

P1B, I, 42, 1

## Office Memorandum • UNITED STATES GOVERNMENT

TO : File

DATE: 30 January 1951

A FROM : \_\_\_\_\_

SUBJECT: "Side Tone Delay"

1. Reference is made to previous conferences in which \$34,000 for research in connection with the "Side Tone Delay" and other related items was approved by representatives of \_\_\_\_\_; I & SO \_\_\_\_\_; OSI \_\_\_\_\_ etc.

2. On 29 January 1952, 2:00 PM, another conference was held in the office of \_\_\_\_\_ which was attended by \_\_\_\_\_ representing I & SO; \_\_\_\_\_ acting as co-ordinator; \_\_\_\_\_ representing \_\_\_\_\_; and \_\_\_\_\_ representing Budget. The reason for the conference was to establish the fact that Budget had approved and was willing to advance the \$34,000 and to allow \_\_\_\_\_ and those interested to prepare to attend a conference with representatives and other interested parties in connection with the "Side Tone Delay" device and other instruments to be developed by \_\_\_\_\_ and his associates.

3. It was agreed among all present that the proposed conference, which is to take place on Monday, 4 February 1952 at \_\_\_\_\_, would consider what \_\_\_\_\_ and his associates were capable of doing and the object of this Agency would be to have \_\_\_\_\_ come up with a device or mock-up that would act as a "Side Tone Delay", but would have no attachments to the person of the subject. \_\_\_\_\_ stated that he would not want \_\_\_\_\_ to merely come up with a paper or series of items that could be done but wanted \_\_\_\_\_ to come up with a device capable of performing along the lines set out above.

4. It was agreed that at the conference set for 4 February 1952 that \_\_\_\_\_ would attend and represent I & SO.
