| <b>Subtotal General Provisions</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                             |                   |                                                      |          |                                                |                      |                                                           | <b>-1,534</b>     |
| <b>TOTAL FINANCING - FY 2024 PROGRAM</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                             | <b>15,775,381</b> |                                                      |          |                                                | <b>1,338,122</b>     |                                                           | <b>17,113,503</b> |
| <b>Footnotes:</b> <p>1 / One of the congressional reports specifically provided funds for this item using the phrases "only for" or "only to," or the item appears in one of the project level tables. Congressional prior approval is required before decreasing funds on this program.</p> <p>2 / This effort was specifically reduced by one or more of the congressional committees. Below Threshold Reprogramming (BTR) authority cannot be used to restore specific congressional reductions.</p> <p>4 / This item is a congressional add specified in the title III and IV project level tables and is restricted from reprogramming during FY 2024 unless it is for proper execution per sec. 8006(c).</p> <p>5 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Agile manufacturing for advanced armament systems, for execution from 0607131A (Weapons and Munitions Product Improvement Programs) to 0605805A (Munitions Standardization, Effectiveness and Safety). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>6 / This item reflects an adjustment to realign a congressionally modified item, Program increase - AltNav capability, for execution from 0604120A (Assured Positioning, Navigation and Timing (PNT)) to 0603639A (Tank and Medium Caliber Ammunition) for \$7M and 0604201A (Aircraft Avionics) for \$8M. The adjustment does not change the purpose for which the funds were appropriated.</p> <p>7 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Armaments technology for unmanned systems, for execution from 0602141A (Lethality Technology) to 0602145A (Next Generation Combat Vehicle Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>8 / This item reflects an adjustment to realign a congressionally modified item, Program increase - C-UAS for 5G-enabled drones, for execution from 0603462A (Next Generation Combat Vehicle Advanced Technology) to 0603466A (Air and Missile Defense Advanced Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>9 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Convergent manufacturing for microfactories, for execution from 0602144A (Ground Technology) to 0602141A (Lethality Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>10 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Counter-UAS silent passive radar system, for execution from 0603119A (Ground Advanced Technology) to 0603466A (Air and Missile Defense Advanced Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>11 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Cyber Autonomy Range, for execution from 0601103A (University Research Initiatives) to 0602150A (Air and Missile Defense Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> |                                                             |                   |                                                      |          |                                                |                      |                                                           |                   |

                             |
| <p>12 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Detection of unexploded ordnance technology, for execution from 0602146A (Network C3I Technology) to 0602150A (Air and Missile Defense Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>13 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Hybrid ammunition manufacturing for next-generation squad weapons, for execution from 0607131A (Weapons and Munitions Product Improvement Programs) to 0604802A (Weapons and Munitions - Eng Dev). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>14 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Metal forging innovation, for execution from 0602144A (Ground Technology) to 0708045A (End Item Industrial Preparedness Activities). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>15 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Multi-factor authentication for cyber security, for execution from 0605041A (Defensive CYBER Tool Development) to 0604818A (Army Tactical Command &amp; Control Hardware &amp; Software). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>16 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Multi-mode proximity airburst for counter-UAS, for execution from 0603639A (Tank and Medium Caliber Ammunition) to 0604802A (Weapons and Munitions - Eng Dev). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>17 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Multi-static radar system, for execution from 0602146A (Network C3I Technology) to 0602148A (Future Verticle Lift Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>18 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Radio frequency photonic systems, for execution from 0603462A (Next Generation Combat Vehicle Advanced Technology) to 0603464A (Long Range Precision Fires Advanced Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>19 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Soldier Touchpoint Center, for execution from 0601103A (University Research Initiatives) to 0602150A (Air and Missile Defense Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>20 / This item reflects an adjustment to realign a congressionally modified item, Program increase - Threat detection for 5G-enabled drones, for execution from 0603462A (Next Generation Combat Vehicle Advanced Technology) to 0603466A (Air and Missile Defense Advanced Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>21 / This item reflects an adjustment to realign a congressionally modified item, Program increase - digital engineering for tungsten carbide ammunition, for execution from 0607131A (Weapons and Munitions Product Improvement Programs) to 0604802A (Weapons and Munitions - Eng Dev). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>22 / This item reflects an adjustment to realign a congressionally modified item, Program increase - high bandwidth cryptomodule, for execution from 0603457A (C3I Cyber Advanced Development) to 0603463A (Network C3I Advanced Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>23 / This item reflects an adjustment to realign a congressionally modified item, Program increase - lightweight ammunition manufacturing resilience, for execution from 0604802A (Weapons and Munitions - Eng Dev) to 0607131A (Weapons and Munitions Product Improvement Programs). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>24 / This item reflects an adjustment to realign a congressionally modified item, Program increase - low-cost counter-drone EW force protection, for execution from 0602146A (Network C3I Technology) to 0602148A (Future Verticle Lift Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>25 / This item reflects an adjustment to realign a congressionally modified item, Program increase - predictive maintenance system, for execution from 0603462A (Next Generation Combat Vehicle Advanced Technology) to 0603463A (Network C3I Advanced Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>26 / This item reflects an adjustment to realign a congressionally modified item, Program increase - robotic operating system, for execution from 0602148A (Future Verticle Lift Technology) to 0602144A (Ground Technology). The adjustment does not change the purpose for which the funds were appropriated.</p> <p>For Research, Development, Test, and Evaluation, the Below Threshold Reprogramming limitation is \$15 million or 20%, whichever is less, for each budget line item.</p> |  |                                                             |             |                                                      |             |                                                |             |                                                           |
