Date Task Received : 17 NOV 92

Session Date

Start Time : 1450 Stop Time : 1515

Method Used : CRV Aids/Distractions (PIs) : Spaced out

Pre-session Hunches (AVs): Image of stranded vessel

Date Summary Returned : 17 NOV 92

EVALUATION DATA:

Viewer's Estimate Evaluator's Estimate

SESSION SUMMARY:

SG1A

will move between the AM of 3 DEC 92 and the PM of 5 DEC 92. I still perceive the destination to be the airport south of CHICO, WA.

SG1A

There will be both radio and visual communication when the is due west of POINT GRENVILLE, which is north of GRAYS HARBOR and the city of ABERDEEN, WA.

There is the concept of an enclosed body of water reminiscent of a lagoon or pond associated with the vessel. The water is almost black and I can see the reflection of a building with a square tower on the surface.

Perceived an U/I object during Stage I (see diagram below).

Transparent. duel funt 96.60789ROPF001980006-7 Siberglass.
