S.S. ACTIONS REQUIRED:

1. EVALUATIONS

- complete all cps, UTIC assessments, other...
- — assess relevance, significance, implications, reliability, qualities...
- Set of procedures to facilitate future evaluations
- Develop rationale for ops status, CIM status, etc.
- Refine evaluation methodologies, procedures.
- ident. future needs.

2. OPERATIONAL TASK INTERFACE:

- Activate IC task coord/review group on regular basis
- Increase internal DIA involvement (select mems, struct needs, etc. how)
- Develop comprehensive set of cps, UTIC assess, other. (ods etc.).
-

3. TECHNICAL ISSUES / TECHNICAL INTERFACE:

- INCORP. world-wide research findings, esp. SRI..., or appropriate/possible.
- Maintain strong real-time link with SRI/SGRD R/D...
 - Joint projects (dist effort, other)
- Review Tech reports...
- Report Tech (cps?) limitations
- ident(?) key variables (from ops data, from R/D...)
- eval. the Targeting issue (what/who is being assessed? How to improve contact)
 - env?

3. TECH ISSUES / INTERFACE, CTD?

- Really clear def. of expectations, qualifications. What % rel. can be expected, why? Use of MSS, etc.

4.

Protect / PROGRAM ISSUES:

- Screen / select at DIA, elsewhere (rev. cautious procedure... steps... interface with SR "Test")
- How to? Rev. Plan Procedure -
- Identify candidate people
- Questionnaire...
- Interview...
- Really meaningful "Test" / screening Target (tests / procedures)
- Really overall protocol, procedure (review, improve)
- Really clear definition of "needs" (what should S.S. try to achieve, accept as targets...?)
- Staffing issues
 - keep eye open for pot. difficulties
 - anal. group balance
 - teamwork with prev. members..
 - Really new possibilities..
 - mental requirements

50 DEVELOP NEW CAPABILITIES

- in conj with STR /SGRP (??)
- CANDIDATE TASKS/PROJECTS
 - SEARCH (Refine) -- ANALYTICS? / SCALING? / ?
 - PRE-COG.!
 - R.A.(?)
 - T/F value: (no, for disruption,)
