As news emerges that FBI agents have uncovered a **child sex ring** connected to the Clinton Foundation, internet sleuths have discovered evidence of pedophile "code words" being used in emails from John Podesta **released by WikiLeaks**.

Numerous emails from the Chairman of Hillary Clinton's presidential campaign incongruously refer to food items such as pasta, cheese pizza, ice cream – which **4chan users say** is a code language used by child sex ring participants:

For anyone who hasn't been paying attention, the elite are heavily into pedophilia and

satanism because these are ways for them to (1) prove they are sociopathic enough to be trusted with great crimes, and (2) prove that they can trust each other, despite being sociopaths. They all have the dirt on each other. (4) Satanic ritual abuse is used to create controllable split personalities, like in the Manchurian Candidate. (5) Lucius needs his Loosh.

I consider ice cream, its purchase, and its consumption a rather serious business. We can't just willy-nilly toss it out and about in casual references, especially linked with the word "free".

Lo and behold, instead of pasta and wonderful sauces, it was a lovely, tempting assortment of cheeses, Yummy. I am awaiting the return of my children and grandchildren from their holiday travels so that we can demolish them.

Hi John, The realtor found a handkerchief (I think it has a map that seems pizza-related. Is it yours? They can send it if you want. I know you're busy, so feel free not to respond if it's not yours or you don't want it.
