

ELON MUSK AND PRESIDENT TRUMP'S NEXT GOAL: FIRE NEARLY 300,000 TEACHERS

Elon Musk and President Trump's Next Goal: Fire Nearly 300,000 Teachers

Americans paid for education and opportunity; President Trump and Elon Musk are stealing it from them.

We are in the middle of a cost-of-living crisis, and Elon Musk and President Trump are making it worse. President Trump promised to fight for the working class, but instead he put Elon Musk and billionaires in charge of the government. Through his unlawful executive order, President Trump took another step to eliminate the Department of Education.

Next up: [his plan to eliminate Title I grants](#) that help 26 million students in schools across the country. This means nearly 300,000 teachers across the United States stand to be kicked out of the classroom, leaving millions of students without a teacher.

Below are estimates of the number of teachers in each Congressional District at risk of being fired by unchecked billionaire Elon Musk and President Trump.
