POWER

When we understand this is how it works,
and not the other way around,
we'll have found the beginning
of a solution to our problems.

Magna Carta & Common Law

- 1213 King John sold England to the papacy!
- 1215 The City of London Corporation became recognised as a sovereign entity.
- 1215 Signed by King John (under duress), making him subject to the rule of Law. It also documented the rights of free men. Free men to be judged by their peers. It was essentially a statement of Common Law. It did **NOT** create Common Law. Has its origins in thousands of years of history, the bible and case law.

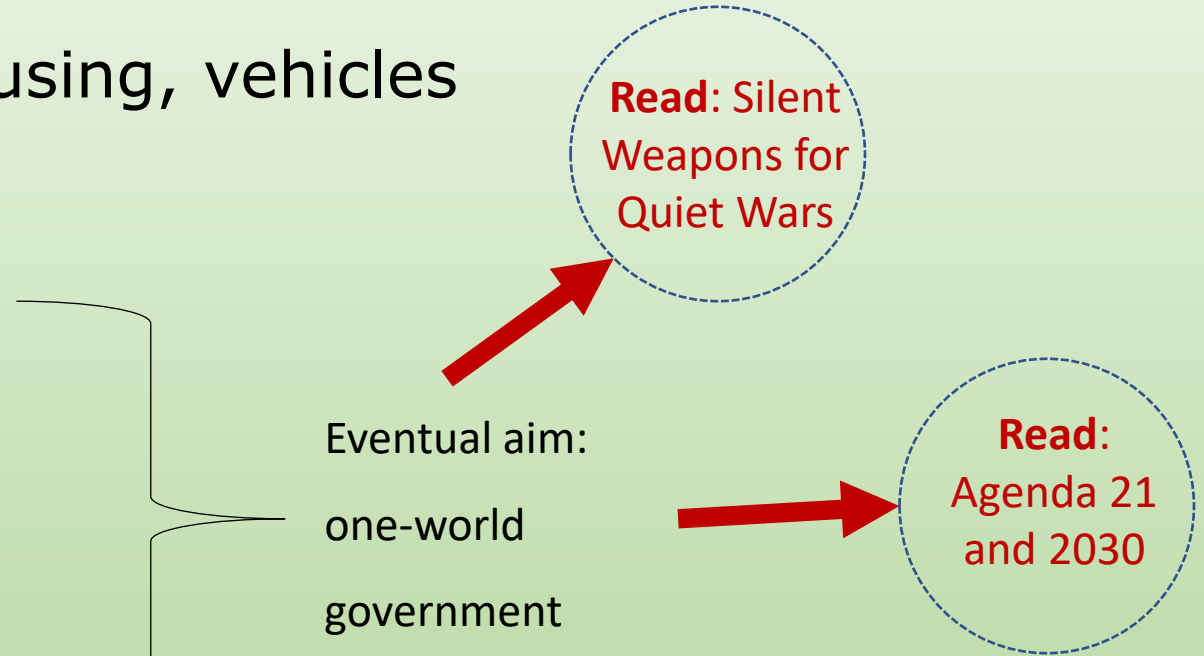

In 1302

Pope Boniface
proclaimed himself as 'King of the World'
and that all land was Crown Land
– this was the beginning of our slavery.

Soon, the poorest 99% will...

- Own nothing – no land, housing, vehicles
- Have zero control over
 - **Their lives**
 - **Their body**
 - **Their data**
 - **Their children**
 - **Their education ...?**
 - **Their work ...?**

How did the 99% lose so much?

- By deception
- By the use of fraudulent contracts
- By using statutory (maritime, admiralty) law against us
- These 1% control most of the worlds media.

Note: Statutory 'law' does **NOT** apply to sovereign, free men and women.

You are the Common Law Courts!

Common Law Courts **ARE** the highest courts in the land, second only to the jurisdiction of the Creator. In Lawful Jurisdiction, they stand **above** all commercial statutory (admiralty or maritime) 'courts'.

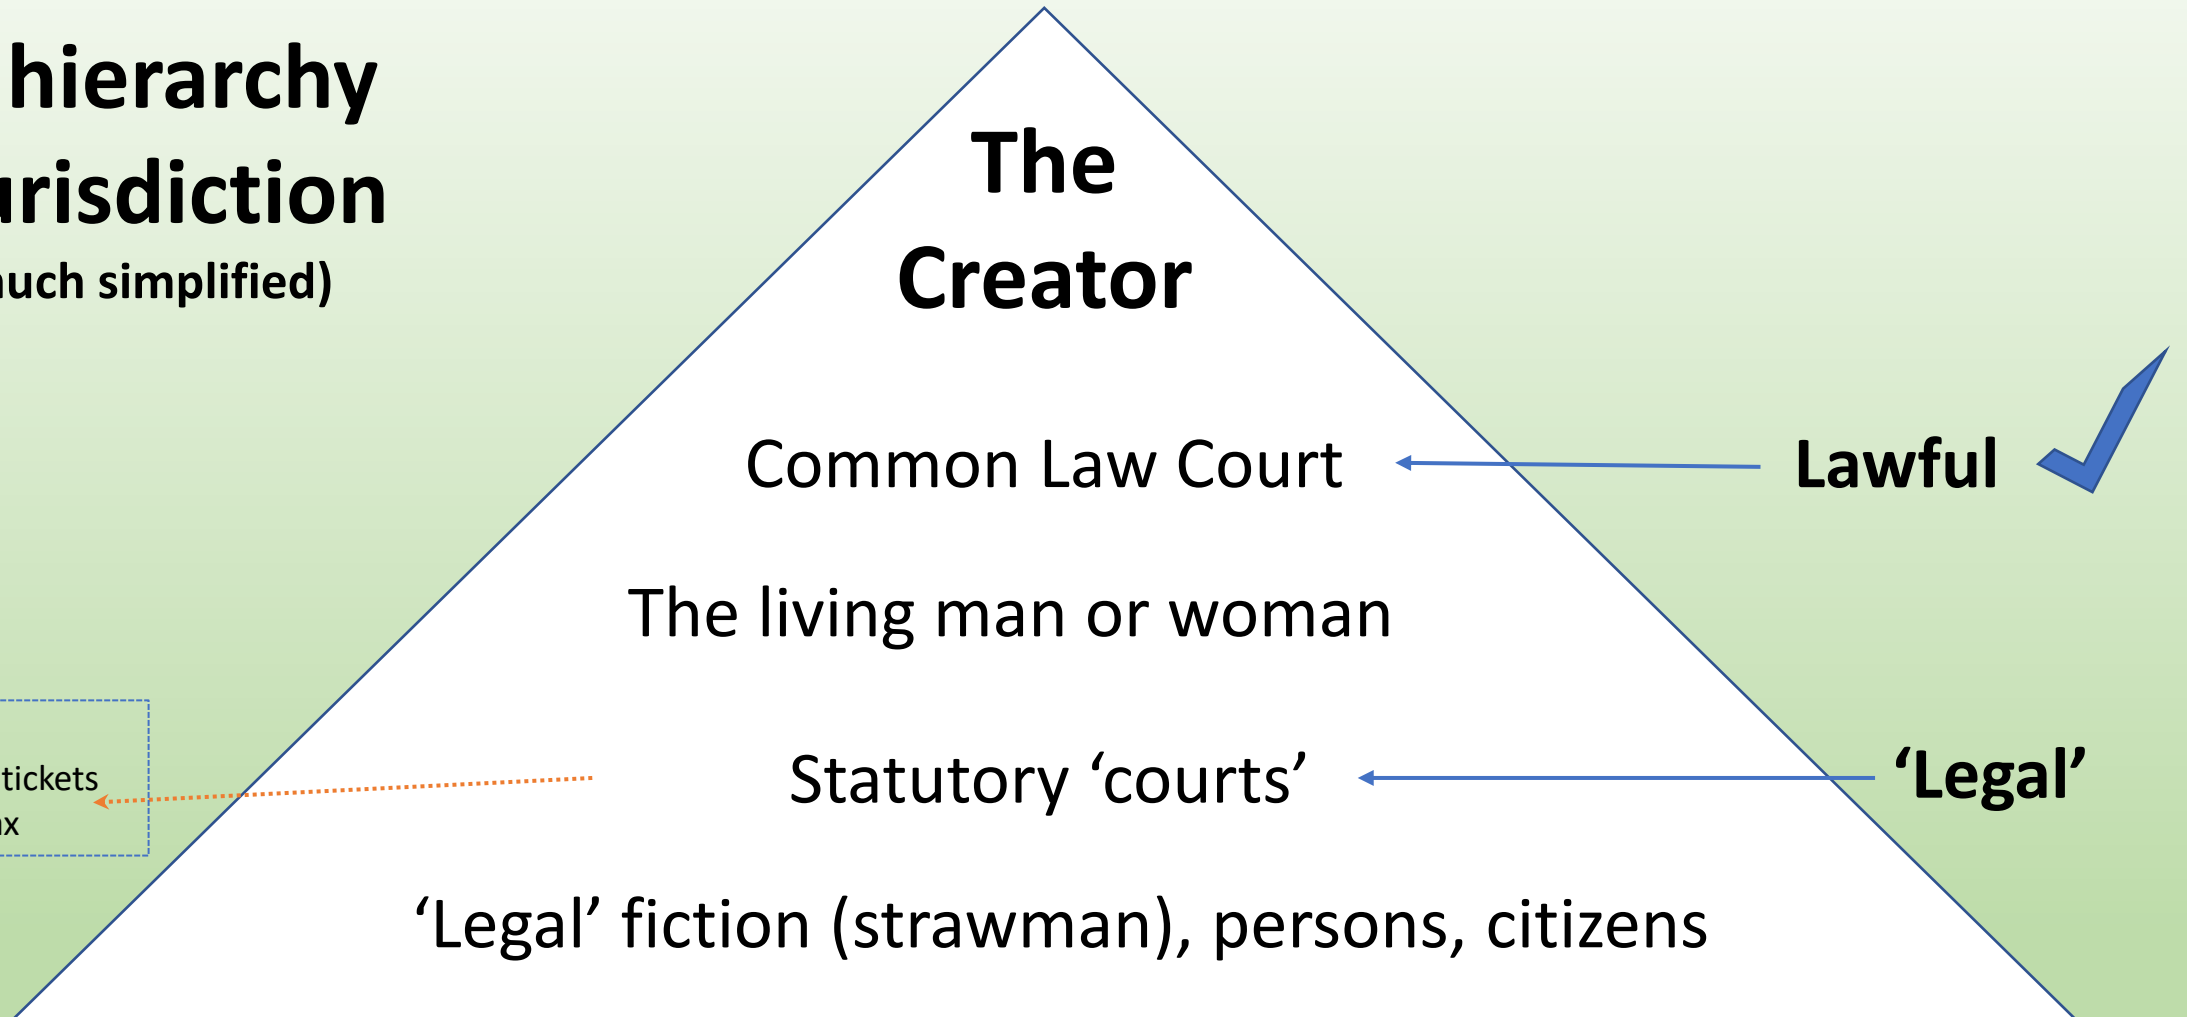

YOU have the right to use Common Law and the Common Law Courts today, and **YOU** can use them to great benefit once **YOU** know how.

I/We aim to teach you how.

The hierarchy of jurisdiction

(very much simplified)

What is a Legal Fiction?

- A dead entity that the authorities use to 'con' you into believing you owe money, or to give away your property – Your land, your car, your kids, your freedoms and rights
- Registrations, taxes, fines, fees, etc
- You are NOT your legal fiction
- Once you take ownership and withdraw your consent, they cannot use it

More on Jurisdiction

The right of a court to hear a particular case, based on the scope of its authority over the type of case and the parties to the case.

Common law – Based on case law. Outcome of previous court cases.

Statutory (admiralty/maritime) 'law' – Based on statutes, acts, codes & regulations – created or adapted by the 'legal' profession.

...is not really Law!

Common Law

(very briefly summarised)

1. Cause no harm or loss
2. Be honourable in all your dealings
3. Maintain the peace

Common Law is based on the outcome of **cases**, rather than on rules and regulations that have been written down for guidance, i.e. statutes

In Common Law Court we aim to use lawful remedies that are recognised in the courts.

Legal and Lawful

Lawful – pertains to **Common Law**. Valid for everyone. i.e. murder is unlawful, theft is unlawful (in every jurisdiction). **LAWS**

'Legal' – pertains to statutory jurisdiction only. For example, it is a 'legal' requirement to pay your income tax, however, it is **NOT** a Lawful one. There is no income tax under Common Law. **STATUTES, ACTS, CODES & REGULATIONS**

Joinder – What is it?

- The term joinder means ‘to create a contract with you’, i.e. the police attempt to gain joinder.
- If you admit to being **MR JOE BLOGGS** and you admit that you were 6 mph over the speed limit; you have just agreed to a contract with the police. (Even though this is not an offense under Common Law).

Consent?

Statutes, acts and codes are **NOT** laws

In fact, to refer to a statute, act or code as law

is **fraud** by misrepresentation

and malfeasance in a public office.

A statute is, a legislative rule which is given

the force of law by **CONSENT**

Unalienable rights

Unalienable rights are the inherent, sovereign, natural rights that existed long before the creation of the State. These can never be taken away, diminished, altered, or levied by the State, except by due process or law. Nor can any unalienable right be fundamentally removed or waived by contract, whether by non disclosure, which is fraud and unenforceable in law, or knowingly by sufferance, which is contrary to the spirit of the law and prejudicial to sovereignty.

These rights apply to:

Every living being

Everywhere on the

earth

Your unalienable rights:

1. The right to life, freedom, health and the pursuit of happiness. For example:

- 5G, universal WiFi exposure
- Mandatory vaccinations, ID chips
- Lockdown and isolation
- Social distancing
- Slavery
- False flag attacks – 911, London bridge,

All these are /
were
detrimental to
those rights

2. The right to contract, or not to contract, which is unlimited

All government 'contracts' are unlawful

- Signed up at birth by our parents! (Unlawful conversion)
- Without our knowledge
- Without informed consent
- Often involve criminal coercion
- Hotel California – 'You can never leave!' (Oh, yes you can!)

Not addressed to the living woman, addressed to the dead legal fiction

3. The right to earn a living income by being compensated with wages or a salary in fair exchange for one's work

- Lockdown = no wages
- No wages = enforced poverty, more compliant population and more willing to accept additional 'social' controls, i.e. we might let you go back to work if you are 'good' / 'wear your mask',
 -'have your vaccinations and ID chips'
 -'no access to banking without ID chips'
 -Complete social control (as in China) & social credit scoring

- Criminal coercion likely to be used so we can again travel freely, e.g. mandatory vaccinations, ID chip or no driving license, no international travel
- More excuses to get all our data.

- Under Covid-19 legislation, you can be removed from your house, have your kids removed, put into isolation, treatment can be forced on you

- ? ID chip tracking

6. The right to own and hold property, lawfully and without trespass

- Not for much longer – See UN Agenda 21 and 2030
- Now the police don't need an excuse to come on your property if you have been branded a 'terrorist' or have 'Covid-19'

All our treasonous governments signed up to this!

7. The right to self-defence when threatened with harm, loss or deceit

- Unfortunately this no longer appears to apply if the assailant is the government or a large financial, pharmaceutical or technology corporation

8. The right to due process of law, with notice and an opportunity to defend yourself

- In statutory courts all the other players are on the same team and it is set up so you will lose. You will not get justice.

9. The right to be presumed innocent, suffering no detention or arrest, no search or seizure, without reasonable cause

10. The right to remain silent when accused, to avoid self-incrimination

11.The right to equity in the eyes of the law, and to
equal representation

12.The right to trial by jury, by an impartial panel of
one's peers

13.The right to appeal against conviction or sentence or
both

12. The right to peaceful assembly, expression, and protest

- Numbers now intentionally limited
- 2 metres distance designed to stop conversations & for tracking
- Protests often quashed by use of force

15.The right to expose knowledge necessary to one's rights and freedoms

16.The right to practice a religion, and to have beliefs, of ones choosing

17.The right to love, and to consensual marriage and to then have children/a family

18.The right to security from abuse, persecution, tyranny,
and war

19.The right to refuse to kill under command, by reason of
conscience

20.The right to live in peace and be left alone when law
abiding

Nuremberg Code

6. Minimize risk of subjects
7. Proper preparations and facilities to protect subjects
8. Experiments conducted only by qualified persons ?
9. Subjects can withdraw at anytime
10. Terminate experiment if results are known or with best judgement

Do these pass the
Nuremberg Code of
ethics test?

Covid-19 measures

**Where did Bill Gates
get his medical
qualifications?**

We are all Declared DEAD!

- 1665 – The Great Plague
- 1666 – The Fire of London (Probably started deliberately to clear out the slums)

During the fire of London, all men and women were declared “dead” and were transferred to maritime jurisdiction! (Maritime or statutory jurisdiction can only deal with the dead). They were given 7 years to claim “living” status again or would stay subject to maritime law - ongoing. The true beginnings of taxation...

How is the Legal Fiction (Strawman) created?

- Parents are told they **MUST REGIS**-ter their child's birth.
- They are told 'It is the "law".' They are threatened with prison if they do not comply.
- Why? The government wishes to keep track of its commodities.
- The birth certificate **IS** your strawman. It is a legal representation of YOU.
- Birth certificates are traded as bonds on the stock markets.

Recap – what is a Legal Fiction?

- A dead entity that the authorities use to 'con' you into believing you owe money or to give away your land, your car, your kids, your freedoms and rights
- It is used as coercion for registrations, taxes, fines, fees, etc
- You are NOT your legal fiction

Once you take ownership, and you withdraw your consent they cannot use it.

130 years ago, you didn't need permission to:

Travel

Own a property

Build a home

Hunt

Cut hair

Sell food

Etc.

Go fishing

Start a business

Get married

Own a weapon

Sell a product

Protest

If you still think you are FREE, you're deluding yourself.

You are just a free-range living being on a tax farm.

And you are a commodity to be extorted – for every penny you have, and until your last breath!
