

Abusive Agencies and Agency Abuse

By Anna Von Reitz

Information provided to H.E. Cardinal Mamberti and the Vatican Chancery Court in regard to our Claims, [March 6th 2005](#), [January 19th 2023](#), in seq:

Although our demand for the liquidation of the Municipal Corporations housed in the District of Columbia, and also liquidation of their unauthorized independent, international city-state as well, comes in response to genocide committed by these commercial corporations, we feel compelled to expose the context of the genocide as the result of self-interested fraud and non-disclosure in Breach of Trust, which has been maintained against the population of this country for over 150 years.

We have already demonstrated how the services provided by the Federal Subcontractors have been expanded without our authorization by the Subcontractors themselves, how the cost charged for all these non-consensual services has also been increased into the stratosphere by these same Municipal Corporations acting with no regard for "reasonable and customary" limits, and how all of this has been duplicated so that we are having to pay for two complete sets of Federal Employees, one to do the actual work, and one to sit around watching them work.

This is all bad enough, but pales in comparison with the Great Frauds that have led to and enabled these veiled commercial interests to abuse and defraud their employers and treaty partners and commercial services obligors in such a fashion and all under color of law.

The beginning of the current round of international fraud began in England with Henry VIII and the Enclosure Acts and was substantially complete in England by 1763, when a series of Acts of Parliament and Treaty Acknowledgements resulted in bringing Admiralty Law onshore and the displacement of the Law of the Land for purposes of public administration.

This action and disclosure of its result was not shared with the Public at that time or at any time thereafter, for the very good reason that it was undertaken under conditions of fraud and resulted in unlawfully converting the assets belonging to the people of England, Ireland, Scotland and Wales into assets of the British Monarch and Crown. It also changed the

jurisdiction and form of law to expedite unlawful seizures of private property and abuse of the civilian population under presumptions of reduced political status: persons at sea do not enjoy the protections of people on the land.

All of this was undertaken via fraud, because King Henry VIII, even if he secured his own toe-hold in England, was only "a" king among the many kings resulting from the Norman Conquest, and only appeared to be paramount as a result of the loot pouring in from his actual job as the Pope's Overseer of the Commonwealth.

This resulted in Holy Roman Empire interests seizing upon the assets of England, Ireland, Scotland and Wales at what, conveniently, appeared to be the hands of a Protestant king. These actions and the Enclosure Acts supporting them were all fraudulent and unlawful, and all promoted by commercial interests acting in self-interest and at the expense of the General Public.

After the Great Fire of London in 1666, the Municipal Corporation scam was added to the mix, and we once again see the pattern: unlawful conversion of land assets (people) into sea assets (persons) without their knowledge or consent, done in tandem with an undeclared change in the form of law used for public administration purposes, followed some years afterward by the creation of Municipal Cestui Que Vie estate trusts, operated by hired Executors de Son Tort as public trusts and of course, these are administered in favor of the offending Municipal Corporations.

The same exact unlawful, illegal, and immoral asset stripping scheme promoted in England, Scotland, Ireland and Wales by the same Municipal and Crown Corporation players was applied in America, with the twist that they had to excuse their takeover of our public administration and the change from our form of law, by claiming that our American Government was "absent", "in interregnum", "presumed lost at sea". They told this Big Lie to the rest of the world and did all of this at the same time that they were being paid to perform under our constitutional contracts and provide us with "good faith service".

The Perpetrators of all this crime against the people and the national governments used the Inner City of London and the District of Columbia as the home base for their inland piracy, and later, as we've seen, created a fraudulently organized "independent, international city-state" for themselves out of the City of Washington located in the District of Columbia.

In 1864, the British Parliament, clearly in anticipation, passed the "Naval Agency and Distribution Act" and named the (Territorial) United States Secretary of State as the Officer responsible for their unlawful change of public administration and attendant fraudulent salvage operations expedited by bringing Admiralty Law onshore.

A similar ruse and use of sovereign "enclaves" and Admiralty Law onshore was used to strip and batter unearned assets out of the Commonwealth nations. In the case of Australia, these pirates operating as British Crown and Municipal Corporations set up shop on Norfolk Island, and we have reasonable evidence that they similarly set up shop on the Isle of Mann, and have

fully intended to extend their operations to China while operating out of the Mariana Islands, one of our Possessions.

These are not governments, they are commercial corporations in the business of providing government services, usurping upon and parasitizing and asset stripping actual nations and governments, while being paid by these same governments for stipulated "good faith services".

They always act under the color or law and appearance of propriety, just as King Henry VIII did when he unlawfully, illegally and immorally imposed the Enclosure Acts in Britain--- and they always use the members of the Bar Associations known as Bar Attorneys in their capacity as members of a registered theater and entertainment company to give the fraud cover, as they practice their own corporate administrative law and their foreign Admiralty and Maritime Law in the victim's own courthouses and courts of record. These Bar Attorneys acting as Actors are to provide us, the offended Public, with "the appearance of justice", according to the Federal Rules of Civil Procedure adopted by these British-based bunko artists.

The apparent purpose of these organizations has long been to promote inland piracy and unjust enrichment, using "city" and "federal" enclaves as pirate bases. The political aspirations of the Offenders appear to be summed up as a form of "Corporate Feudalism" in which the individual Municipal and British Crown Corporations and their Officers rule as despots over the people they are supposed to serve.

We believe that we have demonstrated premeditated Bad Faith on the part of the British Parliament with the passage of the Naval Agency and Distribution Act of 1864, and their non-disclosure in America of the Office and Officer responsible for their salvage claims and hypothecations of debt against the assets of the purportedly "absent" owners.

All of this Gross Breach of Trust and criminality has been expedited by the misuse, abuse, and misdirection of Territorial Armed Forces under color of law, the misapplication of private administrative law, misapplication of Maritime Law, and misapplication of Admiralty Law on the land and soil, and a formulaic, purposeful, repeated fraud scheme against their employers and benefactors.

To further administer and expedite benefit from these acts of fraud, force, and Breach of Trust exercised under color of law against their employers, the Perpetrators have hired yet another layer of employees, so called "Agency Personnel" to do their dirty work for them.

These Agents are foreign with respect to the General Public and undeclared --- that is, the victims are not given disclosure that they are being addressed by agents of a foreign government. This then allows the Perpetrators to operate covertly and take advantage of the natural trust and respect that people have hitherto had for what they have believed to be their government, but which is in fact a foreign, for-profit Municipal or British Crown Corporation operated in Breach of Trust and Service Contract.

There are hundreds of these "Agencies" and thousands of these undeclared "Agents" and most of them think that they are working directly for the actual government of this country, when in fact they are subcontractors of Subcontractors at best, having no granted authority, no elected office, and no delegated authority, whatsoever, yet making up "Administrative Code" and enforcing this as law misapplied to the people of these fifty sovereign and independent nation states.

The Territorial Congress has been repeatedly rebuffed by the Supreme Court for its failure to take responsibility and do its own job, most recently in *West Virginia v. EPA*, in which the court reiterated and reinforced the decision of the Tennessee Supreme Court in *Norton v. Shelby County* more than a century ago: Congress cannot give away its legislative powers by appointment to any Agency, like the EPA, and the EPA and similar Municipal and Territorial Agencies are not enabled to enforce their Administrative Codes as if they were law related to us, the people and our property of in these States of the Union.

Despite these repeated decisions by the High Court responsible for guiding their activities, these British Crown and Municipal Corporation Subcontractors continue to misaddress members of our General Public and duplicitously use their own secondary subcontractors, the so-called Federal Agencies, to do this in evasion of the High Court directive.

The most likely reason for the existence of and use of these so-called federal Agents and federal Agencies, has been to introduce a layer of plausible deniability between the Perpetrators and their Agents, who are lied to and kept ignorant by various means, so that they commit crimes that they would otherwise not commit, and provide their employers with the results they want, but not the direct accountability. We expect that the British Crown Corporations and the Municipal Corporations alike will attempt to blame these Agencies and their Personnel for their own crimes and endeavor to use these hirelings and volunteers as scapegoats.

The repetitive nature of the fraud schemes and the premeditated acts of legislation put in place in support of the unlawful activities of these Corporations belie any possibility that they are innocent in these matters. The chronic deceit of their Agencies and Agency Personnel via the falsification of registrations and production of phony Personal Dossiers as well as their failure to educate and fully disclose their operations to these employees, and failure to properly direct the activities of their subcontractors, all stand against them and offer additional direct evidence that these Municipal and British Crown Corporations have fraudulently and in self-interest acted as governments without being governments, have usurped upon their Employers in Breach of Trust, and have promoted an unlawful course of violence that has cost millions of lives and trillions of dollars in property losses and fraudulent charges assessed against their Employers as bloated non-consensual service fees, interest on non-existent debts, duplication of effort, undermining of their Employers in trade negotiations, sale of Employer's property under False Representation, evasion of their self-asserted obligations under the federal constitutions, substitution schemes, abuse of the law to create unnatural Maritime and Admiralty jurisdictions on the land, creation of Legal Presumptions in the interests of constructive fraud, use of undeclared Foreign Agents to create undisclosed registration and enrollment paperwork serving to mischaracterize, misidentify, and misrepresent millions of Americans, using these

aforementioned activities to create undisclosed public trusts, and still more unlawful, illegal, and immoral activity systematically plundering the resulting public trusts as Executors de Son Tort.

The British Territorial Crown Corporations acting as federal military Subcontractors, continue to use secretly conscripted physicians as undeclared Uniformed Officers, i.e., "Medical Doctors", as undeclared Operatives, and deploys them to obtain undisclosed Registration contracts from new Mothers. This paperwork promoted and collected by these undeclared Foreign Agents, grants the British Crown Corporation an ownership interest in the baby, an ownership interest in the baby's name, and allows them to additionally mischaracterize the baby as a "citizen of the United States", liable for all debts of the colluding Municipal Corporation Subcontractor.

This paperwork scam is to promote a False Narrative, that our Mothers voluntarily surrendered us to the British Monarch's Agent on a battlefield, that they acted as Unwed Mothers, that they also willingly misidentified us as "citizens of the United States" and knowingly acted as Informants against us, as we were babies in our cradles.

This is, of course, nothing but gross fraud and Breach of Trust by public employees, promoted without the knowledge or consensual agreement of the victims; the Mothers were given no disclosure about the paperwork or the results it would have, and the babies were far too young to have any knowledge at all.

This same exact undisclosed use of doctors as conscripted Uniformed Officers subject to licensure and deployed as undeclared Agents of the offending British Crown Corporations housed in the District of Columbia and elsewhere, plays a part in the current and ongoing genocide campaign, where doctors and patients alike are misinformed and encouraged to voluntarily accept the injection of foreign and unknown substances fraudulently promoted as "vaccines" to protect against a novel infectious disease that was developed and patented by the same British Crown and Municipal Corporations that are responsible for all the rest of this.

After the fact we find out that these injections were not vaccines according to the standard definition, were not tested by the manufacturers at all or failed to pass safety tests ---and were released anyway, that these "vaccinations" contained all sorts of harmful substances including foreign mRNA designed to alter the human genome and render the recipients Genetically Modified Organisms (GMOs) ---and therefore, chattel property owned by the guilty patent holders, as well as deadly poisons, biological parasites, graphene oxide, polyethylene glycol, self-assembling nanobot antennas, foreign blood clotting factors, and exotic biologic disease agents, like genetically altered freshwater hydra parasites and the eggs of a sheep heart worm native to the Middle East.

This entire cocktail of crud was shoved directly into the bloodstreams of billions of innocent people by these unaccountable British Crown and Municipal Corporations and their undeclared Agents, the licensed medical professionals and their Glee Club of dishonest and unethical University professors, all of whom were threatened with the loss of their licenses (Medical

Doctors), grants (Universities) --- at the same time, seduced to go along with this genocide atrocity by generous monetary awards for themselves and for their institutions.

The manufacturers of these shots, thinking that they could not be held accountable for product liability, went along with all this unlawful, illegal, and grossly immoral scheme to make money, and their CEO's are now pointing at the DEFENSE DEPARTMENT, INC., and DOD, INC., and the PENTAGON, INC., as the ones who ordered all these hideous experimental components to be included in the phony "vaccines".

So-called "excess deaths" are skyrocketing to the tune of a quarter million extra deaths every month in this country alone.

We wish for all of these Municipal Corporations and all of their British Crown affiliates, franchises, subsidiaries, and partners in crime, to be liquidated in favor of the living people who have been murdered and injured, lied to, lied about, misrepresented, disserved, and defrauded --and in favor of their lawful national governments.

We wish for the long history of pernicious and destructive unlawful activity promoted by these two colluding groups of Municipal and British Crown Corporations, plus their misdirected franchises and agencies, to come to a permanent end via liquidation or forfeiture in favor of their Preferential Creditors, including the lawful governments of their respective nations.
