Club, founded in 1868 and that connects to the research of CERN.

The Association of Police and Crime Commissioners was incorporated as Association of Police Authorities Limited in 2004 before its name was changed to The Association of Police and Crime Commissioners Limited on the 5th December 2012, five months after CERN discovered the Higgs Boson or God particle. Its name was changed for the final time on 5th April 2013. It has Bircham Dyson Bell of 50 Broadway, Westminster on its incorporation document. This is an address used throughout the fraud and by criminal organisations.

Link to The Association of Police and Crime Commissioners Companies House record:

Bircham Dyson Bell LLP was incorporated in 2006. Its name was changed in 2018 to BDB Pitmans LLP, as Gordon Bowden was exposing his evidence of the fraud. Its name was changed for the final time to Broadfield Law UK LLP in 2024, as the exposure continued.

Oliver Wright connects Bircham Dyson Bell LLP to JMW Solicitors LLP that features in the research stemming from the Helicopter crash in April 2025 as shown later. This is just one example of The Association of Police and Crime Commissioners criminality and contradicting the legislation that they are supposed to enforce.

Katy Bourne connects The Association of Police and Crime Commissioners to College of Policing Limited that was incorporated in October 2012 and is mentioned in this document with the research of Derren Brown and apocalyptic deception.

Bourne also connects to Police Digital Service Ltd that was incorporated in June 2012, the month before CERN discovered the Higgs Boson or God Particle. It has Addleshaw Goddard LLP of 100 Barborilli Square, that features throughout the fraud and 'Home Office' who oversee all UK Police forces, on its incorporation document.

Donna Jones, The PCC for Hampshire and Isle or Wight is shown as becoming a director for Police Digital Service Ltd in June 2024, as the exposure continued. The area of Hampshire and Isle of Wight is significant due to the reasons outlined elsewhere. All evidence suggests Jones is part of a sinister plan against creation that is being expedited.

Jones also became a director for Hampshire Chamber of Commerce, a fraudulent company featured in the research.

Police Digital Service Ltd is featured in the research of Nicola Bulley and Police Digital Security Centre Ltd in the research of the World Trade Centre disaster and having Eversheds LLP on its incorporation document.

Police Digital Service has TLT LLP of Gresham Street as its registered address. A separate search of TLT LLP in Companies House shows that it was incorporated in 2004 and has a registered address in Bristol. John Bennett and Steven Wilson both ceased to be people of significant control in March 2024, as the exposure continued. Peter Carney was appointed as a director in October 2007 and research of Carney shows that TLT were one of the key financial restructuring companies for Virgin Atlantic, with the Virgin organisations shown throughout the fraud and appearing to be connected to International crimes against children.

Mark Carney Canadian Prime Minister

I suspect that Peter Carney is a relative of Canadian Prime Minister Mark Carney, who became Prime Minister in 2025 and is the former head of the Bank of England. He appears to have been positioned as part of the doomsday agenda.

Mark Carney is shown as being a former director for Prudential Regulation Authority Limited that was incorporated in on 21st November 2011, ten days before the supposed death of Jimmy Savile and dissolved in January 2020, a month after the supposed COVID outbreak in Wuhan. It has Emma Fitzgibbons of the Bank of England on its incorporation document. An Emma Fitzgibbons is shown as being a director for Topham Aviation and Andrew Street of that company connects to many Aviation and Aerospace companies that feature throughout the fraud.

PRUDENTIAL REGULATION AUTHORITY LIMITED overview - Find and update company information - GOV.UK https://share.google/6MKpizqLmK1aXAdZM

Nicholas Prettajohn connects Prudential Regulation Authority Limited to Royal Opera house Covent Garden Trading, that makes the connection to the collaboration with Russian Government in the fraud and to the case of Nicola Bulley, via Peter Lawson.

Pretterjohn also connects Prudential Regulation Authority Limited to Legal & General Group PLC that was incorporated with Slaughter & May in 1979, the same year the Georgia Guide stones were being designed.

Pretterjohn also connects to various Lloyds companies including Lloyds of London Limited that was incorporated in 1996, five years before the World Trade Centre disaster and is a criminal company having been incorporated with Swift Incorporations Limited and Jordan & Sons Limited. I had acquired forged Lloyds Bank documents through Exbourne Manor.

Referring back to Police Digital Service, Julia Lucas connects TLT LLP to Wye Films LLP and Dr Khalid Barakat from that company connects to The Invicta Film Partnership No.23, LLP, that was incorporated in 2004 and dissolved in 2023. This is important as Invicta Film Partnership companies feature quickly from the research of the Goldsmiths, the Satanic Temple United Kingdom and Turcan Connell appearing to make connections with the apparent death of Princess Diana.

Nicholas Bates connects Wye Films LLP to 'Skin' Divers Limited and Duran Duran Limited that was incorporated in June 2002 and is a criminal company with The London Law Agency on its incorporation document. Simon Le Bon is shown as a director and connects to Skintrade Music Limited and DD Productions with a correspondence address of 'Elmwood House' and which was incorporated in 1986 and dissolved in 2023, as the exposure continued.

Ravi Bhardwaj connects Wye Films LLP to Ingenious Film Partners 2 LLP, which features on page forty of The Royal Foundation of The Prince and Princess of Wales.

Wye Films LLP shows Fleet Film Partners 1 Limited and Fleet Film Partners 2 Limited in its people record. A separate search for these within Companies House reveals Darwin & Darwin No 2 Limited that was incorporated as Darwin Films Limited in 2004. Its name was changed to Fleet St. Films Ltd in June 2019, the month before Jeffrey Epstein was supposedly arrested and the protest took place in Wuhan. It changed its name for the final time in 2023, as the exposure continued.

Andrew Proctor Darwin connects Darwin & Darwin No 2 Limited to Savile Club Limited that was incorporated in 1910, has a forged register and Jordan & Sons Limited on its incorporation document. Research shows that the Savile Cub was a 'Gentlemens Club' founded in 1868 and that a building connected to it was owned by a family member of JP Morgan, which makes connections to the Flemings.

Members of the Fleming family and Savile appear to have both owned properties in the remote Glen Coe area of Scotland, meaning they likely knew each other. Its no coincidence that as the exposure continued, Saviles property has only recently been demolished, despite him supposedly dying in 2011.

The evidence shows that the Flemings are closely associated to King Charles and the royal family, whom I suspect are imposters, positioned as part of a doomsday cult. Articles from April 2022, as I am making enquiries at Exbourne Manor, suggest Savile had significant influence and control over the supposed Royal family. Other evidence I have acquired suggests the Government have hidden documents and discussions linking Savile to the UK Government and possibly the agenda regarding collider technology and nuclear weapons. This is shown within a Parliamentary debate involving MP Simon Hughes.

Link to article of Saviles influence over Royals: https://www.theguardian.com/uk-news/2022/apr/06/prince-charles-repeatedly-sought-jimmy-savile-advice-documentary-claims

According to the research Simon Hughes, who was involved in this meeting, was born in 1971, the same year other key people and the year The World Economic Forum began. Hughes was part of Cambridge University Liberal Club, where relevant Stephen Hawking had attended,. Hughes was a member of the Church of England and Vice President of the Liberal Democrats Christian Forum. A Liberal Democrats company features quickly in the research of the Savile Club that connects to The Association of Police and Crime Commissioners. Hughes was involved in Liberal Values of defence and disarmament regarding Nuclear weapon deterrents and was also investigated within Parliament regarding a scrap metal scandal. The research shows that Jimmy Savile had been involved in the metal industry and Nigel Farage is also connected quickly to Metal Companies and the is hugely implicated in the international fraud as shown elsewhere in the dcoument. This could explain why Reform appeared to use a Jimmy Savile slogan in March 2025 and why one of their candidates was suspended for supporting Savile.

Reform used the slogan March 2025:

Hughes had been a strategic advisor to Talgo and Companies House shows that Talgo UK Limited had been incorporated in September 2019, a month after cell towers were erected in Wuhan and three months before the supposed COVID outbreak there. Pinsent Masons Secretarial is shown in the people record for Talgo UK Limited is Pinsent Masons is shown throughout the research.

Pinsent Masons Secretarial is shown as having 3402 company connections and being a Secretary for Glenco Investments Limited from 10th May 2007, a week after Madeleine Mccann went missing and resigning in November 2024, as the exposure continued. This appears to have a have a possible connection to Glen Coe, Scotland where members of the Fleming family and Jimmy Savile lived and it has a registered address in Scotland. Dundas & Wilson CS LLP is shown on the incorporation document, the exact same company that connects immediately to Donald Trump by his Scottish Golf Club companies and to Jimmy Saviles Outward Bounds Company, Freemasons and members of the Royal family.

GLENCO INVESTMENTS LIMITED overview - Find and update company information - GOV.UK https://share.google/8IMrU57mXGkY0ckji

Pinsent Masons Secretarial is also connected to Vampire Productions Limited and Police Aviation Services Limited that was incorporated in May 2001, two months before Larry Silverstein acquired the lease for the World Trade Centre and it dissolved in 2024 as the exposure continued.

William Awenat connects Police Aviation Services Limited to The British Helicopter Association Limited. This features quickly in the research stemming from the helicopter crash in April 2025.

Michael was appointed as a director to Police Aviation Services Limited in July 2001 and connects to Stockport Chamber of Commerce and Industry,.

Jonathan Day Veitch is also shown as being a former director for Talgo UK Limited and there appears to be a duplicated record for him on a separate search within Companies House showing ‘Dr’ Jonathan David Veitch. The duplicate record connects to JVD Anaesthesia Ltd, an apparent effort to try and hide an Anaesthesia connection.

Referring back to the Savile Clubs Companies House record, John Benson connects to Forward Press Ltd and The Oxford Litery Festival, with Oxford being where the Maxwells were so

prominent. Benson also connects to Isle of White Live Music Trust Ltd, making another relevant connection as well as to the BAFTA Enterprises Limited and Producers' Alliance for Cinema and Television Limited. These make connections to the research from Rishi Sunak and the collaboration with the Russian Government and the Flemings in the criminal network.

Brian Level connects The Savile Club to 'Royal' School of Needlework, Prime CYMRU making a Welsh connection that had featured in the research, and 'Templars'L.T.C. Association Limited that was incorporated in 1955, the same relevant year to Walt Disney and Turcan Connels, and dissolved in December 2024 as the exposure continued.

Ellis Raymond connects Templars L.T.C. Association Limited to Surrey Towers Freehold Limited with a registered address of Unit 8, The Old Pottery, Manor Way, Verwood, the exact same address for Property Solutions (Southern) Limited that is shown in the people record for Exbourne Manor Freehold Limited where the enquiries began. Its filing history shows various successive address changes around Bournemouth area.

Raymond also connects to The Chantry Freehold that was incorporated in June 2002 and has a registered address of 6 Poole Hill, Bournemouth and connects to the research around Exbourne Manor. Foxes Property Management is Ltd of the same address is shown in the people record.

Foxes Property Management Ltd was incorporated in 1995, the same year as the Russian Government connected Hakluyt International Advisory Board, and is a criminal company having been incorporated with the same two companies as Exbourne Manor Freehold Limited.

Dr Craig Goldsack connects Savile Club to W1 Anaesthesia with a registered address of Lynton House, 7-12 Tavistock Square, London which features through the fraud and is very similar to the address used for CAPB Limited, originally incorporated as Robert Fleming &Co. Limited. This is another Anaesthesia connections and supports that I suspect the drug is being used through the Medical Association suppress and cause memory loss of victims of sex crimes on a vast scale, using the Companies House fraud.

Mich Con De Reya and ICNIRP

Referring back to the research of Derren Brown, Lord Herbert also connects to Countryside Alliance and John Jackson of this company to Europe-China Investment and Trading Limited that was incorporated in 2003 and dissolved in April 2019, three months before Jeffrey Epstein was arrested and the protests took place in Wuhan, China, cell towers were erected there in August and the supposed COVID outbreak in December. The incorporation document shows Mish Con De Reya that I suspect relates to the De Reya family of Exbourne Manor Freehold Limited and the former Assistant Chief Constable of Dorset Police, Sam De Reya. Mich Con De Reya connects significantly to the research of International Commission on Non-Ironizing Radiation (ICNIRP) an organisation that monitors and supposedly regulates the safety of mobile communications networks and according to research links to working name of ICRP.

Link to ICNIRP Wiki: https://share.google/41al1iR6XZPORBPvb

ICRP Limited was incorporated on 2015 and dissolved on 20th June 2017, just over a month after Fleming Co Limited was incorporated and connects the research of international leaders as mentioned previously. Zubier Azdani, apparently a director of ICRP Limited for less than a mont, connects to Camden Community Law Centre.

Angela Mason had been appointed as a director for this company from 20th July 2012, sixteen days after CERN supposedly discovered the God Particle and connects to The Hampstead Wells and Campden Trust.

Hampstead Wells and Campden Trust was incorporated on 20th September 2002, almost a year to the day after The World Trade Centre disaster and importantly has Bates Wells and Braithwaite on its incorporation document, making links to he Royal Foundation of the Prince and Princess of Wales, The Death Penalty Limited and Kier Starmer, The Madeleine Mccann case and to the investigation of Sean Coombs aka P Diddy.

Phobe Mlarty was appointed to this company in March 2022, as I am making enquiries at Exbourne Manor and connects to Mish Con De Reya LLP. Mich Con De Reya LLP was incorporated in 2015 and Nicholas Davis of this company connects to Watermans Chemicals Limited, incorporated in 1988 as a criminal company with the same companies as Exbourne Manor Freehold Limited. This may be a connection to my families as supported by the other evidence.

James Lisbon Lisbon of Mich Con De Reya connects to Mich Con De Reya Group (Operations) Limited that was incorporated in 2021 and changed its name twice in 2023 is a criminal company with the London Law Agency on its incorporation document.

Annabel Thomas of Mich Con De Reya LLP connects to Canford School, Limited, based in Wimborne where the Flemings live.

Paul Noble of Mish Con De Reya LLP connects to Pegasus Tax Limited appearing to make an Israeli Intelligence links.

Daniel Greenaway of Mich Con De Reya connects to Pinsent Mason LLP and Pinsent Masons International LLP with Pinsent Masons connected to the research of the Doomsday Clock.

David Cummins of Mich Con De Reya connects to KPMG LLP, with KPMG having been used for the audit of Bournemouth, Christchurch and Poole Council and the research surrounding my wifes cousin, Victoria Proctor, appearing to link to them and having recently moved to Kent. Victoria is the Niece of My Wifes Uncle, Adrian Windsor who connects to Humphries Kirk and the research stemming from the US helicopter crash mentioned later.

Clare Broadbelt to Mich Con de Reya LLP connects to London Chamber of Commerce (The). This company had been incorporated in 1881, had an address of Queen Street, has a forged register and Waterlow & Sons on its Memorandum and Articles of Association. The company had recently featured in my research regarding Donald Trump, Benjamin Natanyahu and the leader of Iran linking to Fleming Co Limited as well as in the research of Nazi linked Siemens and The Edge Foundation that appears to have been funded by Jeffrey Epstein as shown later.

Emma Woolcott of Mich Con De Reya connects to Switchboard LGBT+ possibly making reference to Transgenderism and its link to the Baphomet and The Church of Satan.

Saul Sender of Mich Con De Reya connects to Reed Smith LLP that had featured in the research of the World Trade Centre disaster.

Gary Miller of Mich Con De Reya makes connections to Traffickanalysis Hub UK and Clifford Chance by that companies incorporation document that featured in the research regarding Max Clifford. Miller also connects ironically to International Fraud Group Ltd that was incorporated in June 2020 as the COVID situation was unfolding. Everything appears to be inverted by those behind this system.

Elliot Moss of Much Con De Reya LLP connects to Central British Fund for World Jewish Relief (The) that was incorporated in 1984 and shows a De Reya on one of the pages of its incorporation and appearing to be its own presenter on another with the same company name.

Barbar Reeves of Mich Con De Reya LLP connects to Amazon.Com.U.K.,Ltd. , Blackstones Chambers Limited and to Paramount Pictures International Limited, appearing to make a connection to Hollywood. This company was incorporated in 1997, has Jordans and Cameron Mckenna on its incorporation document making quick connections to Jimmy Savile. Barbara Reeves is used throughout the fraud and appears to be another Stolen identity or fictional name, due to the deliberate non-verification by the Government to facilitate the laundering of trillions of pounds from the masses.

ICRP - International Cancer Research Partnership Ltd was incorporated in June 2020, during a key time in the COVID situation and has Companies Made Simple on its incorporation document. This suggests that ICNIRP knew that mobile communication technology creates Cancer and I suspect are deliberately facilitating this through their criminal organisation and falsified regulation as part of the COVID deception.

Simon Sale of Mich Con De Reya connects to Dundas and Wilson LLP, that was incorporated in 2004. Dundas and Wilson link directly to Donald Trump from his Scottish Clubs as mentioned previously.

The Wuhan outbreak and Solar Cycle

The chain of events in Wuhan in 2019 help to support the evidence that the COVID and vaccine situation was possibly to hide the threat from directed energy and the larger deception.

In July 2019 their were protests regarding planned incinerator plants in Wuhan and in the same month Jeffrey Epstein was supposedly arrested.

In August 2019, the following month, cell towers were erected in Wuhan. Note The Guardian article below confirming this. The Guardian are part of the Satanic agenda, so with the assistance of ICNIRP, appear to deliberately undermine the threat from the cell towers in the article.

I am in touch with those that are involved in protests regarding waste sites and planned incinerators in the UK and it is no coincidence that contact is being made by someone claiming to be an employee from the CERN.

One of the MPs supposedly involved in supporting the resident protesters is Lorraine Beavers of Blackpool North and Fleetwood and has recently posted a video claiming success by residents in that the sites lease will not be extended beyond 2027.

Link to Lorraine Beavers Companies House record: https://share.google/gjlyGVznWICbFTZfJ

Beavers is showing as being a director for Refurb (Wyre and Flyde) Ltd that was incorporated in May 2002, eight months after the World Trade Centre disaster and is proposing to strike from the register, as the exposure continues.

Research shows that Michael Vincent has been the head of Wyre Borough Council since December 2022, the same month that I made the first report to Action fraud regarding the fraud. This means he was in this position at the time of and covering thr area where Nicola Bulley went missing. An interview with him Vincent regarding Bulley is shown below.

Nicola Bulley Interview with Michael Vincent:
https://youtube.com/watch?v=SDqhe66QTLc&si=5gF1DcpkNV5R-Uff

Alan Thomas Vincent connects Vincent Solicitors Limited to 21 companies including MJV & Co Solicitors Ltd that was incorporated in 2016 when its name was changed twice in quick succession, a possible sign of illegitimate activity. One of its names was Vincent & Vincent Solicitors Ltd from September until November 2016. August 2016is when the supposed ritual took place at CERN. Michael John Vincent is shown as having been a director until March 2016. This is the same year as the Pizzagate scandal which connects directly to the key parts of the centralised fraud and what seems to have triggered the major corruption over the last few years and the apparent sinister plans against humanity possibly involving CERN, as it becomes exposed. The investigation that triggered irrefutable evidence of the centralised criminal system significantly connected to the case of Nicola Bulley and the connections to CERN, began in Bournemouth.

A separate Companies House search shows a record for a Michael John Vincent connected to 4 companies including 2 companies with a correspondence address of Southcoast Marine of Bridge Street, Christchurch, Dorset, Bournemouth War Memorial Homes and Dorset Chamber of Commerce and Industry, which was incorporated in 1952, the year before the queens coronation, has a forged register and makes connections to key areas of the fraud.

SOUTH COAST MARINE LIMITED overview - Find and update company information - GOV.UK https://share.google/Vf8iyr2UeTdNXpZlv

Michael Gary Clarke connects South Coast Marine Limited to 12 companies including Rossiter Yachts Limited that was incorporated and at the time of the research was in liquidation. Its has a registered address of The Old Police Station. According to the overview, its name was last

changed in 1995, the same year that The Hakluyt International Advisory Board was incorporated. Its register has been forged.

Charles Rossiter connects Rossiter Yachts Limited to Yacht Broker Designers & Surveyors Association (Holdings) Limited (The) that was incorporated in 1987 and has a forged register.

Nicholas John Alexander Riley connects Yacht Broker Designers & Surveyors Association (Holdings) Limited (The) to 10 companies including Royal Lymington Yacht Club Limited that was incorporated in 2005 and has the following companies listed under directors on the incorporation document: The Institute of Packaging, The Caravan Club Ltd, Virgin Islands Search Rescue Trust (U.K.) and RYA Sailability that makes connections to the research of King Charles possible Alias name linking to the Freemasons as mentioned elsewhere.

Graham John Clarke connects Royal Lymington Yacht Club Limited to Hampshire Economic Partnership that makes quick connections to the fraud and Pfizer as shown elsewhere.

Michael Gary Clarke also connects South Coast Marine Limited to L.Jordan Limited that was incorporated in 1930 and dissolved in May 2024, as the exposure continued. The filing history shows that on 2nd January 2019 its address was changed from 443 Ashley Road, Parkstone, Poole that is a variation of the address throughout the fraud linked to the fraud and my Father-In-Law, Nicholas Moreton.

Michael Gary Clarke also connects South Coast Marine Limited to Ribs Marine Limited.

During my time at Christchurch Police, David Williams had been the Town Centre PC and I was aware he had been part of the Marine Unit of the Police previously and had close connections to the maritime corporations in Christchurch as well as appearing close to Lance Cliff, mentioned elsewhere in the document. David Williams later resigned and like many of my former friends and colleagues appears to have unfriended and blocked me, suggesting this is a much wider problem than I hoped. My Brother-In-Law also had connections here as shown elsewhere his family have close connections to the main Freemason Lodge and to Jimmy Savile.

David Martin Conway connects Royal Lymington Yacht Club to The Co-operative Bank PLC that has a forged register and links quickly to Jeffrey Epstein, CERN, the military and cell towers as shown elsewhere.

There is overwhelming evidence to show a completely centralised criminal network connected to the crimes against children, with yacht companies appearing to be an important way to launder money into a tangible asset, but also possibly abuse children away from land as suggested by the information of Alister Crowley and The Haut De La Gerrene as mentioned elsewhere.

Referring back to Michael Vincent, a separate search reveals a Michael Vincent connectes to Portugal Property Ltd that was incorporated in August 2009 and has a registered address of Bishop Fleming of 10 Temple Back, Temple Avenue, Bristol, making almost immediate connections to the research of Deborah Fleming and the address making important Temple references and used throughout the fraud. The research from here connects quickly to The London Law Agency and 1st Class Company Services making connections to key areas of the centralised fraud and Kier Starmer, Jeffrey Epstein and the research of Madeleine Mccann.

Referring back to the incinerators, Police contact from someone claiming to be Marcus Mccorkell and a forged application for a non-molestation order regarding my wife, makes connections to my wifes friend, Nathan Adams via what appears to be a statement with a forged signature. Adams is The Manager of the Incinerator at Royal Bournemouth Hospital that would have been overseen by Deborah Fleming being the NHS CEO for that area.

Research suggests SRCL is the company involved in the incinerator and it links immediately to the Government fraud via Stericycle International Limited that it is a fraudulent entity company linking back into to the infiltrated Satanic agenda via The London Law Agency Limited, again. They also appear to have forged the register and the company makes quick connections to criminal bank companies, Cable and Wireless and mobile phone companies and therefore the apparent threat from directed energy.

Prior to all of this, Nathan had told me of a story of an unaccounted for bag of human heads having been found whilst he was at work. This supports the corruption around the incinerators and the growing evidence acquired regarding illegal organ harvesting as part of this criminal network.

All of this supports a suspected expedited plan to use the incinerators to dispose of bodies as part of a possible population reduction due to their criminal system being quickly and dramatically exposed through the Companies House fraud.

This possibility of using a solar cycle as a cover for increased man made electromahgnetic radiation is supported by recent claims of a current and upcoming peak in solar activity by NASA (One letter short of SATAN) and NOAA. The Police link to the Freemasons is obviously a huge part of the criminal network and appears to have been so for a very long time.

The Metropolitan Police was founded in 1929, but the First National Police force had been established in Ireland in 1837, seven years before Companies House began. Information is suggesting Ireland may have been the hub for The Worlds Mafia and this the IRA may have been a collaborative deception as part of the Companies House fraud.

In theory this starts to facilitate the ability to defraud the masses and conceal an organised criminal network behind a uniform and utilise the legal system to silence those that risk exposing the system. The fraud incentivises crimes and for members of the Police to facilitate it as part of a problem, reaction and solution system of fraud.

Create a problem or the illusion of one, react to it and create a solution that you can exploit and defrauded the masses through it using the criminal financial system. The Companies House fraud motivates this, but we appear to be at a crossroads with technology, where it can be used for enslave further or facilitate suitable transparency, accountability and liability with any leadership.

A video recently sent to me, helps to support the connections and is in the link below.

1947 appears to have been an important year for many reasons regarding the exposure and it was the same year as the creation of The Association of Chief Constables, further allowing the ability to utilise the Police to funnel money to an agenda through Police activity. Providing the ability to deceptively control activity and investigations of potentially staged Terrorist events, silence those opposing the agenda, but also control and create a risk of conflict and divide between faith groups to fit the agenda of the Albert Pike letter. This is likely why Tactical Firearms Commanders and Chiefs of Fire organisations appear to be so involved, enabling murders to be concealed. Evidence is also suggesting that many serial killers are a deliberate part of the agenda involving the Freemasons.

Link to The Association of Chief Constables Wiki:

Every Police organisation so far investigated through Companies House appear to be part of the same fraudulent network. This includes The National Crime Agency (NCA), Action Fraud, The Association of Chief Police Officers of the United Kingdom, The Association of Police and Crime Commissioners and College of Policing.

The Israel Arab war of 1948 had been fomented by the Rothschild's and the Balfour Declaration of 1917, but I have information suggesting the real Jeruselem may be Edinburgh and that this was all part of the deception.

The NHS was also created in 1948, meaning there was the ability to defraud the masses through the healthcare system, by actually creating health problems and then a false controlled solution. I strongly suspect that Cancer was deliberately introduced, for example.

Microwave Ovens were made commercially available in 1947 and allowed harmful electromagnetic radiation to be positioned in peoples homes.

Referring back to the fire in Hampshire and Schroders Asiapacific, the next connection is very unusual and I have only seen this twice in all of the research and both times it appears to connect to what I suspect is the illegal drug trade. 'The Earl of Cromer' is shown as a director for

Schroders Asiapacific from 1995 to 2011. No name, just that, which is highly unusual. They connect to Beijing Herbal Products Limited that was incorporated in 1999 and dissolved in 2010 They also connect to Canton Herbal Products Limited that was incorporated in 1999 and dissolved in August 2012, a month after CERN supposedly discovered the God Particle. Both are criminal companies started with Swift Incorporations Limited and Jordans Limited, the same as Exbourne Manor Freehold Limited. The opium connection earlier and Canton connection now, is possibly relevant regarding evidence acquired Brian Gerrish later.

Adrian Baulf of Beijing Herbal Products Limited connects to RBS Consulting Limited appearing to make reference to Royal Bank of Scotland and that dissolved in December 2019, the same month as the supposed COVID outbreak. Another company that had been incorporated as RBS Consulting Ltd in March 2002, six months after the World Trade Centre disaster has dissolved in August 2024, as the exposure continued. Baulf also connects to Limitless Limited, making possible reference to illicit drugs.

Baulf also connects to Egypt for you Limited where he was a director from 2001 until 16th February 2022, whilst I was starting to make enquiries within Exbourne Manor and eight days before Vladamir Putin announced a special military operation against Ukraine. The company was incorporated as UK Dynamics Limited on 28th February 2001, seven months before the World Trade and changed its name on 3rd September 2009, the same month that The Royal Foundation for the Prince and Princess of Wales was incorporated. Egypt for you is a criminal organisation started with the same companies as Exbourne Manor Freehold Limited and another close reference to Egypt and the Flemings.

Research surrounding 'Earl of Cromer' suggests it is Evelyn Baring the 4th Earl of Cromer who was a member of the House of Lords at a key time in the fraud from 1991 to 1999. The role of Earl of Cromer was created in 1901 for Evelyn Baring 1st Viscount Cromer, long time British Consul-General in Egypt. He has already been created Baron Cromer of Cromer in Norfolk in 1892 and Viscount Cromer in 1899. The third Earl had been a diplomat and served as British Ambassador to the United States between 1971 and 1974, as the WEF had began. The Baring family are an Anglo-German Banking family and according to the research Baring Bank collapsed in 1995, the same year that the important Haykluyt International Advisory Board was incorporated and links very closely to Rothschilds company.

Evelyn Rothschild supposedly died in November 2022 as the fraud was being exposed. He had been involved in NM Rothschilds & Sons that was incorporated on Companies House in 1968, the year before Charles became the Prince of Wales where Companies House is based and creates the criminal companies through the forgery. NM Rothschilds has a forged register itself meaning it is a criminal fraudulent entity.

According to the research, Evelyn Rothschilds had been the Queens Financial Advisor, Chairman of the Royal Princess Trust for Carers from 1998, that is shown on page 7 of the incorporation document for Jewish Community Centre UK, mentioned previously. He was also awarded a Knight Batchelor in 1989, the same year that the World Wide Web was created for CERN. In 2000 he married Lynn Forester and in 2025, several women came forward making allegations of sexual assault against Evelyn.

What is now very important, due to other evidence regarding Frankism, is that Evelyn was the founding chairman in 1990 of The European Association for Banking and Financial History (EABH) in Frankfurt, Germany, a position he held until retiring in 2004.

EABH Ltd was incorporated in March 2012, between Jimmy Savile apparently dying and CERN discovering the God Particle. It links to the fraud immediately by SDG referring to Stanley Davis Group on its incorporation document. The only shown director Elizabeth Amanda Brankson-Hemens connects to Hill Close Management Company that was incorporated in 1998, has Dunstana Davis and Waterlows on its incorporation document, which appears to be forged. This names is used significantly to the fraud and connects to Vistra, the main company in the fraud.

Steven Robert Chapman connects Hill Close Management Company to Harpenden Colts FC making another football connection in the fraud.

Astrazeneca and Cancer Research UK

I suspect Cancer was deliberately introduced by the Satanic Cult, predominantly through the geographically controlled wireless technology.

Astrazeneca PLC is shown on the incorporation document for Cancer Research UK.
Cancer Research UK and connected to Bates Wells & Braithwaite and therefore The Royal Foundation for the Princess of Wales according to the information.

Companies on its incorporation document include Zeneca Group (Astrazeneca PLC), suggesting the COVID situation had been planned a long time ago, but the link to Cancer research suggests a plan to increase Cancer and potentially profit from it through the fraud. With all of the other evidence available, I believe this is more likely achievable through directed energy or electromagnetic radiation, that is part of the centralised fraud. This is supported by the Wellcome Trust companies, also being on the document and that are already linked to the research of CERN that connects to the cell Towers, the satanic cult connection, Police and Crime Commissioners Office and quickly to Jimmy Savile.

The document also shows Lloyds TSB Bank companies that are important as I had acquired forged Lloyds Bank documents that appear to have been produced by someone from the Treasury department of Lloyds Bank, through my enquiries at Exbourne Manor

Link to Cancer Research UK Companies House record:
https://share.google/jd53SlGuXfhzcGmwV

All evidence suggests the COVID outbreak was a staged test for their wider plans regarding directed energy and collider technology. It is possible that laced vaccines and many actors were used in this deception and I am collating evidence supporting this.

I have spoken personally to several of those supposedly fighting the COVID / Vaccines situation and they are refusing to assist in exposing the criminal vaccine companies, which would of course be critical information for anyone genuinely challenging the COVID / Vaccine situation. This includes Andrew Bridgen, John O'looney, Mark Sexton, Steve Forsyth and Dale Vincent. Some actually quickly linked to the fraud and Andrew Bridgen, to the same criminal companies that incorporated AstraZeneca UK Limited and Exbourne Manor Freehold Limited.

You will find a link to what appears to be Andrew Bridgens companies House records below and that A.B. Produce, as an example, also has Swift Incorporations Limited and Jordan & Sons Limited on its incorporation document.

Link to Andrew Bridgen Companies House search record:

I have also spoken to John O'looney personally he has confirmed that Milton Keynes Family Funeral Services Limited is his associated company. You will see that it shows Companies Made Simple on its incorporation document. When this was identified, O'looney accused me of having mental health issues or being a Satanist and blocked me. He also appears to have tried to convince me that an apocalyptic biblical event may be imminent not long after Anthony Roberts had did the same.

Link to Milton Keynes Family Funeral Services Limited Companies House record:
https://share.google/gt0zpDAK1NID89lIi

I have spoken to Steve Forsyth personally and he promotes the Donald Trump agenda and more recently claimed to have submitted evidence of the Companies House fraud through the legal system, but has refused to provide evidence confirming this, despite saying they would.

At some time or another they have all worked with former Police Officer Mark Sexton who has refused to collaborate with me on the fraud. During earlier research I received information that someone had agreed to meet a former Police Officer at a Meet in the Park event to give them a USB stick containing important information, but were never seen again. I cannot confirm who this person was.

This along with of the other evidence, supports that the COVID / vaccine deception is likely a deception to hide and bide time the true agenda involving directed energy and how that coincides with collider technology.

Two simple records prove the fraud immediately in relation to Astrazeneca and its link to Exbourne Manor Freehold Limited, a poignant example to demonstrate the seriousness of this criminal system. Simply follow the instructions below to verify the this.

You will find links to three Companies House records below:
Exbourne Manor Freehold Limited Companies House record: https://find-and-update.company-information.service.gov.uk/company/06351689
Astrazeneca UK Limited Companies House record:
https://find-and-update.company-information.service.gov.uk/company/03674842
Vistra Limited (previously Jordans Limited) record:
https://find-and-update.company-information.service.gov.uk/company/00865285

Its important to understand that this is the Governments registration system and that there are legal implications if the register or the incorporation documents have been forged.

look at the incorporation document for Exbourne Manor Freehold Limited and Astrazeneca UK Limited (found in the filing History as the oldest document) you will see Jordans Limited on both.

Now look at Vistra Limited and you will see that its pervious name on the overview (the first page and at the bottom) was Jordans Limited at the time of the incorporation of Exbourne Manor Freehold Limited and Astrazeneca UK Limited. You will see that the record claims its original name below this was Jordan & Sons Limited from 1965 to 1996.

Now look at the incorporation document within the filing history and you will see a hidden name of Hamiplag Limited that has never been registered, which means it is not searchable from the register. You will also see that the date on the document is 1965 the same as entered on the register for Jordan & Sons on the overview.

This means the register has been forged deliberately and the name Jordan & Sons Limited entered instead of Hamiplag Limited, but the date entered correctly.

This is despite them having the document, attaching it to the record and having the simple task of transferring the information from the document to the register.

The Mens Rea and Actus Reas (required to prove a crime) is therefore complete, proving Government fraud beyond reasonable doubt. This forgery puts anyone at risk in relation to that company, both financially and if applicable, physically such as with a vaccine company. They would absolutely have known what they were doing.

Pfizer

It is not just Astrazeneca, Pfizer was another company supposedly involved in vaccine production. Pfizer Limited was incorporated on Companies House in 1953, the same year as the Queens coronation and when the MK Ultra programme supposedly started. It has Linklaters & Paines on its incorporation document as does Astrazeneca PLC.

Link to Pfizer Limited Companies House Record: https://share.google/ziQSVhJUD4l1YHhRo

David Heighton was appointed as a director for Pfizer Limited in June 2022, a month before Anthony Roberts of Exbourne Manor Freehold Limited resigned and Heighton connects to Pfizer Development Services (UK) Limited and Pfizer Consumer Healthcare that was incorporated in

1913 as International Chemical Company Limited and last changed its name in May 2019, two months before Jeffrey Epstein was arrested and a protest in Wuhan, three months before cell towers were erected in Wuhan and seven months before the supposed outbreak. It has not changed its name since and its register has been forged with its attached incorporation document displaying International Chemical Laboratories Limited.

Matthew Sumner of Pfizer Limited connects to Pfizer UK Leasing UK Limited that was incorporated in January 2001, six months before Larry Silverstein acquired the lease for the World Trade Centre. It is a criminal company incorporated with the same companies as Exbourne Manor Freehold Limited.

Timothy Bentley of Pfizer Limited connects to Locate in Kent Limited, incorporated in 1996 and being a criminal company started with the same companies as Exbourne Manor Freehold Limited and making another connection to kent.

David Brooks-Wilson of Locate in kent Limited connects to Kent Invicta Chamber of Commerce and Industry and Enterprise Limited, incorporated in 1993 and being criminal company incorporated with the same companies as Exbourne Manor Freehold Limited.

Brookes-Wilson also connects to Shepway Chamber of Trade Limited, where my mothers childhood friend and family live, Eurotunnel Developments Limited and Eurotunnel Services Limited that was incorporated in 1987 and is a criminal company with Mavis June Latter and Jordan & Sons Limited on its incorporation document. Mavis June Latter makes connections to Harrods and I am aware that my childhood friend had some kind of involvement surrounding Eurotunnel. This appears to have been an opportunity, along with the High Speed Railway project to funnel money into any satanic agenda.

Jeffrey Alexander of Locate in Kent is connected to company 15Billion that has featured previously in my research.

Jeffrey Alexander of Locate in Kent connects to The Southern and South East Tourist Board and Farnborough Aerospace Consortium Limited, criminal company with Jordans Limited on its incorporation document and that I think and will confirm makes almost immediate connections to my Brother-In-Laws family's company.

Alexander also makes connections to Hampshire Economic Partnership that had an address of Pricewaters of Richmond Hill, Bournemouth. Pricewaters refers to Pricewaterhousecoopers that connects to the research of Bournemouth MP Connor Burns and to the research of the World Trade Centre disaster as does the address of Richmond Hill.

Michael Dorgan of Hampshire Economic Partnership makes connections to Hampshire and Isle of Wight Sustainable Business Partnership CIC that was incorporated in 2010, the same year as CERN Limited and dissolved in September 2012, under three months after CERN supposedly discovered the Higgs Boson or God Particle. It has Waterlow Legal & Company Services on its incorporation document.

Lucy Letby, Moderna, Octagon and The Rothschilds

Moderna was also a company involved with vaccine production and relates to former UK Prime Minister Rishi Sunak as previously shown, but it also appears to be important in relation to the case of Lucy Letby.

Lucy Letby has been convicted of the deaths of several babies at Countess of Chester Hospital. Two of the main doctors appearing to be involved in initiating the investigation against Letby appear to be Dewi Evans and Sandie Bohin. People involved in assisting with the enquiries and having worked with Letby contacted me, protesting her innocence, which prompted me to conduct research on Companies House.

According to Lnkedin, Bohin had connections to Dewi Evans as a contact, University Leicester Hospital where she had been the head of Neonatology. Leicester is where the parents of Madeleine Mccann live and the case of Madeleine is also very important to the fraud. Bohin had completed a Science Degree at Southampton University, where Deborah Fleming was the CEO and is also connected to The Royal College of Paediatricians.

A search of Sandie Bohin followed by the words Companies House on Google, revealed Bohin Participations Ltd with and address of 54 Portland Place, London, that was incorporated on Companies House in 2002 and dissolved in December 2019, the same month as the supposed COVID outbreak in Wuhan. This is a criminal company started with Swift Incorporations Limited and Jordans Limited, the same as Exbourne Manor Freehold Limited. The significant company of control is shown as being Summit Trust International with an address in Geneva, Switzerland from 2016.

Link to Bohin Participations Ltd Companies House record:
https://share.google/0ErgAAyfKurK3eX78

A separate search of Summit Trust International on Companies House shows that Summit Trust International SA of the same address was incorporated on 30th November 2022, as I was exposing the fraud. Companies House appears to be hiding the companys directors from the register and the Charges section is missing.

Summit Trust Holdings Limited had been incorporated on 17th October 2011, within two weeks of Jimmy Savile supposedly dying and has the same address as the Bohin company of 54 Portland Place, London. Its original name was Sanlam Summit Limited until 30th October 2017, under five months after the Grenfell Tower as Gordon Bowden is starting to expose the fraud I believe.

Stuart Geard of Summit Trust Holdings connects to Falcon Financial Advice of Summit House, Queen Victoria Street, London. Falcon companies feature in the research around my wifes Father and Trevor Mealham, that makes almost immediate connections through Elizabeth Watson to Adrenochrome, Julian Assange, The Hampstead Child abuse enquiry and Exbourne Manor.

Referring back to Bohin Participations Limited, Broughton Secretaries was shown in the people record and Broughton Secretaries were appointed to Moderna Biotech Finance Ltd 5th May 2023, connecting to vaccines.

Moderna Biotech Ltd had been incorporated on 5th May 2023 and at the time of my research had applied to strike the company from the register. The filing history shows that this application was made on 6th of August 2024, not long after the evidence was being acquired regarding adrenochrome and a messaging conversation with Watson trying to convince me stop pursuing evidence of adrenochrome. Moderna Biotech UK Limited is shown on the incorporation document of Moderna Biotech Finance Ltd.

Moderna Biotech UK Limited, with an address of 54 Portland Place, London the same as Bohin Participations, had been incorporated on 10th May 2019, two months before Jeffrey Epsteins supposed arrest and a protest in Wuhan, three months before cell towers were erected in Wuhan and seven months before the supposed outbreak.
This supports that the ‘outbreak’ was planned. Its original name was Modernatx, Ltd. Until 17th June 2020, a key time in the COVID situation. It has Modernatx Inc of an address of 200 Technology Square, Cambridge in the United States on its incorporation document.

Lori Henderson of Moderna Biotech UK Limited connects to Curia Holdings Limited with a correspondence address the USA, but a registered address of First Floor Temple Back, 10 Temple Back, Bristol and address that features throughout the fraud. Notice the word Temple in the addresses and the Satanic Temple United Kingdom that appears to be so important. Curia Holdings Limited was incorporated in 2004 as Ian 'Shott' Enterprises Limited and has Waterlow & Company Services of an address of 6-8 Underwood Street, London on its incorporation document,

Research suggests Curia was formally called AMRI or Albany Molecular Research Inc and in early 2001 started business changes and adding identification technology to its products.

Link to Curia Wiki: https://share.google/uKcIQth2gM06pEBtr

Another search for Bohin on companies reveals Bohin Property Portfolio Ltd of an address in Bristol, England and that was incorporated in 2021 and dissolved in 2023. John Bohin of this company connects to seven companies including Swordfish Stakes Limited with Form 10 on its incorporation document and Swordfish Advertising Limited. According to the register this company was incorporated in March 2002, has an address of Royal London Buildings in Bristol and its nature of business is Video production.

Link to Bohin Property Portfolio Companies House record:

David Brown of Swordfish Advertising Limited connects to IX Marketing Limited, being a director from before 1991 and resigning in December 2001. The company was incorporated in 1986 as Swift 1861 Limited until 1985, making a possible reference to the criminal system being used in the laundering called Swift and Swift Incorporations Limited that incorporated Exbourne Manor Freehold Limited was incorporated in 1985. One of IX Marketings previous names was Mccann Erickson Bristol Limited which makes quick connections to the research of the case of Madeleine Mccann and a Mccann Ericsson company, with a slightly different spelling, is on the incorporation document for the Jewish Community Centre UK mentioned throughout this document. IX Marketing is a criminal company with Jordans Limited on its incorporation document.

Louise Bean of IX Marketing is the same name used in the research of Madeleine Mccann that links to Mccan Erickson UK Group Limited and quickly to Madeleine Fund: Leaving no Stone Unturned that connects immediately to Bates Wells & Brathwaite and therefore, Kier Starmer via The Death Penalty Project Limited, The Royal Foundation for the Prince and Princess of Wales and the supposed investigation into Sean Coombs Aka P Diddy. Louise Bean from this particular record connects to IX Marketing Limited.

Andrew Jones of IX Marketing Limited connects to Mccann Erickson Network Limited and Jan Cottrill of that company connects to Mccann Manchester Limited.

Mccann Manchester Limited was incorporated in 1986 and changed its name at one point in 1989, the same year that the World Wide Web was created for CERN. Manchester has the important connections identified to the entertainment Industry and the research surrounding and leading up to Nicola Schindler as mentioned later and also the Manchester area bombing covered later. Manchester also becomes relevant to the research regarding apparent Satanic Ritual Abuse survivor Jeanette Archer.

Simon Buchanan of Mccann Manchester Limited connects to Interpublic Pension Fund Trustee Company Limited of an address in City Road, London and that was incorporated with Slaughter & May and appears to have a forged incorporation document. Simon Toppings of this company connects to Octagon Worldwide Limited with an address of 135 Bishopsgate and that was incorporated on 6th April 1992 with the name Hexagon 153 Limited at a key time as the Companies House register was becoming Electronic.

I had already received information that The Octagon Group were a possible German Nazi and Egyptian linked group that had formed in Switzerland and control the world. Research showed a previous address for Octagon at Le Grande-Sacconex in Switzerland.

Hexagon Registrars Limited is shown as being a Secretary for Octagon Worldwide Limited from when the company started and for just over three months. Hexagon Registrars Limited was incorporated on the same day as Octagon Worldwide Limited and Aiden Clark of the company connects to Canada-United Kingdom Chamber of Commerce. This company was incorporated in 1927 and has a forged register with the incorporation document displaying The Canadian Chamber of Commerce in Great Britain Incorporated.

Nigel David Bacon of the Canada-United Kingdom Chamber of Commerce connects to Council of Foreign Chamber of Commerce UK Limited and England Squash Foundation and squash actually connects a lot of areas of the fraud including Peter Lawson of the Nicola Bulley case. Bacon also connects to Canada-United Kingdom Council. This is important as has already featured twice in this document, quickly from the research of Rishi Sunak and around the Rothschild's connections a Hebrew company and the Doomsday clock. From here there are connections to all areas of the fraud.

This now supports a Satanic Freemason linked doomsday cult involving The Flemings and Rothschilds possibly having a base in Switzerland under the Octagon regime.

Dewi Evans, the other doctor in the Lucy Letby case is shown as a former director for TY Hafan incorporated in 1995, the same year as the Hakluyt International Advisory Board and has an address in Wales. David Jenkins of this company connects to Channel Television Limited on 1st September 2000, just over a year before The World Trade Centre disaster and has an address in Jersey a UK Island Tax haven and where the mass murder of children appears to have occurred at Haut De La Gerenne. It has several companies on page seven of its incorporation document including MDL Management PLC, Cambridge Newspapers Limited and Marina Developments Limited. MDL Marinas Group Ltd had already featured in the research of the World Trade Centre disaster and linking closely to Deborah Fleming.

Jenkins also connects to Kew Media Group UK Holdings Limited, incorporated in 1993 and dissolved in 2023 as the exposure continued. This has Pinsent & Co on its incorporation document.

Referring back to Channel Television, Helen Tautz connects to Granada Limited that was incorporated as Office next Limited in 2000 and at one point changed its name in February 2001, five months before Larry Silverstein acquired the lease for the World Trade Centre, to Granada PLC. It is a criminal company incorporated with the same two companies as Exbourne Manor Freehold Limited.

Tautz also connects to Cookie Jar Limited, incorporated as Trust Houses Forte Travel in 1904, a year after IDF Group mentioned later in the research of the Israel attack. Its register has been forged with the incorporation document displaying Reeves Limited and Waterlow & Sons.

Tautz also connects to Castlefield Properties Limited, incorporated in 1988 and a criminal company having been incorporated with Swift incorporations Limited and Jordan & Sons Limited, the same as Exbourne Manor Freehold Limited.

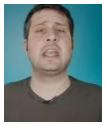
Tautz also connects to London Weekend Television Limited, incorporated in 1967, the year after the foundation of The Church of Satan and it has a forged register and Linklaters & Paines on its incorporation document.

Tautz also connects to Excelsior Hotels Limited that was incorporated in 1936 and dissolved in March 2022, during the early stages of my enquiries. It is fraudulent entity with its register having been forged.

The P Diddy investigation was launched in 2023 as the exposure continued. I suspect this was also being used to alter, conceal or destroy evidence in relation to high profile International

Government members and members of 'Royalty'. Information suggests P Diddy used Bates Wells & Braithwaite for his defence.

Bates Wells & Braithwaite is an important company showing on the incorporation document for the Royal Foundation for the Prince and Prince of Wales, linking areas of the fraud and the incorporation documents of The Death Penalty Project Limited where Kia Starmer had been a director and Madeleines' Fund: Leaving No Stone Unturned Limited, both significant to the fraud.



Anthony Roberts of Exbourne Manor Freehold Limited was later established to have been colluding with Reynard Wilson, who had an alias name of Collin Sudeman that was linked to the military, the COVID Vaccines, the Adrenochrome, the blood taken from tortured children research via CYM Limited and to cell Tower technology via an Ericsson Company. The Ericsson connection is important with its connections to cell towers and my former colleagues in Dorset Police as shown elsewhere in the document.

I eventually acquired evidence that all Government organisations were involved and were linked to a potentially infiltrated Satanic, Freemason, doomsday cult involving the Fleming and Rothschild's families, The Church of England, The Vatican, The Royal Family and leaders of International Governments.

It appears they have used various coercive psychological control methods to reach this point, initially enticing people in through false charitable work and underhand financial incentives to acquiring evidence of sexual immorality leading to child sex crimes and the use of pharmaceuticals, illegal drugs, addictions and sinister technology.

The Flemings are significantly involved in World Affairs including banking by Robert Fleming, the energy Industry by their connections to J P Morgan and the Isle of Wight where the first telecommunication mast was erected, pharmaceuticals via Alexander Fleming, the military and intelligence agencies by Ian Fleming, the police and health service, politics, Hollywood via James Bond and much more.

The World Trade Centre Disaster

The World Trade Centre disaster is without doubt connected to the Companies House Fraud. Research shows that the building was conceived in 1966, the same year as the foundation of The Church of Satan, its construction was not complete until 1973, two years after the start of the World Economic Forum and the same year that the SWIFT International transaction system used for the offshore transactions in the fraud.

On 23rd July 2001 Robert Fleming Co.Limited that had been incorporated in 1932 changed its name for the first time to CA Premier Banking. CA stands for Cater Allen and is the private offshore banking element of Abbey National, now Santander. The very next day Larry Silverstein acquired the lease for The World Trade Centre, the first time it had ever changed hands. The disaster happened on 11th September 2001.

Larry Silverstein ended up receiving a 'Liberty' fund grant from the US Government after the disaster.

Controversy later emerged in 2014 that the National Council for Civil Liberties, part of the Liberty Group and with UK MP's Harriett Harman and Patricia Hewett heavily involved, had been affiliated to the Paedophile Information Exchange in the 1970's.

During one of my earlier emails to around six hundred and fifty Members of Parliament, I received just one response and it was from Harriet Harman stating that she could not help as I was not a constituent of hers. My wifes Auntie Lin Proctor had also claimed to know Harman and offered to send my report via her to Harman. I have since found that Lin is also linked to the fraud and educational establishments.

The National Council for Civil Liberties was incorporated on Companies House in 1996, five years before The World Trade Centre Disaster. Its incorporation document shows addresses featured throughout the fraud. Qudzia Murza, supposedly born in 1965, was one of the companys directors and has the same surname of the wife of the Special Advisor of the last few Prime Ministers, Douglas Smith.

Qudzia Mirza of The National Council for Civil Liberties, she connects to Joint Council for the Welfare of Immigrants that appears to have a forged incorporation document. Robert William Philips of this company connects to Immigration Advisory Service, where they were shown as a director for under four months.

Stephen Thomas Lloyd of The National Council for Civil Liberties features throughout the fraud and has duplicate records. This particular record for him links to Kids in the Middle Community Interest Company and Blue Square Change Management LLP, a company that dissolved in May 2012, the month after the apparent meeting with Jeffrey Epstein, Stephen Hawking and CERN Scientists. Importantly its previous names relate to Bates Wells and Braithwaite.

Philip Kirkpatrick connects Square Change Management LLP quickly to The Madeleine Mccann company and to criminal The Death Penalty Project Limited where Kia Starmer was a director, via BWB (No.2) Limited.

Lloyd also connects The National Council for Civil Liberties to Effective Prevention for Children and Familes, a criminal organisation incorporated in May 2012, with its name having been changed in December 2022 as I started report the fraud to the authorities. It diissolved in October 2023 as I continued the exposure.

Lloyd is also shown as having been a director for Sea View Yacht Club that was incorporated in May 2022, two months before Anthony Roberts of Exbourne Manor resigned. Stephen Lloyd is possibly the MP shown in the link below. It had an address on the Isle of Wight, where Deborah Fleming had been the NHS CEO and It is a criminal company with Michael John Hope of The London Law Agency on its incorporation document, a name used throughout the fraud.

Link to Stephen Lloyd MP Wiki: https://share.google/AFm6rs1P5WKS7PVUq

William Oliver Alexander Coales connects The National Council for Civil Liberties to the very important CAPB Limited and its link to the Flemings as mentioned previously.

Michael Ellman connects The National Council for Civil Liberties to Jews for Justice Against Palestine that was incorporated on 11th July 2012, seven days after CERN discovered the God particle. It connects immediately to the fraud with Companies Made Simple on its incorporation document which is important throughout the research for the reasons explained below.

Companiesmadesimple Ltd was incorporated in 2004 and has Westco Nominees Ltd on its incorporation document.

Westco Nominees Limited was incorporated in 1994, the year before The Intelligence Agency and Russian linked Hakluyt International Advisory Board. The Government have committed serious fraud by removing the company name from the signed section of the companies incorporation document. This is likely to have been done as the fraud started to be exposed and to try removing a legal connection to the collaborative attack against The World Trade Centre and the apparent plans with the colliders and a falsified prophetic agenda.

‘Silverstein’ Real Estate Ltd was incorporated in March 2011, the month after The Christchurch Earthquake, which now appears relevant. It also has Companies Made Simple on Its incorporation document and the company likely relates to Larry Silverstein.

Suhan Rajkumar of The National Council for Civil Liberties connects to Baites Wells & Braithwaite London LLP where they were appointed in April 2025. The company was incorporated in 2007 and has an address of 10 Queen Street Place that features throughout the fraud.

Karen Chouhan of The National Council for Civil Liberties connects to The 1990 Trust that was incorporated in 1992, when the Companies House register started to become electronic. It dissolved on 17th July 2012, thirteen days after CERN supposedly discovered the God particle, suggesting something was being planned with CERN, but hadn’t worked. Fiona Elizabeth Middleton and Bates Wells & Braithwaite is on the incorporation document.

Simon Sappen of The National Council for Civil Liberties connects to Independent Press Standards Organisation C.I.C, which is mentioned later and makes connections to the fraud, the Intelligence Agencies and The Russian Government.

Leslie Thomas of The National Council for Civil Liberties links to a Close Film Sales and Leaseback company and Ingenious Film Partners 2 LLP, a company that links all areas of the fraud to Hollywood and is shown on page 40 of the incorporation document for The Royal Foundation for the Prince and Princess of Wales.

There are various links to Football and Rugby companies and various Israel associated companies with links to Companies Made Simple from other directors of The National Council for Civil Liberties.

Joseph Tanya of The National Council for Civil Liberties connects to The Cherrie Blair Foundation for Women that was incorporated in April 2007, the month before Madeleine Mccann went missing. It has Farrer & Co on its incorporation document making an immediate

connection to Ghislaine Maxwells companies and to the Royal family via the research of Michelle Mone. The name Robert George Clinton is shown on the incorporation document.

Robert George Clinton connects the company to Eclipse Nominees that has been seen throughout the fraud and to The Tony Blair Faith Foundation.

Donald Angus Cameron and Samuel Macdonald born in 1971 are also shown on Eclipse Nominees people record and Macdonald connects to Sherborne School in Dorset where he was appointed in 2002, the year after the world Trade Centre disaster and resigned in September 2012, two months after CERN supposedly discovered the God Particle.

Sherborne is very important for its connections to the leader of Qatar, Tamim Bin Hammed Al Thani, King Charles and to my wifes former employer as shown elsewhere in the document.

I suspect these names refer to Bill Clinton, David Cameron and possibly members of the McDonalds restaurant family.

Henry Boyd Carpenter connects Eclipse Nominees to Weymouth Avenue (Dorchester) Limited, making connections to Dorset again and its directors connect to Tesco, which is mentioned in the evidence regarding the attacks in Israel in 2023 as shown elsewhere in the document.

Link to Eclipse Nominees Companies House record: https://share.google/Tt3sP5N8fQ7xM4Eia

The Civil Liberties Trust was incorporated in 1993 and connects to The National Council for Civil Liberties via several of its directors including Letitia Andrew Arthur, remembering there is deliberately no verification. The record shows that on 8th June 2017, the company had declared that there was no person of significant control. This was a month after Fleming Co Limited was incorporated, that connects several World leaders to the fraud, and six days beforw the Grenfell Tower disaster, which is now relevant to the fraud.

Margret Ruth Breddal connects The Civil Liberties Trust to various Amnesty International Companies including Amnesty International United Kingdom Section that was incorporated as Amnesty International (British Section) Limited in 1983 and according to the overview its name was changed in 1995, the same year as the incorporation of the Intelligence agency and Russian Government linked, Hakluyt International Advisory Board. Martin James Wright is on its incorporation document, which is exactly the same name linked to Ricky Dearman and the Hampstead Child abuse enquiry mentioned elsewhere in the document.

Various articles suggests Amnesty International was questioned over possible child slavery and trafficking in 2007, 2016 and 2023. According to one article they had called for legal prostitution in 2014.

Breddal also connects The Civil Liberties Trust to Social Care Institute For Excellence that was incorporated on 19th September 2001, eight days after the World Trade Centre disaster.

According to the register Nazmin Chouhury of the Civil Liberties Trust connects to The Halal Connoisseur Ltd.

Aiden Geary of The Civil Liberties Trust connects to Dumbworld Ltd, one of many names that appear to make a mockery of humanity throughout the fraud, including Slaves Ltd.

Christopher Haskins connects The Civil Liberties Trust to European Movement of the United Kingdom Ltd that was incorporated on 8th July 1955 as European Movement (British Council) Ltd, nine days after the relevant Disney Land Park opened in America. Its name was changed on 13th October 1997, two weeks after Princess Dianas death. This is almost identical to the dates of the name changes for Turcan Connell Trustees company that links to Owen Film Partnership LLP, Betts companies and quickly to the Satanic Temple United Kingdom company, as shown elsewhere in the document. European Movement of the United Kingdom Ltd has a forged register with its incorporation document saying United Kingdom Council of the European Movement.

Haskins also links to Political Quarterly Publishing Company Limited (The) that is criminal and has featured several times throughout the fraud. Haskins also connects to Arla Foods UK PLC, Arla UK Limited and Canary Wharf Investments (Three). Arla links to what appears to be a deliberate attempt to poison the masses and Canary Wharf connects to the Leader of Qatar, Tamim Bin Hammed Al Thani and Sherborne as mentioned later.

Malcolm Herwitt of The Civil Liberties Trust connects to Dignity and Choice in Dying that was incorporated with Bates Wells & Braithwaite in May 2002, eight months after the World Trade Centre disaster. Its name was changed in August 2006 to Dignity in Dying UK and this makes the connection to a new Bill being passed through Parliament where it appears they may be planning mass suffering to then take lives with consent.

The Assisted Dying Bill

The application for the Terminally Ill Adults (End of Life Bill) started in 2024, as the exposure of the fraud continued. Kim Leadbeater is leading the Bill application which also involves The Voluntary Euthanasia Society, formerly Dignity in Dying.

Link to the Assisted Dying Bill on the Government website:

The directors of Mccormicks Solicitors Limited connect to Football and Rugby comoanies, Ingenious Film Partners and the Summit Foundation making important connections to The Royal Foundation of the Prince and Princess of Wales and The Lucy Letby research. Religious organisations are quickly connected.

The evidence suggests they are planning on torturing the masses to the point that they want to die and can take their lives with consent or forging that consent, to fit falsified prophecies, as their criminal system is exposed.

The Abortion Bill

On a similar subject, the original Abortion Bill was introduced in 1967, a year after the foundation of the Church of Satan. An update to the Abortion Bill is currently being passed and will effectively decriminalise people who terminate their own babies outside of legal remits.

MP Antonia Antoniazzi introduced the amendment, was supposedly born in 1971 (Same year as WEF) like many key individuals in this agenda, has links to Italy and therefore possibly the Vatican. She also raised concerns regarding 5G technology (cell towers). I suspect, like several people mentioned in this document, Antoniazzi has been positioned to impart some truths about the agenda that she is part of.
Companies House shows that she links to the same companies as Exbourne Manor via Scarlets Regional Limited with previous name of Llaneli Rugby Football Club until September 2011, a month before Jimmy Savile died. Another Rugby link, like Leadbeater.

Tracey Fletcher links The Fawcett Society to the National Council of Young Men's Christian Associations(Incorporated)(The), a fraudulent entity incorporated in 1902.

Harman is still an MP in March 2025 articles emerge of Harman having been appointed as Special Envoy for Women and Girls.

Harmans husband was Jack Eugene Joseph Dromey that apparently passed away in January 2022. Companies House shows that he was a director for Rookey House Restoration (Erdington) Ltd with an address of 'Elite House' on its incorporation document. Alan Frazer of this company connects to fraudulent entity company, Heart of England, Young Men's Christian Association that was incorporated in 1920, changed its name in March 2001 and a key time during the COVID situation in June 2020 when it had been named Birmingham YMCA. It has Jordan & Sons on its incorporation document and many YMCA companies feature throughout the fraud research.

Every tenant of the World Trade Centre at the time of the disaster links quickly to the same companies in the fraud as do the two airline companies supposedly involved, United Airlines and American Arlin's both link to the fraud.

United Airlines Inc is particularly significant and was incorporated in 1985. Harold Swanson Hook links the company immediately to JP Morgan Chase Bank, National Association and Timothy Flynn of that company to J.P. Morgan Securities PLC that was incorporated in 1992, the year that the Companies House register started to become electronic. This company was incorporated by Slaughter & May and last changed is name on 6th July 2012, two days after CERN supposedly discovered the God Particle.

From World Trade Centre to The Flemings and Black Rock

J.P. Morgan Securities PLC has J.P. Morgan Secretaries (UK) Limited and this links to many Fleming Companies on it incorporation document. It last changed its name in November 2001, two months after the World Trade Centre disaster. This research eventually leads to RF Trustee Co. Limited that was incorporated in 1923 as Southern Investment Trust Limited until 1979 when Its name was changed to Robert Fleming Trustee Co. Limited. This is the same year that the Georgia Guide stones were being prepared and represented an upcoming 'man made' apocalyptic event. Adam Fleming of this company connects to Blackrock World Mining Trust

PLC that was originally incorporated as Mercury World Mining Trust before changing its name to Merril Lynch World Mining Trust.

Blackrock World Mining Investment Company is a criminal company incorporated with the Jordan & Sons Limited in 1993. Blackrock Limited is a criminal company incorporated with The London Law Agency in 2006.

Blackrock Group Limited was incorporated with Slaughter & May in 1969, the same year that Charles became the Prince of Wales. Dipa Raivadera connects this coompany to many fraudulent oil and gas companies. This includes Shell Chemicals (Hellas) limited originally incorporated in 1927 and dissolved in 2023 as the exposure continued, Libya Oil Sudan Limited incorporated as Shell Company of the Sudan, Limited (The) in 1924, Shell Tankers (U.K) Limited incorporated in 1912, Shell Company of Turkiye Limited incorporated as Shell Company of Turkey Limited (The) in 1923, before changing its name for the first time in 2023, as the exposure continued.

World Trade Centre (Glasgow) Limited was incorporated in 1996, five years before the World Trade Centre disaster and dissolved in March 2024. It has an address in Wales and Kenneth Chapple connects the company to a YMCA company and to World Trade Centre (Holdings) Limited. This company was incorporated in 1988, the year before The World Web was created and dissolved in July 2016, the same year as the apparent Satanic ritual at CERN. The company appears to be a criminal organisation with Jordan & Sons Limited and Swift Incorporations Limited on its Memorandum and Articles of Association. Its incorporation document appears to be hidden. Lord Ivor Richard connects the company to The Leasehold Advisory Service.

Bank of Wales was incorporated in 1971, the same year as the WEF and is a fraudulent entity company. Bank of Wales connects to Lloyds Secretaries Limited and via Timothy Blackwell to Hampshire Bank Limited and Hampshire Trust Bank Limited, where he had been appointed at relevant times in 2017 and resigned from both in May 2024.

Hampshire Trust Bank PLC is a criminal company with both Jordan & Sons Limited and The London Law Agency on its incorporation document, which I think is the first time I had seen these companies together.

Noreen Bray became a director for Bank of Wales in 1999 and resigned on 21st September 2001, ten days after The World Trade Centre disaster. They connect to Cardiff Chamber of Commerce and Industry, a criminal organisation that was incorporated in 1880.

Stuart Williams of World Trade Centre (Holdings) Limited connects to Dawnriver Property Management Limited with an address of Azets in Chandlers Ford, Hampshire. This is criminal organisation with Jordan & Sons Limited and the name of Mavis June Latter that connects to Harrods and Exbourne Manor Freehold Limited, on its incorporation document.

Ronald Slater of the Dawnriver company connects to Swansea Masonic Hall Company Limited, a criminal company incorporated in 1923 with Jordans Limited on its incoporation document.

Philip Ronald Crayford of this company links to Swansea and Brecon Diocesan Board for Social Responsibility and The Venerable Robert Williams of this company to Swansea and Brecon Diocesan Board of Finance (The). This was incorporated in 1967, the year after the foundation of The Church of Satan, has a forged register and Jordan & Sons Limited on its incorporation document. The same director links to Widows,Orphans and Dependants Society of The Church in.Wales(The), a deliberately fraudulently registered company incorporated in 1931.

Raymond Winchester of the Swansea company connects to Boys Brigade (The) resigining in 2023, having been a director since December 2010, a month after CERN Limited was incorporated. Research connects the Boys Brigade to the Duke of Edinburgh, where the Worlds oldest active Freemason Lodge is based. This information was first acquired during the research of Max Clifford that connects with Jeffrey Epstsein.

World Trade Centre (Milon Keynes) Limited was incorporated in 1987 as Thinkpact Limited and quickly changed its name to World Trade Centre (Southampton) Limited, where Deborah Fleming was the NHS CEO. It changed is name again in 1998, three years before The World Trade Centre disaster. It is a criminal company incorporated with Swift Incorporations Limited and Jordan & Sons Limited and dissolved in November 2019 a month before the supposed COVID outbreak in Wuhan. I have been informed that Milton Keynes has significant symbolic references to the Freemasons.

Target World Business Ltd was incorporated in August 2009, the month before The Royal Foundation for the Prince and Princess of Wales was incorporated and connects to all areas of the fraud and it dissolved in October 2012, three months after CERN supposedly discovered the God Particle. Vygandas Klunka of this company connects to Crown Security Intelligence Investigation (C.S.I.I.) Ltd that was incorporated in 2013 and has Companies Made Simple, leading to a removed company name as previously mentioned, on its incorporation document.

The same director links to Crown Intelligence Network Ltd, incorporated in September 2011, the month after Jimmy Savile supposedly died and also has Companies Made Simple on its incorporation document.

On searching previously mentioned Roberta Casappa separately by the name followed by 'Companies House' in Google, Roberta Limited with an address in Fareham, Hampshire was revealed. Roberta Limited was incorporated in February 1991, the same month that The Gulf War ended and dissolved in July 2024 as I was making connections to the fraud and Adrenochrome. The Company is a criminal company started with Swift incorporations Limited and Jordan & Sons Limited, the same companies as Exbourne Manor Freehold Limited. Keith Thomas Williamson of this company connects to Bournemouth Town Centre Bid, a company with a registered address right near Exbourne Manor and that was incorporated in June 2012, a month before CERN discovered the God Particle. The address on this companies incorporation document is Management Office, The Avenue, Bournemouth. I was shocked when I first saw this, as it where a security Office for a small shopping mall in the area where I worked as part of the Safe Neighbourhood Team in Bournemouth, is located. There is also an address at Richmond Hill, Bournemouth, a road that is mentioned at key points in the fraud.

Martin Edward Davies of Bournemouth Town Centre Bid, where he was appointed as a director in April 2017, connects to Bournemouth Retailers Reducing Crime that was incorporated in January 2002, four months after the World Trade Centre disaster. John Mark James of this company connects to JPM Nominees Limited with a correspondence address of 24 Beechwood Avenue, Boscombe Manor, Bournemouth, but with a registered address of 25 Bank Street, Canary Wharf making links to the leader of Qatar, Tamim Bin Hammed Al Thani, as mentioned later. The company links significantly to JP Morgan companies via Michelle Catherine Young and Jane Elizabeth Lawson, with the same surname as the lead investigator for the case of Nicola Bulley, as mentioned later.

Glen Nicie of Bournemouth Retail Against Crime connects to various Playhouse companies that appear to relate to the sex trade. One of these is Playhouse Clubs Limited that was incorporated in April 2011 as FYEO Limited from April to December 2011 and changed its name again in December 2012 after the supposed God Particle was discovered by CERN. 'The Armoury' Unit, Fort Wallington, Military Road, Fareham, Hampshire is on its incorporation document. I am aware that FYEO, refers to For Your Eyes Only and there is one in Bournemouth where some of my colleagues and I went before I was introduced to My Wife.

Research of Playhouse, suggests it could relate to Playhouse Theatre in The West End of London and that it is had been refurnished and was showing Kit Kat Club. Kit Kat Club had already featured in the research surrounding Ghislaine Maxwell.

Playhouse Theatre - Wikipedia https://share.google/wxkWQtjDXQwXPVwVp

David Squire of the Bournemouth company linked to Yellow Buses Holdings Limited that was incorporated in May 2019, two months before Jeffrey Epstein was arrested and dissolved in 2023, as the exposure continued. Anthony Roberts of Exbourne Manor Freehold Limited used to work for Yellow Buses, according to his Facebook Page.

Squire also links to Vintage Yellow Buses Limited that had been incorporated as the Companies House register was being made electronic and dissolved in November 2022, as I was making enquiries within Exbourne Manor Freehold Limited. Squire also connected to Bournemouth Transport Limited that had been incorporated in 1986 and has Bournemouth Borough Council and has Jordan & Sons on its incorporation document meaning it is a criminal company.

Martin Davies of the Bournemouth company makes connections to Rawlins Davey Reed Limited of 35 Richmond Hill, used at various time in the fraud, incorporated in 2008 and Its name was changed twice in 2022 as I conducted enquiries. Helen Jenson of this company links to Jacobs and Reeves LLP, incorporated in 2012 and that dissolved in 2023. Mike Kitely of this company connects to Bournemouth and District Law Society of an address of the Borough Chambers, Fir Vale Road, originally incorporated as Bournemouth 'And' District Incorporated Law Society in 1893, before changing its name in 1989, the same year that the World Wide Web was created for CERN. It has a discreet forged register where the '&' on the incorporation document has been changed to 'and' on the register.

Kitley also connects to Poole Bid Ltd, resigning on 31st July 2012, less than a month after CERN discovered the God Particle. Kitley also connects to Kitleys Solicitors that was incorporated with Waterlows and Ian Saunders, a name that features throughout the fraud and like many of

Waterlows associated companies, the incorporation document appears to be forged. Various criminal 'Pizza' companies can then found throughout the research.

Mark Powle of the Bournemouth Company connects to Seascape Group Limited that is connected to the Bournemouth and Christchurch Poole Council (BDP). Separate specific research has been conducted on BCP and all research including every Councillor researched links quickly back to the fraud. It is likely to be the same for all Councils.

So it is very evident that the World Trade Centre disaster was a huge part of the Companies House fraud.

The Iranian Conflict Deception

As most will have seen, those controlling this criminal system are currently wanting the masses to believe that there is risk of a nuclear escalation between Israel and Iran. I suspect this is to fit falsified biblical prophecies as they become desperate in relation to the exposure of their criminal system and the sinister real plans behind it.

Link to article on Iran escalation: https://www.bbc.co.uk/news/live/c994v4gm9jmt

Significant evidence now suggests that the decades long perceived threat of nuclear war was always collaborative deception to hide a larger infiltrated Satanic agenda possibly involving the cell towers and collider technology.

This is without doubt an International collaborative deception against the masses. With the vast level of deception it has to be considered that a lot of what is being seen in the Middle East is falsified using Artificial Intelligence (AI), special effects and actors. Some of it being shown by the mainstream media is obviously AI. The criminal system has been completely centralised and this includes all main stream and social media Companies being involved to conceal the truth.

Evidence appears to link Trump, Netanyahu and Irans supreme Leader, Khamenei, almost immediately to the Companies House fraud and to the same company of Fleming Co Limited that was incorporated on 5th May 2017. This is via Theformationcompany.com that was incorporated in 2009 and connects to Legalzoom, the fraud and Hollywood via James Cameron and Ingenious Film Partners, mentioned later. The Formationscompany.com is proposing to strike and Fleming Co Limited is now in liquidation as the exposure continues.

2009 and 2017 are key years in the fraud and important changes were made around these companies within days of me approaching Anthony Roberts in July 2022, appearing to try and hide their collusion. This is shown in the **P1 Trump Netanyahu Khamenei Royals document.**

Research suggests The Manchester Arena Bombings occurred on 22nd May 2017, 17 days after Fleming Co Limited was incorporated and may be relevant. More on this later and how it links with what appears to be staged attacks in Israel in 2023 as part of this fraud.

The Grenfell Tower

2017 was also the year of one of the worst fires in the UKs history, The Grenfell Tower that occurred on 14th June 2017. Sadly all research surrounding this seems to link back into the same companies in the fraud and it is seeming that many events that people have been led to believe are accidents, may well be disguised satanic sacrifices. This supports the theory that they may have been planning to end all of creation using collider technology as a final sacrifice when the technology is capable to do so, or make the right people believe that was the case. It was from 2017 that there had been no Fire Risk Assessment conducted at Exbourne Manor.

Link to Grenfell Tower Wiki: https://share.google/d8JbLWAmshQRKiT1u

According to the research, The Grenfell Tower had been designed by Clifford Wearden and Associates in 1967, the year after the foundation of the Church of Satan and was constructed from 1972 to 1974 by A E Symes of Leyton, starting the year after the foundation of the WEF.

A major refurbishment was announced to take place on Grenfell Tower in 2012, the same year that CERN discovered the Higgs Boson or God Particle and the refurbishment was carried out from 2015 to 2016, with the year of the apparent Satanic ritual as CERN being 2016.

A Companies House search for Clifford Wearden and Associates shows Wearden Associates Limited of an address in Lancashire having been incorporated in 2007 and dissolved in December 2018, the year after the fire and when Gordon Bowden was exposing his evidence. Wearden Associates limited is a criminal company with Jordans Limited on its incorporation document.

The London Fire Brigade dealt with the fire and two years earlier on 23rd January 2015, London Fire Brigade Enterprises Limited was incorporated on Companies House. It has The London Fire and Emergency Planning Authority and a signature for Commissioner Ronald James Dobson on its incorporation document.

The London Fire and Emergency Planning Authority was appointed as significant company of control for London Fire Brigade Enterprises on 6th April 2016, four months before an apparent satanic ritual took place at CERN. They ceased to be a company of control on 1st April 2018, ten months after the Grenfell Tower disaster.

Stephen Ham was appointed as a director for London Fire Brigade Enterprises from the day of its incorporation and resigned on 24th May 2018, as it seems Gordon Bowden was making discoveries of the fraud. Ham connects to The Institution of Fire Engineers (Global) Limited that had been incorporated at a relevant year of 1991, changed its name in relevant year 1992 and again on 16th May 2017. This was eleven days after the incorporation of Fleming Co Limited and six days before the Manchester Arena Bombing. The Institution of Fire Engineers (Global) Limited is a criminal company with The London Law Agency on its incorporation document.

John Bale of this company links to British Chemicals Association with an address of Unit1,St Stephens Court, St Stephens Road, Bournemouth. This is not far from Exbourne Manor and the same building shown in the research of the Doomsday Clock. This company is linked to the research of the World Trade Centre by Lovell, White & King on its incorporation document, as well as to the research of the Hampshire fire, by Lovell International Limited.

Nicholas Dixon of British Chemicals Association connects to Federation of Chemical Associations with the same address in Bournemouth and with Lester Aldridge of Oxford Road, Bournemouth on its incorporation document. This is a company that links quickly to my families and Exbourne Manor. There are various chemical companies on the document and an Atlas company, possibly making links to CERN.

Stephen Ham also links to Usbourne Mews Residents Association Limited where Rt Honourable Stephen O'Brien is a director, appointed in November 2022. Harold Cornforth links this company connects to Ampthill & Community Rugby Club Limited, another Rugby reference and

to Godolphin Court (1996) Property Management Company Limited. This has a registered address on its record of Queensway House, 11 Queensway, New Milton Hampshire. This is an address that features throughout the fraud and particularly noticeably with the research surrounding Julian Assange that an article appears to link to a doomsday cult.

Carol Hollingsworth of the Usbourne Mews company links to Help The Hospices (Training) Limited, incorporated in 1986. This is a criminal company with Jordans and Mavis June Latter on its incorporation document. This name links to Exbourne Manor and Mohammed Al-Fayed of Harrods via Swift Incorporations Limited.

Timothy Walter of the Usbourne Company connects to Sea View Management (Bournemouth) Limited, where the important name of Caroline Kelleway was shown as a director. This makes important connections as shown later.

London Fire Brigade uses the acronym LFN and when searching this within Companies House it shows that LFB Consulting Ltd was incorporated in 2013 and has Companies Made Simple on its incorporation document. This is an important company for the reason previously explained. The filing history shows that the company changed its address on 29th June 2017, less than a month after the Grenfell fire and had changed it on the same day as its registration. In 2023, it changed its address from an address in Hampshire, very likely because they realised I was making important connections through the addresses.

Brian Hesler of this company connects to The Rural Services Partnership Limited that was incorporated in July 2009, two months before the incorporation of The Royal Foundation for the Prince and Princess of Wales, that connects all areas of the fraud. It has many fire brigade and other public service companies featured on its incorporation document, including the NHS Confederation, mentioned in the research of Jeffery Epstein and Max Clifford.

David Horne of The Rural Services Partnership Limited, links to Tavistock Enterprises Hub and West Devon Citizens Advice Bureau. All Citizens Advice Bureaus appear to be compromised by the fraud to prevent it being exposed at an early stage and the Tavistock company likely relates to The Tavistock Institute mentioned later in its possible connectons to Maye Musk and the Cube of Satan.

John Kirlew of The Rural Services Partnership Limited connects to Swansea and Brecon Diocesan Board for Social Responsibility, which was already connected to the research of The World Trade Centre disaster and Mason companies as shown earlier. This company appears to have a forged incorporation document where they appear to have removed names as the exposure continues. There also appears to be pages missing.

Councillor Charles Worth of The Rural Services Partnership Limited links to Holbeach Youth Centre Trust Limited that was incorporated in 2012 and dissolved in April 2022, as I am making enquiries, as well as to Holbeach St Marks Community Association Limited. Research shows that Deborah Flemings Husband, John Fleming is part of the St Marks organisation and links to the Archbishop of Canterbury, Justin Welby via Portsmouth Naval companies.

As shown previously in the document, there appear to be important connections established to The Goldsmith / Goldshmidt family and Advisor to the last few UK Prime Ministers, Douglas Smith, Jeffrey Epstein and Max Clifford. James Goldsmiths son, Zac Goldsmith, also appears to be associated with Smith and he is shown as a director for The Green Alliance that was incorporated in 1990 and dissolved in March 2024, as the exposure continued. Christopher Haig connects this company to The 'Temple' Trust that was incorporated in 1994 and Christopher Buckmaster of this company connects to The Royal Borough of Kensington and Chelsea Tenant Management Organisation Limited, the same company that managed the Grenfell Tower at the time of the fire and I believe, during its refurbishment in 2015/2016, the year before the fire.

There are now multiple important connections to Temples and the fraud, including the Satanic Temple United Kingdom, but it appears The Satanic Temple United Kingdom may have been created to hide another group that may have infiltrated moralistic Judaism and The Church of Satan around the time of Princess Diana's apparent death and other information suggesting she may have actually been the daughter of James Goldsmith.

With this and other important evidence in the document surrounding the Goldsmiths, it has to be considered that this group are Sabbatean Frankists.

The Royal Borough of Kensington and Chelsea Tenant Management organisation Limited was incorporated in 1995, the same year as the Russian Government linked Hakluyt International Advisory Board. On 20th April 2017, it notified that there were no people or companies of significant control. This was less than two months before the fire, suggesting they may have known it was going to take place.

Anne-Marie Bennett of this company connects to Trinity Housing Association Limited, a company incorporated in 2006 and that dissolved in January 2024, as the exposure continued. Aman Dalvi of this company links to Tower Hamlets Lep Limited and to National Housing Federation Limited that was incorporated in 1935. Its register has been forged and it has an apparent forged incorporation document.

Martyn Kingsford of the Royal Kensington and Chelsea company connects to YMCA St Pauls Group, with YMCA already having been linked quickly to the research surrounding The National Council for Civil Liberties and in other areas.

Lawgram Secretaries Limited of the Royal Kensington and Chelsea company links to Sherborne Sports and Leisure Limited, which has a registered address of Sherborne School for Girls in Dorset. Another relevant Sherborne connection.

Link to London Fire Brigade Enterprises Companies House record: https://find-and-update.company-information.service.gov.uk/company/09404015

Research suggests that Danielle Cotton was the first female Commissioner of The London Fire Brigade (LFB) and happened to be appointed as such in 2017. In September 2016, the month after the apparent Satanic ritual at CERN, Cotton was appointed interim Commissioner after Ron Dobsons retirement in which the signature of on the incorporation document for London Fire Brigade Enterprises Limited. According to the research, after the LFB were criticised regarding the fire, Cotton resigned earlier than planned, in December 2019, the same month as the supposed COVID outbreak in Wuhan.

Companies House shows that Cotton is linked to four companies including Securitatem Consultancy Limited that was incorporated in January 2016 and links immediately to the fraud by the address of Kemp House, 152 to 160 City Road, London. This address connects quickly to the research of The World Trade Centre disaster and Madeleine Mccann. This company links to addresses in Kent, close to where I lived and worked. Cotton is also connected to Women in the Fire Service UK Limited that was incorporated in 2008 and changed its name for the first time on 22nd June 2018, almost a year to the day after The Grenfell Tower and changed it again four days later.

Cotton was also a director for National Fire Chiefs Council Limited from 1st April 2017, almost a month to the day before the Grenfell fire. This company was incorporated in 1998, as The Chief and Assistant Chief Fire Officers Association until 2004, before changing its name again in March 2022, as I am starting to make enquiries within Exbourne Manor Freehold Limited. The company is immediately connected to the fraud via Severnside Secretarial Limited and the address on its incorporation document. The filing history of this company is very suspicious around the time of the Grenfell fire. Nick David Ross of this company connects to Imperial Health Charity as a director from 2016 until 2024. This company was incorporated in February 2016 and changed its name on 6th June 2017, two days after the Grenfell Tower. An address of 50 Broadway is shown on the Company's incorporation document, the same address on the incorporation for The Association of the Police and Crime Commissioners that was started in

2012, the same year that CERN discovered the God Particle and links very quickly to Jimmy Savile.

The Cladding being blamed for the fire was supposedly created by Arconic. Arconic UK Holdings Limited was incorporated on Companies House 2000, originally as Alcoa UK Holdings Limited before changing its name for the first time on 22nd April 2016, just over a year before the Grenfell Tower. It is still active and has not changed its name since. It is a criminal company incorporated with Swift Incorporations Limited and Jordans Limited, the same companies as Exbourne Manor Freehold Limited.

Jose Camino of Arconic Holdings Limited connects to Alcoa Architectural Products Limited that was incorporated in 1989, the same year as the creation of the World Wide Web for CERN, changed its name for the first time on 23rd August 2001 shortly before The World Trade Centre disaster and dissolved in June 2011, four months before the supposed death of Jimmy Savile.

Denis Demblowski of Arconic Holdings Limited connects to Arconic UK Finance, appointed as a director in October 2000, before the World Trade Centre disaster and resigned in October 2002, after The World Trade Centre disaster. The company was incorporated in 2000 and changed its name for the first time in April 2016, just over a year before the Grenfell Tower disaster. It is still an active company and has not changed its name since.

I believe 2017 was the same year that Gordon Bowden had started establish and expose important areas of the fraud, as explained later.

Donald Trump and The Elections

Donald Trump became the President of the United States for the first time in the same year. According to the research Sequoia Voting Systems creates the machines that counts the votes in elections. In 2002 currency producer, De La Rue, became involved with Sequoia and on 2005 it was purchased by Smartmatic that had been established by three Venezuelans. The research suggests various ‘Edge’ companies became involved, which possibly makes reference to Jeffrey Epsteins Edge Foundation mentioned later. In 2010 Canadian company Dominion Voting that had been founded in 2002, became involved with Sequoia.

Controversy had arisen regarding these companies and the elections involving Donald Trump, but allegations of possible fraud were withdrawn after threats of defamation were made.

On 27th April 2010 Smartmatic UK was incorporated on Companies House. Sgo Corporation Limited was appointed as its company of significant control in 2016, the same year as an apparent satanic ritual took place at CERN hadron collider as mentioned later. Citco Management (UK) Limited, within the companies people record links to key companies in the fraud including EQT, making links to the main company in the fraud, Jordan & Sons Limited and to the Ritz and therefore to Mohammed Al-Fayed.

On 29th November 2010 CERN Limited was incorporated on Companies House and has 4Business on its incorporation document, which connects to research of Rudy Giuliane, the Mayor of New York at the time of The World Trade Centre disaster.

Link to CERN Limited Companies House record: https://find-and-update.company-information.service.gov.uk/company/07454024

Research suggests Giuliani became the Mayor of New York in 1989, the same year that the World Wide Web was created for CERN as mentioned elsewhere. Giuliani was the attorney for Donald Trump at the time of his presidential election in 2016, the same year as the apparent Satanic ritual as CERN. Giulianis Father supposedly had connections to the criminal underworld and was involved in the prosecution of Italian mobsters. Giuliani had connections to JP Morgan and Merril Lynch having carried out speeches for both, according to an article. CERN Limited links quickly to CAPB limited and the Hampstead Child abuse enquiry via Ricky Dearmans connection to Tolgate Square Management Company.

Recent research surrounding Elon Musk links him immediately to the fraud, to biblically referenced companies and a South American linked director with a name of Marcelo ‘Sequeira’

very similar to the voting machine company name. This person also makes connections back to Ritz companies and therefore Al-Fayed.

All of this and much more evidence almost guarantees that Trump was fraudulently positioned as part of an apparent infiltrated Satanic agenda, as the criminal system became exposed. It appears all of creation may be targeted.

Trump became the 45th President in 2017 and the 47th President in 2025. This appears to be staged as part of the infiltrated Satanic agenda. 45th (4+5 = 9) and 47th (4+7= 11) making 9/11 the date of the World Trade Centre disaster.

2017 is also the same year as the apparent leaked Deagle population report. This suggested there will be a huge reduction in the Worlds population in 2025 (-77% in the UK for example).

Louise Smyth and Justin Welby

2017 is also the year when Louise Smyth became the CEO for Companies House, allowing the ability to expedite forgery of the register and funnel funds as they became exposed. Smyth is the same surname of John Smyth who was involved in the scandal of child abuse, which led to the resignation of The Archbishop of Canterbury, Justin Welby in November 2024. It has to be considered that John Smyth and Louise Smyth may be related and part of the doomsday cult and positioned to expedite the plans with the cell towers.

Alien Invasions and Stargates

It was not long after Welbys resignation that articles emerged of drones being seen all over the World. Elon Musk links significantly to the fraud as mentioned later and his brother had purchased a drone Company in July 2022, within days of Anthony Roberts having resigned as a

director for Exbourne Manor Freehold Limited. This appeared to fit the narrative of a falsified alien invasion as they became cornered on how to resolve the exposure of their criminal system.

These attempts to deceive me are supported by various people involved being sent my way and trying to get me to believe certain things. This included that the hadron colliders were being used to create Portals or Stargates rather than being a threat and linking with an Alien Invasion. This was supported by Justin Welby having several Companies House records with one having been created with a middle name of 'Portal'.

It is obvious that since, 2022 when the fraud has been exposed, there have been increased reports and disclosures by official Government bodies as to the likely existence of Alien life.

This appeared to have been enforced by Donald Trumps announcement of The Stargate Project on 21st January 2025. The Stargate Project was supposedly conceived in 2022, as I am making enquiries in relation to the fraud and the original Stargate Project initiated in 1977, the year I was born. The movie Stargate was also released on my birthday in 1994 and makes significant reference to Egypt and was produced by Roland Emmerich mentioned again later.

A search of 'Stargate' on Companies House links almost immediately to companies such as 'Mothership Limited'. This was identified days after I had been fed information of a supposed alien mothership heading to Earth and arriving in around 2032, as I was publicising a possible falsified apocalyptic event that year.

All companies involved in Donald Trumps Stargate Project, including Oracle, Open AI and Softbank, link quickly to the same companies as the Satanic Cult as shown in the evidential research document **Trump - Stargate.**

This was again supported by Grainne, a seemingly endearing person, sent to form a relationship with me over time, claiming they had fallen in love with me. She eventually started feeding me information from David Emery and Sacha Stone (mentioned later) regarding a possible alien invasion. This had been initiated by Deborah Evershed, linking to the fraud and a group of many others appearing to be collaboratively intercepting me as part of an agenda linking to the Vatican through Stone.

I suspect that another deception aimed at me was that there was an imminent threat of nuclear war, due to missing nuclear weapons from the 1980's that involved a company called Atlas Holdings Limited and David Cameron. I was directed to what appeared to be staged information linked to a falsified prophecy in relation to Iona in Scotland randomly connected to 1947 and that may supposedly lead to the end of the World. The research from this connected back into exactly the same companies in the fraud and The Flemings, prompting me to make a report to the Scottish Police.

This was all followed with a private message to me from Anthony Roberts, claiming 'The end was nigh' after I felt any threat had been averted. Everyone that had appeared supportive of me and had fed me this information, then turned against me, publicly claiming I still worked for the corrupt Police and was purposefully gathering information for them.

Donald Trump appeared to have been instructed to support the threat of war, as demonstrated by the timing of his publicised rhetoric regarding a possible escalation of war with Iran, despite he and the leader of Iran being linked to fraud and the same Flemings company.

Link to article of possible war with Iran: https://www.bbc.com/news/articles/cjel350eyw5o.amp

I suspect they were trying to stage this information regarding the missing nuclear weapons to time with the Georgia Guide stones that were erected in the US in 1980.

Both Louise and John Smyth link to the centralised fraud and Welby links quickly to the same companies in the fraud and quickly to the Rothschild's, the Flemings, the Russian Government and Stephen Hawking and therefore the apparent threat from the hadron colliders as outlined below. These connections are documented in the **Archbishop of Canterbury evidential research document, The Companies House Louise Smyth document and the 'Iona prophecy' related documents.**

The Archbishop of Canterbury, The Rothschilds, The Flemings and The Russian Government

A record for Justin 'Portal' Welby on Companies House links to The Aukland Project incorporated in February 2012, two months before Jeffrey Epstein and Stephen Hawking supposedly met with CERN scientists. SJP Secretaries Limited is on its incorporation document.

S.J.P Secretaries was incorporated in 2004 and Craig 'Christian' Armstrong of that companies links to J Rothchilds Group Limited that was incorporated at a key time of 1991. It dissolved in February 2022, as I am starting to make enquires with Exbourne Manor, the same month as Putins 'Special Military operation' against Ukraine and has many Rothchilds companies on its incorporation document.

Link to Justin Welby Wiki:
https://en.m.wikipedia.org/wiki/Justin_Welby
Link to Companies House search results for Justin Welby: https://find-and-update.company-information.service.gov.uk/search?q=justin+welby

Simon Brown of S.J.P Secretaries connects to important company, New Generation Europe Foundation that was incorporated on 9th September 2002, almost a year to the day after The World Trade Centre disaster. It had an original name of Open Russia Foundation before it being changed to Future of Russia Foundation and to its new name in 2023, removing the Russian links as I continued to expose the fraud. It is a criminal company incorporated with Swift Incorporations and Jordans Limited, the same as Exbourne Manor Freehold Limited.

As I continued the exposure, director Anastasia Khodorkovskaka with an address of 'Duchess Street' was added to the New Generation company on 13th November 2023. Research of this name suggests it is the daughter of Mikhail Khodorkovsky, a supposed activist and oposition to Vladamir Putin and an article from March 2024 makes claims of being framed under a criminal article. I suspect Anastasia was added to try and distance Vladamir Putins apparent involvement in the collaborative deception to continue the staged conflict agenda, but it has only enforced it.

According to an article in 2014, Mikhail was imprisoned and exiled from Russian, to Berlin, then Switzerland and at one point to London.

Link to article of Mikhail Khodorkovsky 2014: https://share.google/aYNhVNvP2L0Fnddj3

According to Wiki, in 2003 Mikhail was claimed to be the wealthiest man in Russia after the collapse of the former Soviet Union, due to buying up oil fields in Siberia under the name Ukros. According to the research, Siberia is where a supposed polar shift is migrating to and there is a huge increase in magma migration to this area. In theory this could be as a result of too much extracted oil.

Link to Mikhail Khodorkovsky Wiki: https://share.google/1135Lx0DymZJBiGiO

Almost all researched oil fields are criminal companies and appear to be collaboratively connected to Russia. The Companies House fraud had motivated all possible world problems, including a deliberate increase in population to defraud the masses of more money and the subsequent need for more oil production. I have found evidence that at least one of those promoting the polar shift agenda on social media, being allowed huge following, is connected to Donald Trump and allegations of child abuse against them.

In April 2023 articles emerged of Volodymr Saldo, a 'Kremlin Puppet' having owned company Grainholding UK Ltd with an address in Haton Garden area. The article claims that in 2022, as I am making enquiries, sanctions are imposed on Saldo, but it is all collaborative deception.

Grainholding Ltd was incorporated in November 2022 and dissolved in April 2024, as the exposure continued. Saldo is shown as being a resident of Ukraine.

Link to article of Saldo from 2013: https://share.google/1BnP9Sa6rKYo57G8G

Aticles from June 2023 state that Evgeny Lebedev is a Lord of the UK House of Commons and that his father was a KGB agent for the Russian Government. Information suggests Lebedev owns Lebedev Holdings Ltd, which owns The Evening Standard media company.

Link to article of Evgeny Lebedev: https://share.google/6MRIhQaYmZiKYLV6v

Companies House shows that Lebedev Holdings Ltd was incorporated in 2008 and had an adddress at Frinsbury Square, featured throughout the fraud. Its incorporation document shows Aliastair Tulloch of Tulloch & Co that I have noticed elsewhere in the research. Andrew Mullins of Lebedev Holdings Ltd connects to Which? Limited, incorporated in 1960 as Consumer Protection Limited and last changed its name in 1995, the same year as the Intelligence agency and Russian linked Hakluyt International Advisory Board was incorporated.

Link to Lebedev Holdings Ltd: https://share.google/pxOV7TtcM4jGNmo90

Terence Connor of the Which? Ltd connects to Financial Services Compensation Scheme Limited that was incorporated in 2000 and has Clifford Chance on its icorporation document that links to the research of Max Clifford and many water and utility companies. From page seven of its incorporation document are many listed companies including multiple Lloyds TSB Companies, Portman which has a building in Bournemouth and Fleming Managed Growth PLC.

Fleming Managed Growth PLC was a fomer name for JP Morgan Elect PLC from 1999 to December 2002, either side of the World Trade Centre disaster. At the time of the research it was in liquidation and has FRP Advisory Trading Limited and Hackwood Secretaries, both featured in the fraud.

Link to JP Morgan Elect PLC: https://share.google/YoYlNBSmvO5MAfcn5

Fiona Driscoll of JP Morgan Elect PLC connects to Wessex Acdemic Health Science Network Limited with an adress in Hampshire. Deborah Fleming had already been connected to Wessex Companies. Driscoll also connects to NHS Lotteries Limited and Nuffield Health.

Alan Hodson of JP Morgan Elect PLC connects to Friends of the Children of Great Ormand Street (The), a company with a forged register, Great Ormond Street Hospital Charity and Blackrock Energy and Resource Income Trust PLC.

Nigel Sidebottom of JP Morgan Elect PLC connects to City of London Group PLC, incorporated in 1981 and in the process of liquidation at the time of the research. Its last name change was in January 2001, eight months before the World Trade Centre disasater and it is connected to the fraud by Stanley Davis Group and a City Road address on its incorporation document.

Carla Stent of JP Morgan Elect PLC connects to various Virgin Foundation companies, to Marex Group PLC that connects to the cover story articles with Bournemouth Police and Stent was also a director for Post Office Ltd, making further connections to the Post Office Scandal, and to Christian Aid, that was incorporated in 2004 and has Bates Wells and Braithwaite connecting to The Royal Foundation for the Prince and Princess of Wales and British and Irish Churches Trust Ltd on its incorporation document.

Roger Vates of JP Morgan Elect connects to The Biotech Growth Trust PLC and John Anthony Victor Townsend of that company connects to British and American Investment Trust PLC that was incorporated in important year of 1947 as British and American Film Holdings PLC, making a further connection to the entertainment industry, It has a forged register and Waterlow & Sons on its incorporation document.

Vates also connects JP Morgan Elect to World Wide Health Care Trust PLC and Brit Insurance Holdings PLC that was incorporated in 1995, the same year as the Hakluyt International Advisory Board and it last changed its name in December 2009, three months after the incorporation of the Royal Foundation of the Prince and Princess of Wales. It is a criminal company incorporated with Swift Incorporations Limited and Jordan & Sons Limited, the same as Exbourne Manor Freehold Limited. This shows the World wide corruption in this centralised fraud with them controlling health care and Insurance, which enables a constant supply of criminal funding and a motivation to end lives to steal unclaimed Insurance premiums through the criminal companies.

Zelensky / Ukrainian Collaboration

Research of Ukrainian President Zelensky, shows that he had began his Presidential campaign in 2018, the same year Bowden was publicising his findings of the non-verification of the fraud and its connection to 788 to 790 Finchley Road.

Zelensky was ‘elected’ as President of Ukraine in 2019, the same year as the COVID outbreak. He is from the entertainment industry which is a huge part of the fraud and crimes against humanity and videos had emerged of both Zelensky and Emmanuel Macron being connected to entertainment.

Research shows that the Ukrainian conflict has hugely facilitated the capture of orphaned children into the child trafficking network and says that Zelenksys aide, Ivan Bakanov had operated a network of offshore companies.

Other research suggests Zelensky may have received yachts for his part in the corruption and this also ppears to be the case with Baroness Michelle Mone and the PPE COVID scandal with Mone making important connections in the fraud, as shown elsewhere in the document.

There are yacht companies featured throughout the research the fraud and connecting closely to the Flemings. There are also expensive car manufactures such as Rolls Royce, Ferrari and Jaguar with fraudulent criminal companies to launder defrauded tax contributions from the masses into more difficult to trace tangible assets.

The informatiomn within this document, provides ovwrwhelming evidence that Ukraine is working in collaborative deception with the Russian, UK and other Governments to exploit and vicimise the masses in a sinister agenda.

Research suggests Blackrock is the Worlds largest asset manager and is likely important to their plans with the name 'Blackrock' possibly having significance and research shows that in December 2022, as I was reporting the fraud to the authorities, Volodaymryr Zelensky had coordinated a role for Blackrock in the reconstruction of Ukraine.

An article from 2024 comnfirmed JP Morgans involvement in this.

This and other evidence shows beyond all reasonable doubt that there is a collaborative deception against the masses between Russia, Ukraine, The Flemings the leaders of other nations against the masses and that it is using the Companies House fraud to do so.

BlackRock and JPMorgan are backing a $15 billion investor fund to rebuild Ukraine
https://qz.com/blackrock-jpmorgan-private-investors-ukraine-fund-1851334929

Referring back to JP Morgan Elect, Vates also connects JP Morgan Elect to The Ukraine Opportunity Trust Limited that was incorporated in 2005, changed its name in January 2019, the same year as the supposed COVID outbreak and dissolved in 2023, as the exposure continued. Earl Raymond Asquith of this company connects to various Ukraine companies including The British Ukrainian Society that was incorporated in 2007 and dissolved in 2023. It has Member of

Parliament, Richard Spring on its incorporation document linking to British Syrian Society and supporting the collaborative deception over conflicts as part of the fraud.

Beatrice Holland of the Ukraine Opportunity Trust connects to Bryanston School, which make important connections in other parts of the research and Credit Suisse Asset Management Limited, making important connections to the Swiss Bank and crimes against humanity as previously mentioned.

On a separate Companies House search of the word Kyiv, the Ukrainian Capital, Kyiv Business Organisation with UK Establishment number of BR015704, was opened in January 2012, three months before Jeffrey Epstein met with Stephen Hawking and has 50 Broadway as its registered address, the same as on the incorporation document for The Association of Police and Crime Commissioners that connects closely in the research to Jimmy Savile. It states that its type of business is '9111' Business Employers Organisation.

Connected company of the same name with Company number FC030645 was incorporated in 2012 and closed on 11th July 2017 around time Gordon Bowden starts identifying elements of the fraud, Donald Trump becomes the 45th President and just over month after the Grenfell Fire. Kyiv Business Organisation has UBG Corporation Limited on its incorporation document.

A separate search of UBG Corporation Limited shows that it was incorporated on 15th July 2011, three months before Jimmy Savile supposedly died and has Ukrainian Dmytro Demchak as a person of significant control from March 2018. It has Duport Associates on its incorporation document that links to Brighton companies and Bournemouth MP Connor Burns and the case of Nicola Bulley on the research.

Vladslave Bilotska of UBG Corporation Limited connects to inexpo Limited with an address in Maidstone,Kent. It links immediately to the fraud by Barbara Kahan on its incorporation document.

Jonathan Elwes connects UBG Corporation Limited to The Royal Air Squadron Limited that was incorporated in April 2010, the same year as CERN Limited and is connects to the fraud Slaughter & May on its incorporation document.

Elwes also connects UBG Corporation Limited to Knighton House School of an address in Sturminster Newton, Dorset. Elizabeth Briarley of this company connects to Dorset Health Trust Limited and Alum Court Limited with an address of Elizabeth House, Ashford Road, Fordingbridge. This address is shown throughout the research of the fraud around Exbourne Manor and is linked to the Association of Residential Management Agents (ARMA) closely associated to the Association of Chief Police Officers of the United Kingdom. Fordingbridge is

also the same town that I was led to believe Philip Harrod, a director of Exbourne Manor Freehold Limited had lived and my wife has relatives not far away.

Alum Court Limited has Napier Management Service, a company associated to ARMA and Westcliff Studios Management Company (7) linked to Mark* .

Anne Bebb of connects Westcliff Studios Management Company (7) to Phoenix Court Management Co. Limited where the important name of Caroline Kelleway was director, but this time with a middle name of Helen.

Michelle Mone

One of the companies involved in the Michelle Mone scandal was PPE Medpro. PPE Medpro Limited was incorporated in May 2020. Maurice Stimler links the company to thirty eight other companies including GMH Trading Limited that was incorporated in 1995, the same year as the Hakluyt International Advisory Board and is a criminal company with The London Law Agency and Michael John Hope, a name that features throughout the fraud on its incorporation document.

Link to PPE Medro Limited Companies House record:
https://share.google/yLIylodKFWHB2IsJx

Stimler also connects to Loudwater Trading Limited, incorporated in 2008 and with 788 to 790 Finchley Road and ‘Temple’ Secretaries Limited on its incorporation document.

Arthur Lancaster of PPE Medpro Limited connects to Pitch@Palace CIC that has an address of Buckingham Palace and Farrer & Co in its incorporation documents, the same company linked to Ghislaine Maxwell and Terramar UK mentioned throughout the document. This makes almost immediate connections to my family and Buckingham Palace.

Richard Parry connects Pitch@Palace CIC to Legatum Trust that was incorporated in 2010 and dissolved in 2023, as the exposure continued. Richard Briance connects this company to various Rothschilds Companies.

Warren Lancaster connects Legatum Trust to Geneva Global (Europe) Limited and makes immediate connections to the fraud with Temple Secretarial Limited in its incorporation document.

Warren Lancaster connects Legatum Trust to World Vision UK and The End Fund that was incorporated on 22nd August 2007, the day before Exbourne Manor Freehold Limited was

incorporated. Numerous religious companies are shown on its incorporation document as well as from other directors in the people record.

Warren Lancaster also connects Legatum Trust to Disaster Emergency Committee that is featured in the research stemming from research of the Helicopter crash in the US on 10th April 2025.

Warren Lancaster also connects Legatum Trust to Medical Emergency Relief International, that was incorporated in 1993 and dissolved in July 2024, as I was uncovering the evidence of the fraud connecting to adrenochrome. It connects immediately to the fraud with an altered name and Waterlows and Allen & Overy in its incorporation document.

Toby Oliver James Baxendale connects Legatum Trust to Planet X Ltd. This has a registered address of C/O Interpath Limited linking it to key areas of the fraud and the research of David Cameron and Tony Blair. The company was incorporated in March 2008 and is shown as being in Insolvencey Proceedings, which I do not recall seeing on any other company that I have researched. Planet X Eot Trustees is shown as a significant company of control since July 2020.

Richard Mostyn-Jones connects Planet X Ltd to Planet X Eot that was incorporated in December 2019, the same month as the supposed COVID outbreak and it dissolved in May 2024, as the exposure continued.

This Planet X connection is important, particularly with the other closely connected evidence appearing to relate to possible falsified apocalyptic events and Planet X being specifically mentioned in the 2012 phenomenon. This coincides with the evidence of the fraud appearing to be used to funnel money to create a black hole in Earth using collider technology. Elon Musk is also important in the fraud and deception and is connected to the letter X in various ways including acquring Twitter and changing it to X in 2022, as I uncovered the fraud.

Referring back to Pitch@Palace CIC, Richard Parry also connects to Farrer & Co Trust Corporation Limited that was incorporated in 1997 and has various relevant companies on its incorporation document, including The Prince of Wales Institute of Architecture and Weymouth Avenue (Dorchester) Limited.

Parry also connects Pitch@Palace CIC to Eclipse Nominees Limited, already shown in the research of the The National Council for Civil Liberties, its affiliation to the Paedophile Information Exchange and the connections to the World Trade Centre disaster.

Alexander Johnston connects Pitch@Palace CIC to Poison Diaries Limited, Fleming Media Investments (2008) Limited, Fleming Media LLP and Freud Communications Limited that was

incorporated in 1990 and makes connections to the research of the Madeleine Mccann case and the Mccanns involvement with alleged paedophile Clement Freud. This shows important connections to The Flemmings and the case of Madeleine Mccann.

Referring back to PPE Mepro Limited, Arthur Lancaster connects to Pitch@Palace Global Limited that was incorporated on 17th February 2017 and again has an address of Buckingham Palace on its incorporation document.

Alex Johnstons connects Pitch@Palace Global Limited to World Wide Web Foundation, which is incredibly important due to the connections now made in the research of Prince Harry and the possible links to the disappearance of Madeleine Mccann as shown elsewhere in the document.

Michelle Mone herself is linked quickly to the fraud. Mone was a director for Ultimo Academy Limited that was incorporated on 15th July 2012, eleven days after CERN supposedly discovered the Higgs Boson or God Particle. The company also had Michael John Mone as a director and was incorporated with Oswalds of Edinburgh and Jordan (Scotland) Limited of 24 Great King Street, Edinburgh linking to the fraud and the research of Douglas Dougie Smith.

Jordans (Scotland) Limited was incorporated in June 2018 as Vistra (Scotland) Limited, as Gordon Bowden was exposing his evidence. It changed its name in May 2019, as it appears the supposed COVID outbreak was being planned as they knew their criminal system was being exposed. It had Jason Burgoyne and Expressco Limited of Templeback, 10 Temple Back, Bristol on its incorporation document, an address used throughout the fraud.

Expressco Limited was incorporated in 1995, the same year as the Hakluyt International Advisory Board and is a criminal company having been incorporated with Swift Incorporations Limited and Jordan & Sons Limited, the same companies as Exbourne Manor Freehold Limited. It dissolved on 26th July 2022, thirteen days after Anthony Roberts of Exbourne Manor Freehold Limited resigned.

The illegality continues through the registration meaning Jordans (Scotland) Limited and Michelle Mones Ultimo Academy Limited are criminal organisations.

Michelle Mone was also a director for The Princes Trust Youth Business Scotland that was incorporated in 1986 and appears to have an altered potentially forged incorporation document.

Mark Jeremy Studwick of this company connects to The Royal Edinburgh Military Tattoo Limited incorporated in 1990 as Noblegreat Limited using Jordan Nominees (Scotland) Limited.

Jordan Nominees (Scotland) Limited also has Expressco Limited on its incorporation document, which means it and The Royal Edinburgh Military Tattoo Limited are criminal organisations.

Referring back to the New Generation Europe Foundation, Stuart Gerrish has an address of Blandford Forum, Dorset. Blandford Forum was linked to a car involved in the supposed Russian poisoning in Salisbury in 2018. Gerrish has similar details to Brian Gerrish of the UK Column, who refused to assist me in exposing the fraud and colluded with others, including Sonia Poulton who specifically colluded with Anthony Roberts of Exbourne Manor Freehold Limited, to undermine me and both Poulton and Brian Gerrish are linked significantly to the fraud by other records.

The Stuart Gerrish record is linked to Falcon Retail Limited and other Falcon companies feature at key times including the research from my wifes Father and Trevor Mealham. Gerrish also connects to various other companies, that at the time of the research, have registered addresses of 2 Poole Road, Bournemouth with 5 Poole Road, Bournemouth being on the incorporation document for Exbourne Manor Freehold Limited. Gerrish is also connected to various criminal Rothschilds companies.

Research suggests that Brian Gerrish of UK Column was a former Naval Officer (as was Ian Fleming) during the supposed cold war with Russia and was a commander for HMS Orkney. HMS Orkney was built by Hall Russell & Company and was laid up at Portsmouth Dockyard and sold for scrap in 2016, the same year as an apparent Satanic ritual at CERN.

According to research 'Russell & Company' had been involved in Opium supplies around the World specifically relevant to Canton. This is likely relevant to the evidence already acquired from the Hampshire fire mentioned previously where connections were made to Opium UK Limited and Canton Herbal Products.

The Jewish Infiltration

Helena Kelly of New Generation Europe Foundation connects to Hampstead Theatre linking to the Hampstead Child Abuse enquiry and the important, possibly infiltrated, Jewish company, Jewish Community Centre UK shown previously.

Nathanial Rothschild links New Generation Europe to King Charles III Charitable Fund, originally incorporated as The Princes Charity Foundation in 2008. Its name was changed in July 2011, three months before Jimmy Saviles death and it has multiple companies on its incorporation document, including Rothschild's Companies, companies that feature on the incorporation document for the Royal Foundation for the Prince and Princess of Wales, but also to Mohammed Al-Fayed via Sky companies. Baroness

Casie Louise casie of Blackstock connects King Charles III Charitable Fund to College of Policing.

Ian Cheshire links the company to 'Queens of the Night' that dissolved as I continued the exposure in 2023, BT Group PLC that was incorporated originally in March 2001 as Newgate Telecommunications Limited before changing its name 11th September 2001, the date of the World Trade Centre disaster. Cheshire also links to United for Glabal Mental Health, Whitbread PLC, B&Q Limited and a company called 'The Baby Fund Trading Limited' that was incorporated during the Gulf War in 1990 and isa criminal company started with the same two companies as Exbourne Manor Freehold Limited.

Sir Kenneth Olisa of the King Charles III company connects to Huawei Technologies (UK) Co., Ltd, incorporated on 28th September 2001 and is important due to the connections to former Isle of Wight MP Bob Seely, his connections to the Russian Government and the threat from directed energy as mentioned later.

Dame Amelia Fawcett of the King Charles III company connects to The Wellcome Trust. According to research Fawcett connects to Morgan Stanley that connects to JP Morgan and the Flemings, HM Treasury, Bank of England, Millicom International Cellular and the Guardian Media Group mentioned later.

Research suggests the Wellcome Trust is linked to the Nazi regime, possibly experimental torture and control surrounding Eugenics that was started by Francis Galton and to CERN.

As another example, Orange Cellular Services was originally incorporated in 1987 as Punchdrive Limited before changing its name to Millicom referenced names. It last changed its name on 13th July 2001, eleven days before Larry Silverstein purchased the lease for the World Trade Centre and dissolved in 2011, two months after Jimmy Saviles supposed death.

Emannuel Macron

The research shows that Emmanuel Macron had resigned from his job in 2016 (the same year as the pizzagate scandal) to launch his 2017 presidential campaign. He was 'elected' President in May 2017, the same month that Fleming Co Limited was incorporated that connects the research of World leaders to the fraud, including Donald Trump and Benjamin Netanyahu. It was also a month before the Grenfell Tower fire, where significant connections have been made to Exbourne Manor and the Goldsmiths with evidence suggesting it was a deliberate fire. The Goldsmiths are closely associated with the Rothschilds and the pizzgate scandal in the research. Its the same year that Donald Trump was made the 45th president and Louise Smyth was positioned as the CEO of Companies House.

According to the research Macron had previously worked as a senior civil servant at the Inspectorate General of Finances and as investment banker at Rothschild & Co, meaning he is immediately connected to key areas of the fraud. Macron had been appointed Élysée deputy secretary-general by President Hollande after the 2012 election, the same year that CERN discovered the Higgs Boson Particle, which is significantly connected to the fraud. More on Hollande later.

Emmanuel Macron - Wikipedia https://share.google/88k9YFt4bOaSN0cVi

When searching Emmanuel Macron Companies House, Macron Limited is revealed and was incorporated in 1981.

MACRON LIMITED overview - Find and update company information - GOV.UK
https://share.google/H7T15m7gYA77emsfU

Anthony John Duncan connects Macron Limited to 9 companies including Ascot Court Limited that was incorporated in 1998 and links immediately to the fraud with Keith Kahan, 788 to 790 Finchley Road, London and A1 Company Services on its incorporation document. Most of these details had been exposed as being linked to International fraud, dictators, mafia and corrupt Politicians by the late Gordon Bowden.

David Abdoo connects Ascot Court Limited to 220 companies many of which are the same Television companies in the research of Dewi Evans, one of the doctors assisting in the prosecution of Lucy Letby. One of the companies connected is Evergreen Film Productions Limited that was incorporated in 1983 and is a criminal company with Mavis June Latter and Jordans & Sons Limited on its incorporation document making an immediate connection to Exbourne Manor and Mohammed Al-Fayed via Swift Incorporations Limited. Evergreen Companies connect to Hillary Clinton and the research surrounding the Pizzagate Scandal of 2016 and the apparent torture and murder of children, now closely connected to the Goldsmith family and the Special Advisor for the UK Prime Ministers, Douglas Smith.

On 9th September 2025, within two weeks of me adding this information to the document, a vote of no confidence is supposedly held in France and new Prime Minister Sebastien Lecornu was announced.

A separate search of Lawrence Knight shows a Lawrence Knight connected to Wolverhampton Masonic Club Limited that was incorporated in 1986 and is shown as in the process of liquidation, as the exposure continues. From here directors link quickly to multiple Masonic, Royal and International Airport Companies with fraud throughout. The Worlds main Freemason Lodge is connected immediately to Jimmy Savile, The Police and the evidence surrounding Collider technology companies such as CERN, as shown elsewhere in the document.

Research shows that Sebastien Lecornu had previously worked for Safran Aircraft Engines and when searched Safran Helicopter Engines Limited is revealed on Companies House as having been incorporated as Ames Industrial UK Limited in 1973, two years after the World Economic Forum began. It is a criminal company with Jordan & Sons Limited on its incorporation document, the main company in the fraud. It has a registered address in Hampshire, UK where Deborah Fleming had been the NHS CEO and who initiated my removal as a director from Exbourne Manor Freehold Limited for refusing to file forged bank documents.

SAFRAN HELICOPTER ENGINES UK LIMITED overview - Find and update company information - GOV.UK https://share.google/KPq9TklmleyTfISv0

Many of the directors of the company are French.

Sir Colin Fielding connects Safran Helicopter Engines UK Limited to Thales Optronics (Taunton) Ltd that was incorporated in 1937 and dissolved in December 2018, as Gordon Bowden was exposing his evidence of the non-verification within Companies House. According to its overview, its name was last changed in December 2001, three months after the World Trade Centre disaster, which was blatently a staged attack by those behind this criminal system as part of the Companies House fraud and associated crimes against humanity. Thales is an important company throughout the fraud with its connections to the fraud, cell towers and collider technology.

A search on Sir Colin Fielding shows a Government debate with what appears to be Michael Heseltine regarding spectrum radio wave frequencies, supporting the threat from directed energy. More on Heseltine later.

Peter Coulson Norriss connects Safran Helicopter Engines UK Limited to Chemring Group PLC that was incorporated in 1905 and is a fraudulent entity with a forged register and a company name of The British Foreign & Colonial Automatic Light Controlling Company Limited in its incorporation document. I have seen this as various times throughout the research.

Research shows Norriss' prominence in the airforce and that he had previously tested Prince Charles and early in his career had been posted in South Cerney, Gloucester where my Brother-

In-Law lives and whose family is connected to the main Freemason Lodge and Jimmy Savile. Norriss apparently died in August 2024, as the exposure continued.

Air Marshal Sir Peter Norriss, pilot who trained Prince Charles in navigational skills – obituary https://www.telegraph.co.uk/obituaries/2024/08/04/sir-peter-norriss-pilot-trained-prince-charles-obituary/

Research shows that in 2018, the Serious Fraud Office investigated Chemring for money laundering. This was when Gordon Bowden was exposing his evidence and The Serious Fraud Office are complicit to the fraud and money laundering. I suspect this was an investigation used as a cover to alter, conceal or destroy evidence of the wider crimes against humanity actually involving the Serious Fraud Office and their Freemason members.

Chemring Group - Wikipedia https://share.google/7gx25hQyw1VxogQDR

This supports their continued collaborative controlled deception and crimes against humanity by funnelling defrauded money from the masses through fraudulent defence contracts and their desperation to maintain their freemason control system and the apparent associated abuse, torture and murder of babies and children.

Referring back to former French Prime Minister Francois Hollande he is married to Julie Gayet who in 2007 founded Rouge International with Nadia Turincev. This is the same year that Madleine Mccann went missing.

All information is being controlled as part of the agenda and the suppression of the truth that the Companies House fraud connects all world problems, including the likely deliberate illusion of many to defraud the masses further through taxation.

However, all International Terrorist incidents researched so far, connect to the exact same companies being exposed in the fraud, to Hollywood and the Flemings and these people are clearly not thinking rationally. We therefore have to consider that they may use weapons to further their agenda.

The 2023 Israel Attack

The israel Attacks occurred on 7th October 2023 as the exposure continued and supposdly involving Hamas attacking people attending a Nova Music festival, but the research of Companies House. Overwhelmingly suggests it was staged, linking to all other terrorist incidents and was to trigger a falsified biblical scenario, as the criminal system became exposed.

Nova Batida Festivals was incorporated in March 2019, four months before Jeffrey Epstein was arrested and a protest in Wuhan over an Incinerator plant, five months before cell towers were erected there and nine months before the supposed COVID outbreak in Wuhan. Verso Limited is shown on its incorporation document. Verso Limited was incorporated in 2018 as Gordon Bowden was exposing his information and Mark Newton of the company links to Moving Music Limited. Darren Singer of this company connects to World Television Productions Limited a company with a forged register and incorporated 1961. This company dissolved in January 2019, eleven months before the ‘outbreak’. The same director links to Greater Manchester Broadcasting Company Limited, a criminal company started with the same two companies as Exbourne Manor Freehold Limited. Lord Charles Allen of this company connects to Balfour Beatty PLC, which was incorporated in 1945 and has a forged register.

Balfour Beatty features at key times throughout the fraud and links to the Rothschilds involvement in the Balfour declaration forming what we are led to believe is Israel. Within the company there are many connections to Archaeological companies including those relating to the Egyptian Pyramids.

Members of the Morgan family appear to have had significant involvement in the Archaeology of not only the Egyptian Pyramids, but also Stonehenge. They appear to be a huge part of the infiltrated Satanic agenda, casting doubt on all of history due to control of all information.

Even a company called Stonehenge Limited that was incorporated in 2003 has an address right near Exbourne Manor Freehold Limited, where it appears they are using random addresses around Exbourne Manor to create companies.

The research for Lord Charles Allen of Kensington shows that he is significantly connected to the agenda. He was is connected to the Television industry and the same fraudulent companies closely linked to the doctors who initiated the investigation of Lucy Letby. Among others, he was chairman of Balfour Beatty and Global Radio, an industry in which Jimmy Savile had significant involvement.

Global Radio Limited was incorporated in 1967, the year after the foundation of the Church of Satan and just over a month after one of the most important companies in the fraud, London Law Agency (The). It has a forged register.

The significant company of control, Global Radio Holdings Limited is a criminal company started with the same two companies as Exbourne Manor Freehold Limited. This supports the threat from directed energy through radio transmissions. Allen was also a director for Tesco and Virgin and Chair of the Board for the Labour Party. He had involvement in the Olympics including the 2012 Olympics.

Companies House shows that Allen links to The London Organizing Commitee of the Olympic Games and Paralympic Games Limited, a criminal organisation started in 2004 with Jordans Limited on its incorporation document. Many Olympic Games companies link quickly to my family and I recall my Brother-In-Law, Richard Timms working at the 2012 Olympic Games.

Importantly Allen was also a director for IDF Group Limited, connecting from the research of Nova Batida Festivals. According to the register it had been incorporated in 1903, but the overview only holds information from 1979, the same year that the Georgia Guide Stones were being designed. Its name was changed in June 1991, four months after the Gulf War ended and again in November 2001, two months after the World Trade Centre disaster. I suspect IDF stands for Israeli Defence Forces.

Simon Fraser of IDF Group links to Hewlett-Packard CDS Limited. Hewlett Packard had purchased Electronic Data Systems (EDS) that had been the company used to create and manage the register for the UKs Driver and Vehicle Licence Agency (DVLA) and as enquiries continued into the fraud, the DVLA refused to confirm information about the companies behind it register and Companies House appeared to hide information about EDS as it dissolved and the CEO for the DVLA changed. The DVLA eventually confirmed that it had been using EDS, but refused to state which company it now uses. EDS companies link quickly to Donald Trumps Stargate Project and EDS (Electronic Data Systems) Limited of 'Amen corner' was incorporated in 1984, dissolved in 2012, appears to have a forged incorporation document and links to the same companies in the fraud research. This appears to be part of the sinister criminal system and data fraud by the Governments and their organisations.

Link to EDS (Electronic Data Systems) Limited Companies House record: https://find-and-update.company-information.service.gov.uk/company/01799287

Timothy Mason of the IDF Group connects to radiation as well as health related companies and to Eurest Defence Support Limited, a company incorporporated in 1989, the same year that the World Wide Web was created for CERN. Its name was changed in March 2001, four months before Larry Silverstein purchased the lease for the World Trade Centre and again for the last

time in July 2002, after the Wolrd Trade Centre disaster. Stephen Buesden of this company links to The Chine (Bournemouth) Freehold, which then makes connections all around Exbourne Manor Freehold Limite meaning it links into criminal weapons and fraudulent Government defence contracts.

Graham Parrot of IDF Group connects to Cancer Research UK Pension Trustee Limited, many television companies and Sky Limited a criminal organisation started with the same two Companies as Exbourne Manor Freehold Limited. Sky companies make links to AL-Fayad.

David Stevens of IDF Group links to Siemens Rail Automation Limited and Glasxosmithkline International Limited incorporated in 1988, a year before the creation off the Word Wide Web for CERN and a criminal organisation. Both of these companies are very important in the crimes against humanity.

Referring back to Nova Batida Festivals Limited, Denis Desmond links to Isle of White Festival Limited, 'Santas' Kingdom (Scotland) Limited based in Edinburgh, Santa being one letter short of being able to make the word Satan. A tradition for parents to lie to their children, tell them to not lie and then admit that they have being lying as there is no Santa and it was them all along. Geoffrey Ellis of this company connects to Unholy Alliance and Concert Promoters Association (The) and Paul Fenn of this company connects to Ingenious Entertainment VCT PLC with many film companies shown throughout the fraud on its incorporation document. Patrick Mckenna of this company connects to Evelyn Partners that had been linked to Rishi Sunak as mentioned later and Mckenna connects to Ingenious Film Partners 2 LLP, the company that links all areas of the fraud and is shown on the incorporation document of The Royal Foundation for the Prince and Princess of Wales.

Robert Storer of the Ingenious company links to Five Girls Limited that appears to have a forged incorporation document and links to Waterlows with a name of Ian Saunders linking various areas of the fraud. Richard Harris of this company connects to 'Ruby Shoes Productions', Annie Lennox Limited and Spice Girls Limited that has ICC Company Formations that had already featured in the research for Robert Maxwell.

I had publicised the evidence regarding what I suspect was staged theatrical attack in Israel due to an increase in rhetoric by Donald Trump demanding that all Hostages are released by Hamas within two weeks or 'all hell would break loose'. I started to publicise this evidence on 12th January 2025. On around 16th January 2025 as I continue to release the evidence, there is a sudden agreement made to release hostages for the first time since the conflict began.

Within a few days of me releasing the evidence of the Spice Girls, David Beckham is at a World Economic Forum meeting and becomes the ambassador for children.

I Have since received information that Victoria Beckham had distant German relations who linked to the Marx Brothers and Communism. Victorias Secrets is a Lingerie company taken over by Jeffrey Epsteins associate Les Wexner in 1982 as shown in the previous research. Victoria Beckham took part in show called Victorias Secrets in 2000.

South Bank is linked to Vivian Duffield, the only director on the Jewish Community Centre UK company that has an address in Geneva Switzerland.

Referring back to the research regarding the Israel attack, Robert Balantine of Concert Promoters Association Limited lThe) connects to Manchester City F.C and Daniel Betesh to Manchester Music Limited. According to the research The Manchester Arena Bombing happened seventeen days after the important Fleming Co Limited company was incorporated and that links several World leaders that are supposedly at risk of war.

The Manchester Arena Bombing and Qatar Investment Authority

Searching for the Manchester Arena reveals company Manchester Arena GP Limited that was incorporated in 2006 and dissolved on 6th March 2018. It had also changed its name in 2010 and has many companies shown on its incorporation document including Astrazeneca US Investments Limited and Christian Communication Partnership Limited, but predominantly many Canary Wharf companies.

Canary Wharf Group PLC owns Canary Wharf and Morgan Stanley was heavily involved and Morgans Stanley was started by a member of JP Morgans family. Importantly it was taken over by Brookfield Properties and Qatar Investment Authority, which links to the associate of King Charles, the leader of Qatar, Tamim Bin Hammed Al Thani who was educated in Sherborne Dorset and connects to Harrods and therefore possibly the death of Princess Diana. More on this later.

Canary Wharf Group PLC was incorporated as Dolphin Cove PLC on 30th March 2001, less than four months before Larry Silverstein purchased the lease for the World Trade Centre. Its name was changed to New Canary Wharf on 15th October 2001 just over a month after the disaster and then again 4th December 2001. It is still an active company and has not changed its name since. Its incorporation document states that the company is New Canary Wharf, but is dated in January 2001. This means the register has been forged and the company should not have been trading.

Cwg Newco Limited became the significant company of control in 2016 and been incorporated in 2015 and the leader of Qatar, Tamim Bin Hammed Al Thani appears to be one of its directors. Canary Wharf Group Investment Holdings PLC is its significant company of control, has appears to have Tamim Bin Hammed Al Thani as a director and is a criminal company incorporated with Swift Incorporations Limited and Jordans Limited, the same Companies as Exbourne Manor Freehold Limited. Khalifa Jassim Mohammed AL-KUWARI of this company connects to two Harrods companies.

Companies House and Siemens

Companies House had been founded in 1844 and three years later German company Siemens was founded. Information suggests Siemens was linked to the Nazi regime and had set aside $50 million annually in bribery to expand its technology empire around the world. It has been significantly involved in the cell towers and the hadron colliders and links to Elon Musk as mentioned later.

Link to Siemens Wiki:

In 1953 Queen Elizabeth was coronated and according the research the MK Ultra programme began incvolving the intelligence agencies and having stemmed from Operation Paperclip in the 1940's from the Nazi regime. The research suggets MK Uktra ceased in 1973 and changed to being called MK Search.

A year later in 1954, CERN was founded and a document titled Silent Weapons of Quiet Wars appears to have detailed how the Rothschilds and those running the system would use sinister control methods against the masses.

In 1962 Siemens PLC was incorporated on Companies House. This is a fraudulent criminal company with a completely different name on the incorporation document and the register has been forged. This is around the same time that the infiltration of the real Royal family appears to have taken place.

Link to Siemens PLC Companies House record: https://find-and-update.company-information.service.gov.uk/company/00727817

The forgery of Siemens and any other company means that anything is has done since the register was forged is illegal under the Governments own supposed Laws.

The research regarding the Elm Guest House was specifically identified when researching my wifes friend and employee connections, which led to criminal United Nations Companies and to CERN the hadron collider, mentioned throughout the document.

Link to Elm Guest House enquiry Wiki: https://en.wikipedia.org/wiki/Elm_Guest_House_hoax

Siemens appears to link to deliberate experimental torture techniques on the masses. This appears to have been initially under Nazi regime connected Operation Paperclip and the MK Ultra programme that changed its name to MK Search.

Companies House research of MK Search links to David Cameron via Stanley Davis Group and to a Masonic Hall in Gillingham, my previous school and Watermans Companies, as shown elsewhere in the document.

The research from the Waterman companies link quickly to Olympic Games and large football Club companies, including a David Beckham company and from Rapid Response companies and to my wifes family connections to Exbourne Manor. This is despite me having had no connections in Dorset prior to moving there and it being over three hours away from Kent, as shown elsewhere in the document.

David Cameron

David Cameron is heavily implicated in the fraud via the Greensill Scandal, The Post Office scandal, having privatised the Post Office, Illumina and more. He had overseen the 2012 Olympics, with the Olympics being part of the fraud.
His Grandfather, Donald Cameron appears to have been part of Operation Paperclip that links to NASA, The Fleming family, Hitler and Walt Disney via Wherner Von Braun mentioned elsewhere in the document.

Government Issued Radios

The MK Ultra research document also shows research in relation to Government issued radios for emergency workers and the military. I decided to research this, particularly as it appeared that many had exploded across Lebanon in September 2024, as the exposure continued as a potential test of World wide planned attack.

https://www.bbc.com/news/articles/cj6ezre8xr4o

The research shows that Israeli Spyware company Pegasus links quickly to the research of Airwaves, that is associated to emergency workers radios.

Pegasus is spyware developed by the Israeli cyber-arms company NSO Group that is designed to be covertly and remotely installed on mobile phones running iOS and Android

As of September 2023, Pegasus operators were able to remotely install the spyware on iOS versions through 16.6 using a zero-click exploit.[4] While the capabilities of Pegasus may vary over time due to software updates, Pegasus is generally capable of reading text messages, call snooping, collecting passwords, location tracking, accessing the target device's microphone and camera, and harvesting information from apps.

The Companies House research shows as follows:

Pegasus Limited had hidden all directors on Companies House as had Pegasus Worldwide Holdings Investments Limited that had been incorporated in October 2022, as I was making enquiries within Exbourne Manor. It has an address of Vistra in the Virgin Islands and HMRC of FCLS Group Limited of an address in Bristol on its documents. Vistra Limited is the main company in the fraud, having originally been incorporated as Jordan & Sons and HMRC obviously refers to Her Majesty's Revenue and Customs, immediately proving that the tax system is criminal. This suggests that this plan was being expedited as they knew they would be fully exposed and may have problems from innocent members of the services that may try to prevent the agenda.

Another with company number OEO07793 was registered as an overseas company in December 2022, the same month I made the first report to Action Fraud, that have also now been established as part of the fraud. This had an address in Scotland and changed its name to Pegasus 'Airwave' Limited in 1985. I was aware, having been in the Police, that in around 2007, the radios that the Police used changed to Airwave and that we were unsure about the health implications and had so sign what seemed to be some kind of disclaimer. This company is criminal with Jordan & Sons Limited and Mavis June Latter on its incorporation document, the same name that links various areas of the fraud including to Mohammed Al-Fayed via Harrods.

Edwin Butterfield of Pegasus Limited connects to Island Harbour Residents with an address on the Isle of Wight. Butterfield also connects to Talley (Asia) Limited of an address in Hampshire and Gerard Boyle of that company, with an address in Wales to Nightingale Care Beds, suggesting a possible connection to the Nightingale Hospitals that had been set up for the COVID outbreak.

Robert Brodie of Talley (Asia) Limited connects to various 'Dragon2023' companies, possibly relating to the Dragonfire agenda, as mentioned surrounding the Nicola Bulley Case. Brodie also connects to various health companies and to Aspire Technology Group Ltd. This company had a registered address of Teccare in Lymington, Hampshire and has Companies Made Simple on its incorporation document.

Robert Thornton of Aspire Technology Group Ltd connects to The London Clinic of Dermatology (Properties) Limited incorporated in 2000 as Elite Construction Services Limited. The people running the criminal system appear to like to refer to themselves as the Elite.

Edwin Butterfield of Talley (Asia) also connects to Talley Group Limited, incorporated in 1953 as Talley Surgical Instruments Limited, making a potentially sinister connection. It has a forged register.

Referring back to Pegasus Limited, Huntliegh Healthcare Limited is shown as a company of significant control from 30th June 2016, two months before the supposed Satanic ritual as CERN. This was incorporated in 1968, a year before Charles became the Prince of Wales and appears to have a forged incorporation document.

Richard Newbury of this company connects to Huntleigh International Holdings Limited, incorporated in 1992, as the Companies House register is being made electronic and it is a criminal company incorporated with the same companies as Exbourne Manor Freehold Limited.

There are several other criminal Huntleigh companies connected and Huntleigh Direct PLC was incorporated in 1996 and has Nigel Leonard Blood of the London Law Agency is on its incorporation document.

Huntleigh Direct PLC was incorporated had a registered address of 1 Dorset Street, Southampton, Hampshire, used throughout the fraud and Julian Schild links this company to Ingenious Film Partners 2 LLP. Cobbets Limited is shown in the people record.

Cobbets Limited had appointments to Timan Oil & Gas PLC and Deutscher Anwaltverein In Grossbritannien Limited and Jan Klaus Hoppe of this company connects to International Group

of Accountants and Lawyers Ltd. Accountants and Lawyers are essential to maintain the illusion and ensure the fraud continues.

David Holt of the Deutscher company connects to Bates Wells Braithwaite (Subury) LLP, making a seemingly German connection to this important company featured on The Royal Foundation of the Prince and Princess of Wales and Satanic Doomsday Cult.

The Lancashire Partnership Against Crime Limited is shown as an appointment for Cobbets Limited making an important connection from the research of the radio systems and The Christchurch Earthquake to the case of Nicola Bulley.

Former Lancashire Police and Crime Commissioner (PCC) Andrew Snowden is shown as a director for this company from 1997 until 2000. Assistant Chief Constables John Vine and Chief Constable Wendy Walker are also connected with Walker having resigned in August 2011, just over a month before Jimmy Savile supposedly died.

Wendy Walker is connected to JSSC Limited that has a registered address of 1 'Temple' Way Bristol, that was incorporated in August 2017 and Janette Berry of this company connects to Domestic Abuse Volunteer Support Services, supporting the concern of the infiltration of the family units through the Police and connecting to the child trafficking network and Tony Blairs publications in 2006.

Berry also connects to Airwave Application Services Limited, incorporated in April 2002 and having dissolved in 2023 as the exposure continued. German Oscan Henken of this company connects to Motorola Solutions Overseas Limited where they were a director from April 2019, three months before Jeffrey Epstein was arrested, until 2023. This has Eversheds LLP on its incorporation document.

Henken also connects to Motorola Solutions UK Limited that had been incorporated in 1967, the year after the foundation of The Church of Satan and changed its name for the first time in 2011 and two more times that year, the same year as Jimmy Saviles supposed death. Its name has not changed since and it has a forged register with the incorporation document displaying Motorolasemi Conductors Limited and a name of Victor Kopidlansky. I remember that our Police radios were made by Motorola.

Kenken also connects to Airwave Solutions Limited, incorporated at BT Wireless Limited in 2000, changing its name in March 2001, four months prior to Larry Silverstein acquiring the lease for the The World Trade Centre, to BT Sixty-Six Limited, possibly a reference to 1966, when the Church of Satan was founded and The World Trade Centre was conceived. It changed its name again on 6th September 2001, five days before the disaster, to Airwave O2 Limited and

again in 2007 to Airwave Safety Communications Limited the same time that I purchased a property at Exbourne Manor and around the same time the new radio system began in the Police.

Rachael Davidson of Airwaves Solutions Limited connects to National Grid UK Limited incorporated in 2002 and that links quickly to the fraud, Donald Trump, Jimmy Savile via the Outward Bound company, Freemasons, Royal Family members and an apparent threat from directed energy via CMS Cameron Mckenna on its incorporation document.

According to the register, Kylee Dickie of National Grid UK Limited connects to National Gas Metering Limited, that was incorporated in 1999, the year of the re-establishment of The Church of Satan appearing to have a forged incorporation document and connecting to the fraud by name Dunstana Davies of Waterlow Secretaries Limited on its incorporation document.

Megan Barnes of this company connects to other International Grid Companies supportin that the threat from directed energy and its link to child trafficking is world wide.

After having publicised a video regarding my concerns with the radios in January 2025, a video was posted on Tik-Tok by on around 25th January, by someone specifically trying to undermine the evidence that I had shown. This was someone from a company called Hi Tech Investigations and they appeared to have twenty eight thousand followers.

Companies House showed a Hi Tech Investigations Ltd of an address in Birmingham having been incorporated in on 23rd June 2023, four months before the Israel attacks and as I continued the exposure. At the time of this research it is in the process of applying to strike from the register. Matthew Mullins of a date of birth of January 1984 is the only person ass0ciated with the company. A duplicate name record on a separate search within Companies House shows a connection to Foggerz Ltd company number 12583852 that has Companies Made Simple on its incorporation document, an important company in the fraud.

I publicised this information regarding Hi-Tech Investigations and have heard nothing since

The US Helicopter Crash

On 10th April 2025, I was researching my wifes friend Leanne Hawksworth who worked at Siemens in Bournemouth. The next day, as I was releasing evidence suggesting Trump, Netanyahu and the leader of Iran were linked to fraud, I heard about a helicopter crash having taken place in America on 10th, after I had been researching Leanne and where a Siemens CEO, his wife and three children had supposedly died.

Link to article of helicopter crash: https://www.bbc.co.uk/news/articles/c74nq1d27wvo.amp

I found the circumstances of the crash to be suspicious and suspected it was related to my previous exposure, where I had focussed on Siemens. I mentioned my suspicions regarding the crash and long on 12th April a video by someone called Dave Fishwick appeared on my feed. It appeared that the video was aimed at making anyone believe that the crash was an accident, but I found it even more suspicious so researched Fishwick.

Fishwicks Facebook profile showed that he was associated to Bank on Dave and football clubs. Bank on Dave was incorporated on 27th July 2012, twenty three days after CERN supposedly discovered the God Particle. It was incorporated with the Formationscompany.com, the same company that had connected, Trump, Netanyahu and the leader of Iran to Fleming Co Limited and the fraud.

Burnley Savings and Loans Limited was also connected to Fishwick and had been incorporated in May 2011, five months before Jimmy Savile supposedly died. It had JMW Solicitors on its incorporation document that had already featured in the research surrounding the fire in Hampshire.

Christopher Moss of the company connected to Vega Suisse consulting Limited, making an important Switzerland connection and to JMW Solicitors Limited. JMW Solicitors had been incorporated in 2008 and appeared to have a forged incorporation document. Michael James Blood is shown as being a director for the company from 2015 and connected to Blue Blood Limited. Blue Blood Limited had already featured in the research from the cell tower overlooking Fort William and in the research of the apparent murder of children at Haut De La Gerenne.

Joanne Marsh of JMW Solicitors links to The Fusiliers Museum and Learning Centre Limited, incorporated in 2003 and having Daniel James Dwyer of D & D Law Agency Services Limited on its incorporation document. These connect to Tommy Robinson and the research regarding The Satanic Temple United Kingdom company.

Peter Orlic of JMW Solicitors connects to The British-Serbian Chamber of Commerce and Reed Smith LLP that had already featured in the fraud. This Serbian connection is important due to its proximity to Israel and the other connections made.*

Adam Wayne Tailor of JMW Solicitors connects to CKFT (Hampstead) LLP that is the area of the Hampstead child abuse enquiry. Stanley Davis Group was on the incorporation document that is a key company throughout the fraud.

Graham Kaye of the CKFT company connects to an Invicta Film Partnership company that features throughout the fraud and closely to The Satanic Temple United Kingdom and many other ominous film companies. It was incorporated in 2007 and dissolved in 2023.

Retired Lieutenant Colonel Eric Davidson that had been a director of The Fusiliers company from 2008 until June 2022, connects to The Bury Masonic Association Limited.

Keith Arrowsmith of JMW Solicitors connects to Independent Safeguarding Office, Kings Active Foundation and Supermarkets Investments UK (No 32) Limited. All Supermarkets are centralised to the fraud.

When searching for the New York Helicopter company linked to the crash, Pegasus Helicopter Group Limited appeared in the search. This has been incorporated as Pegasus Helicopter Group PLC. Pegasus companies feature throughout the fraud and is also an Israeli spyware that infiltrates devices illegally.

Pegasus Helicopters has SLC Registrars Limited in its people record and within it El Rothschild Limited is shown, which was incorporated on 4th September 2002, almost a year to the day after The World Trade Centre disaster and has a registered address of 71 Queen Victoria Street that features throughout the fraud. Lady Lyn Forrester De Rothschild of this company links to Travers Smith Secretaries Limited and they connect to Officeteam Group Limited. This is important as Officeteam Group 2 had already featured at key points throughout the fraud.

On April 4th 2025 I had released evidence of The Satanic Temple United Kingdom, which included connections being made to Qatar Investments Holdings and the leady of Qatar, Tamim Bin Hammed Al Thani. I established that they also had acquired a stake in Siemens in 2012, a key year due to the events at CERN.

This all prompted further research into Leanne and Siemens, which resulted in crucial evidence being acquired.

On researching the Nursery where Lisa had worked when we first met, it claims to be called Little Stars, but Companies House shows a company called Little Stars Education Ltd and having an address a few roads away in Church Road, Poole. Richard Allen & Associates of that address is shown on the incorporation document.

Antonia Aloisia Ann Richard connects Allen Associates Limited to Kalmax Limited that was incorporated as Richard & Gaten Limited in 1955, the same year that the relevant Walt Disney Resort opened in America. The Grenfell Tower and what I now suspect was a deliberate fire by the Government and their organisations.

Hugh Whitbread of the Skinner's Academy connects to Whitbread companies including the Whitbread Pension trustees that connects immediately to the research of the Monks Investment Trust Public Limited Company (The) Karl Sternberg, that is shown on page 40 of The Royal Foundation for The Prince and Princess of Wales and where Sternberg also connects to various JP Morgan Morgan Companies and The Russian Government.

The school where my Wife, Lisa and her friends had attended was called Twynham in Christchurch. Twynham Learning had originally been incorporated as Twynham School from March 2011 to 2015 and was a criminal company having been incorporated by the London Law Agency. 2011 was a year or so after my Wife and I had moved to Christchurch. Christ Church is also the name of the School where The Hampstead Child Abuse enquiry relates and the name of the Church that my Wifes Grandparents had attended in Westbourne and that connects to Deborah Fleming by The Wessex Partnership.

TWYNHAM LEARNING overview - Find and update company information - GOV.UK

Adam Kenneth Bingham Scott of Twynham Learning connects to Humphries Kirk LLP, the same company that features on the incorporation document for Burmuda Triangle Limited, a company for which my Wifes Uncle, Adrian Windsor is a director. This is a Public House based in Ashley Cross, Poole, two minutes walk from where My Wife and her Father had moved shortly after we were first introduced. Humphries Kirk LLP was incorporated in 2010 and is a criminal company with The London Law Agency on its incorporation document.

Justin Martin of Humphries LLP had been appointed as a director for Somerset Province Masonic Trust Limited (The) in October 2012 and that had been incorporated in 1933.

Peter North of Humphries Kirk LLP links to Bank and Clients PLC, a company that was incorporated in 1970, the year before the WEF started, and dissolved on 4th April 2025, as the exposure continued. It has an address of King Street, Manchester and had interesting previous names including Virgin Bank PLC and Virgin Bank Limited at key years from 2010 to 2012. It is a criminal company with The London Law Agency on its incorporation document.

Information had already suggested that the leader of Qatar, Tamin Bin Hamad Al Thani, had been educated in Sherborne Dorset and I was aware that my wifes previous employer, Charles Sherwin had a dental surgery in Sherborne. My Wife had worked as Nanny for Sherwins two children for a period of time when we were together and I recalled that she had told me that she

had bathed with them naked and I was concerned, but I was wasn't aware of everything else and she assured me it was innocent. Sherwins wife had worked as an Oncology Consultant at Southampton Hospital where Deborah Fleming had been the NHS CEO and they had lived in an affluent area called Lilliput, not far from Sandbanks that I had been informed was the fourth most expensive place to live in the World at one point. I decided to conduct further enquiries and established that Sherwins Sherborne Surgery appeared to be called Brooklyn House.

Companies House shows that a Brooklyn House Practice LLP was incorporated in 2007, but had a registered address on its overview in Great Yarmouth. Peter Pienaar of this company was shown as a director for Treasure Island Kids Limited Liability Partnership from 2007 and that the company had been incorporated in 2003. Research of Steven Pienaar connects to novel Island of Sheep and appears to be another mockery to humanity and creation.

Peter Pienaar - Wikipedia https://share.google/IvtlmZ7xi6MVmYoz8

Richard Abel connects Treasure Island Kids Limited Liability Partnership to Bristol and London PLC that was in liquidation and to Owen Film Partnership LLP that had dissolved on 11th January 2022, as I was starting to make enquiries at Exbourne Manor and had Turcan Connell as its registered office. These companies had already featured in the research of The Satanic Temple United Kingdom and link closely to 'Betts' companies.

Abel also connects to Bristol and London Accident Management Limited that had been incorporated in March 2002, not long after The World Trade Centre disaster and dissolved in May 2022, two months before Anthony Roberts of Exbourne Manor Freehold Limited resigned. This suggests the management of potentially large scale 'accidents' in London had been corrupted by the infiltrated Satanic cult.

Steven Andrews connects Treasure Island Kids Limited Liability Partnership to Chambers Independent Financial Advisors Limited that was incorporated in 1993 and was in liquidation at the time of the research.

Nicholas Haigh connects Treasure Island Kids Limited Liability Partnership to Royal Ocean Racing Club Limited making a Royal connection.

Its name had previously been changed at key times, including on 16th July 2001, eight days before Larry Silverstein purchased the lease for the World Trade Centre, December 2009, three months after The Royal Foundation for the Prince and Princess of Wales was incorporated and October 2012 when it had been called Blue Fin Corporate Consulting Limited, after the events at CERN. It did not change its name again.

Capita (D1) Limited had been incorporated in 1990, dissolved in October2022 and has Sunder Mansukhani on its incorporation document and makes connections to Office Group companies and features on the research from The Satanic Temple United Kingdom.

Richard Mansey connects Treasure Island Kids Limited Liability Partnership to Poultons Properties Limited, incorporated in February 2002 and with an address of Poultons Park in Hampshire.

Sarah Mancey of Poultons Properties Limited to King Edward IV School Southampton that was incorporated in June 2001, a month before Larry Silverstein acquired the lease for The World Trade Centre and has Veale Wasbrough on its incorporation document, a company that had featured from the research of the apparent murder of children at Haut De Le Gerenne and linking to Jimmy Savile. The incorporation document appears to have been altered for Robert Charles Niddrie that has Southampton Handling Cargo PLC, a Broadcasting Charitable Company and another company of what looks like Bournemouth Orchestras that has been crossed out. I suspect these alterations were made as the exposure continued. Sonia Poulton had been colluding with Anthony Roberts of Exbourne Manor Freehold Limited and trying undermine the irrefutable evidence of the Fraud.

Sarah Mancey also connects to Poulton Parks Limited to The British Association of Leisure Parks, Piers and Attractions Limited. This company makes important connections to Blackpool Pleasure Beach, Walt Disney, Hitler, The Flemings and the potential murder of the real heirs to the UK throne in the late 1950's to early 60's as part of the fraud.

Daryll Scott connects Treasure Island Kids Limited Liability Partnership to Neuro Agency Limited, LL Technology Partners LLP and Use Your Noggin Limited. These appear to make connections to the possible plan involving Neuro technology to lead to Transhumanism. At around the same time as me acquiring this information a device called a Noggin was being advertised on Tik Tok suggesting they could trap the conscience in a virtual World. Research regarding this suggested it was a gimmick for a new Black Mirror series about to air and had been produced by Charlie Brooker as shown from the research of the Satanic Temple United Kingdom.

Paul Suter connects Treasure Island Kids Limited Liability Partnership to Atlas Topco Limited and Atlas Bidco Limited possibly referring to the ATLAS experiment at CERN in 2012. Atlas Topco Limited has Cfn Apex Bidco Limited was its company of significant control from November 2024.

When searching Cfn Apex Bidco Limited separately it was incorporated in October 2024 and has Cfn Apex Topco Limited as its company of significant control.

When searching Cfn Apex Topco Limited separately it was also incorporated in October 2024 and has Cityfleet Networks Limited as its company of significant control.

When searching Cityfleet Networks Limited separately, it was incorporated on 17th July 2001, a week before Larry Silverstein acquired the lease for the World Trade Centre. It is based in Aberdeen and claims to be a taxi operator. William Alexander of this company connects to 118 Randolph Avenue Limited and has an address almost identical to the important Fleming linked company, CAPB Limited. On its incorporation document is the namE Howard Thomas of 70 /74 City Road, London that features throughout the fraud.

Jason Reader of 118 Randolph Avenue Limited has an address of 21St Thomas Street, Bristol that had already been connected to Jodans Limited and he links to South Atlantic (nominees) Limited with an address of 50 Broadway, the same address on the incorporation document for The Association of Police and Crime Commissioners closely connected to Jimmy Savile. Reader also links to various Vistra Companies, the new name used for Jordans, and to ‘Domesday’ Investments and Playboy TV UK Limited that was incorporated in 1989, the same year that the World Wide Web was created for CERN and dissolved in December 2024, as the exposure continued.

Research shows that the group involved in the Atlas Experiment at CERN was formed in 1992, the same year that the Companies House register started to become electronic and that Craigmore Dairy LLP was its subsidiary. A search of this company on Google followed by 'Companies House' reveals Craigmore Research Limited with the same address as CAPB Limited again. This confirms a connection from my wifes former employee to The Flemings, the ATLAS experiment at CERN in 2012 and to the Vatican via the CERN CEO from 2016, Fabiola Gionotti.

Link to ATLAS experiment Wiki: ATLAS experiment:

Referring back to David Fishwick, he was also a director for The British Helicopter Association Limited until 2006. This company was incorporated in January 1969, the same year that Charles became The Prince of Wales and its register has been forged.

Research from my Wifes Fathers associate, Fredrick William Schwyn, shows that he was a director of Helicopter & Aviation Services Limited from August 2016, the same month as the apparent Satanic ritual at CERN and resigned in July 2020. The company was incorporated in 1983 as Wyvern Air Services Limited and changed its name to Universal Airways (UK) Limited in 1986. Howard Thomas of 70 / 74 City Road, London is on its incorporation document, the same details as on the incorporation document for 118 Randolph and making the connections to the ATLAS experiment at CERN.

Schwyn connects quickly to Exbourne Manor Freehold Limited and my wifes Father by the research on Companies House. Schwyn was a director for Walkwild Limited with an address of 270 to 274 Ashley Road, Parkstone, Poole the same address where my Wife and her Father had lived. This company is criminal having been incorporated with Swift Incorporations Limited and Jordans Limited, the same used to incorporate Exbourne Manor Freehold Limited. Peter Bennett of this company connects to Clendonian Court with an address of Lansdowne House, Christchurch Road, Bournemouth. This makes connections to directors of Exbourne Manor including Dyanne Bisson (alias Bisson-Simmonds) and to House & Sons that features throughout the fraud and is minutes walk from Exbourne Manor.

Richard Whiteley of the Treasure Island company connects to A.I (Leisure) Limited appearing to make reference to Artificial Intelligence and to The Elm Trust. This was incorporated in 2005 and claims on its incorporation document that Jane Ritchie is a Local Government Officer. I suspect this company makes reference to the Elm Guest House Scandal in which allegations were made of child abuse and murder involving high officials and where the witnesses were convicted instead.

Jane Ritchie of the company makes connections to Work Place (Aycliffe) Limited, in County Durham where the Archbishop of Canterbury had previously worked. Brian Mccafferty of this company connects to Motherwell Football and Athletic Club Limited (The), a fraudulent entity company started in 1904. Mccafferty also connects to Young Enterprise that had been incorporated in 1962 by Slaughter & May a fraudulent entity company started in 1954, the same year that CERN was founded.

Gerard Moran of Work Place (Aycliffe) Limited connects to various religious establishments including Diocese of Middlesbrough Trustee, Hexham and Newcastle Catholic Partnership and Romero Catholic Education Trust.

Emma Jane Varley of the Elm Trust connects to York Professionals of Azets, Monks Cross Drive that was incorporated on 12th February 2001, almost seven months to the day prior to The World Trade Centre disaster. York and North Yorkshire Chamber of Commerce is shown on its incorporation document and all Chambers of Commerce appear to be involved in the fraud. Azets is already associated to Paul Williams of World Trade Centre (Holdings) Limited of an address in Hampshire, as previously mentioned.

Simon Hudson of York Professionals is linked to Soapy Productions and Events Limited, originally incorporated as The Little Man Limited in June 2012, I suspect as another mockery to the masses and changed its name in September 2024, as the exposure continued.

Jane Johnston of York Professionals connects to Cube Media Limited, a company incorporated as The Old Dairy Studios Limited in 1990 before changing its name in February 2002, five months after The World Trade Centre disaster. This is a criminal company with Jordan & Sons Limited and a name of Wendy Epstein on its incorporation document. I suspect ‘Cube’ refers to the Cube of Satan Cult.

Susan Morris of Cube Media connects to York Theatre Royal Enterprises Ltd that was incorporated in 1994 as York Theatre Royal Catering Services Limited and changed its name in December 2012. It is a criminal company incorporated with Swift Incorporations Limited and Jordan & Sons Limited, the same companies as Exbourne Manor Freehold Limited.

Nicholas Rust of this company links to Equestrian companies and Redcar Racecourse Limited, making reference to the Tees Valley area and it has a forged register and changed its name on the lead up to the World Trade Centre disaster in 1996.

Johanne Spittle of York Professionals was a director of United Nations Association International Service from January to March 2014. This company was incorporated in November 1997, four years before the World Trade Centre disaster and has British Taxpayers Association of an address

in Oxford on its incorporation document. It also shows Michael Irwin as a Physician and former U.N Official on its incorporation document.

Research shows that the United Nations had formed as a result to the League of Nations and US President Woodrow Wilsons involvement around the time of World War One. Prior to this, Woodrows first Major Priority as US President had been the Revenue Act of 2013 and that led to modern income tax and the federal reserve system. According to the research, in 1917, Woodrow tried to declare war on Germany as this was the same year as the Balfour Declaration involving the Rothschild's that fomented what we are led to believe is Israel and its religious history. It is now evident that this was an International deceptive collaboration against the masses, leading to where we are today and involving a very sinister group of people appearing to try and bring about the 'light of Lucifer' as detailed in The letter written by Albert Pike.

British Tax Payers Association Limited, shown on the United Nations company incorporation document, was incorporated in 1930 and appears to have a forged incorporation document with Waterlow & Sons Limited at the bottom. Geoffrey Martin Adams of this company connects to Civil Investigation of Fraud Limited.

Steven Michael Allen of British Tax Payers Association Limited connects to Halo Hr Limited that dissolved in 2023 and Halo Services Limited is shown on Page 40 of the incorporation document for The Royal Foundation for The Prince and Princess of Wales company that links all areas of the fraud to entertainment industry and The Satanic Temple United Kingdom.

Natasha Jones that had been a director for Halo Hr Limited for only three months in 2016, links to Soul-Preneurs Ltd that dissolved in 2023 having been incorporated in June 2019, the month before Jeffrey Epstein was supposedly arrested.

The incorporation document for this company shows ICC Company Formation that connects to the research of Robert Maxwell.

David Pugh of British Tax Payers Association Limited connects to Every Youth that was incorporated in May 2022 as I am making enquiries with Exbourne Manor Freehold Limited. It

has Eversheds Sutherland (International) LLP on its incorporation document and Evershed companies feature throughout the fraud and often closely to Police related companies.

Sian Edwards of Every Youth connects to Carers Worldwide, a company incorporated in May 2012. It appears to have a forged incorporation document with the removal of a name and another name of Anil Kumar Patil further down on the document. When searched separately this name has a duplicate record leading to Basic Needs Trustees Limited.

Basic Needs Trustees Limited was incorporated in November 2009, dissolved in March 2022 and is a criminal company with The London Law Agency on its incorporation document. William Godfrey of this company connects to Sheffield & District Society of Chartered Accountants where they were a director from May 2000 until May 2002.

Roger Avon of Basic Needs Limited connects to Contesa that was incorporated in 2004 and dissolved in 2023. Lilian Avon of 20a Parkwood Road, Bournemouth that is used in the fraud, connects to Bournemouth Litery Festival and Spectrum Premier Homes Limited that was originally called Western Challenge Services Limited from 1994 to July 2012. This is a criminal company with Jordan & Sons Limited and Lester Aldridge Solicitors of an address in Christchurch on its incorporation document. The document also shows James Telfer of an address in Barton-on-Sea linked to Leicester Build Housing Association and Bryan Wicox of an address of Russell Drive, Bournemouth linked to Riverslea No.1 Management Company Ltd. This last company had featured previously.

Roger Avon also connects to Spectrum Property Ventures Limited, incorporated in 2012 and with Western Challenge Housing Association Ltd of an address of Spinnaker House, Grange Road, Christchurch, Dorset on its incorporation document. Searching this address shows it being right nest to BAE Systems Digital Intelligence and being right near the Grange Estate that I used to Police in Christchurch. When I had started working there in around 2011, I had no idea it had Watermans Park there and during my role I used to work with employees of The Sovereign company if any incidents involved their tenants.

According to its website, The Sovereign Network Group (SNG) was originally founded in 1974, three years after the WEF and formed SNG in 2023 as the exposure continued.

My wifes friend that works at Siemens has a husband called Andrew Hawksworth and according to the information, he started work at Sovereign Housing Association in 2022, but I had not previously realised the significance. I had confided in Leanne and Andrew prior to knowing all of this and had been discussing the important evidence being acquired, including the irrefutable connections to the case of Madeleine Mccann.

Anil Kumar Patil also connects to Disability and Development Partners. Kamala Achu of this company connects to British Overseas NGOS For Development (Bond) that was incorporated in 1997 and has Christian Aid, British and Irish Churches Trust and Crown Agents Foundation Council on its incorporation document. Kirsty Smith was apparently appointed to the British Overseas company in November 2024 and connects to Forgotten Children UK Limited, a company incorporated in 2005 with Exbourne Manor Freehold Limited connected @UKPLC Client Direct and it dissolved in January 2023, as the exposure continued. Smith also links to CBM Christoffel-Blindmission Christian Blind Mission E.V. Many blind associated companies are featured throughout the fraud and could help indicate a plan to make the masses blind as part of the Satanic agenda, as mentioned later.

Anthony Richard of the British Overseas company connects to what appears to be English / French company A.C.O.R.D. (Agency for Co-operation and Research in Development / Association De Cooperation Et De Recherche Pour Le Devoppement). This was incorporated in 1981 and changed its name in 1989. It was dissolving at the time of my research and has Clifford-Turner on its incorporation document that features throughout the fraud.

The National Childrens Bureau has featured at key times in the research and Gordon Bowden had identified that the name Barbara Kahan was connected to elements of the Companies House Fraud and research suggests she was part of the National Childrens Bureau.

The National Childrens Bureau was incorporated on Companies House on 23rd April 1969, less than three months before Charles became the Prince of Wales. It is a fraudulent entity company where its register has been forged. Kahan appears to have died in 2000 with a ceremony being held in January 2001 at Kensington and Chelsea, the area of The Grenfell Tower fire covered later. According to the research Kahan had been involved in the Pindown enquiry of the potential neglect and torture children in the Governments care service.

Jeffrey Epstein / Edge Foundation

On 12th April 2025 I had received information that Jeffrey Epstein had funded The Edge Foundation and I found articles to verify this. This companies links immediately to Siemens as described below.

Link to article on Jeffrey Epstein and The Edge Foundation:
https://www.buzzfeednews.com/article/peteraldhous/jeffrey-epstein-john-brockman-edge-foundation

According to the research Siemens was originally founder in 1847, three years after Companies House had started. Siemens Public Limited Company was incorporated in 1962, four years before the foundation of the Church of Satan. Its register had been forged. Companies House shows that German Banker Georg Von Mallinckrodt resigned as a director in 1993 and links to Schroder PLC, the company associated to Thomas Kingston as mentioned previously.

Link to Siemens PLC: https://find-and-update.company-information.service.gov.uk/company/00727817

Tobias Grant Peyton-Jones had been a director for Siemens Public Limited Company for just over two weeks only in 2013 and connects the company to The Edge Foundation. Peyton-Jones had been a director for the company from May 2013 and resigned in May 2022, as I am making enquiries with Exbourne Manor. The Edge Foundation was incorporated in 1982, two years after the Georgia Guide stones had been erected and representing an upcoming 'man made apocalyptic event'. It had changed its names subtly several times, with one time being in late 1991, just before the Companies House register was initiated to become electronic. It is a criminal organisation with Jordan & Sons Limited on its incorporation document. According to the research, Epstein had also been involved with a company called Liquid Funding Limited.

Christopher Winch had been appointed to Edge Foundation in September 2024 and connects to Lanesbury Management Limited where they had been appointed in September 2012. Keith Woodbridge of this company connects to of Commerce (The) as mentioned previously.

Andrew Stephens of Edge Foundation connects to Suffolk County Football Association, incorporated in 1999 and with Farrer & Co on its incorporation document, the same company on Ghislaine Maxwells company incorporation documents.

Andrew Powell of Edge Foundation connects to Derbyshire Districts Citizen Advice Bureau, all of which appear to be compromised to the fraud and now link to Jeffrey Epstein.

John Unsworth of Edge Foundation connects to Serco Manchester Leisure Limited that was incorporated as Serco-Morrison Limited in May 2001, prior to the World Trade Centre disaster and changed its name for the only time in October 2002, after The World Trade Centre disaster. It is a criminal organisation incorporated with Swift Incorporations Limited and Jordans Limited, the same companies as Exbourne Manor Freehold Limited. Unsworth also links to Serco Investments (Holdings) Limited, another criminal organisation and to Serco Leasing Limited. This company changed its name either side of the World Trade Centre disaster, has an address in Hampshire, Clifford Chance on its incorporation document that connects to the research of Max Clifford and dissolved on 2nd July 2024. This is the same day that The Satanic Temple United Kingdom dissolved and the day I publicised evidence regarding Adrenochrome connecting to the fraud.

Research shows that Serco is a British Multi-national defence, Health, Space, Justice, migration and transport company based in Hampshire. John Rishton was shown as the Chairman of Serco and Rolls Royce that features at key times in the fraud and particularly on the incorporation document for the English-Portuguese Chamber of Commerce that is relevant to the case of Madeleine Mccann. Serco had also been involved in radio, sonar, satellites, atomic weapons, radioactive waste, marine activity at Portsmouth that is heavily linked to the fraud, The Flemings and the apparent infiltrated Satanic cult and appears to be a serious threat to creation. Serco connects to Airbus, which has now almost immediate connections to Elon Musk and my Brother-In-Laws family. Serco is also connected to Skynet, which features in my favourite and very relevant movie, Terminator 2 Judgement day.

Skynet Applied Systems Limited was incorporated on Companies House in 1988, the year before the World Web was created for CERN. It has an address of 128 City Road, London, used throughout the fraud and is a criminal organisation incorporated with Swift Incorporations Limited and Jordan & Sons Limited.

Nicholas Holford connects this company to Logan Place Consultants, with an address of Great Portland Street that features throughout the fraud and appears to have a forged incorporation document and Ian Saunders of Waterlow, a name that features throughout the centralised criminal system. Holdford was also appointed as a director for Goose Productions Limited, either side of the World Trade Centre disaster and Henry Beach of this company connects to Universal Music UK Sound Foundation, resigning in January 2022 and being a resident of Switzerland.

Universal Music UK Sound Foundation was incorporated in 2004 as The Music Sound Foundation and changed its name to EMI Music Sound Foundation within a month. These groups of companies link quickly to the research of the attacks in Israel in October 2023. It has an address of 50 Broadway, London that is on the incorporation for The Association of Police and Crime Commissioners.

Skynet Ltd was incorporated in January 2002, four months after The World Trade Centre disaster and has 788 to 790 Finchley Road, London and Temple Secretaries Limited on its incorporation document. This address is featured on the research by Gordon Bowden linking to International Government fraud. On 5th June 2012, almost a month to the day before CERN discovered the God Particle, the company applied to strike off of the register. Shabbir Bhojani of this company connects to Beamwave Limited, appearing to relate to directed enegy. This company has Barbara Kahan on its incorporation document as featured in Gordon Bowdens research in relation to Government fraud. Bhojani also connects to Crown Imperial Associates with Keith Kahan, another name used in the fraud and 788 to 790 Finchley Road on its incorporation document.

Steven Williams of Crown Imperial Associates connects to South Cheshire Chamber of Commerce and Industry Limited that changed its name in 1995, the same year that the Hakluyt International Advisory Board was incorporated and for the last time in March 2001, four months before Larry Silverstein acquired the lease for the World Trade Centre. Williams also connects to The National Pharmacy Association, incorporated in 1976, five years after the WEF began.

Gordon Farquhar of Crown Imperial Associates links to Boots International Limited and Boots Delivery Services Limited that was incorporated in December 2012 and dissolved on 19th July 2022, six days after Anthony Roberts of Exbourne Manor Freehold Limited resigned and has SDG, referring to Stanley Davis Group on its incorporation document. SDG links to David Cameron and the research of MK Ultra where it seems mass non-consensual experimentation and torture was carried out on the masses, including using pharmaceuticals.

Peter Vincent Marks of Crown Imperial Associates connects to The Co-operative Bank PLC and The Thomas Cook Group PLC that was incorporated in 2007 by Slaughter & May and was

dissolving when the research was conducted. Marks also connects to Co-operative Bank P.L.C., almost identical to the other, but with strategic dots. This is a criminal organisation incorporated in 1970, the year before the WEF began. Information acquired from juila Wandelt, claiming to be Madeleine Mccann, also links to Co-operative Banks.

Martyn Wates of Crown Imperial Associates links to Accountants by Accountants Ltd, incorporated in 2015 with Companies Made Simple and now dissolving. Wates is also connected to numerous funeral companies and I suspect this assists in hiding their crimes against individuals and humanity.

Skynet World Wide Express Management Company Limited was incorporated on 4th July 2001, twenty days before Larry Silverstein acquired the lease for The World Trade Centre and changed its name in April 2002, after the disaster. Pinsent Curtis Biddle is on the incorporation document and have previously been identified as being linked to the fraud.

Skynet Accountancy and Bookkeeping Ltd was incorporated in August 2023 and Yesim Tilley of this company connects to Proptech Aero Ltd incorporated in 2008 as Proptech Portsmouth Ltd. Jane Oakland of this company connects to Island Leisure Holdings Limited and Bond Pearce LLP that has an address of 4 More London Place that features throughout the fraud. Okland also connects to Weymouth Museum Limited. This company is in Dorset, was incorporated in the important year of 1992 and is a criminal company incorporated with Swift Incorporations Limited and Jordan & Sons Limited.

Christine James of the Weymouth company connects to The Veterans Hub-Weymouth and Portland C.I.C., making connections to the forces again.

Margaret Leicester of the Weymouth Museum connects to Safewise (2014) Limited, with an address of Dorset Fire and Rescue and had an original name of Safewise when it was incorporated in 2011. Dorset County Council is on its incorpoation document.

David Harris of Safewise (2014) Limited connects to Safewise that I had already identified as being linked to the fraud by Bournemouth MP Connor Burns. This company was incorporated in 1996 as Dorset Interactive Safety Education Centre Limited and its last registered address of The Old Town Hall, 71 Christchurch Road, Ringwood features throughout the fraud. I recall going to a location during my role in Dorset Police in Elliot Road, Bournemouth regarding this. It is a criminal company with Jordans Limited on its incorporation document. There is also a name of Pope on the document the same surname as my former Sergeant who introduced me to my wife.

Christopher Pope is shown as having several other company connections on page 9 of the document, including being a Commissioner for the Royal Hospital Chelsea.

Research shows that the Prince and Princess of Wales are the patrons to Chelsea Hospital and the Royal Marsden. Research had already connected Exbourne Manor Freehold Limited's Suki Rissnaes to The Royal Marsden Cancer Charity. The Royal Marsden Cancer Campaign was incorporated in December 2002, by Farrer & Co, linking to Ghislaine Maxwell and has several companies including Bank of America associated, Merril Lynch companies on its document.

Several relevant people are shown as former directors for Safewise, including former Dorset Police Crime and Commissioner Martyn Underhill, Police Officer Dirk Aldous, Chief Fire Officer Ben Ansell, possibly related to Nicola Bulleys husband Paul Ansell, Former Dorset Police Chief Constable Martin Baker, NHS Manager Roger Browning, Former MP Connor Burns who had refused to correspond with me regarding the fraud and connects to it through other companies and Chief Fire Officer Martin Chapman.

Peter Dawes of Weymouth Museum links to New Yacht Club of an address in Sandbanks, Dorset that had been incorporated in 1936 and is closely linked to the research of the World Trade Centre disaster and Deborah Fleming and has Waterlow & Sons on its incorporation document. Dawes also connects to multiple BAE Systems companies.

Christopher Mitchell of the Weymouth Museum company connects to Sherborne House Enterprises Limited making further connections back to Sherborne, Dorset.

Referring back to Edge Foundation, Graham Abel connects to HMC-The Heads' Conference that features several times throughout the fraud research including regarding Madeleine Mccann. It was incorporated in 1909 as Headmasters' Conference (The), changed its name in 1996 to The Headmasters' and Headmistresses' Conference and again in 2023, as the exposure continued. It has a forged register and highlights the potential child abuse risk in relation to educational establishments and their connection to the fraud.

Lord Andrew Adonis was a director of Edge Foundation until 2014 and connects to Peoples Vote Policy Limited and European Movement of The United Kingdom until December 2022. This company is already directly connected to The Civil Liberties Trust that is linked to the National Council for Civil Liberties and that was openly affiliated to the Paedophile Information Exchange. As previously mentioned the changes in this company appear significantly important.

On exposing this new and further significant evidence, Siemens PLC changed its name for the first time since its incorporation in 1962, on 1st May 2025, as you can see from its Companies

House overview. Information suggests this was four days before CERN The hadron collider was supposedly reactivated.

Several articles on CERN started emerging, appearing to try and placate any potential risks being exposed. One example is an article from Sustainability Times on 15th May 2025 claiming CERN is turning lead into Gold. Research from Sustainability Times appears to link straight into the fraud.

An article by the IFLScience website on 16th May 2025 claims a recent study found there was no harm to biological matter from cell tower technology. IFLScience links immediately to the fraud via KPMG on its incorporation document as well as multiple quick connections to the same companies being exposed by its directors. Even the articles author, Dr Russell Moul appears to link straight to the main satanic linked fraudulent Companies including The London Law Agency. KPMG was used by the Bournemouth Council for their audit, the location where all of this started being exposed in 2022 and linking to The Flemings.

My wifes Cousin Victoria Proctor is involved in the legal system, has connections in Kent and appears to link quickly to the exact same companies in the fraud and KPMG.

As mentioned throughout the document several members of my family are linked quickly to the fraud and have turned against me. As the evidence continues to be ignored I need to name people publicly in the hope they will do the right thing in exposing this

Many people in my wifes life appear to link quickly to the fraud and Exbourne Manor Freehold Limited, including her Father, Brother Lee Moreton, Auntie Michelle Down via Ringwood

Doctors Surgery, Cousin Melissa Down and husband Jordan, Grandmother Felicity Moreton, Uncle Adrian Windsor, Auntie Lin Proctor, Half sister Charlotte King via Mar-Key, former employee Charles Sherwin via his Sherborne surgery, friend Leanne Hawksworth via Siemens and her Husband Andrew via Sovereign Housing, friend Nathan Adams via Bournemouth Hospital Incinerator, Uncle Jon Davies via Bournemouth Court, Grandfather Barry Windsor via Westbourne Christchurch Church that is linked Deborah Fleming by the Wessex Partnership and her former friends family via Police related vehicle recovery firm GRS.

This is not a personal attack and is to show the true scale of the corruption and linked satanic infiltration. I am hoping that many will have no idea of what they are truly part of and that they will also become victims, so will become part of the solution through the exposure.

The first wireless transmitting tower (cell tower) was erected on the Isle of Wight in Dorset in 1898 by Guglielmo Marconi. This is the same year that De La Rue Holdings, Harrods and Slaughter & May began. Jimmy Savile also had significant involvement in the radio and entertainment industry and is important in this fraud and the associated Satanic cult and The Flemings linking to the Vatican and supposedly dying in 2011, the year before CERN discovered the God Particle.

JP Morgan links significantly to The Flemings and had been involved with Nicholas Tesla and energy production as well as with Marconi.

The Isle of Wight is also where Bob Seely had been an MP until 2024. Early research suggests the Chinese leader is also linked to the same criminal companies in Companies House. We have to consider that this was a collaborative international conspiracy to blame future deaths from the cell towers on the Chinese and visa versa.

CAPB Limited had important connections to the fraud, including to the research of Julian Assange via his alias name of Hawking with possible Egyptian ISIS references.

The Genocide Act

The research of the Genocide Act shows that it was enacted in 1969, the same year that Prince Charles became the Prince of Wales where Companies House is based and who creates the criminal companies through the forgery. The Act also links to 1948, the same year as the Israel / Arab War and many other events that happened the previous year.

The Genocide Act was repealed in the same year as The World Trade Centre disaster, ten days before the disaster in England and six days after the disaster in Scotland, where the Worlds oldest active Freemason Lodge is located. It has to be considered that this Act was repealed in preparation for mass murder by those running the Governments.

Mohammed Al-Fayed and Qata

The United Kingdom Committee for UNICEF company was incorporated in 1998. Its incorporation document shows some interesting information including a director with surname of Fleming, a Citizens Advice company that all appear to be to prevent the frauds exposure at the early stages, the BBC, a company called The Council of The Advancement of Arab-British Understanding and a director from Oxford, where the Maxwells were prominent.

Italian Ugo Arzani connects Harrods Limited to Harrods Group (Holding) Limited and Qatar Investment Authority.

The leader of Qatar, Tamim Bin Hammed Al Thani appears to have close connections to King Charles and according to the research was educated in Sherbourne in Dorset. This becomes important due to the connections made from my wifes former employer, Charles Sherwin linking to important research in the fraud surrounding Siemens, criminal United Nations Companies started with the same companies as Exbourne Manor Freehold Limited, Jimmy Savile and collider technology.

Link to Qatar leader Hamad Al Thanin Wiki: https://en.m.wikipedia.org/wiki/Tamim_bin_Hamad_Al_Thani

Remember, there has been no verification by Companies House since 1844 and even with the new proposals publicised since the fraud was exposed, there are obvious loopholes to allow the fraud to continue. This suggests that false, alias identities are important to them and that they want to continue laundering money and possibly into a hidden collider agenda. With this in mind, we have to consider that Ugo Amaldi who is significant to CERN and Ugo Arzani are the same person.

Other research on Ugo Arzani makes connections to Merrill Lynch (Bank of America) via Linkedin, which has important connections throughout the fraud and to The World Trade Centre disaster in it being the main tenant at the time of the buildings collapse.

Merrill Lynch Bank of America International Limited was incorporated by Slaughter & May in 1971, the same year as the start of the World Economic Forum. It is a fraudulent entity as its register has been forged. It was originally registered as Bank of America International Limited and according to the overview, its name was changed for the first time in March 2001, four months before Larry Silverstein purchased the lease for The World Trade Centre.

Its name was changed again in 2013, the year after CERN discovered the God Particle and it dissolved in January 2019, as it appears the supposed COVID outbreak was being planned. Bank of America Corporation became the significant company of control in 2016, the same year as the apparent ritual at CERN.

Stephen Mccann (Possibly a reference to the case of Madeleine Mccann) connects Merrill Lynch Bank of America International to Carolina Investments that is a criminal company with Jordan & Sons on its incorporation document. It dissolved in 2012, the same year as the supposed discovery of the God particle by CERN). The filing history shows that its registered address was changed from King Edward Street on 7th October 2011, three weeks prior to the supposed death of Jimmy Savile.

Andrew Walsh connects Carolina Investments to Harbour Management Co, with a registered address 3 Durrant Road, Poole, Dorset. This is the same address as Carter and Coley, friends of the Flemings and the accountant being used by Exbourne Manor Freehold Limited appearing to file forged documents. It is a criminal company withNigel Leonard Blood of The London Law Agency is on the incorporation document. This makes immediate connection to CERN via Stephen Hawking and therefore Jeffrey Epstein and almost immediately to Elon Musk. From here there are multiple connections to Exbourne Manor and to the Association of Chief Police Officers of the United Kingdom, Julian Assange and the three families around me.

Referring back to Harrods, Mohammed Al-Fayed was a director for Harrods UK Limited that was incorporated in 1985 and has Mavis June Latter of Swift Incorporations Limited on its incorporation document. This name links immediately to Exbourne Manor Freehold Limited via

Swift Incorporations that was also incorporated in 1985 and dissolved in 2023 after being exposed.

Al-Fayed supposedly died in 2023 and is since being investigated by the Police for sex crimes, again likely to alter, conceal or destroy evidence of the larger crimes against humanity. It appears there is a pattern of people only being investigated after their 'supposed' death as was the case with Jimmy Savile and others.

Mohammed Al-Fayed was also the owner of the Ritz Hotel Paris, where Diana had been prior to her supposed death. He has duplicate name records that appear to have been removed from the Companies House search record, but can be found through a google search. These show quick connections to 'Liberty Group' companies making almost immediate connections to the World Trade Centre disaster and Pedophile Information Exchange (PIE), the UK Government and Royalty.

Al-Fayed was a also former director for Ritz Hotel Limited, a fraudulently registered company incorporated in 1896. Al-Fayed was also a director for Fulham Football Leisure and FL Property Management. This was incorporated in 1998 and is a fraudulent entity, started with the same two companies as Exbourne Manor Freehold Limited. This connects quickly to currency producer company, De La Rue Quest Limited and G4S Holdings 102 (UK) Limited, both fraudulent and started with the same companies as Exbourne Manor Freehold Limited.

Office Organization and Services Limited is shown in the people record of FL Property Management and connects to multiple G4S and JP Morgan companies and to Blackrock Income

and Growth Investment Trust PLC. This company was incorporated in May 2001 and its name wqs changed on 6th September 2001, five days before The World Trade Centre disaster. Its name was changed for the last time on 18th April 2012, the day before Jeffrey Epstein held a meeting with Stephen Hawking and CERN scientists and less than three months before CERN discovered the God Particle on 4th July 2012. Companies House shows that from May 2023 this company was exempt from keeping a register of person or companies of significant control. This suggests they want to hide this information. It is a criminal company started with the same two companies as Exbourne Manor Freehold Limited, Swift Incorporations Limited and Jordans Limited.

G4S and BAE Systems makes close connections to me via my time in the Police as mentioned below. De La Rue is also important and mentioned later.

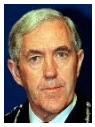
Slaughter & May was also founded in 1889, the same year as Harrods and features at key times throughout the fraud and is linked to large Government related organisations.

Whilst working at Dorset Police, my colleague Jock Condon be-friended me and in 2007 suggested I purchase the property at Exbourne Manor. In the same year, our Sergeant, Ben Pope introduced me to my wife who came out as an Observer. The research surrounding Pope linked to Ericsson companies that becomes important in relation to Anthony Roberts, Colin Sudeman and the cell tower overlooking Fort William.

On socialising with Jock, it became evident that he was very well known and used to gain free entry into venues and free food and drinks that I found very strange. I recall being on one particular night out and Prince William was dancing in the same Club. During another incident whilst policing an event being attended by then Prince Charles, I watched Prince Charles walk from his helicopter and I watched another colleague, Kate Rowberry have a personal flight in the helicopter.



I now suspect Jock Condon was related to Metropolitan Police Commissioner Paul Condon. According to the research Condon was born in 1967 and joined Kent Police in 1989 where I had been born twelve rears earlier. Paul Condon was part of The Association of Chief Police Officers of the United Kingdom and had been a director for G4S Limited a criminal company started in 2003 and with an address of 50 Broadway, the same address on the incorporation document for the Police and Crime Commissioners.

He has also been a director for BAE Systems Data Gate that was also incorporated in 2003 and has almost an identical address to CAPB Limited mentioned previously. This BAE company is a criminal company started with the same Companies as Exbourne Manor Freehold Limited and dissolved since being exposed in August 2024. 1989 was same year that former CERN employee, Tim Berners-Lee, created The World Wide Web for CERN and around the same time my parents separated and that several members of my family started working for a prominent photocopying machine company in Kent. I had previously been informed that the company had been involved in an important Worlds first part for photocopiers. The research for this company links immediately to Wimborne, Dorset where Deborah and John Fleming had lived and quickly to Exbourne Manor Freehold Limited.

In 2002 most public and company photocopiers had hard drives integrated into them, in theory giving the ability to commit serious fraud, by remotely gaining access to confidential documents and signatures.

The creation of the World Wide Web enabled the ability to gather internet based evidence by those running the fraud as blackmail material to control Governments. This includes legal or illegal internet based material such as child pornography. As everything is centralised, it is no surprise that one of the Worlds largest distributers of Pornography, Porhub is linked to the fraud and they are noticeably trying to sexualise young children.

In 1990 the Gulf War began and allowed a collaborative effort with those involved in the Middle East as part of the Satanic cult. This appears to have led to the creation of the electronic register of Companies House from 1992, which was to be used to commit the forgery, but also to expose it. A huge question is why the forgery was not made harder to identify, suggesting they were either complacent or it was deliberate.

The Gulf War ended in February 1991 and later that year my favourite movie, Terminator 2 Judgement Day was released. This appears to have a possible reference to the World Trade Centre disaster on the Bridge in one of the scenes, despite being 10 years earlier.
The movie is directed by James Cameron who links to Ingenious Film Partners, the main company connecting all areas of the fraud to the incorporation document of The Royal Foundation of the Prince and Princess of Wales company.

The main actor of the movie is Arnold Schwarzenegger who has connections to the Nazi regime via his Father and information suggests his wife, Maria Schriver had connections to Epstein with her name being mentioned on his flight logs. The third Terminator movie Rise of the Machines, released in 2003 featured a scene in what appeared to be CERN with the bad Terminator being magnetised to it.

In the same year of 1991 information shows that Jeffrey Epsteins associate Lex Wexner had been involved in starting an informal group for the rich and famous called Megagroup. Jeffrey Epstein is said to have used the group to build his contacts.

Steven Spielberg had co-founded Dreamworks and Dreamwork Animation L.L.C shows director Jeffrey Katzenberg, former Chairman of Walt Disney. This makes connections back to the MK Ultra programme, Nazi Regime and Flemings via Wernher Von Braun as mentioned earlier. Another director in the company, Katherine Kendrick appears to have a duplicate name records when searched separately and links straight to the same fraudulent companies used to start Exbourne Manor Freehold Limited.

Epstein had already linked immediately to Exbourne Manor and the same companies in the fraud via Bear Stearns as shown previously.

Berners-Lee has significant connections to Dorset and worked for Plessey in Poole and D.G Nash in Ferndown. The Company search links quickly to Exbourne Manor Freehold Limited and he had also lived in Wimborne, Dorset.

Burners-Lee is shown as director for World Wide Web Foundation that was incorporated in 2017 (same year as Fleming Co Limited, linking World leaders) and dissolved on 29th January 2025, as the exposure continued. Bates Wells and Braithwaite is on its incorporation document and its importance is covered later. Martha Wikstrom of World Wide Web Foundation links to Fornum & Mason Public Company Limited, a fraudulent company incorporated in 1909, with Waterlow & Sons on its incorporation document, one of the main companies in the fraud.

Link to World Wide Web Foundation Companies House record: https://find-and-update.company-information.service.gov.uk/company/FC034772

Wikstrom also links to 'Harrys of London' which is a fraudulent company that had been incorporated as Harrys Shoes on 21st September 2001, 10 days after the World Trade Centre disaster. According to the overview its name wqs changed for the only time on the 9th May 2007, 6 days after Madeleine Mccann went missing. The case of missing Madeleine is significantly connected to the fraud.

Harrys of London links to Royal Companies and JP Morgan Limited and therefore the Flemings via its directors.

Various members of my family had been strangely dismissive and reluctant to assist in exposing the obvious fraud since 2022 and eventually became insulting towards me. This prompted me to conduct Companies House research and was shocked to find that a Companies House name of Caroline Kelleway and linked surname of Kellaway, very quickly linked to my family in Kent, my Bother-In-Laws family in Gloucestershire and my wifes family in Dorset, despite me having always been led to believe that had not known each other prior to the relationships.

Kelleway also quickly links to Exbourne Manor, The Flemings, The Police and Crime Commissioner that links to Jimmy Savile, Scientist Stephen 'Hawking', Elon Musk and Julian Assange (former name Hawkins) with connections to a doomsday cult that links to Kent. This was far to quickly to be a coincidence, as according to research there is over five million registered companies and nearly eight million registered directors on Companies House.

Steven Owens had been the managing agent for Exbourne Manor Freehold Limited and the same name was linked to my Brother-in-law, Richard Timms family company, Shelley Hamlets Limited. Director Richard 'Hawtin', connects to fraudulent company Defence Manufacturers Association (The) that links almost immediately to Elon Musk, Ghislaine Maxwell and key areas of Government fraud.

I also established Freemason connections to all three families and the Freemasons feature throughout the research, link quickly to members of the Royal family, to Jimmy Savile via The Outward Bound company and to Donald Trump.

Significant quick connections have been made to Hollywood from my family including to James Bond linked Eon Productions, a 'Weinstein' company from my fathers accountant and to Ridley Scott via my mothers employer. Harvey Weinstein appears to be significant to the ninth circle as mentioned later.

The article regarding 'The Family' cult and Julian Assange indicates confused spirituality and a 'Messiah complex'. It also mentions departments in Hospitals deliberately switching babies, falsifying birth certificates, the drugging of children and being involved in the criminal underworld linking to property in Kent.

The reaction, from whom I had been led to believe was my mother regarding this evidence, was not the reaction of a Mother. Despite the irrefutable evidence, which she and other family members were suspiciously reluctant to discuss, she ended up claiming I was delusional and requiring immediate medal care. This was after a reaction from my Brother-In-Law Richard Timms, led me to find closely connected evidence on many members of my family.

I had transferred from Kent Police to Dorset in 2006, knowing nobody and having had no known connections. The Davinchi Code movie was also released that year and was about a hidden

deception in Christianity where the bloodline of Christ had continued on Earth today and features the inverted Pyramids within the Louvre Museum, Paris at the end. Pyramids are very important to the symbology by the Freemasons, being used on currency, Obelisks and much more. I later discovered that my Father was registered with a company in 2006 that had also been incorporated with the same two companies as Exbourne Manor Freehold Limited.

This was a year before the investigation began into the apparent mass murder of children in Jersey at Haut De La Gerenne, as mentioned earlier.

In 2007 I purchased a flat at Exbourne Manor and was introduced to my wife.

This was the year Exbourne Manor Freehold Limited was incorporated, with Derek Pratt, Diana Betts, Anthony De Reya and an apparently unrelated address of 5 Poole Road on its incorporation document. Diana Betts has a former name of Welch which possibly relates to my wifes friends family whose company GRS had the contract with Dorset Police for vehicle recovery and are significantly linked to the fraud and back to Exbourne Manor.

Anthony De Reya is likely related to Sam De Reya and research suggests there is a Royal Marines connection to someone of the same name in Devon. There appears to be duplicate Companies House records for him and one record links to Bath Hill Court (Bournemouth) Management Company Limited, linked to the fraud and with Caroline Kelleway as a director again, making quick connections to my family. Another record connects Anthony De Reya to Guard Unit UK Limited with an address in Devon and Sherborne, a key location for the reasons previously explained. De Reya resigned from this company in April 2019 as it seems the supposed outbreak in Wuhan was being planned. Duplicate name records of Martin Twist from this company link to other areas of the fraud.

This is the same year that Madeleine Mccann went missing in Portugal and is hugely significant to the fraud with the Madeleines Fund Leaving No Stone Unturned Company linking to key areas of the fraud, including The Royal Foundation for the Prince and Princess of Wales, P Diddy and Kier Starmer via Bates Well and Braithwaite. More recently I have found connections to CERN via Kate Mccanns maiden name of Healy and Dorset linked Company, Plesseys to Berners-Lee.
The research regarding the fraud links both the Portuguese and Italian Chamber of Commerce at a key area to the main companies in the fraud and to the Satanic cult connections being made.

A year pater in 2008, my Father treated my wife and I to a trip to Paris and we attended the Louvre Museum and saw the inverted pyramid. This was not intentionally in relation to it featuring in the Davinchi Code.

This is the same year that the 'Ninth Circle' movie was released featuring Art the Clown which I discovered the morning after I had a dream of Ronald McDonald after having been informed of the Ninth Circle and its connections to crimes against children. I not been aware of this film or a connection to a clown prior to this time.

I rarely remember dreams and this woke me suddenly after feeling contenct and then a sudden overwhelming feeling of deceit. I researched the Ninth Circle that morning and results prompted me to research Ronald Macdonald Companies where I found important connections to the 'Red Shoe Society' and everything I had been exposing.

Ronald McDonald House Charities (UK) was incorporated in 1988 under its first name of Projectbroad. Its name was changed in 1989 to Ronald Macdonald Children's Charities' Limited, which is the same year as the creation of The World Wide Web for CERN. Its name was changed again in 2006, the same year that I transferred from Kent to Dorset. It is a criminal company having been incorporated with the same two companies as Exbourne Manor Freehold Limited.

Link to Ronald McDonald's House Charities UK Companies House record: https://find-and-update.company-information.service.gov.uk/company/02252337

Jeffrey Fergus connects Ronald McDonald House Charities (UK) to McDonald's Restaurants Limited that was incorporated in 1971, the same year that the World Economic Forum began. The register claims its original name was Macdonald's Hamburgers Limited until 1989 again, but the incorporation document shows Macdonald's Golden Arches Restaurants meaning the register has been forged.

Philip Evans connects McDonald's Restaurants Limited to Royal family associated companies and Lord Philip Harris of Peckham connects the company to The Arsenal Football Club Limited that was incorporated in 1910. This also fraudulently registered and changed its name for the first time in April 2023, as the exposure continued.

Evans also connects McDonald's Restaurants Limited to Experian Finance PLC that's original name was Great Universal Stores Public Limited Company (The) when it was incorporated in 1917, the same year at The Balfour Declaration. This makes further connects further connections to the movie industry. Its name was changed in 2006, when I moved to Dorset and it has a forged register and Jordan & Sons on its incorporation document. Experian PLC is an example of how they have used a criminal credit score system to help enslave the masses.

McDonalds and Experian features quickly in the research from Jeffrey Epstein as shown elsewhere in the document.

Evans also connects McDonald's Restaurants Limited to Outward Bound Global, a Company where Jimmy Savile was a director until 2015. This quickly links to Siemens, members of the Royal family, Freemasons and Donald Trump via Dundas & Wilson and his Scottish Golf Clubs as shown elsewhere in the document.

Outward Bound Global was incorporated under its first name of Outward Bound Trust (The) in 1946, the same year as UNICEF begun and a year before the Association Chief Police Officers and The Doomsday Clock were created. Its register has been forged and the last time its name was changed was in 2009, the same year that The Royal Foundation of The Prince and Princess of Wales was incorporated and that links all areas of the fraud.

Nigel Buchanan connects Outward Bound Global to Outward Bound Oman. Buchanan resigned two months after Saviles supposed death and links to Freemason Grand Lodge companies and Portuguese Chamber of Commerce and Industry in the United Kingdom (The). This was incorporated in 1980, the year that the Georgia Guide stones were supposedly erected in the US.

It has a forged register and companies including Rolls Royce, Portuguese Banks and National Westmiinster Bank are on its incorporation document. Rolls Royce had featured at other key times throughout the research and National Westminister Bank is a criminal organisation. This evidence is important in relation to the case of Madeleine Macccann.

Stephen Hammond of Portuguese Chamber of Commerce and Industry connects to Harwood Film Partnership that very importantly had Turcan Connel in its address. Research shows that Hammond was MP for Wimbledon from 2005 until 2024, as the exposure had continued. He had been born in Southampton, Hampshire where Deborah Fleming was the NHS CEO and had been involved in German bank Dresdner Kleinwort Benson and Commerzbank, featured throughout the fraud and linking to Donald Trump and SpaceForce via Pascal Najadi.

I suspect Hammond or his family members have connections to Hammond Suddards that links with Squire Patton Boggs and is mentioned in the research of Jeffrey Epstein and Max Clifford previously.

Turcan Connell, mentioned in relation to Stephen Hammond, features very quickly from the Satanic Temple United Kingdom to via Turcan Connell Close Film Sale and Leaseback companies, 'Owen' Film Partnership, closely to 'Betts' companies and immediately to Donald Trump via its former name Dundas & Wilson (Trustees). The dates of name changes appear to coincide very closely with important dates regarding Walt Disney in 1955 and the death of Princess Diana in 1997.

Considering the immediate connection to Betts and Owen companies, Diana 'Betts' is on the incorporation document for Exbourne Manor Freehold Limited from August 2007 and had called a meeting to remove me as a director as I started to identify the fraud where her family members made veiled threats towards me. Diana Betts worked as Phlebotomist for the NHS, where Deborah Fleming had been the CEO.

I had started making enquiries within Exbourne Manor around the same time that I set up a Whatsapp group for the residents. Another newer resident, Joanna Tomsett, started to befriend my wife and I and she also worked for the NHS. Joanna claimed to be a Christian and know my former Dorset Police colleague, Mark Lane via her parents. I started to confide in Joanna, but became suspicious when she tried to suggest I may be harassing Diana Betts as part of my enquiries into the fraud.

There are numerous 'Tomsett' companies close to where I lived in Kent, linking to the fraud and quickly to Exbourne Manor. Also, company Tinsley & Tomsett Limited had been incorporated in 2003, had an address in Hampshire and was incorporated with the same companies as Exbourne Manor Freehold Limited. It had dissolved in March 2024 as the exposure continued. There are also duplicate name records for this company linking back into the fraud. I now suspect Joanna was sent as an infiltration, possibly in collaboration with my wife.

A companies House record for Mark Lane, with an address in Hampshire, also links back into key areas of the fraud. Mark Lane had been a PCSO in Christchurch, Dorset where I had worked for the Police having moved rom Bournemouth with my wife. Lane been friendly with the Christchurch Inspector, Lance Cliff. Cliff later became a Firearms Commander and eventually a Chief Inspector for Dorset Police before retiring.

Companies House shows a record for Lance Cliff being a director for Christchurch Community Partnership from January 2011 until 18th July 2012 two weeks after CERN discovered the God Particle.

Des Persse connects Christchurch Community Partnership links to my wifes previous school, Twynham, a criminal company started with the London Law Agency and that connects immediately to other companies in the research surrounding the helicopter crash in the US on 10th April 2025 surrounding Siemens, high profile cases of alleged children's murders and CERN, as shown elsewhere in the document.

Silvia Fazio of the Portuguese Chamber of Commerce and Industry in the United Kingdom connects to The Italian Chamber of Commerce and Industry for the United Kingdom that was incorporated on 7th February 1958, five months before Charles was initiated to become the Prince of Wales in 1969.

Francisco Comprido connects The Italian Chamber of Commerce and Industry for the United Kingdom to J.P. Morgan Limited and therefore the Flemings that was incorporated in 1930 as Chase Manhattan Limited. It has a forged register and its name in was changed in April 2001, three months before Larry Silverstein acquired the lease for the World Trade Centre and for the last time in 2011, the year of Jimmy Saviles death. The research surrounding this connects to various Masonic companies and criminal Police and Military Pension Companies, likely to have the ability to steal from any unclaimed pensions in the possible event of their attacks on humanity.

On 13th September 2009 I became a director for Exbourne Manor Freehold Limited, presuming it was a legitimate company. On 29th September 2009, just over two weeks later, The Royal Foundation For The Prince and Princess of Wales company was incorporated. This is the company that quickly links all areas of the fraud.

The follow up to the Davinchi Code, Angels and Demons was released in 2009, which was about CERN The Hadron Collider and The Vatican. 2009 is also the same year that the movie Avatar was released and links to The Royal Foundation For The Prince and Princess of Wales via Ingenious Film Partners. The movies director was James Cameron as mentioned previously, linking to Terminator 2 Judgement day.

2009 was also the year of the Iranian Green Protest movement and early research suggests this could be part of the 'Green' political climate change agenda, linking back into the Satanic cult as a deception and likely relates to the deliberate immigration agenda to create a risk of conflict as outlined in the Albert Pike Letter.

The next movie in the Davinchi Code series came out in 2016 and was called Inferno. This is the same year that an apparent Satanic ritual took place by the Shiva Statue at the CERN.

Fabiola Gionotti was made the CEO of CERN in 2016 and gained a second term from 2019 to 2025, the first time since CERN began in 1954. She received a Phd in experimental particle physics in 1989, the same year that the World Wide Web was created for CERN. In 2009, the same year as the incorporation of The Royal Foundation for The Prince and Princess of Wales, Gionotti became the project leader for ATLAS at CERN that discovered the God Particle in 2012. Gionotti has connections to Edinburgh and is on the Board of Trustees for The World Economic Forum. There is interesting wording at the end of her personal life section on Wikipedia saying '.....sure, she has made sacrifices' when referring to not being married.

According to an article, in September 2020 the Pope appointed Gionotti to the Pontifical Academy of Scientists that had roots back to 1603, but was re-established in 1847, three years after Companies House started and the same year that Siemens was founded.

The Pizzagate Scandal / Gordon Bowden / COVID

As explained elsewhere in the document, the Pizzagate scandal occurred in 2016 exposing US Politics to possible allegations of the murder of children.

It has to be considered that this caused the major Government corruption leading up to the COVID situation in 2019.

Kier Starmer resigned from the Death Penalty Project Limited not long after Gordon Bowden had died in February 2020 (I have been informed that he was murdered). Gordon Bowden had identified an element of the fraud relating to non-verification and the unmanned address of 788 to 790 Finchley Road, Barbara Kahan, A1 Company Services and its connection to the Mafia, dictators, tax fraud against the masses and high level Politicians including Tony Blair.

These connections are featured throughout the fraud including to Carter and Coley, the accountant being used by Exbourne Manor Freehold Limited.

Articles claim that in 2006 Tony Blair announced State Intervention with families, before children were even born, allowing the ability at an early stage for what now appears to be an

agenda to steal children through the care system using the fraud. Almost all care homes researched appear to be part of the fraud.

In April 2012 articles emerged suggesting Tony Blair been involved in possibly illicit financial activity regarding JP Morgan and The Iraq War.

Bowden had taken part in a conference at the International Tribunal for Natural Justice (ITNJ) in around 2018, the year after Fleming Co Limited was incorporated linking the research of multiple World leaders. In 2019 an article publicised Bowdens findings.

It appears that Bowdens discovery may have triggered the plans regarding the COVID deception and the cell towers to remove the masses that may hold those complicit accountable for their crimes against humanity and possibly prevent their plans regarding the hadron colliders. Those involved knew it was only a matter of time until their criminal system, associated crimes and Satanic plans against humanity were fully exposed.

My involvement since 2022 and identifying the forgery of their criminal system appears to have triggered many events, including the supposed ‘special military operation’ by Vladimir Putin on Ukraine beginning in February 2022, what appears to be a collaborative staged attack in Israel on 7th October 2023, Companies House trying to hide their crimes starting with an article 26th October 2023 and much more, all of which only provided further evidence of their crimes and apparent plans.

Sacha Stone

Sacha Stone had founded the ITNJ where Bowden had participated in the conference in 2017. I had spoken to Stone months ago whilst he was in Mexico and he had agreed to interview me. I didn't hear anything until I discovered he was in Scotland where I was, but he would not interview me unless it was in person, despite most of his previous interviews being conducted remotely.

Sacha Stone Wiki:
https://en.m.wikipedia.org/wiki/Sacha_Stone

Research suggests that Sacha Stone has claimed there would be an extinction level event involving cell towers and had worked with Mark Steele who claims the same and do not appear to be willing to publicly disable them themselves. As far as I am aware, both have failed to make the connections to the threat of the collider technology being linked to call towers and both are quickly linked to the fraud and refuse to expose it.

Stone appears to have been involved in controversy regarding the implementation of cell tower technology at Glastonbury and the production of a device that he claimed prevented its harm.
Councillor and Mayor of Glastonbury from 2020 until 2022, also became involved and looks remarkably like Peter Gilmore, who was positioned as the High Priest of the Church of Satan in 2001, the same year as The World Trade Centre disaster.

Link to article of cell tower concerns at Glastonbury:
https://www.somersetlive.co.uk/news/somerset-news/glastonbury-residents-resist-5g-rollout-2667704.amp

The research from key Glastonbury Companies link to the same companies exposed starting from CYM Limited, a company that appears to be involved in Adrenochrome harvesting and had linked quickly to Exbourne Manor Freehold Limited and a company called Everychild. Glastonbury appears to one of the most signficant Leyline locations in the UK.

Glastonbury Festivals Limited had been incorporated in 1992 (when the electronic register of Companies House was being initiated) and is a criminal organisation incorporated with the same two companies at Exbourne Manor Freehold Limited. This allows the potential to targate tens of thousands of people in one condensed location.

Link to Glastonbury Festivals Limited Companies House record:
https://find-and-update.company-information.service.gov.uk/company/02737866

I have since received information that Stone works for the families of the black nobility of The Vatican and that he is positioned as almost an opposition to the Creator, but claiming to work for good. This appears to be supported from the research leading from Glastonbury Councillor Jon Cousins, whom was its Mayor from 2020 to 2022 and looks remarkably similar to Peter Gilmore, who was appointed as the High Priest of The Church of Satan in 2002.

Sacha was supposedly born in 1966, the same year as the foundation of the Church of Satan and like many people appearing to be involved in the true agenda, has an alias name. His apparent real name, Simon Sean Paul Sacha Adams links to Humanitad, incorporated in July 2000, almost exactly a year before Larry Silverstein purchased the lease for The World Trade Centre. It dissolved in March 2024, the exact same month that I had been in contact with him regarding my discoveries of Companies House. He had become a significant person of control in 2016, the same year as the apparent Satanic ritual at CERN.

Kier Starmers resignation from The Death Penalty Project Limited was also not long after Dominic Cummins breached lockdown during a trip to Barnard Castle, supposedly for an eye test. Barnard Castle is where GlaxoSmythKline is located, a key pharmaceutical company connecting hugely to the same companies involved in the fraud. This includes Astrazeneca and the Hakluyt International Advisory Board company.

Ian Campbell Ashman connects 15Billion to The Outward Bound Trust that connects immediately to the research of Jimmy Savile, Donald Trump, the main Freemason company and all three of my families as shown elsewhere in the document.

Sundeep Bhandari connects 15Billion to 15BillionBP that connects to the fraud by Combined Secretarial Services and ICC Legal Services that makes connections to the research of Robert Maxwell.

Sundeep Bhandari also connects 15Billion to Birley Lodge Management and Catherine Photoiu connects that company to Birley Lodge Limited.

Munir Pyarali Merali connects Birley Lodge Limited to ISIS Agency Limited that was incorporated in 1999 and Irene Lesley Harrison connects the company to over 2000 companies including Wessex Investment Holdings Limited.

Right Hon Lord Paul Hanningfield connects Lift Schools to Commonwealth Local Government Forum that has Dibb Lupton Broomhead of 4 Temple Row on its incorporation document.

Research shows Hanningfield was the the UKs Youngest pig farmer and was recognised in the farming industry. He has previously been charged for false accounting later claiming he had just done the same as 500 or 600 other peers according to the information and supporting the evidence of the major corruption. He supposedly died on October 2024.

Right Hon Hilary Jane Armstrong connects Commonwealth Local Government Forum to Childcare Enterprise Limited that was incorporated in 1994 and dissolved in 2023, as the exposure continued. Its imcorporation document appears to be forged.

William David Clouston connects Childcare Enterprise Limited to Scion Films Sale and Leaseback Sixth LLP that has dissolved since the exposure and links

almost immediately to the research of David Icke and possibly makes reference to hidden information regarding the Queen and the Peadophile Information Exchange via Liberty as shown elsewhere in the document. I suspect these and other film companies that connect all areas of the fraud are used to film the torture and murder of children.

Hampstead Child Abuse Enquiry

During the Hampstead child abuse enquiry of 2014, videos emerged of two children claiming that their father, Ricky Dearman, was the ring leader for serious sexual crimes against them with many other parents at a school and a church. The children also alleged that they had been made to take part in the murder of babies and drinking their blood.

A Police investigation supposedly followed and those trying to support the children were convicted of harassment of the parents allegedly involved. This included German Sabine Mcneil who I have spoken to and has confirmed links to some of the main companies involved in the fraud, meaning the publication of the enquiry is possibly a deception.

A Companies House search of Ricky Dearman shows him being a former director for Tolgate Square Management Company until 2006. This makes immediate connections to the fraud by duplication of the name Martin James Wright shown on the incorporation document that links to 135 Companies with multiple connections to the fraud.

Directors of the Tolgate Company make relevant connections including Marta Rose Philips that links to Chartered Accountants Compensation Scheme incorporated in 1989, the same year as the World Wide Web and having Capita Group PLC and various banks that feature throughout the fraud on its incorporation document. Capita makes important connections already identified with Special Advisor Douglas Smith and Nadine Dorries, as mentioned elsewhere in the document.

Marta Philipe also links to important companies including Public Sector Audit Appointments where she resigned in March 2025, The Association of Accounting Technicians, a criminal company that changed its name in 1989 which is the same year that the World Wide Web was created for CERN, The Pensions Advisory Service that started at a key year of 1990 and The National House Federation, a criminal company started in 1935. These have all featured throughout the previous research.

All others areas of research surrounding the Hampstead enquiry connect quickly to the same companies in the fraud. This includes the Headmistress at the School at the time and Judges involved in the Court case.

Jon Wedger is a former Met Police Officer and has been openly speaking out about corruption and child abuse for some time. I managed to speak with Wedger about my enquiries and he just started praying. I have been sending him most of my evidence and he appears reluctant to assist.

According to an article, Wedger was associated with the Knights Foundation that is allegedly linked to a convicted sex offender, Christopher Xavier. The organisation had been created by Belinda Mckenzie who appears to be the founder of Mckenzie Friends and appears to have been with Julian Assange on his release in 2024 and connects to the research of Sabine Macneil. I suspect Mckenzie will have some connection to the Mckenzie company connecting David Icke to my families and the collider technology.

On being released from prison I have acquired a photograph appearing to show Julian Assange with Belinda Mckenzie.

Referring back to the Hampstead case, Companies House shows that Sabine McNeil is connected to 4 companies and was a director for Knights and Angels Foundation from May 2014 to May 2015, around the same time as the Hampstead case. It had originally been incorporated as The Knight Foundation in 2014, until its name was changed in November 2016, two months after the apparent ritual at CERN. Xavier Knight is the only name shown on thr incorporation document as is the Company Third Party Formations.

Sabine McNeil also connects to Smart Knowledge Management Limited that was incorporated in 2004 and dissolved in 11th January, just over a month before the Christchurch Earthquake in New Zealand. Waterlows, one of the main companies in the fraud, is shown on the incorporation document. It has a registered address of 'Temple' House

Sabine McNeil also connects to Chancery Investment Group PLC that was incorporated in 2008 and also connects to Waterlows.

Robert Austin Guest connects Chancery Investment Group PLC to Legg Mason companies, including Legg Mason Investment Funds Limited that was incorporated in 1970, the year before

The World Economic Forum and dissolved on 13th July 2024, the month I started to expose the connection to the adreochrome and the fraud.

Paul Lyndsey Boughton connects Legg Mason Investment Funds Limited to 9 companies including Ingenious Film Partners 2 LLP, one of the main companys that connects all areas of the fraud to The Royal Foundation for the Prince and Princess of Wales, as shown throughout thw document.

Association of Conservative Clubs

Referring back to LBDE Limited in the research of Rishi Sunak, Simon Mabey makes a connection to Association of Conservative Clubs (The) incorporated in 1948, the same year as the Israel Arab War. This is a criminal organisation with a forged register and has Jordan & Sons on its incorporation document. Rt Hon Alistair Burt had been the person of Significant control from a key time in 2017, but ceased since March 2025 after the company was exposed. Research

suggests Burt had been advising on the Syrian civil war and the United Nations involvement in Israel and this is likely relevant particularly with the apparent Albert Pike agenda.

Timothy Eggar of Association of Conservative Clubs (The) links to Russo-British Chamber of Commerce that was incorporated in 1917, the year that the Balfour Declaration started to Formant, what we are led to believe is Israel and its historical importance. This company was originally called British-Soviet Chamber of Commerce (The) and changed its name in 1977, two months after I was born and the same year that the Albert Pike Letter, was apparently removed from public view. Its name was changed again in 1993 and 1995, the same year that the Intelligence Agency linked company The Hakluyt International Advisory Board was incorporated. The register for Russo-British Chamber of Commerce has been forged.

Timothy Eggar – Wikipedia:

Peter Charrow connects the Russo-British Chamber of Commerce to the Anglo-Russian Opera Ballet Trust, where he was a director from December 2006 until March 2022, as I was making enquiries within Exbourne Manor. The company was incorporated in 1992, the year that the

electronic register for Companies House was being initiated and dissolved in October 2022, as I was acquiring the evidence of the fraud. Royal Opera House is mentioned on the incorporation document and becomes important later regarding the Jewish Community Centre UK Company mentioned later and connecting to the Nicola Bulley case via supposedly deceased officer Peter Lawson.

Baroness Elizabeth Smith of Gilmorehill became a director of Russo-British Chamber of Commerce in December 2001 and connects it to The John Smith Trust, Edinburgh Festival Fringe Society Limited and to Independent Press Standards Organisation CIC that has already been directly linked to The National Council for Civil Liberties and an affiliation to the Paedophile Information Exchange. The company was started in 1990 and is a criminal organisation having been created with the same companies as Exbourne Manor Freehold Limited. It was originally called FirstCause Limited before changing its name in February 1991, the same month that the Gulf War ended. This supports the control of media as part of the agenda against creation and the links to collaborative deception around conflicts.

Peter Cazelet of the Hakluyt International Advisory Board links to P&O Pension Funds Investments Limited and P&O links quickly to the research of the World Trade Centre. Cazelet was also a director De La Rue Holdings Limited between 1992 and 1995.

De La Rue Holdings was incorporated in 1898, the same year as the Foundation of Harrods and Queen Victoria District Nursing Association (The) as shown in the research of the potential infiltration and murder of the real royal family. Its register appears to have been forged. Its name was changed for the first time in August 1991, a key time in the fraud.

According to the research De La Rue had established a joint venture with Italian Printer Gualtiero Girori in Switzerland in 1965, the same year that Jordan & Sons was incorporated, the main company used in the fraud and Switzerland is where the World Economic Forum, CERN and other World organisations involved in the fraud are based.

According to the research, De La Rue had purchased Waterlow & Sons Limited in 1861, an important company featured throughout the fraud and appearing to link closely to the Freemasons.

In the 1960's De La Rue printed bank notes for the Bank of Iran supporting the plan appearing to have been made in the Albert Pike Letter. According to the research, Waterlows had been involved in a counterfeiting claim by a Portuguese bank that was concluded in 1932, the same year that Fleming linked CAPB Limited was incorporated and features throughout the fraud. Waterlow & Sons Limited was dissolved in 2009, the same year that the Royal Foundation of the Prince and Princess of Wales was incorporated and re-incorporated in 2016, the same year as the apparent Satanic ritual at CERN.

Sir Brian Cubbon had been a director of The Hakluyt International Advisory Board from 1995 until 2006 and connects to Oxford & Cambridge Club Hostel Limited where he had been a director from 2001 until 2005. This Oxford company connects to Ghislaine Maxwell via Farrer & Co. Farrer & Co on its incorporation document.

Anthony Eady of the Oxford & Cambridge company connects to The Association of Governing Bodies of Independent Schools where he was a director from 2006 until March 2012. This has featured at various times in the research and often connects to the HMC Headmaster company linked to the Edge Foundation funded by Jeffrey Epstein as mentioned later.

John Ibbs of The Oxford & Cambridge company connects to Lloyds Banking Group PLC shown on page 40 of the incorporation document for The Royal Foundation of the Prince and Princess of Wales. Lloyds Banking Group PLC has a forged register and was incorporated in 1912, before changing its name for the first time in July 1991, five months after the Gulf War ended and before the Companies House register became electronic. Ibbs was also a director for Lloyds Banking PLC, also with a forged register and what appears to be a forged incorporation document. Remember, I had acquired forged Lloyds Bank documents through Exbourne Manor Freehold Limited. These connections help support a collaborative money laundering scheme between the UK and Russian Government.

Referring back to the Hakluyt International Advisory Board, Peter Homes of that company with an address of Wardour Castle, Salisbury connects to Shell Petroleum Company Limited (The), incorporated in 1903 and having a forged register with Waterlow & Sons on its incorporation document. Homes also connects to Shell Chemicals Limited, incorporated in 1928, changing its name for the first time in 1995, the same year the Hakluyt company was incorporated, changing it again in December 1997 and for the last time in January 2002, fours months after the World Trade Centre disaster. It has a forged register and a forged incorporation document.

Lord Peter Anthony Inge of the Hakluyt company connects to Thales Electronics Limited that was incorporated in 1951, two years before the Queens coronation and is a criminal organisation with a forged register.

Inge also links to Thales Optronics (Holdings) Limited that connects to the case of Nicola Bully via Dr Edric Ellis of The Lancashire Partnership Against Crime Limited. Thales is a weapons company linking to the case of Nicola Bulley and the threat of directed energy, a collaborative interest between Russia and the UK when the masses are being deceived that they are at risk of conflict. According to the research in September 2023 Thales, BAE, Raytheon and Cobham were involved in creating a directed energy weapon and they also connect quickly to the research of the cell towers. It has to be considered that they panicked and the laser weapon was a cover for their plan using cell towers and collider technology against creation. Raytheon links quickly to the research of Jeffrey Epstein and Rokerfella as mentioned later.

Raytheon Systems Limited was incorporated in 1946, the year before the doomsday clock and has a forged register with its incorporation document having Cossor Radar and Linklaters & Paines making the connection to Astrazeneca PLC and Pfizer. Radar is significant as it supports the deliberate threat to humanity from wireless technology and a confirmed connection to a satanic cult, with the COVID / vaccine situation being a cover story.

Cobham Limited was incorporated in 1889 and had a registered address of Enterprise Close, Christchurch, Dorset a few miles from Exbourne Manor, but it was changed in 2025 as the exposure continued. The filing history shows that at one point it had an address in Wimborne, where the Flemings Live. Robin Clark of Cobham Limited connects to Society of British Aerospace Companies (The), a criminal company and links via director Richard Hawtin to my Brother-In-Law Richard Timms' family company Shelley Hamlets and Brian Everitt of Defence Manufacturers Association (The). The Rowley Lane Trust featured on the Jewish Community Centre UK document possibly makes reference to the family of the Met Police Chief Mark Rowley and former Chief of Lancashire, Chris Rowley.

Mark Rowley became the Metropolitan Chief Constable in September 2022 as I was making the enquiries in relation to the fraud and the same month the Queen supposedly died.

Rowley is shown as being linked to Mark Rowley Consulting incorporated in 2018, as Gordon Bowden was identifying the fraud linking to 788 -790 Finchley Road and A1 Company Services and dissolved it in 2023 as I continued the exposure. The company links immediately to the fraud by Stanley Davis Group on its incorporation document. He is also linked to Oakley Holidays with an address in Lancashire. The incorporation document shows connections to Bond Pearce, part of the fraud and to addresses in Southampton where Deborah Fleming was the CEO for the NHS. The Metropolitan Police have failed to respond to any of my reports to them.

Nicola Bulley

Chris Rowley had been the Chief Constable of Lancashire at the time of my initial enquiries in2022 and at the time of the disappearance of Nicola Bulley in early 2023.

Research suggests Nicola had been married to Paul Ansell, a former employee of BAE Systems and information suggested they had an argument before Nicolas disappearance.

Peter Faulding had been brought in as a search specialist to try and find Nicola in the river. On 23rd March 2023 articles were publicised with Faulding claiming Nicolas body was not in the river.

From mid 2023 I started to expose the Companies linking to the fraud around Exbourne Manor Freehold Limited, including Swift Incorporations Limited.

On 21st November 2023 Swift Incorporations Limited dissolved having been operating since 1985. Around the same day, articles started to emerge suggesting Peter Faulding had changed his story and had found Nicolas body after six minutes and told the Police.

Most of Peter Fauldings companies link immediately to the fraud and some were incorporated with the same companies as Exbourne Manor Freehold Limited including Swift Incorporations Limited.

On 10th December 2023 articles emerged that Peter Lawson, the Assistant Chief Constable and leading the investigation regarding Nicola Bulley was found dead in his home at the age of 50.

Companies House research of Lawson suggests he is linked significantly to the fraud including to the Royal Opera House, making quick connections to the Russian Government again. I suspect his supposed death was staged to try and prevent others from speaking out.

Link to Peter Lawson Companies House record: https://find-and-update.company-information.service.gov.uk/officers/Sd6FBIqsF-qo78t-6L5tvutHieI/appointments

In 2023 I had acquired information that BAE systems, Thales and other companies had created a directed energy weapon called Dragonfire. I have evidence to suggest that the BAE Systems website has been altered to change the timing of this article.

This information had been acquired as I was identifying the concerns with the fraud being linked to the threat of directed energy in cell towers and to BAE Systems. BAE Systems was incorporated in 1979, the same year that the Georgia Guide stones were being designed to represent an upcoming ‘man made’ apocalyptic event.

David Parks of the company links to BAE Systems Quest Limited, a criminal company incorporated with the same companies as Exbourne Manor Freehold Limited in 1993. It dissolved on 29th July 2024 as I was establishing the connections to the fraud and Adrenochrome and had a registered address of Interpath, 10 Fleet Place linking to Tony Blair and David Cameron in the research surrounding the fraud.

David Parks also links directly to BAE Systems Corporate Air Travel, also a criminal company. This company has recently been established to link almost immediately to Elon Musk and my Brother-In-Laws family, my wifes family and my family in Kent via criminal organisation Society of British Aerospace Companies.

The Lancashire Partnership Against Crime Limited was incorporated in 1997 and has Cobbetts Solicitors of Ship Canal House, King Street, Manchester on its incorporation document that makes connections to emergency workers and military radio systems, Jimmy Savile, Donald Trump and the threat from directed energy through wireless communication as mentioned later.

Andrew Snowden was the Police and Crime Commissioner for Lancashire from 2022 until 2024 and is shown as a director for this company from 1997 until 2000. Assistant Chief Constables John Vine and Chief Constable Wendy Walker are also connected with Walker having resigned in August 2011, just over a month before Jimmy Savile supposedly died.

Lancashire County Council are also shown om the people record for The Lancashire Partnership Against Crime Limited as is Dr Edric Ellis that makes almost immediate connections to The Satanic Temple United Kingdom via a Thales company and Lord Peter Inge of Russian Government linked The Hakluyt International Advisory Board.

Other Missing Women

On 3rd August 2025 I received contact from Hannah Power claiming they were concerned about a You Tube Channel called Christian Warfare and suspected that its host, Tasha Lawrence may somehow be connected to several women that have died or gone missing in similar circumstances to Nicola Bulley.

I researched Tashan Lawrence and confirmed what I had been told, in that he associates with You Tuber Charlie Veitch. From his videos he appears to fit with evidence supporting the falsified prophecies appearing to be the possible conclusive motive behind the fraud, by funnelling the money into certain technology that could create apocalyptic events. Christian Warfare only appears to have been active on You Tube since June / July 2025. I later saw a video of Lawrence appearing to Baptise Charlie Veitchs bodyguard in a river, as shown in the images.

Further research shows Lawrence he had been convicted and imprisoned in 2024 for a violent incident that had occurred in 2020. It is possible that he was infilitrated during this time to be part of the wider agenda.

A Separate search on the company name, Lawrence Assets Ltd within Companies House, shows another company with the same name that was incorporated in November 2019, the month before the COVID outbreak. It has a registered address of Fab Accountants Ltd, The Slip Way, Port Solent, Portsmouth, Hampshire, the same County where Deborah Fleming was the CEO of the NHS and Portsmouth Naval area being important due to the Ian Fleming connection to the

Intelligence Agencies and Hollywood. The filing history shows that its registered address was changed twice on 6th January 2022, as I am making early enquiries at Exbourne Manor and the same month as changes were made to Owen Film Partnership LLP linking closely to Betts names and Property Solutions (Southern) Limited, the new Management company for Exbourne Manor that links to Police organisations.

This record for Walker also connects to Surrey Masonic Halls Fund Limited that was incorporated in 1974 and connects straight to the fraud and the research of Douglas Smith, Jeffrey Epstein and others by OYEZ Services Limited on its incorporation document. This makes a further apparent connection to the Freemasons as shown throughout the fraud.

It links to the fraud immediately by OYEZ on its incorporation document and had multiple Masonic companies on page 9 of its incorporation document that feature throughout the research.

Derek Richardson connects Surrey Masonic Halls Fund Limited to 8 companies including Royal Automobile Club (RAC) companies making an immediate connection to what I suspect is an infiltrated Royal Family and the Jewish Community Centre UK, that makes important links as explained elsewhere in the document.

Anthony Paul Ryder connects Surrey Masonic Halls Fund Limited to 5 companies including Chatham Maritime Companies and Thames Gateway (Kent) Chamber of Commerce. These make important connections to Kent, where I was born and the Kray Twins associated.

Philip Albert Toler connects Surrey Masonic Halls Fund Limited to The Royal Masonic Benevolent Institution Care Company featured elsewhere.

A Reverend Graham Ivor Williams is also shown as a former director for Surrey Masonic Halls Fund Limited appearing to make a connection to the religious establishments.

Another record for a James Michael Walker connects to OC&C Strategy Consultants LLP that had already quickly featured in the research of Jeremy Hunt who had been the Chancellor o
f the Exchequer from 2022, as I was making enquiries at Exbourne Manor, until 2024 as the exposure continued.

James Michael WALKER personal appointments - Find and update company information - GOV.UK https://share.google/sQFjJPEpQTSbmKofk
Jeremy Hunt - Wikipedia https://share.google/BtcgjntWzyBq9WSwg

There are many more records for this name and I suspect many are duplicate false identity records as part of the criminal system.

The first record for James Michael Walker from Fab Accountants Ltd to eight companies including AFC Porchester Limited, which makes a connection to the Football inudustry, which is a huge part of the fraud. The Incorporation document shows A1 Company Services Limited linking it to Gordon Bowdens evidence of International Government Fraud.

Another connection from this record of Walker is to Marpol Polishing Supplies UK Limited where they were appointed for less than a month. This company was imcorporated in 2024 and has the same Portsmouth address.

Joseph Anthony Ian Waggott connects Marpol Polishing Supplies UK to Spina Bifida, Hydrocephalus, Information, Networking, Equality – Shine where they were appointed in September 2022 and that was incorporated in 1966, the same year as the foundation of The Church of Satan. The incorporation document appears to have been altered.

Surekha Kukadia connects Bifida, Hydrocephalus, Information, Networking, Equality – Shine to Forvis Mazars LLP with Mazars making specific connections around the research of Jeffrey Epstein. I suspect this is a reference to Mazzini and supports the relevance of the Albert Pike document.

Professor John Douglas Pickard connects Bifida, Hydrocephalus, Information, Networking, Equality – Shine to Brain Research Trust that was incorporated in 2010, three months before CERN Limited and is a criminal company with The London Law Agency on its incorporation document.

Mr John Anthony Gollan connects Brain Research Trust to Bank of America Merril Lynch International Limited, Citybank Europe PLC, UK Branch and Merril Lynch Ineternational making important connections to criminal financial stablishments shown throughout the research.

Paul Vernon Wright connects Brain Research Trust to Guildhall Investment Management Limited and Evelyn Partners companies making the close connection to Rishi Sunak and the subsequent research of the involvment of the Russian Government.

Yves Jean Marc Bonavero connects Brain Research Trust to 22 companies including Gruber Films Limited that was incorporated in March 2002.

Yves Bonavero - Chairman https://share.google/DHdpCehvH2rw9yUZj

William Perente connects Gruber Films Limited to FAI – Italian Heritiage Trust. Research suggests this is the Italian version of Englands National Tust, with National Trust Enterprises being a criminal company suggesting they own no land legally.

Fondo Ambiente Italiano - Wikipedia https://share.google/joyCIYHAQAS332R5L

Research suggests that William Perente was a New York real estate attorney involved in a Ponzi scheme before members of his family were murdered and he committed suicide in 2009. His family had been connected to the Police who are heavily implicated in the fraud and crimes against humanity.

William Parente - Wikipedia https://share.google/K8jUc4j1q3b5pKSUE

Ponzi schemes involve crimes of investment fraud and the Companies House forgery will all be part of the same criminal network. The research suggests Ponzi schemes were first identified being committed by an Actress in Germany, who became the richest woman in Bavaria. Ponzi was actually named after Italian Charles Ponzi.

Ponzi scheme - Wikipedia https://share.google/KJ8PPNlN0aBHGqbJG

Referring back to William Perente, Companies House shows that he also connects to The Goldsmiths' Foundation that was incorporated as The Goldsmiths' Company Charity in 2017 and its name was changed in March 2025, as the exposure continued. The incorporation document shows The Wardens and Commonality of the Mystery of Goldsmiths City of London, Goldsmiths Hall, 13 Foster Lane London. This is another critically important connection to the Goldsmith / Goldschmidt family.

A separate search shows Commonality of the Mystery of Goldsmiths City of London is a Royal Charter company and all information has been removed by Companies House. I suspect this will relate to The Goldschmidt family connecting to the research of The Rothschilds, Douglas Smith and Jeffrey Epstein as shown elsewhere in the document. I suspect the Mystery may be the

criminal system running the World from the City of London and is now fully exposed. Page 10 of the incorporation document shows Bircham Dyson Bell of 50 Broadway, making the immediate connection to The Association of Police and Crime Commissioners, Jimmy Savile and CERN.

The Wardens and Commonality of the Mystery of Goldsmiths City of London is shown as the company of significant control for The Goldsmiths' Company of the City of London Limited that was incorporated in January 2002, four months after the World Trade Centre disaster and is a criminal company with Michael John Hope, which is a name used throughout the fraud and The London Law Agency on its incorporation document. Richard Graham Melly connects this company to Tall Ships Companies that have featured elsewhere in the research.

Referring back to The Goldsmiths' Foundation Diane Elizabeth Lees connects the company to Chatham Historic Dockyard Trust (The) making a naval connection to the area where I was born and back into the fraud.

Arthur Philip Andrew Drysdale connects The Goldsmiths' Foundation to JPMorgan Cazenove Service Company making an imortant connection to JPMorgan and the Flemings shown throughout the fraud.

Rupert Nicholas Hambro connects The Goldsmiths' Foundation to The Groucho Club London, a private members club with 17 bedrooms that was used predominantly by members of the entertainment industry and prominent members of the club have included Cara Delevingne, Nick Grimshaw, Harry Styles, Caroline Flack, Jarvis Cocker, Lily Allen, Melvyn Bragg, Stephen Fry, Noel Gallagher, Luke Pasqualino and Rachel Weisz.
The Club was closed in Noevember 2024 as the result of a supposed investigation. I suspect it is due to the exposure of the fraud and that Caroline Flacks death is related.

Rupert Hambro - Wikipedia https://share.google/mD4tURfEZT4y7HVx1

The Groucho Club Limited was incorporated as Sunlot PLC in January 2001, six months before Larry Silverstein acquired the lease for the World Trade Centre. Its name was changed to Project

Quaker Club PLC in March 2001, for arond days. The company links immediately to the fraud by Oval Nominees Limited of an address of Temple Back East Temple Quay Bristol on its incorporation document. We will come back to Project Quaker Club shortly.

Groucho Club - Wikipedia https://share.google/vRoTrgPGWLr0nsh4m

Hambro also connects The Goldsmiths' Foundation to Telegraph Media Group, The Hamleys Group limited , The Walbrook Club Limited and Chatsworth House Trust (found in page 40 of the incorporation document for the Royal Foundation for the Prince and Princess of Wales and linking quickly to the research of Prince Harry).

The Walbrook Club is another private members club located next Rothschilds Office and former home secretary Suella Braverman had been one of its members. Braverman is a Member of Parliament in Hampshire, where Deborah Fleming was the NHS CEO and was made Home Secretary on 6th September 2022, two days before the Queens supposed death and as I am making enquiries at Exbourne Manor.

It was Braverman that Trevor Mealham was claiming he was hoping to remove from office during the false Operation Meadows investigation, as explained elsewhere in the document. Braverman briefly vacated her role as Home Secretary from 19th October 2022 until 25th October 2022 and left again in November 2023, as the exposure continued.

A Companies House search shows Braverman connects to Incorporated Council of Law Reporting for England and Wales (The) where she resigned on the 6th September 2022, two days before the Queens supposed death. Incorporated Council of Law Reporting for England and Wales (The) connects immediately to Harriet Harman and the affiliation to the Paedophile Information Exchange and to the research from Gerald Mccann, as shown elsewhere in the document.

Referring back to Project Quaker PLC being the former and brief name of the Groucho Club, although I had seen 'Quaker' company connections previously, I had not explored them. With the recent Christchurch Earthquake evidence it appears to be relevant in where it leads. The Quakers are religous and predominantly Evangelical Christian group.

Quakers - Wikipedia https://share.google/ThE2zFAobGPDI6fm9

Searching for Quakers Club reveals that Quaker Social Action was incorporated in 1998 and it shows a Peter David Jarman on page 5 of its incorporation document with this surname having featured in the research surrounding the Monks Investment Fund PLC that is on the incorporation document for The Royal Foundation for the Prince and Princess of Wales and Jarmans Solicitors linking to my friends wife, Emma Ayling, also connecting quickly back to the Royal company via Ingenious Film Partners 2 LLP that connects most areas of the fraud and is also on page 40 of the incorporation document.

Peter David Jarman also connects to Friends House Moscow on this incorporation document, making a possible Russian link and another name of Sandra Horfall connects to Independent Adoption Service shown on page 8.

Quaker Social Action – Companies House:
https://find-and-update.company-information.service.gov.uk/company/03524063

Judith Mary Moran connects Quaker Social Action to Santander UK Foundation Limited that was incorporated in 1990 as Abbey National Charitable Trust Limited before its name was changed in 2010. Many other companies are shown from page 3 of the incorporation document and Santander is hugely implicated in the fraud and connected closely to the Flemings.

Janet Mary Aiston connects Quaker Social Action to Civil Service Benevolent Fund that has Stone King Sewell LLP on its incorporation document. Civil Servants are shown throughout the documents in the fraud.

Julie Fewtrell connects Quaker Social Action to Westminster Citizens Advice Bureau Service that was incorporated in 1995, the same year as the Intelligence agency and Russian Government linked company, the Hakluyt International Advisory Board. All Citizens Advice Bureaus appear to have been established as part of the fraud and the criminal legal system. Westminster Citizens Advice Bureau Service connects immediately to the fraud and the apparent child trafficking network by Nabarro Nathanson and many companies shown from page 8 on its incorporation document. These include Chase companies that connect back to JP Morgan and the Flemings.

Robert Sem Anarfi connects Quaker Social Action to five companies including Lloyds Market Association that was incorporated at a key time as Lloyds Underwriters Non-marine Association Limited in 1991 before its name was changed in June 2001, the month before Larry Silverstein purchased the lease for the World Trade Centre. It connects immediately to the fraud by Cater Allen Lloyds Holdings Ltd on page 3 of its incorporation documents with Cater Allen being an

important link to The Flemings and The World Trade Centre disaster via CAPB Limited, as explained elsewhere in the document. I had acquiried forged documents appearing to have been produced by Lloyds Bank during my initial enquiries at Exbourne Manor.

Gillian Margret Ashmore connects Quaker Social Action to The National Foster Care Association Services Limited and Trans European Holdings Limited with 'Trans' companies featuring at key times throughout the research.

Stephen Ball connects Quaker Social Action to The National Spirituality and Mental Helth Forum that was incorporated in 2006 and dissolved in March 2024 as the exposure continued. There are Jewish referenced companies on its incorporation document.

Ball also connects to The Association for Pastoral Care in Mental Health that was incorporated in 2000 and dissolved in May 2022, as I was making enquiries at Exbourne Manor.

Jeffrey Graham Blay connects Quaker Social Action to five companies including 'Age' Charity companies that are shown throughout the fraud and to Republic Campaign Limited where it appears You Tuber, Charlie Veitchs girlfriend, supposedly called Carlo Silkie, was a director from 2021 until 2nd July 2022, six days before I approached Anthony Roberts of Exbourne Manor, triggering the exposure. These evidential connections had began from an associate of Charlie Veitch.

Silkie Carlo - Wikipedia https://share.google/TQJcaTA4Fi9c74Bze

The research suggests that Silkie had worked for Liberty before 2018 when she became a director for British Civil Liberties NGO Big Brother Watch that supposedly campaigned against state Surveillance.

Republic Campaign Limited was incorporated in 2006 and has a registered address of 20 to 22 Wenlock Road, London that is normally associated with Companies Made Simple and makes connections to the National Council for Civil Liberties, that was affiliated to the Paedophile Information Exchange and the World Trade Centre disaster.

REPUBLIC CAMPAIGN LIMITED overview - Find and update company information - GOV.UK https://share.google/HFly2uOjJsh3h80XJ

Kenneth David Ford Powell connects Republic Campaign Limited to VK Property Management Ltd that was incorporated in November 2024 and has a registered address used throughout the fraud and linked to Nigek Farrage of 128 City Road, London.

Robert Jeremy Barton connects Republic Campaign Limited to Spectrum Premier Homes Limited with a correspondence address in Christchurch, Dorset that already features in the research stemming from the helicopter crash linking with Siemens, criminal United Nations Companies and CERN as shown elsewhere in the document.

Emma Dent Code connects Republic Campaign Limited to Campaign for Nuclear Disarmament and Royal Kensington and Chelsea.Tenant Management Organisation Limited. This was the Management company for the Grenfell Tower at the time of the disaster and connects to The Temple Trust that had already been connected immediately to a Goldshmidt company, as shown elsewhere in the document.

Matthew Scott Hulbert connects to Leicester, Lesbian Gay Bisexual and Transgender Centre.

Other directors for the company connect to various Reform political and voting related companies.

Charlie Veitch appears to be trying to trigger civil unrest wih his controversial approach to ethnic minority groups that appears to be coinciding with the social media publications claiming there is information of a potentially imminent Islamist attack against children at nurseries. I suspect this in relation to the agenda regarding the World War three plan as outlined in the Albert Pike Letter to Mazzini that is being implimented as the criminal system becomes fully exposed and deliberately driving towards a falified apocalyptic deception.

Bircham Dyson Bell of 50 Broadway is on the incorporation document.

Lord Mark Thomas Bridges connects The Goldsmiths Company Trustee to thirty eight companies including military referenced companies and to Farrer & Co companies making immediate connections to Ghislaine Maxwell, the research of Michelle Mone and the Royal family. Harold Jevons connects Yorkshire Baptist Association (Incorporated)(The) to Crown Corporation UK that was incorporated in 1994 and has a registered address of Earnst & Young LLP 100 Barbirolli Square, London that features throughout the fraud.

Collin Stephen Brown connects Yorkshire Baptist Association (Incorporated)(The) to Community Action Hampshire and Hampshire Health Watch CIC that was incorporated in 2014, dissolved in 2024 and has a registered address in Christchurch, Dorset. The incorporation document shows that it is a criminal company having been incorporated with the same companies as Exbourne Manor Freehold Limited.

Neil Robert Watts connects Spina Bifida, Hydrocephalus, Information, Networking, Equality – Shine to Independent Press Standards Organization C.I.C. that features throughout the fraud and make quick connections to the collaborative criminal deception with the Russian Government through controlled media, as shown elsewhere in the document.

Madeleine Mccann

Madeleine Mccann was born in 2003, prior to twins being born in 2005. Madeleine went missing from a Portuguese resort on 3rd May 2007, three months before Exbourne Manor Freehold Limited was incorporated and where I started to acquire the evidence of the International Government Fraud in 2022.

Madeleine had supposedly been left alone and there is much speculation about what may have happened, but I suspect it is certainly not what we are being led to believe. Despite hundreds of thousands of other children going missing around the World, the authorities appear to have deliberately kept this in the public eye like no other.

Madeleine's Fund: Leaving No Stone Unturned Limited was incorporated on Companies House by Bates Wells & Braithwaite on 15th May 2007, twelve days after Madeleines apparent disappearance. This company is shown on the incorporation document for The Royal Foundation for the Prince and Princess of Wales that links all areas of the fraud. It is also on the documents for Kier Starmers, Death Penalty Project Limited, where he resigned at a key time of the COVID situation and where he was the director of Public Prosecution for the case against Jimmy Savile that you will see connects to the Madeleine case in various ways including to the Portuguese Chamber of Commerce, already shown in the research. Sean Coombs aka P Diddy and relevant

Cancer Research UK were also clients of Bates Wells & Braithwaite and is important as shown throughout in the research.

This means it and the Madeleine Fund company are criminal organisations as The London Law Agency has a forged register and the illegality continues wherever it is used.

Andrew Beaney connects Reading FC Community Trust to Centrica Pension Trustees, another important connection to Centrica featured throughout the research.

Beaney also connects to Home Assistance UK Limited that was incorporated in 2006 with @UKPLC Client Director Limited, connected immediately to Paul Mallorie and Property Solutions (Southern) Limited, the managing agent for Exbourne Manor Freehold Limited. Home Assistance UK Limited dissolved in September 2024, as the exposure of the criminal network continued.

John Mccann became a director for the Madeleine Fund company on 16th May 2007, but Madeleines supposed parents Gerald Mccann and Kate Mccann became directors in November 2008.

Gerald Mccann

Gerald Mccann is shown as having been a director for British Society of Cardiovascular Electromagnetic Resonance from June 2008 until March 2014. This is relevant, as information suggests he had been studying the effects of radiation from cell towers on the body. Research suggests cell towers and other technology emit electromagnetic radiation that can cause cancer. The Suns rays also emit this radiation and the latest information suggests that the potential motives for CERN may do the same.

Comares

Gerald Mccann has connections to Comares, involved in the study of radiation on the body.

Comares Limited was incorporated in June 2002 with Scotts Company Formations with an address in Edinburgh. This was incorporated in 1989, the same year as the World Wide Web for CERN and changed its name for the first and only time in June 2024, as the exposure continued. The incorporation document shows.

Scottish Huntingtons Association has several doctor directors and Dr Ivor Thomas connects the company to Alzheimer Scotland-Action on Dementia incorporated in 1994 by Sheppard &

Wedderburn and with a Jean Thomas ‘Fleming’ on the incorporation document. Research shows David Cameron was the President of Alzheimer Research from key time of 2017, until 2023, as the exposure continued. This becomes relevant shortly. I suspect they are causing Alzheimers deliberately as part of their experimental torture and that it relates to the radiation.

David Cameron - Wikipedia https://share.google/yaS99Fi0moQUlLNi2

James Lochery is also showing as having been a director for Tinto Developments Limited that was incorporated in February 2002, five months after the World Trade Centre disaster. It is a criminal company having been incorporated with Oswalds of Edinburgh and Jordans (Scotland) Limited, making connections to Michelle Mone, Advisor Douglas Smith and Max Clifford. James Montgomery connects Tinto Developments to twenty three companies including ETHX Energy Supplies Ltd that was incorporated in September 2012, two months after CERN supposedly discovered the Higgs Boson of God particle and dissolved in July 2024, as I was making connections to the fraud and adrenochrome. It shows The Kelvin Partnership Ltd on its incorporation document.

Robert Booth of ETHX Energy Supplies Ltd connects to Prince & Princess of Wales Hospice (The) in 1983 as New Glasgow Hospice (The), before changing its name to Prince ‘and’ Princess of Wales Hospice (The) in 1987, two years before Princess Dianas apparent death and again in December 2016. John Kyle connects Prince & Princess of Wales Hospice (The) to Food and Drink Federation (The) that was incorporated in 1925. It has a forged register and Waterlow & Sons Limited on its incorporation document.

Thomas Allison connect Prince & Princess of Wales Hospice (The) to Link Transport Services Limited and various ports, shipping and freight companies including linking to Manchester.

Michael Bond connects Prince & Princess of Wales Hospice (The) to The British Pain Society and the Scottish Biomedical Research Trust, with consideration that the system is connected to the apparent experimental torture of the masses.

Stephen Burns connects Prince & Princess of Wales Hospice (The) to Stenhousemuir Football Club Community Interest Company, with football clubs featuring throughout the fraud and being the ideal for laundering money through the criminal system in place.

Professor Edward Friel connects Prince & Princess of Wales Hospice (The) to The Mungo Foundation, incorporated in 2003 and being a criminal company having been incorporated with Jordans (Scotland) Limited.

Justice of the Peace Stan Gilmore connects Prince & Princess of Wales Hospice (The) to Royal Conservatoire of Scotland that has featured in the research and makes a Royal connection.

Ian Irvine connects Prince & Princess of Wales Hospice (The) to Newsquest (Herald & Times) Limited with Newsquest being part of the centralised criminal control system and being connected to the cover story for the fraud by Dorset Police and The Bournmeouth Echo.

Douglas Lows connects Prince & Princess of Wales Hospice (The) to The Original Fresh Babyfood Company limited and S.D.A Pharmaceuticals Limited.

Bupa features throughout.

Dr Fiona Marshall connects Prince & Princess of Wales Hospice (The) to The Cameron Fund that was incorporated as Cameron Fund (The) in 1970, the year before the World Economic Forum and with a forged register and Jordan & Sons Limited on its incorporation document. This possibly refers to a fund for David Cameron and relation to his planned involvement in the crimes against humanity to follow.

Alan Tomkins connects Prince & Princess of Wales Hospice (The) to Fattys Limited, Blood Marys Limited and Clubfood Limited that had Interpath in its registered address as featured throughout the documents and connects to the research of David Cameron and Tony Blair. This company was in liquidation at the time of the research.

Kate Mccann / Healey

Research shows that Kate McCann had another name of Healey, was born in Liverpool and graduated from Dundee University in Scotland with a degree in medicine in 1992, the same year that the Companies House register was becoming electronic.

Companies House shows a record for Kate Healey, of a different date of birth, having been a director for Patrium Limited from 2015. Remember there has deliberately been no verification by the Government of company records, meaning that false details can be used. They know this facilitates crimes against humanity and allows trillions of pounds to be defrauded from the masses.

Patrium Limited is a criminal company with The London Law Agency on its incorporation document and making connections to The Madeleine Fund company via BWB (No 2) Limited and to Kier Starmer by the Death Penalty Project Limited.

There is also a company called Kate Healy. Happy Ltd with an address of Fiscus Solutions Ltd, 'Nuffield' Industrial Estate, Poole, Dorset about twenty minutes drive from Exbourne Manor. This company was incorporated in June 2019, the month before Jeffrey Epstein was arrested and a protest took place in Wuhan, a month before cell towers were erected there and six months before the supposed COVID outbreak there. There is an address as Emery Down, Lyndhurst, Hampshire on the incorporation document and I recall my wifes Father having said he had worked in that area. The filing history shows that this address was changed to one in Southampton on 11th May 2020, the month after Kier Starmer resigned from the Death Penalty Project Limited and an important time in the COVID situation and not long after the death of Gordon Bowden. Its address was changed again in December 2020 to an address in Romsey and again on 1st July 2021 to an address of 85 Portland Street, used throughout the fraud and again on the same day to another address.

Clement Freud

In June 2016, two months before the apparent Satanic ritual at CERN, articles emerged regarding Clement Freuds meeting with the parents of Mccann in Portugal after they had received a letter from him two months after Madeleines disappearance. Frued was a British Broadcaster and Politician that apparently died in 2009 and allegations emerged of his crimes against children in 2016. It seems to be the case ,with many of those involved in this fraud and its apparent connection to crimes against children, that they are only exposed after their death. I suspect often the deaths are staged and possibly falsified altogether.

Susanna Abe of The Freud Museum London connects to Association for infant Mental Health (UK), The British Psychoanalytic Council and Family planning Association (The) that was incorporated in 1966, the year of the Foundation of The Church of Satan and dissolved in June 2022, a month before Anthony Roberts of Exbourne Manor Freehold Limited resigned.

Baroness Doreen Massey was as a director as was Dr David Robertson who also connects to The Northern Premier Football League and British Pregnancy Advisory Service.

Anne Weyman connects Family planning Association (The) to National Childrens Bureau that is already connected to the research of The National Council for Civil Liberties, its affiliation to the Paedophile information Exchange and the World Trade Centre disaster. National Childrens Bureau is a criminal organisation with a forged register and was incorporated in 1969, the year that Charles became the Prince of Wales and where Companies House is based, who commit the fraud.

June Addison of Family planning Association (The) connects to Grant Thornton Business Services. Grant Thornton features throughout the research and was used by Bournemouth, Christchurch and Poole Council, where Exbourne Manor is based. Addison also connects to Moffat communications with Moffat appearing to relate to a Scottish Royal Clan and to the location of the Stone of Crone or Stone of Destiny.

Juliet Rosenfield connects Family planning Association (The) to the United Kingdom for Psychotherapy.

Anthony Spiro connects Family planning Association (The) to The Association of Jewish Refugees (AJR).

Paul Chiltern of The Freud Museum London connects to Savills India Limited.

Matthew Freud of The Freud Museum connects to Freud 3.0 Limited and to Freuds Group Limited that was incorporated as The Gang 2015 Limited, changing its name on 27th October 2017 to The Brewery Group (Holdings) Limited in February 2022, the same month as Putins Special Military operation against Ukraine and during my early enquiries at Exbourne Manor.

Portuguese Chamber of Commerce

As shown in the full document English and Portuguese Chamber Of Commerce and Industry In The United Kingdom (The) has a forged register and connects quickly to the Donald Trump,

Jimmy Savile, The Freemasons and Royal family members from the research of the threat from directed energy.

Silva Fazio connects the Portuguese Chamber of Commerce to the Italian Chamber of Commerce that also has a forged register and likely makes connections to the Vatican.

PORTUGUESE CHAMBER OF COMMERCE AND INDUSTRY IN THE UNITED KINGDOM(THE) overview - Find and update company information - GOV.UK https://share.google/5cv3DyzdhEwXbw6c4

Stephen Hammond of the Portuguese Chamber of Commerce appears to connect to Jeffrey Epstein and Max Clifford via Coca Cola and possibly Officeteam 2 Group Limited company making connections to the World Trade Centre disaster and the Stationery companies used in the forged incorporation documents.

Mark William-Thomas

Former Surrey Police detective Mark Williams-Thomas became involved in the Madeleine case as an Independent Investigative Journalist. He had worked for Surrey Police from 1989, the same year the World Wide Web was created for CERN until 2000, the year before the World Trade Centre disaster.

Between 2001 and 2002 Williams-Thomas had been a marketing manager and director for GumFighters, a chewing gum removal specialist hired by various councils. All councils researched so far are involved in the fraud.

Mark Williams-Thomas - Wikipedia https://share.google/eTxV95GxF7xCWa5n0

Gumfightes UK Limited was incorporated in 1999 by Halliwell Landau and Williams-Thomas is shown as being a director from 28th September 2001, seventeen days after the World Trade Centre and resigning in October 2002. The company dissolved on 13th December 2011, two months after the supposed death of Jimmy Savile. Jeremy Janion of Gumfighters UK Limited connects to several criminal companies that had been incorporated with the same two companies as Exbourne Manor Freehold Limited.

GUMFIGHTERS UK LIMITED overview - Find and update company information - GOV.UK https://share.google/goy2RxaH6tqXgFmia

Kathryn Jenion of GumFighters UK Limited is connected to 3G Cleaning Lmited that was incorporated in April 2001, changing its name to Graffiti Fighters UK Limited in May 2001, two months before Larry Silverstein acquired the lease for the World Trade Centre and changed its name for the final time in April 2002, after the World Trade Centre disaster. It is also a criminal company, incorporated with the same two companies as Exbourne Manor Freehold Limited.

Williams-Thomas is shown as a director for WT Associates Limited from 12th June 2007, the month after Madeleine went missing.

Williams-Thomas had been involved in various Televisions shows and had supposedly triggered Operation Yew Tree after a show about Savile in 2012, the year that CERN supposedly discovered the Higgs Boson or God particle. The Operation Yew Tree investigation supposedly led to the exposure of various high profile figures from the entertainment industry being involved in crimes against children, including Jimmy Savile. I suspect they were really using it to alter, conceal and destroy evidence and make moves to the real agenda.

Williams-Thomas was appointed as a director for Specialist Investigations Limited in August 2022, as I was making enquiries within Exbourne Manor.

There a various entries on the Companies House records for Mark William Thomas.

Mark William Thomas - Find and update company information - GOV.UK
https://share.google/a2m5EZmEB0ql6SlEl

In early 2023, William-Thomas became involved in investigating the Nicola Bulley case, which as you will see from the research is also very relevant to the fraud.

In December 2023 Williams-Thomas was involved in a documentary regarding Baroness Michelle Mone and the PPE Medpro COVID scandal, despite it being funded by PPE Medpro. This was as I was conducting enquiries regarding Mone and have since established other critical evidence from the research.

It appears evident that Williams-Thomas is being used to conceal the truth, that the companies fraud connects everything and provides the motive for all of the Worlds issues, crimes and the agenda against humanity.

In March 2019, four months before Jeffrey Epsteins arrest, articles emerged of the Mccanns spokesperson and former Journalist Clarence Mitchell.

Clarence Mitchell had become a director for JBP Associates Limited from April 2016 for less than two months. The company is criminal having been incorporated with the same two companies as Exbourne Manor Freehold Limited.

Sonia Poulton

In around August 2023 I tried to make contact with Sonia Poulton, who is also apparently and Independent Investigative Journalist and had covered the Mccann case. Many of her listeners convinced her to contact me and I explained the fraud and its connections to the Madeleine company to Poulton, talking through the forgery of one of the main company's in the fraud. Poulton appeared intrigued and I felt hopeful she would help, but she did not respond any further.

Within weeks, a company in which Poulton was the only director on its incorporation, Truth and Integrity Limited dissolved. This company had been incorporated in 2018, as Gordon Bowden was exposing the non-verification in the fraud and its connection to 788 to 790 Finchley Road, which I suspect triggered the COVID /cell tower agenda.

TRUTH AND INTEGRITY LIMITED overview - Find and update company information - GOV.UK https://share.google/ChizLBeEVntGhRf0M

Lewis Montague connects Truth and Integrity Limited to Ongar Enterprises Limited that was incorporated in 1981 and links to the fraud by Express Company Registrations that links to the research of Jeffrey Epstein and Douglas Smith.

Philip Birch of Ongar Enterprises Limited connects to Training Highway and Adrian Gilson of that company to Advanced Health and Care Limited, that was incorporated in 1994 as Wincover Services Limited, changing its name to Adastra Software Limited. It is a criminal company having been incorporated with Jordans Limited, the same company as Exbourne Manor Freehold Limited.

Stephen Dews of Advanced Health and Care Limited connects to Oyez Professional Services Limited that was incorporated in 1978 as Yorkover Limited, changing its name in 1998, three years before the World Trade Centre disaster to Oyezstraker Business Services Limited, before changing its name for the final time in April 2001, three months before Larry Silverstein purchased the lease for the World Trade Centre. These are the same companies connecting Officeteam 2 Group Limited, the research of Jeffrey Epstein and Max Clifford and connecting to the NHS Confederation and therefore Deborah Fleming.

Stephen Dews also connects to The National Will Register Limited that was incorporated as Data Certainty Limited and is a criminal company with Jordans Limited on its incorporation document, the same as Exbourne Manor Freehold Limited. I suspect they have been forging wills as part of their criminal network through the Companies House Fraud. This is very likely a method used to have centralised the whole system to this criminal network.

Dawes also connects to Waterlow Business Supplies Limited, that was incorporated in 1989, the same year as the creation of the World Wide Web for CERN. This also connects to Officeteam 2 Group Limited and Waterlows features right throughout the fraud and is associated to the main currency producer for the World, De La Rue.

There appeared to be duplicate records for Poulton and Soniapoulton.com had been incorporated by Coddan CPM Ltd, of an address of Baker Street.

Coddan CPM Ltd was incorporated in 2005 and Koosraj Ramanah connects the company to Property Fintech limited and Global Financial Partners Limited, both with Companies Made Simple on their incorporation document.

CODDAN CPM LIMITED overview - Find and update company information - GOV.UK
https://share.google/whIthHQ69L3zGqeKz

Ramanah alco connects to Jodz International Limited that was incorporated in 2004 with First Class Company Services on its incorporation document and was in the process of liquidation when conducting my research. First Class Company Services connects to the research of the Mayor of New York at the time of the World Trade Centre disaster and Jeffrey Epstein.

Ramanah also connects to Sakoba Dance Theatre that has 788 to 790 Finchley Road on its incorporation document, the address connected to Government fraud by Gordon Bowden.

Olugenbenga Taiwo of Sakoba Dance connects to Methuen Drive Residents Association Limited that had a registered address of Elezabeth House, Fordingbridge Park, Fordingbridge that makes the connection to Napier Management Services, to The Association of Residential Management Agents (ARMA), to Police organisations and to Exbourne Manor Freehold Limited.

David Burden of Methuen Drive Residents Association Limited connects to Gordon Court (Bournemouth) Limited of 1 Lowther Gardens, Bournemouth that links to Burns Property Management & Lettings, that had again been part of ARMA.

Michael Davies of Gordon Court (Bournemouth) Limited connects to Lyntek Securities Limited, where Paul Mallorie is shown as a director from March 2007, two months before Madeleine went missing, to October 2007.

As previously mentioned, Paul Mallorie is the agent for Property Solutions (Southern) Limited shown as a secretary for Manor Freehold Limited.

The research from The World Trade Centre and information from Wandelt links immediately to the organisations surrounding Mallorie and former Secretary Stephen Owens.

Instead of assisting in exposing the irrefutable and verifiable evidence to prevent any further suffering to any other children, Poulton decided to collude with others, including Brian Gerrish from the UK Column.

Between them and others they publically tried to undermine me and the evidence. Brian Gerrish and his naval backgroumd also appears relevant in the fraud as mentioned in the research.

Poultons apparent involvement in the criminal system against humanity was heightened when Anthony Roberts of Exbourne Manor Freehold Limited confirmed that he had been colluding with Poulton during a live stream.

Reynard Wilson was also been part of this group and taken part in the live stream with Anthony Roberts as mentioned previously. He had operated under the heading of ‘Mind Of Steele’ referring to Mark Steele and therefore making connections to Sacha Stone. Wilson had been involved in a video about me with a title of ‘Everyone Hates Gary Waterman’ and a picture of me in a Police Uniform with a circle of guns pointing at my head. This meant the Police and NHS

organisations were involved in this. At the end of his video Wilson spoke German supporting the possible Sabbatean Frankism origin of the evil behind the system.

Julia Wandelt

In around August 2024 I started to receive contact from Julia Wandelt who was claiming to believe that she was Madeleine Mccann since around May 2022, as I am making enquiries at Exbourne Manor. Wandelt claimed to live in Poland and provided me with details about her Polish family that I could check on Companies House. The results of the research were so relevant that I believed Wandelt must be Madeleine Mccann or she had been positioned by those behind the fraud to make me believe that she was, in which case it would be a distraction from something bigger.

The details that Wandelt had provided led me straight to Exbourne Manor Freehold Limited and very quickly to the Madeleine Fund company. Initially I was convinced she was Madeleine, until others became involved and tried to lead me to believe that the World was on the verge of ending, due to a Nuclear War.

Waldelt tried to support this by telling only me about specific visions she had supposedly had that appeared related to Nuclear weapons. This was then reinforced by me being introduced to someone claiming to have had exactly the same visions. This introduction was an associate Rangy Latiff, supposedly called Alison Hocking.

Hocking claimed to be good friends with Jeanette Archer who claims to be a Satanic Ritual Abuse (SRA) survivor and that the Royal family are lizards, as does David Icke. I had tried to collaborate with Archer regarding the fraud, due to it appearing to be so closely connected to child trafficking and adrenochrome harvesting, but she appeared to make repeated excuses not to, despite openly speaking about graphic experiences, literally shouting it in the street. If true I doubt very much she would be walking around freely.

I later found evidence connecting Archer to the main companies in the fraud, but she denied it was her, so I asked her to collaborate with me as a victim of her details being used in the fraud. Instead Archer turned and claimed I was suffering from mental health issues. Hocking and Latiff tried to convince me not to expose Archer and I then found more significant connecting Archer to key areas of the fraud.

Jeanette Alison Kathleen ARCHER personal appointments - Find and update company information - GOV.UK https://share.google/avqERfNvyhugkrpiV

A record for a Jeanette Archer shows that they were a director for The Sling School LLP that was incorporated in November 2011, the month after Jimmy Savile supposedly died. Dr Soed Guemghar and Dominique Brockhaud-Grand are shown as former directors along with Dr Rachel Sills who connects to P&T Consultancy Limited of an address in Durham. Geoffrey Maddock connects the company to PTF Consultancy Services Ltd that was incorporated in 2018

and was Proposing to strike from the register at the time of the research. It has Companies Made Simple on its incorporation document. The filing history shows that the companies address changed twice in quick succession in early 2022 as I was making enquiries at Exbourne Manor. Brockhause-Grand of Manchester is shown on the incorporation document.

A separate search on Dominique Brockhaus-Grand shoes that she is a German Tutor as Manchester University from September 2022, the month the Queen apparently dies and I am making further enquiries at Exbourne Manor.

A search of The University of Manchester shows that its details are being hidden as a Royal Charter Company. I have only seen this once or twice. University of Manchester can be viewed and was incorporated in 2003. It has Eversheds on its incorporation document that features throughout the fraud and often by Police associated companies.

Patrick Hacket of Manchester University connects to The University of Manchester Car Parks Limited that was incorporated in 1995, the same year as The Hakluyt International Advisory Board linking to the Intelligence Agencies and the Russian Government. It is a criminal company incorporated with Swift Incorporations Limited and Jordan & Sons. It appears they have tried to hide the laundering through an inconspicuous parking company, which certainly seems to be tactic they have used.

Stephen Dauncy of the Car Park company connects to National Highways Limited and to Defence Contractor Management and Operations Limited incorporated in 1998 as Awe Management Limited and changing its name for the first time March 2022 as I am making enquiries at Exbourne Manor. It has a registered address of Serco House in Hook, appearing to make reference to Serco featured throughout this document.

Dauncy also connects to Nuclear Restoration Services Limited that was incorporated in 1998 with Slaughter & May and prior to the exposure of the fraud its name was last changed in 2011, but its name was changed again in April 2024, as the exposure continued.

Robert Fraser of the car park company connects to Owens College and Owens College Manchester.

Steven Mole of the car park company connects to Graphene Enabled Systems that was incorporated in 2015 and dissolved in July 2022, as I am acquiring evidence connecting the fraud to adrenochrome.

Mole also connects to Liverpool-Shanghai Partnership Limited that was incorporated in 2013 with fraud connected Pinsent Masons on its incorporation document.

The research surrounding David Icke also connected to a Shanghai companies and possible drug referenced companies as well as to a company called Paranoid UK. Pinsent Masons Secretarial is shown on the people record of Liverpool-Shanghai Partnership Limited and they have appointments to Isle of Wight Fuels Limited, Edinburgh

International Conference Hotels Limited and Matrix (Highlands) Limited that was incorporated in 1990 and is a criminal company having been incorporated with the same companies as Exbourne Manor Freehold Limited are also appointments of Pinsent Masons Secretarial.

David Icke apparently lives on the Isle of Wight where Deborah Fleming was the NHS CEO.

William Bannister connects Matrix (Highlands) Limited to The Tank Museum Trading Company Limited in Bovington, Dorset where Prince William and my wifes younger brother Myles Moreton had connections.

Bannister also connects Matrix (Highlands) Limited to Centaur III Limited and research shows that Centaur refers to a rocket system and Atlas companies, making connections to both Nuclear weapons, but also making possible connections to the Atlas experiment at CERN in 2012. I suspect the nuclear weapons companies have always been a cover for the agenda regarding the collider technology, which explains why those appearing to be working with others involved in the fraud tried to make me believe the threat was from Nuclear Weapons.

Myles Moreton had prompted my removal from a Whatsapp Group on 6th November 2024 with my wifes family. The administrator for the group was my wifes cousin NHS Surrey GP Melissa Down. This was after I had started to find significant connections to the fraud and my wifes family, but hoped they would do what's right is I continued to share the evidence with them. Most of the families have blocked me and removed any images, but here is one I found.

Research suggests that Melissas husband (my wifes cousin), Jordan Down works for Dentsu, a multinational Japanese advertising company that was in 1901 and is significantly connected to the fraud and therefore the crimes against humanity.

Jordans Mother, Michelle Down had been the NHS Manager at Ringwood Doctors Surgery in Dorset that connects quickly to the fraud and Exbourne Manor, as does her mother Felicity Moreton.

Referring back to the research of David Icke, John Lynn connects Isle of Wight Fuels to 04245760 Limited that was incorporated as Precis (2065) Limited on 4th July 2001, twenty days before Larry Silverstein acquired the lease for the World Trade Centre and its name was changed for the first time on the 18th September 2001, a week after the World Trade Centre disaster. Its name changes included to Chevron, which is a company predominantly involved in oil and gas and where the research shows there were relevant changes around the time of the World Trade Centre disaster. All oil ad gas companies are either criminal of connected quickly to criminal companies.

Link to Chevron: https://en.wikipedia.org/wiki/Chevron_Corporation

Stewart Right of 04245760 Limited connects to Chevron UK Trading Limited that was incorporated in 2011, when its name was also changed until 2024, when it changed again, the exposure continued.

Right also connects to Texaco Limited.

Office Organisation & Services Limited is shown in the people record for 04245760 Limited and this makes important connections where it has featured previously. This includes:

JP Morgan Income & Growth Investment Trust PLC. Tata Steel UK Holdings with a registered address for Teneo and that dissolved in 2024 after being exposed as a criminal company with Jordans Limited on its incorporation document.

Various Group 4 Security (G4S) that connects to The Association of Chief Police Officers of the United Kingdom by Paul Condon.

Lloyds Chambers Property Limited a criminal company incorporated with the same companies as Exbourne Manor Freehold Limited.

Eurotunnel Agent Services, with Eurotunnel companies featured throughout the fraud to launder tax contributions through the project.

Great British Nuclear, incorporated in 2004, having its name changed in 2008 and again in 2024 as the exposure continued and being a criminal company having been incorporated with the same two companies as Exbourne Manor Freehold Limited.

Liberty Living (Liberty CP) Limited that connects to the research associated with Donald Trump.

Next PLC that features quickly in the research from Jeffrey Epstein.

World Business Centre Management Company Limited that was incorporated on 2nd July 2001, Twenty two days before Larry Silverstein acquired the lease for the World Trade Centre and had its name changed for the only time on 21st August 2001, less than a month before the World Trade Centre. It is a criminal company having been incorporated with Jordans Limited.

Capita Aurora Limited making another connection to Capita in the research.

HBOS PLC, with HBOS being on the incorporation document for The Royal Foundation for the Prince and Princess of Wales that connects all areas of the fraud.

04077358 Limited, incorporated in 2000, with its name being changed eithr side of the World Trade Centre and not since and in the process of liquidation at the time of the research. It is a criminal company having been incorporated with the same two companies as Exbourne Manor Freehold Limited and had Earnst & Young LLP in its registered address.

I had received information that Hockings husband was a freemason, but she denied this was the case, however a Facebook picture was acquired confirming to be them and having Pendle View Holiday Park Limited on the page. This company has an address of a key location in Lancashire and was incorporated in 2021 as JP Hocking for just over three months before changing its name. Companies Made Simple is on the incorporation document.

PENDLE VIEW HOLIDAY PARK LIMITED overview - Find and update company information - GOV.UK https://share.google/jP0FB8riqUXu9URS7

Philip Hocking was shown as a director of Pendle View Holiday Park and connects to Hocking Investments Limited that was incorporated on 18th July 2022, five days after Anthony Roberts of Exbourne Manor Freehold Limited resigned, triggering my full enquiries. Again Companies Made Simple is on the incorporation document.

Philip Hocking is also shown as a director for Elm Lodge Management Committee Limited.

Alison Hocking also knew Dave Whitcher, who I had been speaking to for a while and Hocking had previously made contact with him to interview me. Whitcher is based in kent, I believe not far from where I lived and during our discussions Whitcher explained that he knew several Police Officers, likely from where I used to work in Maidstone. I noticed that there appeared to be a deliberate alteration of a letter for Whitchers name during correspondence, but a check on Companies House appeared to show that Whitcher was connected to the fraud.

It was later that I realised all the mutual friends I had with Whitcher were members of the Rapid Response teams who had made connections to my family in Kent and my wifes family in Dorset via the same companies in the fraud, far to quickly for it to be a coincidence.

This supports that for some reason people involved in this have been positioned all around me wherever I moved.

This all casted suspicion on Wandelt, along with her continually going against my advice and appearing to put herself at risk unnecessarily. Wandelt also appeared to collude with others to try and get me to attend Rosslyn Chaple in November 2024. I had already been led to believe that Rosslyn Chapel is an important location in all of this and it may well be, as is located in Edinburgh where the oldest active freemason lodge is based and features in seemingly important movie, The Davinchi Code as mentioned elsewehere in the research.

In February 2025 Wandelt apparently attended the UK again and articles emerged that she had been arrested and remanded for months over alleged harassment to the Mcanns. This is unheard of for such a minor offence and her legal representative was connected to the fraud. I now suspect this was staged as they realised the agenda with Wandelt was not working.

I was initially very concerned about Wandelts arrest and submitted a Police report as well as contacting Wandelts friend Sheena. Sheenas reaction was highly suspicious and almost dismissive. I had been suspicious of Sheena previously, when I had tried to get Wandelt to

discuss her visions in a live stream and both her and Sheena became confrontational. I now suspect that Sheena knew Wandelt was positioned by those running the fraud and was potentially handling that position. Wandelts possible positioning and the lengths they have gone to make her seem to be Wandelt, supports that the deception is about something much bigger.

My enquiries suggest that this is a sinister plan involving collider technology and cell towers, with the nuclear war threat always having been a collaborative deception against humanity to hide the real agenda.

I have to consider that they want the right people to perceive this threat as real for some reason and it does seem as though everyone in my life has been positioned around me as part of this and with connections now appearing to be made to the Vatican and my families.

Elon Musk

The evidence that I have acquired makes significant links from Donald Trump and Elon Musk to Exbourne Manor Freehold Limited and the fraud.

Elon Musk was recently given a key by Donald Trump and through the Companies House research Musk links to my families and biblically referenced companies including 'Jesus Copyright Limited' via a second director of a company called Intelligence Artificial Limited.

On releasing this evidence two of my Tik Tok channels were completely removed, one only after one of the videos had attained 50 thousand views. This was whilst it was on an account ban warning and the other with no warnings at all and it being removed almost immediately after posting.

The videos are still on You Tube, but are being suppressed:

P5 - https://youtu.be/u8X5nYO1gOA?feature=shared

Soon after the exposure, articles appeared of Trump and Musk falling out. This is very likely staged and due to the exposure to assist them moving forward.
Evidence is being collated regarding DOGE (EGOD backwards which possibly refers to the Satanic Artificial Intelligence and Electronic God) and its links to the forgery through Companies House. Nigel Farage is also linked to the cult and trying to implement DOGE in the UK, with Donald Trump edging away as they likely know what's coming.

Revelation 9:1-6 of biblical scripture appears to make reference to a key being given and that it will lead to the masses being made to 'seek death, but not be able to find it'. In other words be desperate to die, but not be able to. Here is the full verse:

Then the fifth angel sounded, and I saw a star from heaven which had fallen to the earth; and the key of the bottomless pit was given to him. He opened the bottomless pit, and smoke went up out of the pit, like the smoke of a great furnace; and the sun and the air were darkened by the smoke of the pit. Then out of the smoke came locusts upon the earth, and power was given them, as the scorpions of the earth have power. They were told not to hurt the grass of the earth, nor any green thing, nor any tree, but only the men who do not have the seal of God on their foreheads. And they were not permitted to kill anyone, but to torment for five months; and their torment was like the torment of a scorpion when it stings a man. And in those days men will seek death and will not find it; they will long to die, and death flees from them." Revelation 9:1-6 NASB1995

Link to the verse:
https://www.biblegateway.com/passage/?search=Revelation%209%3A1-6&version=NIV

Revelation 9:11 appears to state:
They have as king over them, the angel of the abyss (the bottomless pit); in Hebrew his name is Abaddon (destruction), and in Greek he is called Apollyon (destroyer-king).

Revelation 9:11 - Bible Gateway https://share.google/d2tSKCwG8nigfjBHD
Abaddon - Wikipedia https://share.google/tiww55n5f1WokDs2m

This is possibly very relevant, particularly as it is revelation '9:11' the date of the World Trade Centre disaster.

Research surrounding Elon Musks Mother Maye Musk, with alias name of Alderman, suggest she part of a cult and practices 'dark arts' as does the Special Advisor for the last few UK Prime

Ministers, Douglas Smith. Recent contact with someone claiming to be a high level Occultist supports that Maye Musk is part of the Black Cube of Satan Cult, as mentioned earlier.

Initial Companies House research surrounding Maye suggests she may be quickly linked to The Tavistock Institute, a mind control organisation established in 1947, the same year as the doomsday clock was created.

Link to The Tavistock Institute Wiki:
https://en.m.wikipedia.org/wiki/Tavistock_Institute

Information suggests The Tavistock Institute has been incorporated into the NHS where Deborah Fleming was a CEO.

Nigel Farage

Nigel Farage is appearing to try and make headway in UK Politics and on 18th January 2025, two days before Donald Trump became the 47th President of the United States, Reform UK Party Limited was incorporated on Companies House, with 128 City Road on its incorporation document, an address that features throughout the fraud. As the exposure continued, articles appeared on 5th June 2025 of other director Muhammid Yusef leaving Reform. Companies House shows he resigned that day. I suspect he knows of the sinister plans.

https://www.theguardian.com/politics/2025/jun/05/the-departure-of-reform-chair-zia-yusuf-is-the-latest-in-a-long-line-of-farage-fallings-out

Nigel Farage was also a director for United Kingdom Independence Party Limited from 7th November 2011, just over a week after Jimmy Saviles supposed death and resigned in November 2016, three months after the apparent ritual as CERN. This is a criminal company incorporated with the same two companies as Exbourne Manor Freehold Limited. I doubt its a coincidence that one of Reform Partys slogans appeared to be a reference to Jimmy Savile.

Link to UK Independence Party Companies House record:
https://share.google/Z30AeeYD9mUX2Bd2B

Farage has many other connections to the fraud, including to The London Metal Exchange that connects to the research of The World Trade Centre disaster and a Nuclear transport company that is connected quickly to the research of The Hampstead Child Abuse enquiry.

I contacted Farage by email on 28th July 2023 with significant evidence that I had acquired to that point including that I had acquired forged Lloyds Bank documents.

I received a response on 3rd August saying: 'Dear Gary I really wish that I could help but there are just so many awful cases Yours, Nigel'

Articles emerged within two months that Farage had opened accounts with Lloyds Bank.

Farage has been recently trying to promote DOGE, which had been introduced to America by Elon Musk in 2024 as they appeared to try and placate the exposure of their criminal system and make it seem that they were trying to be transparent. DOGE is EGOD backwards, possibly referring to Electronic God and its links to Artificial Intelligence, possibly leading to a Satanic plan of transhumanism to trap the conscience in a body that the mind cannot control and seek death, but not be able to find it.

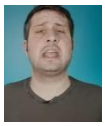
Over the last few weeks I have noticed a constant ringing in my ears and deterioration in my vision that I suspect is the cell towers and associated technology. The eyes will likely be the first part of the body noticeably effected, due to them being external fluid parts of the body.

This may be followed with using the assisted dying bill as a consensual way to reduce the population so that they can continue their plans regarding the colliders.

Cell Tower overlooking Fort William

In 2024 I attended a large cell tower overlooking Fort William in Scotland. Nera was displayed on the equipment and according to the research it is a Norwegian company involved in wireless microwave and Satellite technology that was founded in 1947, the same year as the Doomsday clock representing an upcoming 'man made apocalyptic event' and the same year that The Association of Chief Police Officers formed.

Nera UK Limited was incorporated on Companies House in 2000 and has Slaughter & May on its incorporation document. Drusilla Charlotte Jane Rowe connects this company to Sony Mobile Communications Management Limited was incorporated on 23rd July 2001, the day before Larry Silverstein acquired the lease for the World Trade Centre. Rowe is shown as director from this date until to 24th September 2001, thirteen days after The World Trade Centre disaster. The company had a previous name of Sony 'Ericsson' Mobile Communications Management Limited from 9th March 2012, a month before Jeffrey Epstein held a meeting with Stephen Hawking and CERN Scientists and four months before CERN discovered the God Particle.



Ericsson connects to the research of Reynard Wilson who has an alias name of Collin Sudeman and had been colluding with Anthony Roberts of Exbourne Manor during a live stream in 2024. Ericsson also connects to the research of my former colleague and the person that introduced m to my wife in 2007, Ben Pope.

Rowe also connects Nera UK Limited to other communications technology companies, FS Hampshire Limited, numerous Stonehage Fleming companies and Bear Stearns UK Holdings Limited, making an immediate connection to the research of Jeffrey Epstein as shown elsewhere in the document.

Bear Stearns UK Holdings was incorporated in August 2000 and dissolved on 27th July 2023 as I continued the exposure. It has Mazars in its registered address, a company that had already been linked to the research of Epstein and the World Trade Centre disaster.
Rowe connects Nera UK Limited to Stonehage Fleming (UK) Limited that had a previous company name of Fleming Family & Partners Limited and where Valentine Fleming had been a director until 1st August 2010 and links to JP Morgan Fleming World Wide Income Investment Trust PLC that was incorporated in 1995, the same year as the Russian linked Hakluyt company and dissolved on 6th October 2011, the same month as the supposed death of Jimmy Savile. It is a criminal company incorporated with the same two companies as Exbourne Manor Freehold Limited.

Christopher Underhill connects Nera UK Limited to Slaughter & May Limited, a fraudulent entity that was incorporated in 1954, the same year that CERN was established. He was also a director for Millharbour Properties with an address featured through the fraud of 1 Dorset Street Southampton and Matthew Heath of this company connects to various criminal eye care companies. This supports the concerns that the cell towers may be to deliberately to turn the masses blind.

Eleanor Zuercher is shown as having been a director of Millharbour for just seven days and links to MacDonald's real estate companies started by Slaughter & May and via Mark Kiernan to criminal company McDonalds Restaurants Limited where he became a director in July 2022, the same month that Anthony Roberts resigned as the acting chairman for Exbourne Manor Freehold Limited. This company was incorporated in 1971, the same year that the World Economic Forum began and Kiernan links to several other MacDonald's associated companies mentioned earlier in the document.

Rowe also connects Nera UK Limited to various Cable and Wireless companies, asserting a threat from directed energy.

Rowe also connects Nera UK Limited to Royal Companies, Abbey National Companies linking with CAPB Limited, DBS UK Holdings linking quickly to Rishi Sunak Via Infosys, to BT Radianz companies and to Airbus Operations Limited. Airbus was later linked to Elon Musk and to my Brother-In-Laws family.

Linda Googe connects Airbus Operations Limited to various BAE Systems companies, the largest UK defence contractor, many of which are criminal with BAE Systems (Overseas) Holdings for example being incorporated with Swift Incorporations and Jordan & Sons Limited.

Rowe also connects Nera UK Limited to BAE Systems Quest mentioned previously and its address links with former Metropolitan Police Chief Paul Condon. Googe connects with several criminal Royal Ordnance Companies, criminal BAE Systems (International) Limited incorporated in 1989, the same year as The World Wide Web for CERN, criminal System 2001 Asset Trust Funding Limited of 8 Salisbury Road featured throughout the fraud, a Colgate company likely supporting years of concerns regarding flouride, Box Clever Limited and an Abbey National company again, with the same address as CAPB Limited.

The other company name taken from the Cell tower overlooking Fort Williams was AJ Power. AJ Power Limited was incorporated in 2024 and has CS Director Services Limited of an address in Belfast, Ireland as well other many other companies including Fantasy Adult Entertainment Limited on it's Incorporation document.

Samuel Mcilveen connects AJ Power Limited to various Caterpillar companies. Research shows that Caterpillar is a construction company tracing back to 1925 and that since 2012, the same year that CERN supposedly discovered the God Particle, it had been involved in creating toughened mobile phones and smartphones.

Caterpillar (NI) originally incorporated as F.G. Wilson (Engineering) Limited appears to have a forged incorporation, but unusually it appears to have been forged in 2010 after it has been registered correctly initially. I don't think I have seen this on any other company. The company was incorporated 1966, the same year as the foundation of The Church of Satan and its name was changed in July 2009, two months before The Royal Foundation of the Prince and Princess of Wales was incorporated.

Mark Sweeney connects Caterpillar (NI) links to Northern Ireland Chambers of Commerce and Industry, incorporated in 1869 as Northern Ireland Chamber of Commerce and Industry. It has a

forged register, with its incorporation document of the same date displaying Belfast Chamber of Commerce.

Referring back to CS Directors Limited was incorporated in 1999 and dissolved in 2024 as the exposure continued. It has Brabners LLP of an address of 100 Barborillo that features throughout including from the research of the apparent mass murders of children on Jersey. Anthony Harper of CS Directors links various Brabners companies.

Caterpillar Inc. - Wikipedia https://share.google/tBKIJDQko84aemSRP

Sam Mabon of CS directors connects to Blood Brother Limited as well as Metallicus Blockchain Technologies Limited. Both of these companies feature in the research of Haut De La Gerenne on Jersey and again linked to Jimmy Savile and Politicians as well as to the research of the cell tower overlooking Fort William. This suggests they were possibly planning to enslave humanity into a digital, criminal, child trafficking system. Sam Mabon also connects to various criminal family and youth associated Counselling and psychology companies.

Link to Metallicus Website: https://www.metallicus.com/

Michael James Blood of CS Directors connects to Blood Blue limited, a company incorporated in 2003 and that has Andrew Critchley of Red Production Company and Nicola Schindler as well as companies including, How to have Sex in the 21st Century Ltd, Queer Limited and Second Coming Ltd on its incorporation document.

Critchley connects Blood Blue limited to The Mark of Cain Limited and Second Coming Limited making apparent biblical references.

The research shows that Critchley and Schindler are established in the Entertainment Industry with Schindler having won several BAFTA awards, already linked to the fraud from Rishi Sunak and Carol Vorderman. Schindler named her Red Production company after Manchester United Football Club that are also part of the fraud and she produced a dramatized account of the Hillsborough disaster of 1989, the same year as the World Wide Web was created for CERN.

Manchester United Football Club Limited was incorporated in 1907, but has a re-registered document from 1981 attached with The London Law Agency.

The Hillsborough Disaster

Referring back to the Hillsborough disaster above, the research shows it had occurred in 1989, the same year that The World Wide Web was created for CERN. Although the incident caused the death of 97 people and injured nearly 800, no investigation results were released until September 2012, two months after CERN discovered the God Particle.

With all of the evidence available, we have to consider that they were waiting to see if CERN could end the World by forming a black hole, as the 2012 Phenomenon had speculated.

A company called The Hillsborough Club Ltd was incorporated on 2nd October 2012 and is a criminal company with Companies Made Simple on its incorporation document, making a connection to the Paedophile Information Exchange (PIE) via the National council for Civil Liberties and to the research of the World Trade Centre disaster. The filing history shows that on 27th March 2018, as Gordon Bowden is exposing elements of the fraud, the company has a registered address of Tax Matters Solutions Ltd.

THE HILLSBOROUGH CLUB LTD overview - Find and update company information - GOV.UK https://share.google/O4lB4MMpcBEOGUpfK

Jack Joshua Levine was appointed to The Hillsborough Club Ltd in July 2024, as I established the connection to the fraud and adrenochrome and Levine connects to Sheffield F.C. The Oldest Football Club in the World Est 1857 Ltd that was incorporated in 1995, the same year as the incorporation of the intelligence Agency and Russian Government linked. Hakluyt International Advisory Board. It is a criminal company having been incorporated with the same companies as Exbourne Manor Freehold limited and its incorporation document appears to be forged. On 16th September 2022, as I am making enquiries with Exbourne Manor and eight days after the supposed death of the Queen, LSG Sports Limited of Egyptian House, cease to be a significant company of control. On 17th March 2025, a Richard Timms ceases to be a person of significant

control, one letter short of my Brother-In-Laws name, who connects to Jimmy Saville very quickly via his family. He had been appointed as such since April 2016.

The research suggests Sheffield Football Club is the Worlds Oldest Football Club and the Football Clubs are a huge element of the crimes against humanity and the laundering of stolen money from the masses.

Graeme Hinchcliff connects Sheffield F.C. The Oldest Football Club in the World Est 1857 Ltd to 25 companies, including National Association of Teachers of Dancing Limited that was incorporated in 1952 and Anthony Woods connects this company to Vision Homes Limited that was incorporated in important year of 1992 and Sir Paul Martin Ennals connects that company to 14 companies that are mainly children related companies, including National Childrens' Bureau that connects to the National Childrens Bureau and the Paedophile Information Exchange (PIE) as shown elsewhere in the document.

Referring back to Sheffield F.C. The Oldest Football Club in the World Est 1857 Ltd, Graeme Hinchcliff also connects to Evergreen Installations Limited that was incorporated in May 2009 and connects immediately to the fraud by Yomtov Jacobs and Formations Direct Ltd. This name is used throughout the fraud with tens of thousands of companies via duplicate name records and Formations Direct connect immediately to the research of Tobias Ellwood, who was the MP for the area of Exbourne Manor. Evergreen companies connect to the research of Hillary Clinton and Tommy Robinson.

Andrew John Smythe connects Evergreen Installations Limited to six companies including Flannaghan and O'reilley Dead Horse and Donkey Traders Occasionally Dealing in Swine Ltd, which makes me thing of the horse meat scandal of 2013, where I know companies link back into the apparent child trafficking network

Ian Scott Cameron connects Sheffield F.C. The Oldest Football Club to Mccain Foods (G.B.) Limited that was incorporated as Mccain International Limited in 1980. It has a forged register and Jordan and Sons Limited on its incorporation document.

Alison Jane Rants connects Mccain International Limited in 1980 to Arla Foods Limited, that is part of the fraud and is featured in the research of Tommy Robinson.

The Post Office / Horizon Scandal:

Research shows that the Post Office scandal occurred between 1998 and 2015, around the same time Catherine Fitts had claimed money had been funnelled from the masses into an underground doomsday city. The scandal had involved over 900 Post Masters being wrongly convicted for

stealing money due to a supposed Horizon IT issue, with Horizon having been created by Fujitsu. Some committed suicide and others died, whilst being wrongly convicted. Rishi Sunak had apparently described it as being the largest miscarriage of justice in the UK, despite being part of the criminal system behind it.

The scandal is due to the Companies House fraud and those behind it, including the Police appearing to deliberately blame innocent Employees of the Post Office..

Exbourne Manor Freehold Limited connects quickly via Jordans to a fraud linked company called 'Horizon Scandal Fund'. The

Horizon Scandal Fund was incorporated on Companies House in 2021 for eighteen days as Horizon Scandal Fund Limited. David Chaplin of the company connects to Danjour Books Limited where he was appointed in April 2002, seven months after the World Trade Centre disaster.

Link to Horizon Scandal Fund: https://share.google/GxuSVUdNJHDs7Ey7C

Danjour Books Limited had been incorporated as Jordan Group Services Limited in 1894 and its name was changed for the first time in 1993 and then again on 24th March 2016 to Jordans 2016 Limited. Its name was changed for the final time on 24th November 2016, meaning its name had been changed either side of the apparent Satanic ritual at CERN. It dissolved in October 2019, two months before the supposed COVID outbreak. It has a forged register with its incorporation document displaying Joint Stock Companies Information Bureau.

Ian Harbottle of Danjour Books Limited connects to the most important company in the fraud, Vistra Limited that had been incorporated fraudulently as Jordan & Sons Limited in 1965, the year before the foundation of the Church of Satan.

Richard Templeton of Danjour Books Limited connects to The Lyndons Property Management Company Limited that had a registered address of Queensway House, 11 Queens Way, New Milton, Hampshire, the same address that features throughout the fraud and is particularly noticeable around the research of Julian Assange and therefore makes connections to an apparent doomsday cult and Satanic connection.

Templeton also connects to very important company CAPB Limited with direct links to the Flemings and important connections to the World Trade Centre disaster.

Templeton also connects to JP Morgan US Smaller Companies Investment Trust PLC.

Ralph Leake of Danjour Books connects to Swift Incorporations Limited often seen with Jordans Limited or Jordan & Sons Limited and are the same companies that incorporated Exbourne Manor Freehold Limited.

According to the research Paula Vennels had been the CEO for Post Office Limited from 2012 to 2019, both key years for reasons mentioned throughout this document and covering the time of the Post Office Scandal investigation. The is also and ordained Anglican Priest. She became the Chair of the Imperial College Healthcare Trust making connections to Deborah Fleming who was an NHS CEO.

Paul is shown as being linked to sixteen companies on a Companies House record. This includes Post Office Limited that was incorporated in 1987 as Post Office Encounters Limited until it changed its name on 7th October 2001, less that a month after the World Trade Centre disaster. It has not changed its name at any other time.

Vennels is also connected to Postal Services Holding Company Limited, that was incorporated as Expandreserve Public Limited Company in September 2000, almost a year to the day before The World Trade Centre disaster and changed its name either side of disaster to Royal Mail Holdings PLC. It is a criminal company having been incorporated with the same two companies as Exbourne Manor Freehold Limited.

It is important to understand that I believe everything that is happening is not our true Creators will, but by the choices being made by most.

Firstly, the choices by the corrupted men and women who are part of a cult with no apparent moral conscience. This is shown by the system that they have implemented, which deliberately and knowingly facilitates crimes against humanity including International conflicts, terrorism and the abuse, torture and murder of children, the most innocent of all.

Secondly, by those that continue to consent to facilitate the suffering of the innocents, by continuing to comply to the system that facilitates it.

I believe peaceful and legal non-compliance, using the evidence as leverage to the right change, is essential to a new Earth of truth transparency and trust where there is a safeguarded system to prevent crimes against humanity and ensure that there is fairness and equality for all.

I urge everyone to disable the cell towers as soon as possible. Providing there is no 'likely' risk of endangering others, this is completely legal in the circumstances.

Here is a video to show you some evidence of the forgery regarding cell towers:
https://youtu.be/mdReoLBdHhc?feature=shared

I advise people to seek professional advice, but in my opinion the safest and easiest way to disable the cell towers is to access the power supply box through forcing or angle grinding the lock and switching off or removing any fuses.

Consider making the reactivation more difficult by severing the proceeding cables (check they are not live) and covering the control panel and area in expanding insulation foam.

I advise that the cabinet is secured with a new padlock and that a sign is attached to the power supply box saying something similar to:

Danger - Exposed cables. Anyone that reactivates this tower is aiding and abetting the murder of children.

I am happy for people to put my name at the bottom.
I also urge that there is mass non-compliance of the system by withholding any form of tax possible, any utility bills and insurance payments that are not contract related to a real person, such as a tenant. Absolutely everything is centralised to this fraud and you will be funding the suffering of the innocents and cannot legally and morally aid and abet such crimes.

I ask that you also support sustained International working strikes and I will be making attempts again to collectively arrange these, but am very limited in my audience due to my suppression so need to rely on those that my evidence is reaching to network the information.

I must remain remote and not arrange to meet anyone so I can continue the exposure as I appear to be one of the only people in the World transferring the irrefutable evidence into a document form. They struggle to control the information produced in this way.

The disablement of the cell towers will reduce mobile phone coverage, but there really does seem to be no other option available and I have stated in Police reports that this is what I will be

advising and will be doing so myself.

All official reports and being completely ignored and its evident that the Police, Politicians and heads of all Government organisations appear to be compromised by the fraud and its association to the legal and illegal sex trade, paedophilia, drug trafficking and associated addictions. None of them appear to be thinking rationally.

In my opinion no Government procedure can be used to resolve this, as their procedures are part of the criminal system and they will not expose themselves to the truth of their crimes against humanity and children.

This appears to be down to the innocents to make the right stand for the children.

I advise that everyone exercises peaceful mass non-compliance of the system by carrying out the following as soon as possible:

1) Withhold all taxes possible, including income, council, vehicle, inheritance and capital gains.
2) Stop all relevant payments to any corporations including utilities, insurance and pensions, where there is no contract with a person in place for example a tenant. They are part of a completely centralised criminal system and all evidence suggests the funds are being defrauded from you and used against you and your children. The evidence regarding Catherine Fitts confirms the theft alone.
3) Form community groups and start becoming community self efficient in preparation to separate from the system if necessary.
4) Be prepared to take part in sustained International working strikes.

The system is criminal and has been completely centralised, with Solicitors, Accountants and Financial Advisors being the front line machine and being supported by the Councillors, Members of Parliament, Judges and Barristers, Police, Military and Intelligence Agencies. Due to the recent developments, I now feel that the 4 strategies above, will not be sufficient alone and I advise the following:

PRIORITY DIRECT ACTION BY YOU:

Based on all of the evidence available to me at the moment I believe that the strategy needs to be focussed on maximum exposure on the corporations and people enabling the fraud that is facilitating the Worlds problems, in person and if necessary followed by their legal and peaceful arrests by the people.

Although not written within the document strategy yet, I urge you to attend and carry out the following with all solicitors, financial advisors and accountants followed by large non-essential corporations such as McDonalds and KFC as well as Freemason Lodges where significant evidence shows they are heavily involved in overseeing the fraud.

Record and expose the following interactions ensuring that peoples faces are seen. This is completely legal and they cannot prevent you from doing so providing you are in the area to which the public have permissive access.

They may try and remove that permission as soon as you start exposing them so ensure you say the information below as soon as you can.

Remain calm, polite, courteous and DO NOT SWEAR, but be assertive and firm in your instructions.

Ask to speak with the owner or the person with the highest position, but continue if they not available or there are any delays.

I would advise that you use the words below or something very similar on the initial visit and do not get involved in a debate:

"A former Police Constable, Gary Waterman is providing irrefutable and verifiable evidence of a centralised criminal Government system that is using the forgery of the Companies House register and documents to defraud trillions from the masses and knowingly and deliberately facilitate International conflicts, terrorism and the abuse, torture and murder of children, the most innocent of all."

"This company has been identified as being part of that system. You therefore appear to be conspiring to allow those crimes to continue, which means that you can be arrested by the people for those crimes. The Police and military are also involved and the evidence suggests they will be using you and the system to target your families aswell."

"I therefore advise you to close your business today or you and anyone working for this company will face likely arrest by the people. Please ensure that you tell everyone about this message. In the interests of the safety of humanity and the children, the video of this interaction will be placed into the public domain. Thank you very much"

Make a note of the date and time of your visit as well as the company name and address and if possible the name of the person you spoke to. Forward the details to me along with the video or a link to the video once you have posted to social media.

ARREST

If the premises remains open for more than 24 hours after the initial visit, evidence will be secured to support the next steps.

Remain calm, polite, courteous and DO NOT SWEAR, but be assertive and firm in your instructions.

Ensure that there are several people recording the following Interaction. Consider asking other passers by to be present to record the interaction if there are limited people available and that after the interaction they upload it to as many social media platforms as possible.

Be proportionate in your engagement and the number of people present at the time of the following interaction. I would advise that there are initially no more than 4 or 5 people directly present and others remain at a distance. Do not invade the personal space of those involved, unless necessary.

The others should only intervene if necessary, to minimise any risk of civil unrest, disorder or accusations being made.

Try and ensure that only one person, who is the most confident and assertive, engages in most of the communication.

I would advise that you use the words below or something very similar and do not get involved in a dispute:

"As I have explained previously, former Police Constable Gary Waterman is providing irrefutable and verifiable evidence of a centralised criminal Government system that is using the forgery of the Companies House register and documents to defraud trillions from the masses and that knowingly and deliberately facilitates International conflicts, terrorism and the abuse, torture and murder of children, the most innocent of all."

"This company had been identified as being part of that centralised criminal system and you have remained operational, despite having the chance to cease your activity and I therefore now believe that you are conspiring to allow these crimes to continue, which is a serious offence."

"I am not a Police officer, but I have a legal power to arrest you under Section 24A of The Police and Criminal Evidence Act 1984 in England and Wales or under Common Law in Scotland so you are to remain here until the Police arrive and I advise that you also call the Police."

"The necessity for your arrest is to prevent any further loss of life and so the Police are refusing to respond to all reports by Gary Waterman, which have been referenced and circulated in an evidential research document"

Try to avoid any physical contact with them at this time, but If contact is necessary then it must be reasonable and to prevent escape or a risk of violence. Where possible limit contact to blocking escape or holding on to clothes or arms.

Arrange for someone in your group to call the Police and explain the situation and arrest. I would advise that this is 999 as the matter is now becoming urgent with the risks to humanity and loss of life appearing to be potentially imminent.

When the Police arrive I would advise that you speak with them outside of the premises and it is critical that any interaction is recorded by several people. They cannot legally prevent this in a public place.

I would advise that you include the words below or something very similar when speaking with the Police:

"Please could you initially confirm if you have any connection or affiliation to the Freemasons as they are heavily implicated in this criminal network?"

"Former Police Constable Gary Waterman is providing irrefutable and verifiable evidence of a centralised criminal Government system that is using the forgery of the Companies House register and documents to defraud trillions from the masses and that knowingly and deliberately facilitates International conflicts, terrorism and the abuse, torture and murder of children, the most innocent of all. There also appears to be a sinister agenda behind this that will also be used to victimise you and your family if it continues. The document explaining everything along with the verifiable evidence can be provided to you on email at any time"

"This company and therefore those working for it are part of this centralised criminal network and have been advised to cease trading on (Provide date of initial visit if possible), but have continued."

"We therefore require you to arrest them on suspicion of conspiring to allow International Fraud and crimes against humanity to continue. The necessity to arrest is to prevent any further risk to humanity and particularly harm to children"

If they are reluctant to arrest say:

"If you do not arrest them, you will personally be considered as aiding and abetting this criminal system and its associated harm and may be liable to arrest by the people".

If they still refuse to arrest, consider withdrawing and ensure maximum exposure of the interaction and those officers criminal conduct that is supporting the crimes against children by circulating it across social media.

It may be that things have become more critical at this time and you may want to consider arresting those Police Officers. If this becomes necessary, physical contact will still be unlikely necessary. In this situation say to the Officers:

"Sadly we need to protect the children and you are appear to be aiding abetting their suffering as you are refusing to act accordingly. As well as the organisation that you work for being part of the centralised criminal system. This Includes the Police affiliated Association of Police and Crime Commissioners that connects quickly to Jimmy Savile and the apparent sinister agenda against humanity, The National Crime Agency, The Association of Chief Police Officers of the United Kingdom, The independent Office of Police Conduct, The Serious Fraud Office, Action Fraud and many others all connected to the Police. You therefore need to remain with us until more Police arrive."

Call the Police again and explain the situation asking for other Officers to attend. This needs to be repeated until appropriate action is taken in the form of arresting the original subjects. I am hopeful that it will not come to this.

Scottish Common Law. https://nfps.info/citizens-powers-of-arrest-in-scotland/

These are all peaceful and legal options available in the circumstances and can hopefully be used to compel the following actions and measures to be implemented and what I believe are now essential at least on a transitional basis to help prevent this ever happening again:

- All Collider technology must be deactivated and disabled permanently.

- A suitably transparent financial system (at source) must be in place so that the masses have the ability to audit local, national and international public funding. This will bring transparency and accountability for any Leadership.
- There must be full verification of Company Incorporations with Companies House to ensure that there is full accountability and liability. Since the exposure Companies House have, for the first time since 1844, made some verification measures they to deliberately allow loopholes for the laundering to continue.
- There should be a fluctuating taxation request system, where there is a transparent sinking fund for any local, national or international public funds and that will be maintained to an agreed level using that funding.
- That there is a suitable reassurance that there will be no further move to full digital currency control, which now risks enslaving people into a criminal system. There must be a secondary payment method so that the withholding of public funds can be used as a method of peaceful protest for any corrupt Leadership.
- There must be strict legislation in place to ensure that there are serious consequences to prevent anyone in positions of Leadership from making decisions for their personal or affiliated gains.
- There must be a suitable transparent financial system available at source regarding the management of real estate.
  There must be a suitable signed management agreement available to all leaseholders regarding real estate and there must be full verification and accountability of any management of that real estate.
  There must be the ability for all Leaseholders to obtain comparison quotations regarding the management of the estate to which their property relates.
- Any potentially harmful technology that has no suitable liability and accountability must be removed immediately. This is particularly important for transmitting technology.
- There must be no further reduction in the age of sexual consent and no further sexualisation of minors within the educational system.
- There must be the staged resignation of any Councillor, Member of Parliament, Chief of Police, Police and Crime Commissioner or head of any Government organisation that has been in any form of Leadership position since 2022 and cannot show evidence that they have been trying to address the Companies House fraud.

26/03/24 - Report made to Dorset Police -
ROC-7039-24-5555-IR01
As you will know from my previous reports, irrefutable evidence of international fraud linked to child trafficking and to Dorset Police is circulating the globe.
Those involved with my company removed me discriminately as a director after uncovering the fraud and are trying to enforce my service charge payments through an illegal civil case into a fraudulent process to victimise me further and where they judge is linked to the fraudulent system. They have refused any measures to prevent further victimisation. My company itself is an illegal entity so cannot make any legal application. This unfortunately means my counterclaim can also not proceed. The courts are refusing to provide suitable legal documents and have exposed the corrupt legal system even further.
Any court process or subsequent action regarding my property will be completely unlawful and I will be justified in taking remedial action, which includes the increasing necessity to form public arrest teams to peacefully arrest those involved due to them becoming an imminent threat to mankind. Those that should be acting on this information are not doing forcing the public to take appropriate action.
Much of the evidence is being shown in the You Tube link below and there are thousands of supporting documents. All Government organisations appear to be refusing to take responsibility for this.

Suspect details can be supplied on request.

Here is an example of the summary of the report made to each Police force across the UK, made in writing and online through their websites. The Reference numbers for each report is shown below:

I am a former Police Officer with 18 years service, a Christian and a victim of this fraud. There are millions of victims of International Government fraud regarding taxation and real estate that is linked to child trafficking and illegal wars. This is happening through

the forgery of The Companies House register, forged incorporation documents and forged bank documents produced by the banks. It links to multiple high profile deaths including top Police Officers and most financial scandals.
For evidence please see You Tube channel:

Multiple suspects details can be provided on request. There is an almost 100000 word statement and thousands of supporting documents showing irrefutable evidence of this crime and all is now within the public domain and circulating the globe through evidential documents and videos, with many challenging MPs and refusing to pay tax, to compel change.

12/04/24 - Report Made to Dorset Police.
ROC-9080-24-5555-IR01
My wife and I cannot return home as Dorset Police and the Independent Office for Police Conduct have shared sensitive information about my reports with a named prime suspect in relation to International Government fraud linked to child trafficking.
This is my home address although I am unable to attend the location at this current time due to safety concerns caused by Dorset Police and the IOPC.

As you are aware from previous reports, I am a former Dorset Police Officer and have irrefutable evidence of international Government fraud and child trafficking closely connected to Exbourne Manor Freehold Ltd. This relates to the forgery of the Companies House register against the attached incorporation documents to create unlawful entity companies that should never have been trading along with forged bank documents being produced by the banks to falsify these Companies accounts. Exbourne Manor Freehold Limited has been created in this way and is linked closely to Ghislaine Maxwell, Jeffrey Epstein, Max Clifford, Politicians, their special advisors, the World Trade Centre disaster and a Parliamentary UK Island Group with information suggesting there is systematic child abuse and murder of children from within the care service. Exbourne Manor Freehold Limited have unlawfully employed a solicitor, Brady Solicitors, to proceed with a civil court case to pursue my withholding of service charge contributions for me to ensure that I am no longer victimised in relation to over £167000 that appears to have been omitted by others as well as fraud, utilising insurance companies and others for me to have been victimised by over £200000 in relation to my purchase of a flat. I had started to make a counter claim, but this cannot also proceed, due to the information of the unlawful entity element of the fraud. They cannot act and I cannot legally hold them to account. Despite being aware if this and being informed not to contact me any further at 1705 hours on 12/04/24 Mitchell Blakeman of Brady Solicitors (if correct details have been provided) emailed me against my wishes. I have supplied evidence that Brady Solicitors is also linked to the system of fraud as well as the judge for the case. This information is in the public domain for mine and others financial and physical protection. No unlawful entity company can act in anyway including initiating any court process as the incorporation of the company must have been lawful. This is a criminal process under the 2006 Fraud Act in that it causes a risk of a financial loss to victims and unlawful gain to others and is harassment due to the contact being made against my wishes. I had always paid my service charges prior to knowing about this and am happy to continue doing so when a safeguarded system is in place as I had been trying to arrange before I was discriminately removed as a director for identifying the fraud. National peaceful arrest teams are now having to be seriously considered as all Government organisations, including Dorset Police are ignoring this evidence and the financial risk to the public and the safety of their children.

08/05/24 - Report made to Dorset Police.

ROC-13353-24-5555-IR01

Fraud, harassment and I suspect an attempt was made on my life.

My wife and cannot return home due to Dorset Police and the IOPC sharing information regarding my reports to a prime suspect despite me having been followed, had tracking apps trying to be installed on my phone, emails infiltrated and items attempted to be taken from our vehicle. I also suspect an attempt has been made on my life.

Langdale Road, Barnsley S711AQ

This was the location where I suspect an attempt was made on my life.

Exbourne Manor is my home address, but my wife and I cannot return home due to the reasons already explained.

I am a former non-substantive Sergeant for Dorset Police where I served from 2006 until 2018. On 24th January 2024 I suspect a attempt was made on my life by poisoning. This was not reported at the time due to it becoming clear that the UK Government, Police and other organisations were involved in the related crime and me needing to release evidence to the public first for theirs and my protection.
This suspected attempt was likely in relation to me identifying International Government fraud linked to child trafficking, my company, Exbourne Manor Freehold Limited, The Intelligence agencies, Russia and Ukraine.
This involves the forgery of the Companies House registration system and forged bank documents being produced by the banks.
My company has been identified as an illegal entity company, created through forgery and therefore it cannot act in any way. Despite being presented with the evidence of this, the legal process is still insistent on pursuing my non-payment of service charges in relation to my company, trying to force me to be victimised again.
This is harassment and now theft of the money I had initially paid to make a counter claim against my company, which is not possible due to it having been created through fraud and not being a legal entity.
There is evidence suggesting the legal system has been set up around this system of fraud and I have been placed in significant danger by my own former force and the IOPC due to me having proof of their involvement and them sharing sensitive information about my reports, with already named prime suspects.
Despite making various reports regarding much of this, I have had no response from Dorset Police or Action Fraud.
This report will be placed into the Public domain along with the generated reference number as have the others.
Kind regards
Gary

I am a former Dorset Police Constable and since 2022 I have acquired irrefutable and verifiable evidence of International Government Fraud utilising the forgery of The Companies House register and documents. This stemmed from a company called Exbourne Manor Freehold.

There is significant evidence that fires and explosions are being caused deliberately in an effort to conceal the evidence of the criminal system and crimes against humanity by Governments and their organisations.

The latest evidence cannot be ignored, that suggests the Grenfell Tower in 2017, may have been caused deliberately as part of this fraud, that is now being linked to The Satanic Temple United Kingdom in registered in 2023.

Aside from this larger issue, on 31st May 2025 I messaged my wife #### (maiden name ####) explaining that I would be arranging the buildings insurance for our jointly owned property of ##### Christchurch, Dorset #### Although I have evidence that all Insurance companies are centralised to the fraud, I have a contract with a tenant that I need to fulfil.

On 13th June 2025 I received an email from someone claiming to be Marcus Mccorkell from Dorset Police, which had documents attached claiming to be statements by ####, but the signature appeared to be forged. It pertained to an alleged non-molestation order against me to stop me having any contact with ####. I replied asking for confirmation of their identity and an update regarding my Police reports, but have had no response.

On 1st July 2025 I received an email from Simon Immins of Frettens Solicitors claiming he was acting on behalf of #### and stating that there was an upcoming court date regarding a divorce

settlement including the property at #####.

I have significant evidence confirming that Immins is directly linked to key areas of the fraud and connections being made to a Satanic Cult. I called Innins at 1029 hours on 2nd July 2025 to again tell him to stop contacting me and explaining his connection to the fraud. He ended up hanging up.

At 1150 Hours the same day I received the following message from Anthony Roberts of Exbourne Manor Freehold Limited: 'Despite all the lies and misinformation that you have peddled about EMFL and some of its members, your debts to the company have now been paid and the sooner you no longer have any connections to the Exbourne Manor the better.
I have, Gary, not one bit of sympathy for you as you have brought it on yourself.'

I had not had contact from Roberts since 22nd April and this message suggests he is aware of something that will be happening, despite giving me good news that all debts regarding criminal company Exbourne Manor Freehold Limited are paid. This suggests someone may have been in contact with Roberts regarding the conversation with Immins, despite it having nothing to do with Roberts and supports a collaborative criminal network.

I have heard nothing directly from any Court regarding either of these incidents, which would need to be the case if they were genuine and they have my email and are aware that I cannot return home due to what I am exposing during previous correspondence.

On 26th June 2025 I received an email from Insurance company Direct Line claiming that the payment had not been made, but that providing payment is made within 14 days the Insurance would still be in place for ####.

On 6th July 2025 I received information that ### had arranged a Gas Safety check at ####, which I had not been informed about. Both the tenant and I have not received a copy of the safety certificate, which is unheard of and I am not aware of who the company was that attended. The tenant has rightly informed me that the gas engineer made claims about the cooker needing to be altered, which had never happened previously.

I am now genuinely concerned about the safety of the tenants as this could be being used as an opportunity to target me for exposing the fraud.

Former Police Constable
Gary Waterman

In the email from Mccorkell it was claimed in a statement that he claimed was my wifes, that there was a Court case arranged at Bournemouth Family Courts on 4th August 2025, but as I have stated, I have received no contact from the Court despite them having my contact details and knowing that I Cannot return home, due to what I am exposing.

Research shows that Chris Simmonds had been appointed as the designated family Judge for Dorset, from March 2022, as I am making enquiries at Exbourne Manor.

Mark Mcallister connects Giant Group Limited to Gillingham Football Ltd that was incorporated in 1893 and is a fraudulent entity with its register having been forged. Gillingham Masonic Centre connects immediatly to MK Ultra research, to the school I attended and apparent connections to my family.

Mccorkell has sent paperwork suggesting Judge Lowe had been involved in issuing a non-molestation order at Bournemouth Family Court on 6th July 2025. This is the same name as Alison Lowe that works for The Association of Police and Crime Commissioners who are heavily implicated in the fraud and link quickly to Jimmy Savile and CERN in the research.

Lowe is shown on the CPS hate crime letter in March 2022, the same time Simmonds started working for Dorset and received an honorary Doctorate at Leeds University in July 2022, the same month Anthony Roberts of Exbourne Manor resigned. King Charles appointed Lowe at Bournemouth based on the advice of the Lord Chancellor and she began in December 2022. Companies House records show that Lowe connects to twelve companies, including The Association of Police and Crime Commissioners. Lowe also connects to Leeds Citizens Advice

Bureau that was incorporated in 1988, the year before The World Wide Web was created for CERN and it is a criminal company with Jordan & Sons Limited on its incorporation document, the same as Exbourne Manor Freehold Limited.

Alison Natalie Kay LOWE personal appointments - Find and update company information - GOV.UK https://share.google/tyGRnqTBzs6dcInEa

Lowe also connects to Healthy Living Network-Leeds that was incorporated in January 2002, four months after the World Trade Centre. The incorporation document appears to have been forged after its registration, with a sticker which includes ICOM Section Co-operative Union Ltd, to cover the partly exposed information underneath. This is the same with intended head of all UK forces, Richard Knightons associated company with Knighton connecting to the main companies in the fraud linking quickly those associated with crimes against children.

According to the research Nick Goodwin was appointed head of HM Courts and Tribunal Services tribunals in March 2022, as I am making enquiries at Exbourne manor and movements area taking place with Alison Lowe and Chris Simmonds.

Nick Goodwin - GOV.UK https://www.gov.uk/government/people/nick-goodwin

Companies House shows a record for Nicholas Goodwin with fifty five connected companies including Thetford Properties Limited that was incorporated in 1987 and Andrew John Simpson connects this company to various Bernard Matthews companies including Bernard Matthews Kitchens Limited, that was incorporated as Norfolk Manor (Farms) limited in 1961 and one point its name was changed in 1989 to Bernard Matthews Foods Limited, the same year that the World Wide Web was created for CERN. Its register has been forged and Jordan & Sons Limited is shown on the incorporation document.

Nicholas David GOODWIN personal appointments - Find and update company information - GOV.UK https://share.google/bIOTCojOUeWubboAL

Bernard Matthews Foods Limited already features on the research of Tommy Robinson and Stephen Henderson connects it quickly to Pie Company (The), a criminal company with Mavis June Later and Jordan & Sons Limited on its incorporation document and making immediate connections to Exbourne Manor Freehold Limited via Latter and Swift Incorporations Limited. I suspect this is a reference to the Paedophile Information Exchange (PIE) and supports other evidence, that the remains of murdered children are being placed into the food chain.

BERNARD MATTHEWS FOODS LIMITED overview - Find and update company information - GOV.UK https://find-and-update.companyinformation.service.gov.uk/company/10036286

Bernard Matthews Foods Limited also connects quickly to Institute of Meat (The), where the company name has been removed from the incorporation document, and to Arla companies where it appears there may have been a deliberate attempt to poison the masses in the Bovaer scandal, as the criminal system is being exposed.

Dennis William Deeks connects Thetford Properties Limited to twenty companies including West Suffolk Citizens Advice Bureau that links immediately to the fraud and Owens & Porter, formerly of Exbourne Manor Freehold Limited, by company registrations Online Limited on its incorporation document.

David James Callear connects Thetford Properties Limited to Swift Technical Group Holdings Limited that was incorporated in 2006 and dissolved on 2nd July 2024, the same day that I released evidence of adrenochrome, the blood taken from tortured children being connected to the fraud. It has a DLA Piper company on its incorporation document, connecting to the fraud and Swift is the international transaction system used to launder the money criminally attained from the masses into offshore accounts.

Callear also connects to Zeus Technology Limited that was incorporated in 1995, the same year as the intelligence agency and Russian Government linked, Hakluyt International Advisory Board. It is a criminal company with Jordan & Sons Limited and William Francis Charnley connects the company immediately to the research of former head for FBI, Christopher Wray and all areas of the fraud, particularly by criminal company Bank & Clients PLC and an Invicta Film Partnership company, as shown elsewhere in the document.

The current head of the family Courts for England and Wales isAndrew McFarlane who was appointed in 2018, as Gordon Bowden was exposing his evidence.

Andrew McFarlane (judge) - Wikipedia

Companies House records show that McFarlane was appointed to Young Minds Trust on 13th October 2001 and resigned in 2008, the same year that the Large Hadron Collider (LHC) was started at CERN. The company is linked immediately to the fraud by James Sinclair Taylors & Martin Solicitors of 9 Thorpe Close, London.

A separate search for Sinclair Taylor & Martin Solicitors suggests its overview has been removed but it is still shown as having two appointments, with one being The Video 3588College that was incorporated in as North Kensington Video / Drama Project in1994 and dissolved in September 2016, the month after the apparent ritual at CERN. It has a registered address of 1 Thorpe Close, showing how they use a variation of addresses.

John Campbell Latham Beverley connects The Video College incorporated as Notting Hill Social Council in January 2001, six months before Larry Silverstein acquired the lease for the World Trade Centre and changed its name in for the only time, according to the overview, in April 2002, after The World Trade Centre disaster. It has various childrens nursery connections on its incorporation document. Kensington & Chelsea is where the Grenfell Tower occurred and significant evidence suggests it was deliberate and related to the Companies House Fraud.

Robert Paul Owens connects The Video College to seven companies including Burns Owens Partnership Limited that was incorporated in 2003 and has SFS Limited and Small Firms Direct Services Limited and Small Firms Secretary Services Limited on its incorporation document and that I had not seen before. The company immediately jumped out due to Stephen Owens and Connor Burns connections to the fraud. The filling history for Burns Owens Partnership Limited shows that its registered address was changed twice on 18th July 2022, five days after Anthony Roberts had resigned from Exbourne Manor Freehold Limited, triggering my investigation.

Josephine Barbara Shiach Burns connects Burns Owens Partnership Limited to Collider Management Nominees Limited where they were appointed in 2004 and resigned in 2008, the same year that the Large Hadron Collider (LHC) was started.

Collider Management Nominees Limited was incorporated in 1999 and connects to the fraud by Dorothy May Graeme, Paul Gordon Graeme and Graeme & Company on its incorporation document with the names having duplicate records and thousands of connected companies. The address shown is 61 Fairview Avenue, Wigmore, Gillingham, Kent that is used throughout the fraud and is close to people in my family.

Josephine Barbara Shiach Burns also connects Burns Owens Partnership Limited toLondon International Festival of Theatre Limited (The) that was incorporated in 1982 and is a fraudulent entity where its register has been forged. The filing history shows that the last times its registered address was changed was in July 2019, the same month Jeffrey Epstein was supposedly arrested.

Dame Amelia Fawcett had been appointed to the company in July 2002, the year after The World Trade Centre disaster and resigned in 2010, the same year that CERN Limited was incorporated. Fawcett already features significantly in the research from the Intelligence Agencies and the seemingly infiltrated Jewish Community Centre UK. Fawcett is also connected to the Young Foundation, already linked directly to the Goldsmith family via The Green Alliance and Zac Goldsmith and therefore Douglas Smith, Jeffrey Epstein all connecting to The Russian Government and Flemings and possibly the murder of Princess Diana. The Fawcett Society connects to a record of Harriet Harman and therefore the Paedophile Information Exchange and the research of the World Trade Centre disaster.

The evidence of Immins of Frettens Solicitors shows that he has duplicate records on Companies House. One record shows a connection to Churchfoot Residents Management Association Limited that was incorporated in 1998 and Dunstana Davies of Waterlow Secretaries Limited, the exact same news connected to major elements of the and Vistra Depositary Services (UK) Limited and Vistra Limited was the company used to incorporate Exbourne Manor and quickly connects to Jeffrey Epstein and Max Clifford.

Tracey Dixon of Churchfoot Residents Management Association Limited connects to Dixon Scaffolding Group Limited that was incorporated in 1969, the same year that Charles became the Prince of Wales and changed its name in 1995, the same year that the Russian Government linked, Hakluyt International Advisory Board was incorporated. It has a correspondence address in Wimborne, Dorset, the same town where the Flemings that initiated my removal live and the registered address in Ringwood features throughout the fraud. Jordan & Sons Limited is on the incorporation document, the same company used to incorporate Exbourne Manor Freehold Limited meaning it is a criminal organisation.

Michael Rodney Dixon of an address shown in Wimborne connects Dixon Scaffolding Group Limited to Qualstron Property Management Limited that was incorporated in 1996 and has a registered address in Winterborne Stickland, Boandford Forum. It has Bristol Legal Services Limited and Bourse Company Services on its incorporation document.

Mccormick connects Qualstron Property Management Limited to SRCC.

The other record for Immins connects to Turners Solicitors LLP that was incorporated in 2004 and dissolved in 2023, as the exposure continued. The register shows a correspondence address of 10 Bridge Street, Christchurch, which makes a quick connection to the research of my former Inspector Lance Cliff and he connects quickly to my wifes former school, Twynham, a criminal company having The London Law Agency on its incorpotion document. Turners Solicitors LLP has an address of 1 Poole Road, Bournemouth on its incorporation document with Exbourne Manor Freehold Limited having 5A Poole Road on its. Turners Solicitors also has an address of

Church Street in Wimborne on its incorporation document, the same Town where the Flemings live.

David Blackmore connects Turners Solicitor LLP to Humphries Kirk LLP, that is already featured in the research regarding the helicopter crash in the US on 10th April 2025 and connects immediately to my wifes Uncle, Adrian Windsor via The Burmuda Triangle company in Poole.

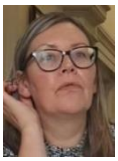
Solicitors, Accountants and Financial Advisors

It is apparent that there is a centralised criminal system and that Solicitors, Accountants and Financial Advisors are part of the front line machine for the network to function.

Starting in August 2025 I advised people to put relevant organisations on notice to close their premises or face arrest by the people by personally visiting and videoing them, due to their ability to hide behind alias or false names of non-verification and emails and letters.

On Friday 12th September 2025 I attended Inverness and the following locations.



Ritsons Chartered Accountants. I initially spoke with the female receptionist who then summonsed her boss who she referred to as Daniel. I recorded and explained the situation and gave notice for all businesses in relation to Ritsons to close within 24 hours. I found the male who I will refer to as Daniel, to be defensive and instead of listening to me was suggesting he was going to call the Police repeatedly.

Companies House shows that Ritsons Chartered Accountants Limited was incorporated in 2006 and has William Yeath Young with an address in Nairn, Scotland and Nairn County Football Club Ltd on page 4 of its incorporation document. This makes an immediate connection to an important industry in the fraud.

RITSONS CHARTERED ACCOUNTANTS LIMITED overview - Find and update company information - GOV.UK https://share.google/NIahbqvsJhdABc7X8

Daniel Robert Palombo connects Ritsons Chartered Accountants Limited to Ritsons Limited that was incorporated in 2006 and John Yeoman is shown as having been appointed to the company in June 2007, the month after Madeleine Mccann went missing and having resigned in September 2011, the month before Jimmy Savilles supposed death.

John Yeoman connects Ritsons Limited to 11 companies including, Scottish Boat Owners Mutual Insurance (The). that was incorporated in 1919 and dissolved in January 2020, the same month that Prince Harry moved to America and the company has a forged register.

Yeoman also connects Ritsons Limited to the Association of Accounting Technicians that connects almost immediately to the research of the Hamstead Child abuse enquiry by Ricky Dearman.

Yeoman also connects Ritsons Limited to Arberlour House Limited and Goudonstoun Trading Limited that makes immediate connections to to members of the Royal family including Princess Anne and Prince Philip as shown elsewehere in the document.
