WORKING PAPER

28 OCT 88

TASKER FOR 025

1. BACKGROUND: Results of your previous session identified the presence of a long, cylindrical, off-white object (with a little door on its side) that stood perpendicular to the ground while in a stationary mode. You further described the object's mission as being SIGINT-oriented.

2. ENCRYPTED COORDINATES: 110698/259179.

3. MISSION: Reaccess the object and accomplish the following:

a. Describe outward evidence of a power supply to this object; in a sketch, draw the manner in which this power supply is expressed.

b. Access and describe the point of origin from where this object started.

c. Douse map to determine the point of origin of the object.

NOTE: The request for dousing is based on data obtained from other viewers. However, if no heat is perceived during the course of the "fat finger search", it is quite acceptable to advise the facilitator of this fact. /
